Purpose	Activity	Definition	Disposition Type	Additional Options		File Number for Consultation (FNC)	Landscape Analysis Tool (LAT) Report Required	Land Standing Report Required	Application Plan Requirements	Final Plan Requirements	Survey Type Monuments	Notes
				Approval	Authorizations							
Access	Access Right of Way	An access Right-of-Way (ROW) granted in special scenarios by the Department with the intent that an easement will be registered at Land Titles in accordance with the conditions outlined in the easement disposition issued.	EZE	No	No	PA	Yes	Yes	Sketch	Survey	1	Easements and Right-of-Ways are usually registered on the certificate of title to the property. They remain with the land and are automatically transferred from one owner to another as the land is sold. Easements remain on title until the easement holder discharges their rights from the certificate of title.
Access	Agriculture	The use of an existing or construction of a minimal disturbance trail which may be used in suitable ground conditions for rangeland or agriculture purposes with a maximum Right-of-Way (ROW) width of 8m. This purpose does not apply to commercial, industrial, or recreational purposes.	DLO	No	Yes	PA	Yes	Yes	Sketch	Sketch	N/A	
Access	Class I - All Weather	An access road designed for all weather travel with a Right-of-Way (ROW) width less than 40m in width.	DLO	No	No	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	3/4	
Access	Class II - All Weather or Dry	An access road designed with a 20-30m Right-of-Way (ROW) width for dry or all-weather access.	DLO	No	No	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	3/4	
Access	Class III - All Weather or Dry	An access road designed for all weather use with a Right-of-Way (ROW) width up to 15m with allowances for variable ROW up to 20m on no more than 35% of the route length.	DLO	No	No	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	3/4	
Access	Class IV - Frozen/Dry Conditions	An access road designed for temporary or seasonal use to be used in frozen or dry conditions only with a Right-of-Way (ROW) width up to 15m. The ROW width may be up to 20m in width for no more than 20% of the route length.	DLO	No	No	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	3/4	

Application fees do not apply to transactions initiated by the Government of Canada, the Government of Alberta, a municipality or an organization as defined by the *Rural Utilities Act* in Alberta.

				Approval	Authorizations							
Access Permit	Recreational	A permit issued where the person wishes to enter on and occupy vacant public land or a trail on vacant public land for a recreational purpose. A recreational purpose can be issued when required under section 32(2) and 33(2) of PLAR.	N/A	No	Yes	N/A	N/A	N/A	N/A	N/A	N/A	
Aerial Access	Airstrip	A linear facility with a developed airstrip (or runway) used for the purpose of fixed-wing and/or rotary wing transportation.	DLO	No	No	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	1/4	
Aerial Access	Airstrip/Heliport Facilities	Associated facilities such as a hangar, or maintenance shed which is directly related to the operation of an airstrip or heliport.	DML	No	No	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	1/4	
Aerial Access	Heliport	A facility with a developed landing area used for the purpose of rotary wing transportation to support commercial or industrial operations other than tourism.	DLO	No	Yes	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	1/4	
Aggregate Land Review Request		An Aggregate Land Review Request is a request that triggers AEP to initiate a land review on public land to determine if the land is suitable to be allocated for an aggregate (sand and gravel) operation. It will also determine the method of allocation, whether it is by the tender process, public pit process, or under and over 80 acre process. The request only gives exclusive right to review the lands for the purpose of sand and gravel only until the review is complete. The request also does not guarantee a surface material authorization or disposition will be issued. It will only indicate the method of allocation if a surface	ALR	No	No	N/A	Yes	Yes	Sketch	N/A	N/A	The following activity types are applicable to an ALR: Gravel, Sand, Sand and Gravel, Sand and Gravel in Peril, Silica Sand.

NOTE: While in most cases the final plan requirement will be a Sketch there may be occasions where a Survey or Hybrid Cadastre plan may be required.

Application fees do not apply to transactions initiated by the Government of Canada, the Government of Alberta, a municipality or an organization as defined by the *Rural Utilities Act* in Alberta.

All applications submitted to the Department that require a plan to be processed are subject to non-refundable Digital Mapping Fee of \$125 or a Digital Amended Mapping Fee of \$50.

All application and amendment fees are non-refundable.

**Issued to a non-profit organization or society, incorporated under the Societies Act or a municipality (including municipal corporations) or an improvement district.

