<u>Submission of Production Year 2012 Allowable Cost (AC) and</u> <u>Sulphur Corporate Average Price Calculation (VA3) Submissions</u>

Royalty clients are advised that Allowable Cost (AC1, AC2, AC3 and AC5) and Annual Corporate Average Price Calculation - Sulphur (VA3) submissions for the 2012 production year are due on the following dates:

| Form Type | Due Date | Penalty |
|-----------|----------------|--|
| AC1 | March 01, 2013 | - |
| VA3 | April 15, 2013 | \$1,000/One time only |
| AC2 | April 30, 2013 | \$100/Form/Month upon due date to a maximum of \$600 |
| AC3 | May 15, 2013 | - |
| AC5 | May 15, 2013 | \$100/Form/Month upon receipt to a maximum of \$600 |

Reminder: Operating costs must be reported with capital costs (AC2) on one submission. Details on the changes to Gas Cost Allowance are available on the Alberta Energy Internet address: www.energy.alberta.ca. From "Our Business", navigate to "Natural Gas", "Legislation, Guidelines & Policies", "Gas Royalty Information Bulletins".

Please note that all allowable cost submissions (initial and amended filings for current and prior production years) by FCC operators are required to be completed on Petrinex. Although use of Petrinex to submit AC3 and AC5 data is mandatory for operators, it remains voluntary for non-operators. However, non-operators are strongly encouraged to use Petrinex to submit and retrieve their AC3 and AC5 data. Annual allowable cost submissions are processed nightly except during an invoice run cycle. New facility cost centre set-ups are processed within four (4) hours of receipt, if received in the morning with an overnight turnaround if received in the afternoon. Processing of new facility cost centre set-ups continue during an invoice run cycle.

The business rules and submission method for VA3 submissions remain the same with notification from the department informing clients that their submissions have been processed. Sulphur Corporate Average Price submissions are processed as they are received, except during an invoice run cycle.

The Department encourages timely submissions to allow sufficient turnaround time for corrections. The font size on faxed forms must be 10 pt or greater and must not be bold. Penalties will apply where valid system acceptable submissions are not received by the filing deadline. Barring the Department's responsibility, inability to submit annual cost submissions on Petrinex and/or illegible script will not reverse a penalty once imposed. Should you have any questions or require clarification regarding these matters, please contact your Volumetric & Cost Reporting portfolio representative, as identified in Section F of this bulletin.

<u>Capital and Operating Cost Allowance Filing - Expected AC2</u> Reports on Petrinex

The Crown deducts allowances for costs incurred and paid in Alberta for compressing, gathering and processing its royalty share of gas and gas products. Annual Capital and Operating Cost Allowances are combined on the AC2-V4 with an ability to allocate these cost allowances among working interest owners and multiple delivery facilities. The Facility Cost Centre (FCC) operator, on record at year end, is responsible for filing the AC2-V4 via Petrinex.

The Expected AC2 Report identifies the FCC operator as of a specific date and is generated to aid FCC operators in verifying their status as well as effective date. In addition, it identifies whether a valid AC2 was submitted for a production year.

The Expected AC2 Report is grouped by an Energy Resources Conservation Board (ERCB) Facility and Related FCC. The report displays the following:

- Facility ID and Facility Name
- FCC ID and FCC Name
- "Y"(yes) and "N"(no) Indicators to identify whether or not the FCC is fully depreciated.
- The FCC Operator Effective Date
- "Y"(yes) and "N"(no) Indicator to determine whether or not an AC2 was submitted for the production year.
- All consolidated/amalgamated companies have been included within this report, where applicable.

The information in the report reflects the Department's records as of the file preparation date and does not reflect submissions subsequently received and/or processed. Any submissions (AC1, AC2, Invoice Consolidation Concurrence – ICC1, etc.) processed after the report date will not be shown. Please note that absence of a company name or FCC from these reports will not be an acceptable reason to waive a penalty once assessed.

The Expected AC2 Report is available in PDF, TXT and CSV formats and is generated weekly during the Gas Cost Allowance Reporting Season. Expected AC2 reports will be available on Petrinex weekly starting in February 2013 until mid-May 2013.

If you are not the operator for the FCC identified on the report, please submit a Facility Cost Centre Set-Up/Change (AC1-V2) via Petrinex identifying the change in operator and its effective date. An AC1 submission identifying an FCC change in operator is due on or before the last day of the month following the production month in which the change occurred.

