

SCHEDULE 1

Water Conservation Objective

The Water Conservation Objective (WCO) on Kneehills Creek is a rate of flow that is the existing instream objective.

Water Conservation Objective (WCO) on Kneehills Creek are as follows:

Value (CUBIC METRES PER SECOND)	Value (CUBIC FEET PER SECOND)
0.283	10.0

The above Water Conservation Objective is to be met at Water Survey of Canada Gauging Station No. 05CE002 (Kneehills Creek near Drumheller).

Up-to-date water flow information is available most of the year at Alberta Environment's website:
