#### Code of Practice for Watercourse Crossings

#### Code of Practice for Outfall Structures on Water Bodies

#### Pincher Creek Management Area Map

*November 2012*

### Locations of Class A and B Water Bodies

Any person who carries out an activity governed by a Code of Practice under the Water Act, Regulations, or both, must do so in accordance with the Code provisions. For the applicable management period for each activity, the relevant Code of Practice must be followed. If the Code of Practice is not applicable or not followed, the person may be subject to enforcement measures, including fines and penalties.

#### Water Body Classifications

- **Class A**: High Risk of fish and wildlife habitat damage
  - **Use Applicable Code of Practice for Specific Requirements**

- **Class B**: Low Risk of fish and wildlife habitat damage
  - **Use Applicable Code of Practice for Specific Requirements**

#### Water Body Locations

- **Pine Creek**: Located in the Crowsnest Pass area.
- **Baker Creek**: Located in the upper Kootenay area.
- **Bridger Creek**: Located in the lower Crowsnest Pass area.
- **Barnes Creek**: Located in the central Crowsnest Pass area.
- **Bear Creek**: Located in the lower Kootenay area.

#### Comments

- **Class A**: High Risk of fish and wildlife habitat damage.
  - **Use Applicable Code of Practice for Specific Requirements**

- **Class B**: Low Risk of fish and wildlife habitat damage.
  - **Use Applicable Code of Practice for Specific Requirements**

### This map forms part of the Code of Practice for Pipelines and Telecommunication Lines Crossing a Water Body, the Code of Practice for Watercourse Crossings and the Code of Practice for Outfall Structures on Water Bodies. This map is subject to change.

Note: The Water Body Classifications and Restricted Activity Periods on this map are only for water bodies as defined in the Water Act Codes of Practice (Codes). The Codes also outline provisions for determining exceptions to coded water bodies, and determining the classification and Restricted Activity Periods for un-coded and uncoded water bodies. For detailed information please refer to the applicable Code.

Wetlands, ditches, and small fish-bearing and non-fish-bearing creeks are outside the scope of the Codes. Activities on these types of water bodies may require authorizations under the Water Act, and therefore, an application under the Water Act should be submitted to your nearest regional Alberta Environment office.

For additional information on the Codes and other authorizations check the Alberta Environment and Sustainable Resource Development website at [http://environment.alberta.ca/05320.html](http://environment.alberta.ca/05320.html) or contact your nearest regional Alberta Environment office.
