Introduction

Overview of the Field Testing Program

Description

Alberta Education prepares and administers field tests prior to the January and June diploma examination and achievement test administration sessions. Field testing is essentially a process of “testing a test” – test questions are administered to determine their difficulty level and their appropriateness for use on a test or exam. As well, teachers are able to provide comments about potential test questions, thereby contributing to the development of fair, valid, and reliable provincial tests. Although field tests are not exact replicas of achievement tests or diploma exams, students who write field tests have the opportunity for a “practice run” at writing portions of those tests.

Field tests may be composed of machine scored and/or written response questions, depending on the subject and type of field test being administered. Generally, like an achievement test or diploma examination, field tests are designed to assess outcomes from an entire program of study and to be administered at the end of its study. However, some of the field tests that Alberta Education administers, referred to as “unit” tests, assess learning outcomes from only a limited portion or section of a program of study.

All field tests are secure before, during, and after administration. Field tests are available in either paper or digital format. **Paper** format field tests are delivered to a school and administered to students by an assigned Learner Assessment field test supervisor. **Digital** format field tests are delivered and administered to students using school computers under the supervision of the teachers who requested them. Field tests of this format must be administered to students using Alberta Education’s Quest A+ locked browser application, which is available for download at: <https://questaplus.alberta.ca/help>.

Paper format field tests are administered to students in Francophone programs by field test supervisors who speak French. Every effort is made to schedule French speaking field test supervisors to administer paper format field tests to students in French Immersion programs. However, it is not always possible to do so.

Field tests are not available in braille or audio format and no writing accommodations (e.g. readers, scribes, extra time) are permitted to be used. Teachers are expected to provide alternate programming for any student who is unable to write a field test without writing accommodations.

To ensure the reliability and validity of field test administration scores and feedback, regardless of field test administration format, all field tests are administered to a prescribed number of students in classes that are selected to ensure a representative sample from across the province. Consequently, not all requests for field tests may be met.

Participation Requirements

For a class of students to be selected to have a field test administered at their school, the following conditions must be met:

1. Alberta Education must receive superintendent authorization to invite that authority's schools to participate in the Field Testing Program.
2. The principal must approve the administration of paper format and/or digital format field tests in that school.
3. The teacher must submit a request for a field test by the deadline.
4. A field test placement of the type specified by a teacher on a field test request application must be available for scheduling.

Field Test Approval, Request, and Placement Process

Field tests are requested, placed, and administered according to the following process.

1. Alberta Education seeks and receives principal approval to field test in their schools:
 - 1.1. In late July, a letter is sent by the Coordinator, GED & Field Testing, to every principal whose superintendent has authorized field testing in that school authority. This letter invites principals to consent to having their schools participate in the Field Testing Program in the upcoming school year.
 - 1.2. Principals express their willingness to have their schools participate in the Field Testing Program by submitting a *Field Test Participation Consent* form (see *General Information Bulletins, Examination Administration Forms* section). Through this expression of consent to participate, a principal authorizes Alberta Education to accept field test requests from that school and, if classes from that school are subsequently selected to write paper format field tests, to enter the school to administer them. The typed name of the school's principal serves as an electronic signature and conveys consent. On this form, principals are also given the option to approve the administration of digital format field tests using school computers. The *Field Test Participation Consent Form* is valid for the entire school year.
 - 1.3. Principals who have approved the participation of their schools in the Field Testing Program are expected to communicate that decision to their staff and to designate an individual whose responsibility it will be to work with Alberta Education to coordinate that process within the school. Contact information for the individual who is designated to coordinate field testing in that school is provided to Alberta Education on the returned *Field Test Participation Consent* form.

