Institution Related Notes:

1. The institutional changes of Red Deer Polytechnic (formerly Red Deer College) in 2021-22 and Northwestern Polytechnic (formerly Grande Prairie Regional College) in 2022-23 caused these institutions to move from the Comprehensive Community Colleges sector into the Polytechnic Institutions sector. To enable longitudinal reporting, they have been reported with their new names in the Polytechnic sector for all years in this table.

2. A number of institutions updated their fiscal reporting year which required changes to the LERS reporting period moving from a July-June to a May-April reporting year. To account for longitudinal reporting, the transition year re-reported the spring session enrolments from the prior year, so the year of the change would continue to have a 12 month reporting period. Mount Royal University, Northern Alberta Institute of Technology, and Southern Alberta Institute of Technology made this transition in the 2021-22 LERS reporting year, while Lakeland College and Northwestern Polytechnic transitioned in the 2022-23 LERS reporting year.

3. In 2021-22 and 2022-23, Portage College includes enrolments related to private partnership agreements. The inclusion of these enrolments result in significant increases in both FLE and learners reported in these years. With the college teaching out these programs, it is expected that these enrolments will decline over the next year.

Notes:

- Program Completions include Completions in Certificate, Degree and Diploma programs only.

 * Students completing their final instructional portion in their apprenticeship program are included in the values above, as the Journeyman Program Type is a Certificate credential.

- The data in these tables describe completions in provincially-approved credential programming at publicly-funded post-secondary institutions in Alberta. The Banff Centre does not offer standardized approved programming and therefore enrolments at The Banff Centre are not included in these datasets.
