INTRODUCTION

What is the Alberta Health Care Insurance Plan?

The Alberta Health Care Insurance Plan (AHCIP) provides Albertans with medically necessary services in a public system that follows the principles of the *Canada Health Act* in that it is publicly administered, comprehensive, universal, portable and accessible. Medically necessary services are hospital and physician services and specific services provided by dental/oral surgeons.

In addition to services required by the *Canada Health Act*, the AHCIP also provides partial coverage for:

- allied health services such as optometry (for residents under 19 and over 64 years), chiropractic and podiatry services; and
- drug and other benefits through Alberta Blue Cross.

There are two categories of coverage provided by the AHCIP. They are:

- Basic health services coverage (for medically required services provided by physicians and dental/oral surgeons, and limited coverage for services provided by allied practitioners, such as chiropractors, optometrists and podiatrists). There is a monthly premium for this coverage except for those individuals enrolled in special groups (such as Alberta Widows' Pension or Income Support) or individuals entitled to full premium assistance.
- Alberta Blue Cross Non-Group Coverage Plans (supplemental health insurance plans for pharmaceuticals and other selected health services). These supplemental

plans are funded by Alberta Health and Wellness and administered by Alberta Blue Cross. Premium-free coverage is offered to seniors and their dependants, to recipients of the Alberta Widows' Pension and their dependants, and to people who have been diagnosed as palliative and receive their health care at home. Coverage is also available to all Albertans under the age of 65 and their dependants, subject to the payment of a monthly premium.

What can I find in the *Statistical Supplement*?

Alberta Health and Wellness publishes the *Statistical Supplement* as an extension of the *Annual Report*. It provides data on the number of people registered with the AHCIP, payments made by the AHCIP to Alberta physicians, allied practitioners (dental/oral surgeons, chiropractors, optometrists and podiatrists) and some payments for out-of-country services. The *Supplement* also reports data on Alberta Blue Cross Non-Group Coverage.

How is data reported in the *Statistical Supplement*?

This edition of the *Statistical Supplement* reports data for the period April 1, 2003 to March 31, 2004. Where feasible, data are provided for a five-year period to assist in longer-term comparisons. Regional data are provided only for the current year, since regional boundaries have changed, and the data for prior years are not fully comparable.

The majority of data are reported on a date-of-service basis, with the exception of Section 4 — Alberta Blue Cross Non-Group Coverage, which is reported on a date-of-payment basis.

What information is not included in the *Statistical Supplement*?

The following information is not included in the *Statistical Supplement*:

- AHCIP payments for medical and hospital services provided in other Canadian provinces;
- regional health authority costs (e.g., hospital and home care services costs);
- Alberta Cancer Board costs; and
- other program expenditures, which are not directly paid by the AHCIP.

The *Alberta Ministry of Health and Wellness Annual Report 2003/2004* contains more information on these costs.

Subject Headings

The four subject headings in this Supplement are:

SECTION 1: REGISTRATION DATA
— PAGES 5 TO 14

SECTION 2: BASIC HEALTH
SERVICES DATA — PAGES 15
TO 63

SECTION 3: REGIONAL DATA
— PAGES 64 TO 76

SECTION 4: ALBERTA BLUE
CROSS NON-GROUP COVERAGE
DATA — PAGES 77 TO 88

Your Input Is Appreciated

We appreciate feedback to help us make future *Statistical Supplements* as easy to read and use as possible.

SECTION 1: REGISTRATION

Summary

This section provides statistics on the number of people covered under the Alberta Health Care Insurance Plan (AHCIP) for basic health services. These tables show registration data broken down by premium status and subsidy level, and by age and gender.

BASIC HEALTH COVERAGE

In 2003/2004, 3,165,157 Albertans were entitled to basic health coverage. This is an increase of 1.3 per cent from the previous year.

COVERAGE BY METHOD OF PREMIUM COLLECTION AND SUBSIDY LEVEL

There are four categories of premium status:

- **Individual/Group**

This category was the largest with 2,718,333 persons. It includes individuals and families who make AHCIP premium payments either directly to Alberta Health and Wellness or through group plans (e.g., employers that submit the premiums on behalf of the individuals and families).

- 267,549 or 9.8 per cent of people in this category received premium subsidies: an increase of 16,588 or 6.6 per cent in comparison to 2002/2003.
- 229,222 individuals received full subsidy: an increase of 6.3 per cent.
- 38,327 individuals had their premiums partially subsidized: an increase of 8.7 per cent.

- **Seniors**

The number of persons (seniors and their dependants) covered in the Seniors category in 2003/2004 was 363,201. This is an increase of 2.4 per cent compared to the 2002/2003 year. More than half the individuals in this category received partial or full subsidy: 25,015 received partial subsidy and 178,693 received full subsidy.

- **Alberta Widows' Pension**

The number of persons with Alberta Widows' Pension coverage decreased by 6.3 per cent to 2,098 compared to those covered in 2002/2003. All of these individuals received premium-free coverage.

- **Income Support Recipients**

The number of Income Support recipients who received premium-free coverage was 81,525: an increase of 3.2 per cent compared to the 2002/2003 year.

Overall, 17.5 per cent of the total population covered by the AHCIP paid reduced premiums or were fully exempt from paying premiums.

