White Area

This map forms part of the Code of Practice for Pipelines and Telecommunication Lines Crossing a Water Body, the Code of Practice for Watercourse Crossings and the Code of Practice for Outfall Structures on Water Bodies. This map is subject to change.

Note: The Water Body Classifications and Restricted Activity Periods on this map are only for water bodies as defined in the Water Act Codes of Practice (Codes). The Codes also outline provisions for determining exceptions to coded water bodies, and determining the classification and Restricted Activity Periods for unmapped and uncoded water bodies. For detailed information please refer to the appropriate Code.

Wetlands, sloughs, and both fish bearing and non-fish bearing lakes are outside the scope of the Codes. Activities on these types of water bodies may require authorizations under the Water Act and, therefore, an application under the Water Act should be submitted to your nearest regional Alberta Environment office.

For additional information on the Codes and other authorizations check the Environment website at <http://www3.gov.ab.ca/env/water> or contact your nearest regional Alberta Environment office.
