Camrose Management Area Map

November 2006

Water Body Class	Water Body Class Symbol	Restricted Activity Period
Class A	Red circle or Red star	- See applicable Code of Practice for specific requirements
Class C	Orange rectangle	- April 16 to June 30 *Note: special conditions apply.*
	Yellow rectangle	- April 16 to June 30
Class D	Purple rectangle	- April 16 to July 31
	None	- No Restricted Activity Period

* Special Conditions
From December 16 to April 15 in the mainstem of the Vermilion River downstream of the Vermilion Dam, and the Battle River downstream of the Town of Hardisty, in water-covered areas of the water body all excavated material shall be removed from the water and all fill and backfill material that is placed into the water body as part of the works shall be the size of coarse sand or larger.

Locations of Class A and B Water Bodies

Any person who carries out an activity governed by a Code of Practice (Code) under the Water Act, must use all of the following information to determine the Class of water body applicable to the activity location: the Code provisions and the applicable Management Area Map (the map), including the associated map legend and its tables. The table below describes the locations of Class A and B water bodies. Where water body classes appear to overlap on the map or where the water body class indicated by the map differs from the map legend and its tables, the water body class indicated in the map legend and tables will apply.

Water Body	Water Body Class	Location	Comments
North Saskatchewan River	A	Twp 58 - Rge 16 - W4 Sec 26, 29, 30	Sturgeon holes and adjacent habitat.
	A	Twp 58 - Rge 15 - W4 Sec 29, 30, 31	Sturgeon holes and adjacent habitat.
		Twp 58 - Rge 16 - W4 Sec 35, 36	
		Twp 59 - Rge 15 - W4 Sec 6	
	A	Twp 59 - Rge 16 - W4 Sec 1	Sturgeon holes and adjacent habitat.
	A	Twp 57 - Rge 13 - W4 Sec 7, 8, 10, 13, 14, 15, 16, 17, 18	Sturgeon holes and adjacent habitat.
A	Twp 55 - Rge 10 - W4 Sec 27, 28, 33, 34	Sturgeon holes and adjacent habitat.	
A	Twp 55 - Rge 9 - W4 Sec 5, 7, 8, 18	Sturgeon holes and adjacent habitat.	
A	Twp 55 - Rge 4 - W4 Sec 13	Sturgeon holes and adjacent habitat.	

This map forms part of the Code of Practice for Pipelines and Telecommunication Lines Crossing a Water Body, the Code of Practice for Watercourse Crossings and the Code of Practice for Outfall Structures on Water Bodies. This map is subject to change.

Note: The Water Body Classifications and Restricted Activity Periods on this map are only for water bodies as defined in the Water Act Codes of Practice (Codes). The Codes also outline provisions for: determining exceptions to coded water bodies, and determining the classification and Restricted Activity Periods for unmapped and uncoded water bodies. For detailed information please refer to the appropriate Code.

Wetlands, sloughs, and both fish bearing and non-fish bearing lakes are outside the scope of the Codes. Activities on these types of water bodies may require authorizations under the Water Act and, therefore, an application under the Water Act should be submitted to your nearest regional Alberta Environment office.

For additional information on the Codes and other authorizations check the Environment website at <http://www3.gov.ab.ca/env/water> or contact your nearest regional Alberta Environment office.