Please note that FCCs that are shut-in or terminated for an entire production year will not appear on the report. Operators of fully depreciated (zero remaining useful life) FCCs remain responsible for AC2-V4 submissions. Submissions are required to ensure the Department has correctly identified Capital and Operating Cost Allowance allocations to Working Interest Owners and/or other delivery facilities as well as Custom Processing Adjustment Factors for the FCC.

AC2-V4 submissions are required to be filed on Petrinex. An AC2-V4 can be entered online or by batch. If a system acceptable AC2-V4 submission is not received and processed by the filing deadline (April 30th of the year following the production year to which it relates), a penalty will be assessed.

Please contact Service Desk, regarding access to or utilization of Petrinex at 1-800-992-1144.

Please be reminded that the deadline for filing an AC2-V4, for the production year 2012, is April 30, 2013.

<u>Custom Processing Allowance Fees Paid – Expected AC5 Reports on Petrinex</u>

Royalty clients that have incurred and paid for compressing, gathering and/or processing gas and gas products on a fee-for service basis, in Alberta, are required to submit an

AC5-V4 to the department by May 15th of the year following the production year to which it relates. This includes custom processing fees associated with freehold, purchased, and out-of-province volumes. The Expected AC5 Report provides a complete list of the Energy Resources Conservation Board (ERCB) facilities and related Facility Cost Centres (FCCs) where the operator has allocated custom user volumes to the royalty client in Parts 6 and 10 (Custom Processing Adjustment Factor) of a Capital & Operating Cost Allowance AC2-V4 submission.

This report is generated to aid royalty clients in identifying the ERCB facilities and FCCs that require the royalty client to file an AC5-V4. The information in the report identifies the department's records as of the file preparation date and does not reflect submissions subsequently received and/or processed.

The Expected AC5 Report is grouped by ERCB Facility and related FCC. The report displays the following:

FCC ID, FCC Name & FCC Type

Operator ID and Name allocating custom user volumes Allocated Custom Processing (CP) volumes in 103m3

In addition, as of the report generation date, there are "Y" (yes) and "N" (no) indicators for the previous and current production years that identify whether: the Department has received a valid AC5 submission for the royalty client and, whether the ERCB facility has been reported on the AC5 submission.

If a system acceptable AC5-V4 submission is not received and processed by its filing deadline (May 15th of the year following the production year to which it relates), it is subject to penalty charges upon receipt. Please note that the absence of a company name or an FCC from these reports will not be an acceptable reason for a waiver of penalty.

The Expected Custom Processing Fees Paid (AC5) report is available in PDF, TXT and CSV formats. Expected AC5 report will be available on Petrinex weekly starting the second week of February 2013 until the last week of May 2013.

Operators of FCCs must utilize Petrinex to retrieve the report. Non operators and other royalty clients that currently submit and receive hard documents will continue to receive the Expected AC5 report by mail. Electronic filers are required to submit their Allowable Cost forms via Petrinex.

If you have any questions, please contact your Volumetric & Cost Reporting portfolio representative, as identified in <u>Section F</u> of this bulletin.

Contact Service Desk regarding access to or utilization of Petrinex. To contact Service Desk, call: 1-800-992-1144.

Please be reminded that the deadline for filing an AC5-V4, for the production year 2012, is May 15, 2013.

Well Event Measured Depth Determination Letter

The department has issued a "Well Event Measured Depth Determination Letter" under the Report Package DOE – Gas to facility operators via the PRA on January 1 and January 15, 2012. This letter shows the confirmed Measured Depth (MD) of each active well event that will be used to calculate the Depth Factor (DF) of the quantity component rate under the Alberta Royalty Framework formula. A well event that is not listed on the letter and does not have a confirmed MD will receive a DF of 1. When the changes to the MD are confirmed by the department, a letter is issued to a facility operator who reports changes through the PRA to well event attributes affecting MD. All changes to the MD are applied on a go forward basis only. Facility operators are advised to submit well event attribute changes by the last day of the calendar month in order for timely determination of MD.

NGDDP Confidential Wells

Wells designated as "confidential" will be reviewed prior to the removal of the "confidential" status, if the directional surveys and completion reports are provided to the department. Please send directional surveys and completion reports to GasRoyaltyPrograms@gov.ab.ca

If you have any questions, please contact Joyce Chen at 780-427-1550.

