BUSINESS PLAN 2004-07

ACCOUNTABILITY STATEMENT

The Business Plan for the three years commencing April 1, 2004 was prepared under my direction in accordance with the *Government Accountability Act* and the government's accounting policies. All of the government's policy decisions as of February 27, 2004 with material economic or fiscal implications of which I am aware have been considered in preparing the Business Plan.

The Ministry's priorities outlined in the Business Plan were developed in the context of the government's business and fiscal plans. I am committed to achieving the planned results laid out in this Business Plan.

THE MINISTRY

The Ministry of Solicitor General includes the Department of Solicitor General, the Victims of Crime Fund, the Law Enforcement Review Board, and the Criminal Injuries Review Board.

The Department of Solicitor General is comprised of six divisions/areas and includes Aboriginal Justice Initiatives Unit, Communications, Correctional Services, Human Resource Services, Public Security, and Strategic Services. Strategic Services, Aboriginal Justice Initiatives Unit and Human Resource Services also provide strategic support to the Ministry of Justice.

LINK TO THE GOVERNMENT BUSINESS PLAN

The Ministries of Solicitor General and Justice work together to administer Alberta's justice system and work with partners in policing, local government, Aboriginal and community organizations to ensure that Alberta's communities are safe places to work, live and raise families.

We share a common vision of a province where Albertans feel safe in their homes and in their communities. The Ministry works to achieve this vision through joint initiatives with community partners and through its participation in cross-ministry policy initiatives.

Effective policing, crime prevention, corrections programs and security services all contribute to safe communities. When a crime is committed, the Ministry ensures that victims are treated with dignity and respect and receive the help they need.

While the Ministry's core businesses and goals are aligned with and support a number of government goals and priorities, the Ministry plays a key role in Goal 9 of the Government of Alberta Business Plan - *Alberta will be a fair and safe place to work, live and raise families.*

VISION

Ensure Albertans have safe and secure communities in which to live, work and raise their families.

MISSION

Our mission is to serve Albertans by ensuring safe and secure communities through effective policing, security and correctional services, and when crime is committed to assist victims of crime.

SIGNIFICANT OPPORTUNITIES AND CHALLENGES

The recognition of trends, identification of new challenges, and awareness of changes in other socio-economic sectors must be considered in setting the strategic direction for the 2004-07 Solicitor General Business Plan.

DEMOGRAPHICS

Alberta is the nation's youngest and fastest growing province with over half of the population under 35 years old. As young people tend to be over-represented as both offenders and as victims of crime, a proactive approach must be adopted to sustain service delivery and ensure that resources are available to address growing demand.

In 2001, 80.9% of Alberta's population resided in urban areas. An increasing number of people moving to Alberta's cities create unique policing issues relating to resources, funding and types of crime.

CRIME AND SECURITY

Although Alberta's crime rate increased by 2.5% in 2002, the province's overall crime rate remained the lowest in Western Canada. Special challenges are presented by the use of the Internet for criminal purposes: child exploitation, including child pornography and Internet luring; and the use and production of drugs. With 24 known organized criminal networks in Alberta, organized crime requires particular attention.

Effective community-based crime prevention strategies, along with effective policing strategies, are the keys to dealing with the crime challenges facing Alberta. Provincial support will greatly enhance the ability of crime prevention and restorative justice initiatives to provide for a safe Alberta. These need to be supplemented by province-wide initiatives integrated with federal and international strategies.

Western democracies, which were once perceived as safe, are now possible targets of terrorist activity. Alberta must continue to ensure it has an effective provincial emergency crisis management plan to prepare for and mitigate the threat of terrorism. Government security services provided by Solicitor General must anticipate potential security threats, yet have minimal impact on the public. In addition, cross-border security has become an important focus of federal, state and provincial governments in relation to national security.

VICTIMS

The Ministry continues to strive to ensure victims have a more meaningful role in the criminal justice system. With 25% of Albertans indicating they had been victims at least once in the past year, the development of strategic direction for victims' programs and services is crucial for victims having access to services and having a meaningful role in the justice system.

ABORIGINAL ALBERTANS

Alberta's young and rapidly growing Aboriginal population represents approximately one-third of admissions to custody in Alberta and is significantly over-represented at all stages in the criminal justice system as both victims and offenders.

An increasing Aboriginal youth population coupled with higher levels of migration to major cities and less favorable socio-economic conditions compared to other Albertans may lead to greater involvement in organized crime and street gangs.

CUSTODY ISSUES

Changes in legislation and sentencing practices require that Solicitor General respond to new pressures, prioritizing available correctional resources and planning for future needs. Alberta continues to experience increasing numbers of adults detained in custody awaiting the outcome of criminal charges (remand).

COMMUNITY ISSUES

The Ministry is in the process of responding to the completed MLA Review of Corrections, Victims of Crime Consultation, and Policing Review. Results of the MLA Reviews will be used to further enhance the safety and security of Albertans.