*** Improvement Districts are exempt for Utilities, Public Works or Recreational purposes under a Miscellaneous Lease or a Tourism and Commercial Recreation Lease.

Tourism and Commercial Development (M/NP)	Recreational Campground	Recreational camping that is temporary and does not include either long-term residency of a site (greater than 6 months in a given year), or the construction of private improvements, or fixed roof accommodations other than an office structure with an employee residence.	TCL	No	No	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	1/4	
Tourism and Commercial Development (M/NP)	Shooting Range	A range for the purpose of shooting firearms.	TCL	No	No	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	1/4	
Tourism and Commercial Development (M/NP)	Ski Resort	A commercially developed area that support a variety of ski-related activities with lodging and hosting facilities designed to provide services and programs to visitors.	TCL	No	No	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	1/4	
Tourism and Commercial Development (M/NP)	Trails Area	A recreation area open to the public with a developed trail network, which may include significant trail infrastructure and improvements marking the trails particularly suited to certain recreational uses. The disposition area may include a day use shelter, but does not include overnight lodging (e.g., Mountain Bike Park).	TCL	No	No	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	1/4	
Tourism and Commercial Development (M/NP)	Viewpoint	An area intended for day use where facilities are developed to enhance the ability of use of a site as a viewpoint, lookout or site of interest. A viewpoint is associated with a travel route such as a trail or roadway.	TCL	No	Yes	PA	Yes	Yes	Sketch	Survey / Hybrid Cadastre	1/4	

Application fees do not apply to transactions initiated by the Government of Canada, the Government of Alberta, a municipality or an organization as defined by the *Rural Utilities Act* in Alberta.

All applications submitted to the Department that require a plan to be processed are subject to non-refundable Digital Mapping Fee of \$125 or a Digital Amended Mapping Fee of \$50.

All application and amendment fees are non-refundable.

**Issued to a non-profit organization or society, incorporated under the Societies Act or a municipality (including municipal corporations) or an improvement district.

*** Improvement Districts are exempt for Utilities, Public Works or Recreational purposes under a Miscellaneous Lease or a Tourism and Commercial Recreation Lease.

Table A1 Legend (as listed from left to right)	
Purpose	Identifies the primary use of the disposition. The purpose has a direct link to the approval standards or conditions for the proper management of the disposition.
Activity	Identifies the allowable activities under a purpose and provides a greater level of detail. Where an activity is left blank, then the purpose sufficiently describes the disposition and no further activity information is required.
Definition	Explains the use of a purpose and activity. These definitions are to be adhered to by applicants and the department in the management of public land dispositions. These definitions have been aligned with legislation and other agency definitions [e.g., the Alberta Energy Regulator (AER)].
Disposition Type	Identifies the Disposition acronym that is applicable to this Purpose/Activity.
Additional Options (TFA) – Approval/Authorization	<p>Indicates if an Approval or Authorization can be issued using that specific purpose.</p> <ul style="list-style-type: none"> Landscape Analysis Tool – is not required for an application of an Authorization or an Approval, however, if the Authorization or Approval is requested for an activity to initiate construction prior to the issuance of a Formal Disposition, the regulatory body may make request for the submission of a LAT report as a basis for conditions of the Authorization or Approval. Land Standing Report – is not required for an application of an Authorization or an Approval, however, the applicant should consider generating a Land Standing Report to ensure conflicts are not encountered at time of application. The regulatory body holds the right and may request the applicant to generate a Land Standing Report prior to issuance.
File Number for Consultation	<p>Indicates the level of consultation required for a purpose/activity.</p> <ul style="list-style-type: none"> PA - Pre-Consultation Assessment Decision – A decision has been issued regarding whether or not consultation is required. If consultation is required, the decision will also identify the level of consultation and the First Nation(s) and/or Metis Settlement(s) to consult. AD – Adequacy Assessment Decision – A decision has been issued indicating that the consultation is adequate and thus complete. AA – Assessment at Time of Application – The regulatory body will assess if consultation is required in relation to an Approval or Authorization (only applies to TFAs) at time of application.
Landscape Analysis Tool (LAT) Report	A report which advises what environmental and wildlife exists on the land in the area an applicant wishes to make an application.
Land Standing	A report which advises what else is on the land base in the area an applicant wishes to make an application.
Application Plan Requirements	<p>The acceptable plan type, as identified in this document submitted as part of the new disposition application. Pending technical and administrative review, this is the plan type acceptable for the disposition to be issued to allow the disposition holder permission for site entry. Requirements outlining the plan standards can be found at the following link:</p> <ul style="list-style-type: none"> Survey / Sketch Plans <p>NOTE: SML's will require a Survey / Hybrid Cadastre plan prior to the disposition being issued.</p>

Application fees do not apply to transactions initiated by the Government of Canada, the Government of Alberta, a municipality or an organization as defined by the *Rural Utilities Act* in Alberta.