D. <u>INFRASTRUCTURE DATA CHANGES</u>

Client ID Listing

The BA Identifiers Report is a directory of Business Associate (BA) names, codes, status (e.g. struck, active, amalgamated, etc.), status effective dates, and effective August 2004, includes Working Interest Owner (WIO) role start/end dates.

This <u>report</u> is also published daily on the Petrinex website.

The Department reminds Business Associates to review their WIO role to ensure that the start and end dates are reflected correctly. If the BA does not have an active WIO role, the operators cannot allocate volumes to the BA for the relevant production periods through the SAF/OAF allocations.

- If a BA has a WIO role, then that BA can receive SAF/OAF allocations from the WIO role start date forward.
- If a BA has a WIO role with an end date, then they can only receive SAF/OAF allocations from the WIO role start date until the end date. Any SAF/OAF allocations after the end date will be rejected.
- If a BA does not have a WIO role start date, then that BA cannot receive SAF/OAF allocations.

Please contact Client Registry at 780-422-1395, if you have any questions regarding the information supplied on this listing.

Client Status Changes

Clients must ensure that all royalty documents are completed using only valid client names and IDs. It is critical that royalty clients use current legal client names and their appropriate IDs on all documents to ensure accurate royalty calculation and to prevent provisional assessment and penalties. Rejects will occur when invalid IDs are used.

If you require information regarding client names or IDs, please contact Client Registry at 780-422-1395.

Nova Tolls - Multiple Gas Reference Prices

Royalty information related to the implementation of the Factor Model negotiated with industry for determining Multiple Gas Valuation Prices is provided on the Natural Gas website's Royalty Related Information page under <u>Facility Royalty Trigger Factors and Meter Station Ties</u>.

E. REMINDERS

Statutory Requirement and Recalculation of 2008 Royalty

A production year becomes statute barred on December 31st, four years after the end of a production year. Once a year has become statute barred, calculation or recalculation of royalty does not occur on a monthly basis. Section 38 of the Mines and Minerals Act provides for recalculation of royalty that can be initiated in two ways:

- 1. On the department's initiative in conjunction with an audit or examination; or
- 2. At the request of a royalty payer.

Department Initiated Amendments

Please refer to Attachment 1 for a list of wells and facilities under the Otherwise Flared Solution Gas (OFSG) Royalty Waiver Program and a list of wells under the Deep Gas Royalty Holiday Program (DGRHP) that require the fifth (5th) year to be open for the 2008 production year. For more information, please contact Joyce Chen at 780/427-1550.

2008 Production Year Audits in Progress at the end of 2012

The 2008 production year becomes statute barred on December 31, 2012. Non-operator partners are advised that certain Enhanced Oil Recovery Schemes, CO2 Project Credit claims, Allowable Costs, Custom Processing Fees, Capital Costs, Custom Processing Adjustment Factor (CPAF), and Volumetric Reporting Discrepancy Audits are currently in progress.

It is anticipated that these audits will be completed before December 31, 2012. However, should circumstances warrant, completion of these audits will occur in 2013. A list of Facility Cost Centres affected by the custom processing adjustment factor reviews and a list of Facilities affected by outstanding AC2 and AC4 audits is included, see <u>Attachment 2</u> and <u>2a.</u>

Royalty clients are also reminded that amendments received by the Department in the fourth year following the production year may be subject to audit. If the amendments are received late in the fourth year and insufficient time is available for the Department to commence a review of the amendments prior to the end of the year, the Department reserves the right to commence the audit at the beginning of the fifth year.

If you have any questions, please contact Kris Pretty of the Compliance & Assurance Group at 403-297-8785.

Industry Recalculation of 2008 Royalty

Industry initiated royalty recalculation requests for the 2008 production year must be submitted in writing to the attention of Pat Van Meer, Manager, Volumetric & Cost Reporting, Gas Royalty Operations. This request must be received by the department on, or before, December 31, 2012 and it must include the following:

- Identification of the recalculation facility or facilities
- A list of the royalty variables proposed for recalculation
- The reason for the recalculation
- The production year of the recalculation
- An order of magnitude estimate (i.e. >\$100,000, >\$1 Million, >\$2 Million, etc.,) of the recalculation requested
- Identification of all royalty clients that may be impacted by the request (this is necessary, especially in situations where volumes may be cascaded to another client who is expected to respond to the cascade)
- Confirmation from the operator that the affected partner(s) have been notified
- A sample copy of the submission pertaining to a particular production month in paper or electronic format (e.g., excel)

If the request meets the department's terms and conditions for recalculation, it will be approved. A request made during the fourth year following the production year, must be completed before the end of the fifth year, with a reasonable time for a review by the department, prior to the end of the fifth year.

