

Tourism Works for Alberta

2012

The Economic Impact of Tourism in the Alberta Central Tourism Region 2012

Overview:

- Direct visitor spending by all tourists (resident and non-resident) in central Alberta was approximately **\$1.09** billion in 2012.
- This spending resulted in a net economic impact (value-added) of approximately **\$1.19** billion province-wide.
- A total of **14,858** full-time equivalent jobs were sustained province-wide in 2012 as a result of visitor expenditures in central Alberta.
- Approximately **\$476** million in total tax revenue accrued to all three levels of government in 2012 as a result of tourism activity in central Alberta. This included **\$269** million to the federal government, **\$146** million to the provincial government, and **\$61** million to local governments province-wide.

What is Economic Impact Analysis?

Economic impact analysis is used to determine the impacts of additional tourist spending primarily on employment, income (value-added) and government tax revenues in an economy. It provides a snapshot of the economy at a particular point in time based on the initial spending. It is based on the premise that initial or direct impacts alone are poor measures of the total impact of tourism on the economy. It is often the case that indirect and induced impacts are just as large, if not greater, than direct impacts and frequently involve sectors and activities distantly, but importantly, connected to the initial activity.

Let's suppose a tourist travels to Alberta and spends \$100 at a gas station. In an economic impact analysis, the focus is not on the amount of sales (in this case \$100), but rather the impact of those sales on the provincial/regional economy.

If you consider:

- **Direct Impact:** The gasoline station owner must take part of the \$100 spent by the tourist and buy more gasoline from a wholesale distributor, and pay wages and taxes.
- **Indirect Impact:** In the second round, the wholesale gasoline distributor buys additional items and pays salaries/wages with part of the \$100.
- **Induced Impact:** The gasoline station employees and the employees of the wholesale distributor spend part of their salaries on groceries, rent, automobiles, and so on.

This ripple effect based on the initial amount of tourist spending circulates throughout the economy and creates a "multiplier effect". In this analysis, the objective is to estimate and analyze the ripple effect of tourism spending in each tourism region and understand tourism's vital economic contribution to every region of the province.

All economic impacts include direct, indirect, and induced effects.

Travel to the Alberta Central Tourism Region by Visitor Origin, 2012

In 2012, **7.99** million visits were made to central Alberta by residents of Alberta, other parts of Canada, visitors from the United States and other international visitors. Direct tourism expenditures by these visitors were approximately **\$1.09** billion.

	Alberta	Other Canada	United States	Other International	Total
('000s)					
Person-Visits	7,537	371	50	56	7,994
Tourism Expenditures	\$953,711	\$80,629	\$29,984	\$25,616	\$1,089,940

Domestic visitors include same-day and overnight, while international visitors include overnight visitors only.

Person-Visits, 2012

Residents of Alberta accounted for 94% of all visits to central Alberta. Visitors from other parts of Canada accounted for 5% and international visitors (United States and overseas) accounted for 1% of the visits to the region.

Direct Tourism Expenditures, 2012

Residents of Alberta accounted for 88% of direct visitor spending in central Alberta. Visitors from other parts of Canada accounted for 7%, visitors from the United States accounted for 3%, and other international visitors accounted for 2% of the direct tourism expenditures in the region.

Trip Expenditures in the Alberta Central Tourism Region by Category, 2012

Residents of Alberta ranked number one for spending in every tourism expenditure category in central Alberta. Approximately 37% of all visitor spending made by residents of Alberta in the region was on accommodation, food and beverage, while another 36% was spent on private/rental auto.

	Alberta	Other Canada	United States	Other International	Total
(\$000s)					
Public/Local Transportation	\$9,706	\$423	\$532	\$2,049	\$12,710
Private/Rental Auto	\$342,648	\$27,172	\$7,625	\$2,235	\$379,680
Accommodation, Food and Beverage	\$350,585	\$39,886	\$13,410	\$11,427	\$415,308
Recreation/Entertainment	\$64,343	\$2,341	\$5,301	\$3,061	\$75,046
Retail/Other	\$186,429	\$10,807	\$3,116	\$6,844	\$207,196
Total	\$953,711	\$80,629	\$29,984	\$25,616	\$1,089,940

Economic Impact of Tourism in the Alberta Central Tourism Region, 2012

In 2012, the net economic impact (value-added) was approximately **\$1.19** billion province-wide. A total of **14,858** full-time equivalent jobs were sustained province-wide. The total value of wages and salaries associated with tourism-related employment was over **\$711** million.

	Alberta	Other Canada	United States	Other International	Total
(\$000s)					
Initial Expenditure	\$953,711	\$80,629	\$29,984	\$25,616	\$1,089,940
Value-Added	\$1,037,663	\$88,258	\$34,482	\$28,700	\$1,189,103
Gross Output	\$2,434,095	\$205,072	\$76,615	\$63,979	\$2,779,761
Wages & Salaries	\$614,644	\$53,531	\$23,481	\$19,368	\$711,024
Taxes*	\$413,995	\$35,852	\$14,245	\$11,767	\$475,859
Employment (Full-Time Equivalent)	12,747	1,184	503	424	14,858

*Taxes accrue to all 3 levels of government (federal, provincial and local).