2. Schools submit field test requests:

- 2.1. Field test administrations are set up and scheduled based on information gathered from school personnel about students' availability to write field tests. This information is collected from schools using the *Paper Format Field Test Request Form* and/or the *Digital Format Field Test Request Form* (see Figures 2 and 3 on page 9). These forms must be completed using a **current** *Field Test Request Guide (Diploma Examinations and Achievement Testing Programs)*. All of these documents are available on Alberta Education's website at <http://www.education.alberta.ca/admin/testing/forms.aspx>.
- 2.2. Two field test sessions are run within each school year, September/January (Session 1) and February/June (Session 2). Schools must submit separate *Field Test Request Forms* for each of these field test sessions. Only schools whose students will be writing a diploma examination in a given session are eligible to apply for field tests during that session. Field tests for achievement subjects will be available prior to the June achievement test administration session.
- 2.3. To request **digital** format field tests, the teacher whose students will be writing the field tests must submit a *Digital Format Field Test Request Form*, by email, to Alberta Education.
NOTE: Only field test request forms that are **fully and accurately completed** and **received by the submission deadline** will be processed by Alberta Education (see *Significant Dates* below).
- 2.4. Requests for **paper** format field tests must be submitted to Alberta Education, by email, using the *Paper Format Field Test Request Form*. Alberta Education prefers to receive **one** paper format field test request submission per school within a given term or semester; i.e., all teacher requests for field tests should be submitted on one request form.
NOTE: Only field test request forms that are **fully and accurately completed** and **received by the submission deadline** will be processed by Alberta Education (see *Significant Dates* below).

3. Alberta Education schedules field test placements:

- 3.1. Submitted field test request forms are reviewed to ensure that they are from schools where field test participation has been approved.
- 3.2. The individual field test requests included on a request form are reviewed to determine if they match the requirements of any available field test administrations; where a match is found, a field test placement is scheduled.
- 3.3. If Alberta Education receives more requests for field tests than it has placements, future requests from those schools or classes that were not selected to participate in the current session will be selected first in the next field test session.

4. Alberta Education communicates and confirms field test placements:

- 4.1. Once the scheduling of **paper** format field test placements is complete, Alberta Education sends a follow-up letter to designated school contacts who submitted paper format field test requests on behalf of the teachers at their school. This letter communicates the status of all field test requests from that school, including details of all field test administrations that are scheduled to take place. Also included in the letter is a packet of information to be distributed to teachers whose students have been selected to write field tests in that session.
- 4.2. Prior to each scheduled **paper** format field test administration, a field test supervisor from Alberta Education will contact the teacher whose students will be writing to confirm administrative details (e.g., date, time, and location of the test administration; number of students being tested).
- 4.3. When a **digital** format field test placement is complete, Alberta Education sends a follow-up e-mail to the teacher who placed the request and who will be supervising its administration. This e-mail communicates the information the teacher requires to access and administer the digital format field test. Immediately following the field test administration, teachers who supervise a **diploma examination program** or **achievement testing program digital format field test** are required to complete a digital *Field Test Supervision Declaration* form (see Figure 1 on page 5). This form is accessed digitally through Quest A+.

The purpose of this declaration is to communicate to Alberta Education regarding the security of field testing material and its administration. Should any incidents or test anomalies occur, teachers are expected to document these on the *Field Test Supervision Declaration* form.

After receiving the *Field Test Supervision Declaration*, the “request scores” button is enabled. If the field test has been scored, the system will e-mail the teacher contact for the field test instance once the “request scores” button has been clicked. If the field test instance has not been scored yet, the system will inform the user that no scores are available. Digital format field test results **cannot be accessed** until the *Field Test Supervision Declaration* has been received by Alberta Education.

Figure 1: Field Test Supervision Declaration

Field Test Supervision Declaration

In regards to the field test that took place **Tue Feb 1 2011 08:00:00 AM**, I hereby certify that in my capacity as teacher I carried out my duties and responsibilities as defined by the directives outlined in the Achievement Testing Program and Diploma Examinations Program General Information Bulletins, 2010-2011 and Field Test Request Guide, 2010-2011 and I attest to the following:

- ✓ All digital format field test materials were administered by me and remained in my sole custody and control during the field test administration
- ✓ Only I and no other personnel at the school examined the contents of the field test
- ✓ No field test materials were copied, in whole or in part, or have been retained by myself or anyone at the school for any purpose
- ✓ Strict security of all digital format field test material was maintained before, during, and after their administration
- The field test was administered without incident or irregularities and without violation of exam rules
- The following irregularities or violations of exam rules occurred before, during, or after the administration of the field test:

Your name:

Field Test Administration Dates

In 2012-2013, Alberta Education will be administering diploma examination and achievement testing program field tests within the following timeframes:

