 Note: N/A denotes not available due to suppression. Employment share is obtained by dividing the number of employment in this industry by total employment in Alberta.

For more information on employment numbers or for a historical comparison, please go to [Labour Force Statistics](#) or [Statistics Canada](#).

## 2. Industry Growth

- The Utilities industry accounted for 1.1% of total employment in Alberta in 2020, a 0.1 percentage point decline from 2019.
- Employment in this industry is expected to increase at an average rate of 1.2% from 2020 to 2023.<sup>2</sup>
- The industry is expected to account for 1.0% of total employment in Alberta in 2021.
- The above projections were completed prior to the economic decline associated with the COVID-19 pandemic and therefore may not capture labour market conditions in the short term. However, the projections are expected to reflect long-term expectations of employment trends.

\*Percentages may not add up to 100 due to rounding

Note: Statistics Canada's survey methodology for determining establishment size differs from the one it uses in the Labour Force Survey to determine total employment. As a result, the total number of employees by establishment size will not be the same as total employment in the industry, except by coincidence.