Impaired driving continues to be a serious concern in Alberta. Impaired drivers are involved in a significant percentage of all fatal collisions in Alberta each year, resulting in high societal costs.

Family violence continues to be a serious problem that crosses all socio-economic boundaries. Together with other ministries, the Solicitor General has a role to play in the prevention and response to family violence and these roles need to be more coordinated to effectively address this problem.

The limitations of individuals suffering from Fetal Alcohol Spectrum Disorder and/or mental illness may increase their vulnerability to become involved with the criminal justice system. Many issues surrounding the need to manage these individuals differently have been identified, including diversion from the criminal justice system.

E-JUSTICE AND INFORMATION TECHNOLOGY

The rate of technological change continues to be rapid. A challenge is to determine how new technologies can be used for cost-effective and efficient operations in the justice system. Solicitor General will continue to monitor opportunities where technological developments can enhance and improve operations and service delivery for Albertans.

STRATEGIC PRIORITIES 2004-07

Through the Ministry's review of external and internal challenges, the strategic priorities described below have been identified. These are in addition to the important ongoing core activities of the Ministry.

CORE BUSINESSES, GOALS, STRATEGIES AND MEASURES

Core Business One: Policing and Crime Prevention

Ensuring safe communities in Alberta by ensuring adequate and effective policing and developing and promoting crime prevention programs.

GOAL ONE

1

Ensure safe communities in Alberta

What it means The Ministry oversees policing throughout the province, contracts with Canada for the RCMP to provide a provincial police service, and works with police and other agencies to develop, support or operate programs that target specific crime related issues such as the Criminal Intelligence Service Alberta, the Serious and Habitual Offenders program and Amber Alert. The Ministry works with communities and the federal government to promote locally effective crime prevention programs, including those in Aboriginal communities. As well, the Ministry works collaboratively with communities throughout Alberta in administering community justice committees, ensuring that communities themselves have an integral role in administering the justice system and addressing crime. Collectively these activities help to ensure safe communities.

Strategies

- 1.1 Implement a Policing Strategy incorporating the approved recommendations of the MLA Policing Review Committee Report that:
 - Enhances provincial leadership in policing;
 - Provides sustainable funding for policing;
 - Restructures responsibility for policing, and
 - Promotes citizen oversight of policing in Alberta.
- 1.2 Support the implementation of an Integrated Response to Organized Crime and gangs, working with law enforcement agencies and other government ministries.

- 1.3 Implement a strategy to enhance the effectiveness and efficiency of First Nations Policing in cooperation with First Nations communities and the federal government.
- 1.4 Prepare a strategy with law enforcement agencies and other government ministries to address the exploitation of children via the Internet.
- 1.5 Work in partnership with crime prevention associations and Aboriginal communities to assist in the delivery of crime prevention programs and initiatives across Alberta.
- 1.6 Reinstatement crime prevention and restorative justice program funding to support the Provincial Crime Prevention Strategy and the Community Justice Policy.
- 1.7 Further the development of the Youth Justice Committee program, involving interested communities in the administration of justice programs and encouraging local involvement in attempts to address crime, through the provision of financial grants and with the support and assistance of community probation offices.
- 1.8 Work in partnership with Children's Services to develop an integrated province-wide response to family violence.

Core Business Two: Victims Programs and Services

Ensuring victims are treated with dignity and respect and that they receive information about programs and services, assistance during the criminal justice process, and that eligible victims promptly receive financial benefits.

GOAL TWO

2 Provide services to victims and ensure that they have a more meaningful role in the criminal justice system

What it means The Ministry ensures that eligible victims of crime receive prompt financial benefits and assists community groups and organizations to establish programs and initiatives that meet the needs of victims of crime. The Financial Benefits Program assists direct victims of violent crime by providing one-time payments to victims that are based on the injuries they received. The Victims Grant Program provides grants to eligible groups and organizations that provide programs and projects that benefit victims of crime.

Strategies

- 2.1 Implement the approved recommendations of the MLA "Report of the Victims of Crime Consultation" subject to availability of funds. This will provide a ten-year vision for the development of programs and services for victims of crime and provide a framework for the achievement of that vision.

Ensuring effective and efficient security and supervision of offenders that enhances public safety while offering offenders opportunities to become law-abiding citizens.

GOAL THREE

3

Facilitate the rehabilitation of offenders

What it means The Ministry enforces court ordered custody and/or supervision orders while providing offenders with opportunities to address behaviours and issues that contribute to their offending. In this regard, the Ministry provides education programs, assistance with substance abuse issues, skills training, mental health services, spiritual support and opportunities for constructive work activity. For offenders under supervision in the community the Ministry delivers, or ensures that offenders are referred to, programs and services appropriate to their rehabilitative needs. Strategies

- 4.1 Ensure that the Ministry's correctional programs meet the needs of community and staff safety, offender rehabilitation and cost effectiveness by implementing the approved recommendations of the MLA Review of Corrections.