Diploma Examination Program		
Paper Format Field Test Administration Sessions		
	Session 1	Session 2
Unit Tests:	<ul style="list-style-type: none"> • October 9–December 19 • January 7–11 	<ul style="list-style-type: none"> • March 1–June 11
Year End Field Tests:	<ul style="list-style-type: none"> • December 10–19 • January 7–11 	<ul style="list-style-type: none"> • May 21–June 11

Diploma Examination Program		
Digital Format Field Test Administration Sessions		
	Session 1	Session 2
Unit Tests:	<ul style="list-style-type: none"> • September 24–December 19 • January 7–11 	<ul style="list-style-type: none"> • February 1–June 11
Year End Field Tests:	<ul style="list-style-type: none"> • December 10–19 • January 7–11 	<ul style="list-style-type: none"> • May 21–June 11

Note: Requests for **paper** format **unit field tests** must be submitted to Alberta Education by **September 21** for Session 1 administrations and by **February 8** for Session 2 administrations; requests for **paper** format **year end field tests** must be submitted to Alberta Education by **October 5** for Session 1 administrations and by **February 22** for Session 2 administrations.

Requests for **digital** format **unit field tests** must be submitted two weeks prior to the preferred field test administration date; requests for **digital** format **year end field tests** must be submitted to Alberta Education by **November 26** for Session 1 administrations and by **May 27** for Session 2 administrations.

Requests for digital format year end field tests must be submitted to Alberta Education by **November 26** for Session 1 administrations and by **May 27** for Session 2 administrations.

No unit or year end field tests will be scheduled or administered on statutory holidays.

Achievement Testing Program	
Paper Format Field Test Administration Dates	
Unit Tests:	
Year End Field Tests:	<p>April 29–May 10</p> <ul style="list-style-type: none"> • Grades 3, 6, and 9 ELA, FLA, and Français (Part[ie] A: Writing) • K&E 9 ELA (Part A: Writing) <p>May 21–June 7</p> <ul style="list-style-type: none"> • Grade 3 FLA and Français (Partie B: Reading) • Grade 3 ELA (Part B: Reading) • Grade 3 Mathematics • Grade 6 ELA, FLA, and Français (Part[ie] B: Reading) • Grade 6 Mathematics • Grade 6 Science • Grade 6 Social Studies <p>May 21–June 14</p> <ul style="list-style-type: none"> • Grade 9 ELA, FLA, and Français (Part[ie] B: Reading) • K&E 9 ELA (Part B: Reading) • Grade 9 and K& E Mathematics • Grade 9 and K& E Science • Grade 9 and K& E Social Studies

Achievement Testing Program	
Digital Format Field Test Administration Dates	
Unit Tests:	October 9 – December 19; January 7 – June 11 <ul style="list-style-type: none"> • Grades 6 and 9 Mathematics • Science 9
Year End Field Tests:	April 29–May 10 <ul style="list-style-type: none"> • K&E 9 ELA (Part A: Writing) May 21–June 7 <ul style="list-style-type: none"> • Grade 3 ELA (Part B: Reading) • Grade 3 Mathematics • Grade 6 ELA (Part B: Reading) • Grade 6 Mathematics • Grade 6 Science • Grade 6 Social Studies May 21–June 14 <ul style="list-style-type: none"> • Grade 9 and K& E ELA (Part B: Reading) • Grade 9 and K& E Mathematics • Grade 9 and K& E Science • Grade 9 and K& E Social Studies

Note: Requests for **paper** format **unit and year end field tests** must be submitted to Alberta Education by **January 25**; requests for **digital** format **unit field tests** must be submitted to Alberta education **two weeks prior** to the preferred field test administration date; requests for **digital** format **year end** field tests must be submitted by **May 31**.

No unit or year end field tests will be scheduled or administered on statutory holidays.

Significant Dates

- | | |
|-------------------------------------|---|
| August 1, 2012-
January 25, 2013 | <p>Time period during which principals may submit a <i>Field Test Participation Consent</i> form.</p> <p>Note: <i>Paper Format</i> and <i>Digital Format Field Test Request</i> forms submitted by a school will only be processed by Learner Assessment if the principal has approved that school's participation in the Field Testing Program.</p> |
| August 31, 2012 | <p>First day participating schools may submit Session 1 <i>Paper Format</i> and <i>Digital Format Field Test Request</i> forms.</p> <p>First day participating schools may submit Session 2 <i>Paper Format</i> and <i>Digital Format Field Test Request</i> forms.</p> |
| September 21, 2012 | <p>Last day for participating schools to submit Session 1 <i>Paper Format Field Test Request</i> forms for Diploma Examination Program unit field tests.</p> <p>Note: Session 1 unit field test requests received after September 21 will not be processed.</p> |

