

The Bighorn Backcountry is managed to ensure protection of the environment, while allowing responsible recreation use. It is your responsibility to know what, where and when activities are permitted in the area. For additional details, refer to the Bighorn Backcountry brochure.

History of Coliseum Mountain

Coliseum Mountain was the location of the first mountain fire lookout in Alberta. In 1927, the fire lookout was constructed of lumber that was hauled by packhorses to the mountain peak.

The name of Coliseum Mountain refers to the rocky amphitheatre on its southwest aspect, a natural feature reminiscent of the coliseums of ancient Rome. The First Nations name for this peak translates to “mountain with a cap” referring to the summit knoll.

Packing lumber for construction of Coliseum Fire Lookout, 1927

All trails in the Coliseum Area are non-motorized.

Different non-motorized users may be on this trail at the same time. Some portions of this trail were developed by volunteers.

By being responsible and obeying regulations, you will be respecting the efforts that volunteers have invested in providing you with this opportunity.

Everyone has a stewardship role to play. If you see volunteers working on a trail, stop and lend a helping hand.

Some areas or sections of trail may be closed due to environmental and safety concerns. You are required to obey all posted signs and notices, and keep the area in a clean and tidy condition. Remember, continued access to this trail depends on the actions of those who use it.

No matter how you enjoy Alberta's public lands, your presence has an impact. **Stay on the designated trail at all times.**

Do not shortcut or trail braid. Shortcutting and trail braiding can result in soil erosion and deep ruts.

Geocaching – There are multiple geocache sites located within the Bighorn Backcountry. Geocaching is an outdoor treasure hunting game using GPS-enabled devices. Participants navigate to a set of GPS coordinates and then attempt to locate a geocache container hidden at that location. To find various sites visit www.geocaching.com.

Soil erosion on the left side of the trail, due to water channelling

The new Ridgeline Trail has been brought into use through the work of volunteers. To enjoy this route, connect with the trail on the north side of the highway at the ranger station then follow east to where the trail climbs steeply up the ridgeline. Short stretches are steep and rocky until you reach the top of Coliseum. Travelling across the flat mountain top, however, is very relaxing with excellent views.

Emergency Contacts

9-1-1 in case of emergency.

Cellular phone service may or may not be available in this area.

1-866-FYI-FIRE (1-866-394-3473) for fire ban information or visit www.albertafirebans.ca.

310-FIRE (310-3473) to report a wildfire. For daily fire hazard information, fire weather forecasts and fire situation reports, visit www.wildfire.alberta.ca.

1-800-642-3800 for Report-A-Poacher hunting and fishing violations.

1-800-222-6514 for Environmental Spill & Incident Reporting.
