

Public Notice
Coal Valley Resources Inc
Robb Trend Project

Proposed Terms of Reference for Environmental Impact Assessment

In 2005, Coal Valley Resources Inc (CVRI) completed the expansion of the Coal Valley Mine and coal processing plant to 4 million clean tonnes per year. This \$125 million project doubled the coal wash plant capacity, and added additional mining equipment. This expansion created at least 150 new permanent jobs at the Coal Valley Mine. Three areas of future mining activity were identified at the time of the expansion. The “Mercoal West” and “Yellowhead Tower” have already successfully completed the required regulatory process and were approved for active mining. CVRI is now proposing to proceed with the applications required to allow mining in the last of the three areas, the “Robb Trend” area. The Robb Trend Project is located in Yellowhead County, in proximity to the community of Robb. Robb is located in Township 49, Range 21, West of the 5th Meridian.

The Director responsible for Environmental Assessment has directed that an Environmental Impact Assessment Report be prepared for the Robb Trend Project. CVRI has prepared a proposed Terms of Reference for this Environmental Impact Assessment, and through this public notice, invites the public to review this document. Any comments filed concerning the proposed Terms of Reference will be accessible to the public.

The proposed Terms of Reference and associated project information can be viewed at the following locations:

- Edson Public Library, 4726 – 8th Avenue, Edson, Alberta
- Hinton Municipal Library, 803 Switzer Drive, Hinton, Alberta
- Yellowhead County Office, 2716 1st Avenue, Edson, Alberta
- Alberta Environment’s Register of Environmental Assessment, 111 Twin Atria Bldg., 4999 – 98 Avenue, Edmonton, Alberta, Attn: Melanie Daneluk <http://environment.alberta.ca/02313.html>