- October 5, 2012 Last day for participating schools to submit **Session 1 Paper Format Field Test Request** forms for **Diploma Examination Program** year end field tests.
Note: Session 1 year end field test requests received after October 5 will **not** be processed.
- January 25, 2013 Last day for participating schools to submit **Session 2 Paper Format Field Test Request** forms for **Achievement Testing Program** unit and year end field tests.
Note: Session 2 Achievement Testing Program field test requests received after January 25 will **not** be processed.
- February 22, 2013 Last day for participating schools to submit **Session 2 Paper Format Field Test Request** forms for **Diploma Examination Program** field tests.
Note: Session 2 Diploma Examination Program field test requests received after February 22 will **not** be processed.

Purpose of the Field Test Request Guide

This *Field Test Request Guide* has two primary purposes. First, it provides information about how to complete and submit **Paper Format Field Test Request Forms** and **Digital Format Field Test Request Forms**. Second, it provides a menu of field test placement types that are being administered in the 2012-2013 school year. Teachers who wish to have their students participate in the field testing program must choose the type and format of field test they want their students to write by selecting from the following menus.

Alberta Education prefers to receive **one paper format field test request submission per school** in a given term or semester. However, in consultation with the Coordinator, GED and Field Testing Programs (see *Contacts* section at the end of this guide), the individual designated to coordinate field test requests within a school may establish an alternate procedure for that school.

NOTE: Only *Paper Format Field Test Request Forms* and *Digital Format Field Test Request Forms* that are **fully and accurately completed**, and **received by the submission deadline**, will be processed by Alberta Education.

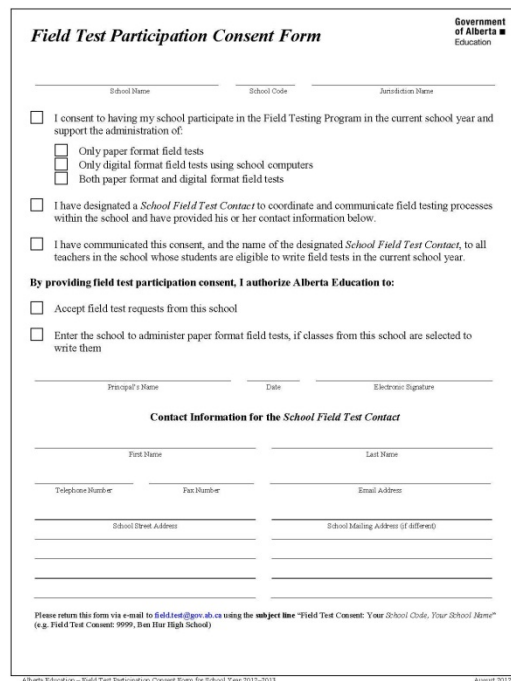

Field Test Sessions

Field test administrations are session specific (see pages 5-7 for the test administration dates associated with each session in 2012-2013). During Session 1, only schools whose students will be writing a diploma examination are eligible to apply for year end field tests. In Session 2, Achievement Testing Program and Diploma Testing Program unit and year end field tests are available. The session for which field tests are being requested should be indicated on the form by checking the appropriate session box.

Principal Consent to Participate

A principal must consent to having his or her school participate in the Field Testing Program within a school year, before Alberta Education will place field tests at that school. Principals express their consent through the submission of a *Field Test Participation Consent Form* (see Figure 4, below).

Figure 4: Field Test Participation Consent Form

The form is titled "Field Test Participation Consent Form" and is from the Government of Alberta, Education. It contains several sections for completion:

- Header: School Name, School Code, Jurisdiction Name.
- Consent Section: A main checkbox for school participation, followed by three sub-checkboxes for test formats: "Only paper format field tests", "Only digital format field tests using school computers", and "Both paper format and digital format field tests".
- Designation Section: A checkbox for designating a "School Field Test Contact" with a sub-section for providing their contact information.
- Communication Section: A checkbox for communicating the consent to eligible teachers.
- Authorization Section: A heading "By providing field test participation consent, I authorize Alberta Education to:" followed by two checkboxes: "Accept field test requests from this school" and "Enter the school to administer paper format field tests, if classes from this school are selected to write them".
- Signature Section: Lines for Principal's Name, Date, and Electronic Signature.
- Contact Information Section: A heading "Contact Information for the School Field Test Contact" followed by lines for First Name, Last Name, Telephone Number, Fax Number, Email Address, School Street Address, and School Mailing Address (if different).
- Footer: Instructions to return the form via email to fieldtest@gov.ab.ca with a specific subject line, and the date August 2012.