All applications submitted to the Department that require a plan to be processed are subject to non-refundable Digital Mapping Fee of \$125 or a Digital Amended Mapping Fee of \$50.

All application and amendment fees are non-refundable.

**Issued to a non-profit organization or society, incorporated under the Societies Act or a municipality (including municipal corporations) or an improvement district.

*** Improvement Districts are exempt for Utilities, Public Works or Recreational purposes under a Miscellaneous Lease or a Tourism and Commercial Recreation Lease.

Table A1 Legend (as listed from left to right)	
Final Plan Requirements	<p>The acceptable plan type, as identified in this document that is required by the regulator to be on file once the disposition has been entered and a Site Entry number created. Requirements outlining the plan standards can be found at the following link:</p> <ul style="list-style-type: none"> Survey / Sketch Plans <p>NOTE: In situations where a Sketch is an acceptable Final Plan submission, the type or location of an activity may warrant the need for a higher class of plan upon the request of the regulatory body. In these cases, the applicant will be notified of this requirement.</p>
Survey Type Monuments	<p>The type of survey monument to be placed as identified in this document. Indicators identified below are related to number references within the Table.</p> <ul style="list-style-type: none"> 1 = 90cm Statutory Iron Post and Marker Post 2 = 30cm Iron Spike, 30cm Iron Bar, no Marker Post 3 = No Monument 4 = Governing Coordinate (Hybrid Cadastre Survey Plan)
Notes	Additional information that pertains to the activity/purpose.

Table A1 Legend (additional information)	
(M/NP)	Municipalities or non-profit organizations, indicates which purpose/activity should be used for these entities.
N/A (Not Applicable)	<p>N/A means this information is not required for your application. Activities that reference N/A do not go through the Electronic Disposition System (EDS).</p> <p>NOTE: FNC may be required for an Approval or Authorization.</p>

Application fees do not apply to transactions initiated by the Government of Canada, the Government of Alberta, a municipality or an organization as defined by the *Rural Utilities Act* in Alberta.

All applications submitted to the Department that require a plan to be processed are subject to non-refundable Digital Mapping Fee of \$125 or a Digital Amended Mapping Fee of \$50.

All application and amendment fees are non-refundable.

**Issued to a non-profit organization or society, incorporated under the Societies Act or a municipality (including municipal corporations) or an improvement district.

*** Improvement Districts are exempt for Utilities, Public Works or Recreational purposes under a Miscellaneous Lease or a Tourism and Commercial Recreation Lease.

