THE MINISTRY

The ministry consists of the Department of Energy and the Alberta Petroleum Marketing Commission. It also includes the Energy Resources Conservation Board (ERCB) and Alberta Utilities Commission (AUC), which are provincial agencies exercising independent adjudicative functions for which the minister is responsible. The ERCB regulates the safe, responsible, and efficient development of Alberta's energy resources: oil, natural gas, oil sands, coal, and pipelines. The AUC regulates the utilities sector, natural gas and electricity markets, and is responsible for regulating the distribution and sale of electricity and natural gas to Alberta consumers.

Energy's mission is to assure sustained prosperity in the interests of Albertans through the stewardship of energy and mineral resource systems, responsible development and wise use of energy. Core businesses include managing the development of non-renewable resources; granting industry the right to explore for and develop energy and mineral resources; establishing, administering and monitoring the effectiveness of fiscal and royalty systems; promoting energy efficiency and conservation by Albertans and industry; and encouraging additional investment which creates jobs and economic prosperity.

This business plan is aligned with the government's five goals and supports the government's core businesses as set out in the *Government of Alberta Strategic Plan*.

GOALS, PRIORITY INITIATIVES AND PERFORMANCE MEASURES

As a result of the ministry's review of its goals, environment, opportunities and challenges, a number of priority initiatives have been identified.

Priority Initiatives:

- 1.1 Alberta has a competitive and effective royalty system, incenting development and maximizing benefits to Albertans.
- 1.2 Energy and mineral resource revenues are accurately calculated, collected and reported.
- 1.3 Energy and mineral resource development occurs in a responsible, environmentally sustainable manner and supports Government of Alberta outcomes.
- 1.4 The ministry and its partners have the required policies and programs to encourage value-added development in Alberta.

- 1.5 Develop and implement recommendations to improve Alberta's investment competitiveness within the natural gas and conventional oil sectors.
- 1.6 Continue to implement strategies to increase upgrading and refining capacity in Alberta, including the implementation of Bitumen Royalty In-kind.