School personnel should confirm that their principal has approved field test participation for the current school year, before submitting a *Paper Format Field Test Request Form*. This approval should be indicated by checking the "Principal Has Approved School Participation" box on the *Paper Format Field Test Request Form*.

6. **Designated Contact Telephone Number:** This is the telephone number, area code, and extension number (if applicable) where the designated School Field Test Contact can normally be reached. This information is required, even if the form is being submitted by someone other than the School Field Test Contact.
7. **Submitter's Phone Number:** This is the telephone number, area code, and extension number (if applicable) of the individual submitting the form, if different from the designated School Field Test Contact.
8. **Designated Contact E-mail Address:** This is the school e-mail address of the designated School Field Test Contact.
9. **Submitter's E-mail address:** This is the school e-mail address of the person submitting the form, if different from the designated School Field Test Contact.

Field Tests Requested

Two types of information must be provided in the “Field Tests Requested” section of the paper format form. First, requesters must indicate which specific field test types they are requesting. Second, they must provide information about the characteristics of the class for which each requested field test is intended.

1. **Field Test Requested (Test Code):** A variety of Field Test Placement Types are offered within a field test session. Field test requesters must specify which specific field test types they are requesting. They do this by entering the six character **Test Code** number that uniquely identifies the field test type they are requesting in the Field Test Requested (Test Code) column on the *Paper Format Field Test Request Form*. A list of all field test codes available within a session, and the test characteristics of the field test associated with each code, are provided in the *Field Test Placement Types* section of this document.
2. **Preferred Field Test Date(s):** This is the date(s) the requester would prefer that the intended group of students write a requested field test. A range of dates may also be submitted for consideration. Requesters should ensure that no other activity, such as a school-based exam or field trip, has been scheduled for that time period.
Note: It is not always possible to schedule a test on the preferred date, so some scheduling flexibility may be required.
3. **Class To Be Tested (Class Name or ID):** This is a school-determined class identifier that enables the differentiation of class groupings when scheduling field test placements.
Note: Field tests must be requested separately for each class or section of a course or subject in a school that is intended to be tested, even if the same type of field test is being requested for all sections.
4. **Number of Students in Class:** This is the number of students in the class to be tested who will require paper format field test materials.
5. **Full Name of Teacher Whose Class Will Be Tested:** This is the first and last name of the teacher who is requesting a field test for the identified class of students.

- 6. **Class Start time:** This is the actual time that the class is scheduled to begin.
- 7. **Class End Time:** This is the actual time that the class is scheduled to conclude.

Directions for Completing the Digital Format Field Test Request Form

Digital Format Field Test Request Forms must be completed using a **current** version of the *Field Test Request Guide*. This document is current if it has the current school year in its title.

Field Test Sessions

Field test administrations are session specific (see pages 5-7 for the test administration dates associated with each session in 2012-2013). During Session 1, only schools whose students will be writing a diploma examination are eligible to apply for year end field tests. In Session 2, Achievement Testing Program unit and year end field tests and Diploma Testing Program unit and year end field tests are available. The session for which field tests are being requested should be indicated on the form by checking the appropriate session box.

Principal Consent to Participate

A principal must consent to having his or her school participate in the Field Testing Program within a school year, before Alberta Education will place field tests at that school. Principals express their consent through the submission of a *Field Test Participation Consent Form* (see Figure 5, below).

Figure 5: Field Test Participation Consent Form

Field Test Participation Consent Form Government of Alberta
Education

School Name School Code Jurisdiction Name

I consent to having my school participate in the Field Testing Program in the current school year and support the administration of:

Only paper format field tests
 Only digital format field tests using school computers
 Both paper format and digital format field tests

I have designated a *School Field Test Contact* to coordinate and communicate field testing processes within the school and have provided his or her contact information below.