System Tracking References Summary			
Type	Title	Classification	Description
CTR	Commercial Trail Riding Permit	Formal Disposition	Permit issued to authorize use of land for recreational horseback riding trips of varying duration. Normally issued for a one-year term but may be issued for a term of five years, if the applicant has conducted trail riding operations in a manner satisfactory to the director, during the preceding three years. Unlike other permits, a CTR is considered a formal disposition in PLAR and can be renewed, assigned, mortgaged, transferred or reinstated, but cannot be sublet. CTRs are classified as a formal disposition because of the high degree of due diligence required for issuance and they provide significant rights and obligations for CTR holders, but it does not give the holder exclusive rights to the land, as the area under a CTR is considered a vacant disposition area under PLAR.
CUP	Cultivation Permit	Formal Disposition	This is a short-term disposition, issued for a one-year term to allow cropping on Crown land that is already under cultivation. No new clearing or breaking on the land is allowed. The normal term is one year unless the holder wants to summer-fallow the land in which case a two – year term is authorized. Currently it is considered to be a formal disposition in PLAR.
DLO	Department Licence of Occupation	Formal Disposition	Grants the right to occupy public land for an approved purpose. Area under a DLO is considered vacant disposition area (unless the area is a closed road under section 54.01 of the <i>Public Lands Act</i>). DLOs may be renewed, assigned, mortgaged, transferred or reinstated (if the requirements are met) but cannot be sublet.
DML	Department Miscellaneous Lease	Formal Disposition	Issued for various industrial, commercial, and recreational purposes that require the lessee to hold tenure and exclusive use of the land. DMLs may be issued for a term of up to 25 years. DMLs may be renewed, assigned, mortgaged, transferred, sublet, and reinstated.
DMS	Department Mineral Surface Lease	Formal Disposition	Grants, to mineral producers, the exclusive surface rights for the recovery and production of minerals. May be issued for a term of 25 years and may be renewed, assigned, mortgaged, transferred, sublet, or reinstated.
DPI	Department Pipeline Installation Lease	Formal Disposition	Grants to mineral producers, the exclusive surface rights for pipeline installations. The area can be located outside the Right-of-Way [which is held under a pipeline agreement (DPL)]. A DPI is issued for a term not exceeding 25 years and may be renewed, assigned, mortgaged, transferred, sublet or reinstated.
DPL	Department Pipeline Agreement	Formal Disposition	A right of way agreement for the purpose of installing a pipeline or flow line. Issued for an indefinite time period. The area under a DPL is considered vacant disposition area under PLAR.
EZE	Easement	Formal Disposition	A right of access across Crown land, usually for the installation of utilities. Power line Right-of-Ways, often used to service well sites or other facilities and usually held by a power company, is an example of this type of disposition. The disposition is issued for a 25-year term. This is a formal disposition in PLAR, but the area under the easement is considered to be vacant disposition area.
FDL	Farm Development Lease	Formal Disposition	Issued for land that is suitable for the purposes of agricultural development, including cultivation, haying and grazing. Although the primary use of the land is for cultivation, grazing on the area not suitable for cultivation is allowed. Normally issued for a 10-year term.
FGL	Grazing Licence	Formal Disposition	Is issued for livestock grazing (mostly) on forested lands, but also some in the settled areas. This disposition grants exclusive rights to pasture livestock on the land (exclusive right applies only to grazing on the licensed land). The maximum term is 10 years. FGLs may be renewed, assigned, mortgaged, transferred or reinstated (if requirements are met) but cannot be sublet.
GRL	Grazing Lease	Formal Disposition	Issued to authorize the grazing of livestock (defined in the Act), normally granted on public land where grazing is considered to be the best long-term use of the land. The leases can be issued for a term not exceeding 20 years (usually issued for ten years), although grazing leases issued in a heritage rangeland may be issued for a term not exceeding 30 years. In some instances, grazing of bison is allowed by approval attached to the GRL. Leaseholders have exclusive right to the use of the land for grazing purposes.
GRP	Grazing Permit	Authorization	Issued on an annual basis for exclusive grazing of livestock on a parcel of Crown land. This is a temporary disposition that cannot be assigned, sublet, mortgaged, transferred or reinstated but can be renewed.
HTG	Head Tax Permit (Green Area)	Authorization	Issued for the grazing of livestock on public land in the Green Area.
HTP	Head Tax Permit	Authorization	Issued on an annual basis to authorize grazing of livestock on public land. There are no other rights with respect to the land given to the holder of the Head Tax Permit. A common use of these permits is to authorize patrons on Provincial Grazing Reserves to graze their share of the reserve. It is a short-term disposition that cannot be assigned, sublet, mortgaged, transferred or reinstated. While PLAR allows for renewal of authorizations, these permits are not renewed in practice and are re-issued annually.

Application fees do not apply to transactions initiated by the Government of Canada, the Government of Alberta, a municipality or an organization as defined by the *Rural Utilities Act* in Alberta.

All applications submitted to the Department that require a plan to be processed are subject to non-refundable Digital Mapping Fee of \$125 or a Digital Amended Mapping Fee of \$50.

All application and amendment fees are non-refundable.

**Issued to a non-profit organization or society, incorporated under the Societies Act or a municipality (including municipal corporations) or an improvement district.

*** Improvement Districts are exempt for Utilities, Public Works or Recreational purposes under a Miscellaneous Lease or a Tourism and Commercial Recreation Lease.