If you have any questions regarding this process, please contact your Volumetric & Cost Reporting portfolio representative, as identified in Section F of this bulletin.

Alberta Energy - Gas Royalty Operations Calendar

A <u>2013 calendar</u> is attached and provides critical filing dates that clients are required to meet with respect to Gas Royalty processing cut-off periods.

AC2 Retirement Reporting

In a review of the 2008 AC2 reporting year, the Department has noted that a significant number of retirements have been reported. In order to ensure that any asset that is retired or any Facility Cost Centre (FCC) that is retired has been correctly reported, a distinction is made between disposed, retired, terminated and out-of-service assets. The 2006 and 2009 Alberta Natural Gas Royalty Guidelines state:

Appendix N:

- "Disposed asset means an asset included in the allowable capital cost of a facility cost centre and which has been sold or otherwise disposed of."
- "Retired asset means an asset included in the allowable capital cost of a facility cost centre that has been permanently retired from service."
- "Terminated asset means an asset included in the allowable capital cost of a facility cost centre, which has been terminated and will not be returned to service.
- "Out-of-service asset, in relation to allowable capital cost, means an asset that is either shut in or abandoned."

Chapter VI, Section 3.3.1 - Capital Cost Allowance:

- "If the net book value of a disposed asset is not identifiable, the asset may be removed at a net book value estimated by a professional engineer.
- "Any remaining allowable capital cost is added to the capital cost allowance in the year in which the asset is retired or terminated."
- "The net book value of a retired or terminated asset is zero."
- "Out-of-service assets include assets that are shut-in or abandoned. These assets may be removed from the facility capital pool after one full year (12 months) of out-of-service status. These assets can be reactivated when production commences to match revenues with costs. The reinstatement value will be the net book value of the asset at the time of shut-in.

When an asset is retired, the remaining value is written off. By writing off the value of the asset, the Crown has shared in 100% of the cost of the asset. An entire FCC may be retired only if there are no volumes passing through the FCC.

Volumetric & Cost Reporting

Volumetric & Cost Reporting is structured as a Business Associate client portfolio system, which assigns a given Business Associate to one of three teams. Listed below is the portfolio breakdown along with the Volumetric & Cost Reporting Team Leads and phone numbers. The portfolios are divided by company name and not by BA ID.

Example: If your company name is the "Gas Company" you would call the

C – G team at 780-644-1202

| Business Associate | Phone Number and E-mail Address | Team Lead | |

In situations where a company has just amalgamated or purchased another company, the general rule is to call the team that is responsible for the "Supra" business associate, or Royalty payer.

Below are some guidelines for clients who are unsure which Volumetric and Cost Reporting Team to call regarding their questions.

- 1. **Amalgamation/consolidation** Call the team responsible for the "Supra" business associate (Royalty Payer).
 - i.e. ABC Oil and Gas amalgamates with Zed Exploration and Zed is the amalgamator (royalty payer). When calling Volumetric and Cost Reporting regarding business for ABC Oil and Gas, you would call Team 3 (Q-Z) (780-644-1203) because Zed Exploration is now the Supra business associate and royalty payer. This rule would apply even if you were calling regarding business that is prior to the acquisition or amalgamation.
- 2. **Asset Purchase** Call the team responsible for your company.
 - i.e. 123 Gas purchases the assets of TSP Exploration, but not the company. When calling Volumetric and Cost Reporting regarding business for 123 Gas, you would call Team 1 (# Co., A, B, & H-P) (780-644-1201) because you have only purchased assets.
- 3. **Consultants/service providers** If you have a contract to provide production accounting services to a company, call the team responsible for your client's company.
 - i.e. Paul Snow Consulting Services enters into a contract with Duckback Oil and Gas and Olive Oil and Gas. Paul Snow would contact Team 2 (C-G) (780-644-1202) to discuss Duckback Oil business and Team 1 (# Co., A, B, & H-P) (780-644-1201) to discuss Olive Oil and Gas business. At the time the contract is signed, Paul Snow would have had each company notify the appropriate team that he was authorized for their company.