I have communicated this consent, and the name of the designated *School Field Test Contact*, to all teachers in the school whose students are eligible to write field tests in the current school year.

By providing field test participation consent, I authorize Alberta Education to:

Accept field test requests from this school

Enter the school to administer paper format field tests, if classes from this school are selected to write them

Principal's Name Date Electronic Signature

Contact Information for the School Field Test Contact

First Name Last Name

Telephone Number Fax Number Email Address

School Street Address School Mailing Address (if different)

Please return this form via e-mail to fieldtest@gov.ab.ca using the subject line "Field Test Consent: Your School Code, Your School Name" (e.g. Field Test Consent: 9999, Elm Hill High School)

Alberta Education – Field Test Participation Consent Form for School Year 2012-2013 August 2012

School personnel should confirm that their principal has approved field test participation for the current school year, before submitting a *Digital Format Field Test Request Form*. This approval should be indicated by checking the statements attesting to principal consent and availability of students to write field tests on computers found on the *Digital Format Field Test Request Form*.

Teachers/School Information

Unless otherwise indicated, the following teacher/school related information fields should be completed on the *Digital Format Field Test Request Form* (an example of the form is shown below), if applicable.

Digital Format Field Test Request Form

Government of Alberta Education

NOTE: This form must be completed using the current *Field Test Request Guide*, which is available at: <http://education.alberta.ca/admin/testing/forms.aspx>

Field Test Session: 1 2

My principal has approved participation in the Field Testing Program

My principal has approved the administration of digital format field tests

For each field test session requested below, computers will be available for my students' exclusive use in a room that is appropriate to the administration of secure field tests

Alberta Education's Quest A+ secure browser application has been installed on each of the computers that will be used for the administration of the field test sessions requested below

Teacher/School Information:

School Name: _____ School Code: _____ School Location (City or Town Name): _____

Name of Teacher Who Will be Administering the Field Test(s): _____ Name of Designated School Field Test Contact: _____

Teacher's Phone Number: _____ Designated School Field Test Contact Phone Number: _____

Teacher's Email Address: _____ Designated School Field Test Contact Email Address: _____

Field Tests Requested:

Field Test Requested* (Test Code)	Preferred Field Test Date	Class To Be Tested (Class Name or ID #)	# of Students In Class	Class Start Time	Class Finish Time
13D999	January 7	Example 9D	25	10:20	11:20

*Field tests must be requested by Test Code. These codes are year and session specific and are provided in the *Field Test Request Guide* that is available at: <http://education.alberta.ca/admin/testing/forms.aspx>

Please return this form via e-mail to field.test@gov.ab.ca using the subject line "Digital Field Test Request: Your School Code, Your School Name" (e.g. Digital Field Test Request: 9999, Ben Hur High School).

Alberta Education – Digital Format Field Test Request Form for School Year 2012-2013 August 2012

- School Name:** Enter the full name of the school.
- School Code:** Enter the four-digit Alberta Education school code. This code may be obtained from a school’s central office staff or from Alberta Education’s website at: http://www.education.alberta.ca/ei/reports/excel_files/eis1003p.xls.
- School Location (City or Town Name):** Indicate the geographical location of the school, i.e., the city, town, or county where the school is located.
- Name of Teacher Who Will be Administering the Field Test(s):** Before the submission of the *Digital Format Field Test Request Form*, the teacher should ensure that the principal has approved participation in the Field Testing Program and has approved the administration of digital format field tests in that school.

5. **Name of Designated School Field Test Contact:** When approving their school’s participation in the Field Testing Program, a principal is expected to designate an individual whose responsibility it will be to work with Alberta Education to coordinate the field testing process within that school. *Digital Format Field Test Request Forms* are to be submitted to Alberta Education by the teacher who will be administering the field test(s).
6. **Teacher’s Phone Number:** This is the telephone number, area code, and extension number (if applicable) where the teacher administering the field tests can normally be reached during regular business hours.
7. **Designated Contact Telephone Number:** This is the telephone number, area code, and extension number (if applicable) where the designated School Field Test Contact can normally be reached. This information is required, even though the teacher is submitting the form.
8. **Teacher’s E-mail Address:** This is the school e-mail address of the teacher requesting a field test in a digital format, and who will be supervising its administration.
9. **Designated Contact E-mail Address:** This is the school e-mail address of the designated School Field Test Contact.