Classification: Public

System Tracking References Summary			
Type	Title	Classification	Description
HTW	Head Tax Permit (White Area)	Authorization	Issued for the grazing of livestock on public land in the White Area.
LRR	Land Review Request		The process to evaluate if land is suitable for sale or agricultural purposes.
MME	Metallic and Industrial Mineral Exploration	Approval	Metallic and industrial mineral exploration programs are utilized to find and evaluate mineral deposits and industrial rock formations to determine if they are feasible for mining. They are issued as an approval under the <i>Mines and Minerals Act</i> and the Metallic and Industrial Minerals Exploration Regulation. All approvals generally expire one year after issuance.
PPL	Public Pit Licence	Authorization	A short-term disposition granted to individuals and companies for removal of surface materials. Maximum term is one year. This disposition cannot be assigned, sublet, mortgaged, transferred or reinstated.
GRR	Provincial Grazing Reserve	Reservation	Mainly issued for grazing on public land, but they can also offer a variety of recreational activities which can include hunting, hiking, and trail riding.
REC	Recreational Lease	Formal Disposition	Issued for a variety of public recreation uses, for example camping, hunting/fishing lodges, and ski hills/facilities. Recreational leases may be issued to municipalities or agricultural societies that are incorporated under the <i>Agricultural Societies Act</i> or other incorporated societies. These leases are for the purpose of community based recreational and cultural programs and services that are available to the general public. To ensure that the recreational lease agreement meets the policy guidelines, a clause will be added to all recreational lease agreements stating that public access (Policy Directive GEN 87/2) is a central and consistent feature of the intent and purpose of the lease.
REA	Rural Electrification Association Easement	Formal Disposition	A type of an easement, used for a power line right of way and is authorized, without charge, to rural electrification associations as defined in the <i>Rural Utilities Act</i> , for an indefinite term.
ROE	Right of Entry	Order	When an operator as defined in the <i>Surface Rights Act</i> cannot obtain consent from an occupant as defined in the Act to enter a parcel of public land, or if an agreement concerning compensation cannot be reached between the operator and the occupant, either party may apply to the Surface Rights Board for a Right of Entry (ROE) or a compensation order. If an ROE is granted, the right of entry establishes the terms and conditions of access to the parcel.
SMC	Surface Materials Licence	Authorization	Granted for the removal of surface materials, where the applicant will be removing the material in a short period of time (1 year maximum). It is a short-term disposition that cannot be assigned, sublet, mortgaged, transferred or reinstated. An SMC cannot be renewed but a new licence may be issued upon expiry (if appropriate).
SME	Surface Material Exploration Licence	Authorization	An authority granted for up to 180 days to explore public land for surface materials.
SML	Surface Materials Lease	Formal Disposition	For the purpose of extracting surface materials, (e.g., gravel, sand, clay, etc.). Leases may be issued for a term of 25 years. Lessees are required to pay royalties on surface materials extracted, in addition to the rent on the land.
TCL	Tourism and Commercial Recreation Lease	Formal Disposition	Issued for a variety of public recreation uses (e.g., camping, hunting, golfing, etc.). Tourism and commercial recreation means accommodation or activities, or services ancillary to the accommodation and activities, that <ul style="list-style-type: none"> a. are provided or arranged, in exchange for payment, to members of the public for their pleasure or leisure, and b. are intended to produce an economic benefit.
VCE	Vegetative Control	Formal Disposition	An area where vegetation has been removed, partially removed, or modified in any way for various purposes and may be associated to a Formal Disposition in which the vegetation control is required.
	Wild Rice Operation	Authorization	Issued on Crown owned beds and shores of water bodies for the purpose of growing wild rice. Issued for one year and may be renewed for five years.

Application fees do not apply to transactions initiated by the Government of Canada, the Government of Alberta, a municipality or an organization as defined by the *Rural Utilities Act* in Alberta.

All applications submitted to the Department that require a plan to be processed are subject to non-refundable Digital Mapping Fee of \$125 or a Digital Amended Mapping Fee of \$50.

All application and amendment fees are non-refundable.

**Issued to a non-profit organization or society, incorporated under the Societies Act or a municipality (including municipal corporations) or an improvement district.

*** Improvement Districts are exempt for Utilities, Public Works or Recreational purposes under a Miscellaneous Lease or a Tourism and Commercial Recreation Lease.