Field Tests Requested

Two types of information must be provided in the “Field Tests Requested” section of the digital format form. First, requesters must indicate which specific field test types they are requesting. Second, they must provide information about the characteristics of the class for which each requested field test is intended.

1. **Field Test Requested (Test Code):** A variety of *Field Test Placement Types* are offered within a field test session. Field test requesters must specify which specific field test types they are requesting. They do this by entering the six character **Test Code** number that uniquely identifies the field test type they are requesting in the Field Test Requested (Test Code) column on the *Digital Format Field Test Request Form*. A list of all field test codes available within a session, and the test characteristics of the field test associated with each code, are provided in the *Field Test Placement Types* section of this document.
2. **Preferred Field Test Date(s):** This is the date(s) the requester would prefer that the intended group of students write a requested field test. A range of dates may also be submitted for consideration. Requesters should ensure that no other activity, such as a school-based exam or field trip, has been scheduled for that time period.
Note: It is not always possible to schedule a test on the preferred date, so some scheduling flexibility may be required.
3. **Class To Be Tested (Class Name or ID):** This is a school-determined class identifier that enables the differentiation of class groupings when scheduling field test placements.
Note: Field tests must be requested separately for each class or section of a course or subject in a school that is intended to be tested, even if the same type of field test is being requested for all sections.

4. **Number of Students in Class:** This is the number of students in the class to be tested where each student will require an individual computer for their use during the field test administration.
5. **Class Start time:** This is the actual time that the class is scheduled to begin.
6. **Class End Time:** This is the actual time that the class is scheduled to conclude.

Directions for Submitting the Field Test Request Forms

Alberta Education prefers to receive **one paper format field test request submission per school** within a given term or semester; i.e., all teacher requests for field tests should be submitted on one request form. To facilitate this process, the individual designated to coordinate paper format field test requests within a school is asked to compile all of the field test requests from his or her school onto the *Paper Format Field Test Request Form* and submit the form, by e-mail, to Alberta Education.

Teachers who request digital format field tests must submit a *Digital Format Field Test Request Form* by e-mail, to Alberta Education. To facilitate this process, both the *Paper Format Field Test Request Form* and the *Digital Format Field Test Request Form* are available on Alberta Education's website at <http://www.education.alberta.ca/admin/testing/forms.aspx>.

Completed *Paper Format Field Test Request Forms* should be sent to Alberta Education, **via an e-mail message** addressed to field.test@gov.ab.ca, using the **subject line** "Paper Field Test Request: *Your School Code, Your School Name*" (e.g. Paper Field Test Request: 9999, Ben Hur High School).

Completed *Digital Format Field Test Request Forms* should be sent to Alberta Education, **via an e-mail message** addressed to field.test@gov.ab.ca, using the **subject line** "Digital Field Test Request: *Your School Code, Your School Name*" (e.g. Digital Field Test Request: 9999, Ben Hur High School).

Field Test Placement Types

Presented below is a summary of the field test placement types that are available in the 2012-2013 school year. These placement types are presented by session and testing program type (i.e., the Diploma Examinations and Achievement Testing Assessment programs), and the format of the field test (i.e., paper format vs digital format).

Field test placement types are defined by the characteristics of the test being administered. These characteristics include:

- The format in which the field test will be delivered: paper or digital
- The grade and course or subject area being tested
- The field test type: year end or unit
- The curriculum content being tested: full coverage or a single unit
- The question format type: multiple choice, numerical response, or written response
- The length of the test, defined by the amount of time examinees are given to write the field test
- The class time required to administer a field test includes the time examinees are given to write the test **and the additional time required to set up and complete the testing session**. It is imperative that schools requesting field tests take these time requirements into account when selecting which type of field test placement to request

Each field test placement type has a unique test type identifier (its “**Test Code**”). This Test Code is the six-character identifier that **must be recorded** on the *Paper Format Field Test Request Form* and/or *Digital Format Field Test Request Form* to identify each specific field test that is being requested.

Course or Grade/Subject	Field Test Format	Test Type	Curriculum Content Tested	Question Format Type	Test Length	Class Time Required	Test Code
Mathematics 6	Digital	Unit	Number	Machine Scored	60 min.	70 min.	13A101