OPTING OUT

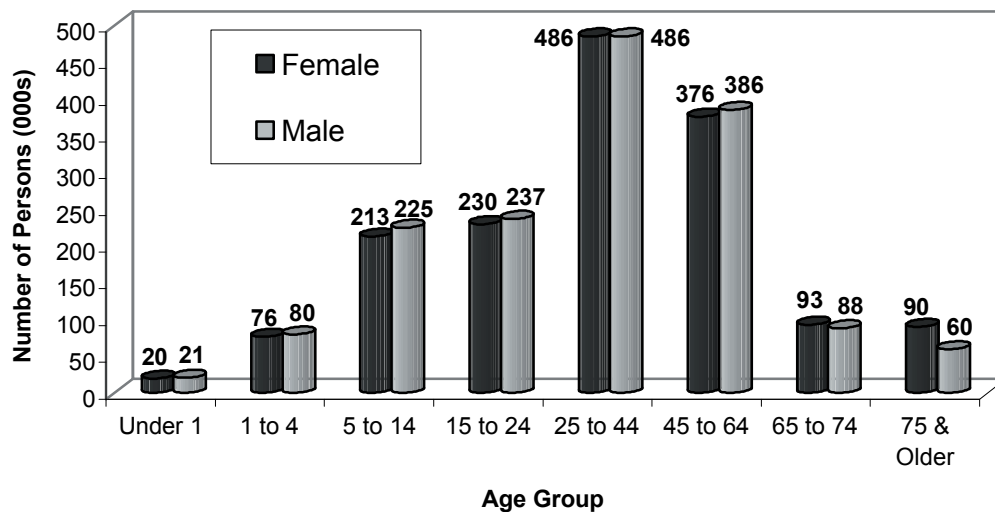

Every year, individuals who object in principle to the AHCIP may opt out. In 2003/2004 the number of individuals who chose to opt out decreased to 293 compared to 329 in 2002/2003. These individuals are responsible for paying all their health care expenses. People who opt out must do so for a full benefit year, which is July 1st of one year to June 30th of the following year.

COVERAGE BY AGE AND GENDER

Figure 1 shows the number of persons covered by the AHCIP, broken down by age and gender.

Figure 1
Population Covered for Basic Health Benefits Broken Down
By Age and Gender for the Service Year April 1, 2003 to March 31, 2004

Registration data for Alberta Blue Cross Non-Group Coverage is in Section 4.

Did you know?

Albertans are younger than the national average.

Explanatory Notes

REGISTRATIONS

Registration data are based on the number of active registrations on the AHCIP files as of the last day of the fiscal year (March 31st). Individuals registered with the AHCIP for part of the year, but not on March 31st, are excluded. The number of registrations differs from the number of persons covered. There is usually one registration per family household. The number of persons covered under one registration can range from one (single coverage) to two or more (family coverage). Details regarding the number of registrations are in Tables 1.1 and 1.2.

The numbers reported differ from Statistics Canada provincial population estimates because:

- Alberta Health and Wellness continually updates the AHCIP data; and
- persons who are temporarily absent from the province or who have left the province permanently, but retain coverage for a period of three months (up to March 31st), are included in the data.

Members of the Armed Forces and RCMP, and inmates of federal penitentiaries are covered by the federal government. They are not entitled to AHCIP coverage and are not included in the data.

WIDOWS' PENSION PROGRAM

Recipients of the Alberta Widows' Pension Program (available through Human Resources and Employment) and their eligible dependants are not required to pay AHCIP or Alberta Blue Cross non-group premiums.

SENIORS' PREMIUM RATES

In 2003/2004, seniors were required to pay AHCIP premiums unless they were entitled to a partial or full exemption under the income-tested Alberta Seniors Benefit Program. Alberta Blue Cross non-group coverage is premium-free for seniors and their dependants, regardless of income.

PREMIUM ASSISTANCE PROGRAMS

Full premium rates for AHCIP coverage are \$88 per month (\$1,056 per year) for family coverage (two or more people) and \$44 per month (\$528 per year) for single coverage. To assist lower-income Albertans with the cost of premiums, Alberta Health and Wellness has two premium assistance programs: the Premium Subsidy Program and the Waiver of Premiums Program.

Eligibility for the Premium Subsidy Program is based on taxable income for the year preceding the subsidy period and the number of individuals on the registration account. A subsidy period runs from April 1st of one year to March 31st of the following year.

Family category (below) is based on whether there are children and a spouse or an adult interdependent partner on the registration account. If there is a spouse or adult interdependent partner on the account, both individuals are required to provide their taxable incomes.

2003/2004 Premium Subsidy Thresholds		
Family Category	Full Subsidy	Full Premiums
Single	under \$12,450	over \$15,970
Family — no children	under \$21,200	over \$28,240
Family — with children	under \$27,210	over \$34,250

The Waiver of Premiums Program is designed to assist Albertans experiencing short-term financial difficulties. Eligibility is based on the average gross monthly income for the three calendar months prior to the date that the application is submitted. If there is a spouse or adult interdependent partner on the account, both individuals are required to provide their incomes.

2003/2004 Waiver of Premium Thresholds	
Family Category	Income Level
Single	\$1,020
Family — no children	\$1,860
Family — with children	\$2,260

If the income is under the qualifying thresholds, premiums are waived for a six-month period. On average, during 2003/2004 approximately 10,800 people (6,500 registrations) per month were on the Waiver of Premiums Program.

SECTION 2: BASIC HEALTH SERVICES — (PHYSICIANS AND ALLIED HEALTH PRACTITIONERS)

Summary

Basic health services include all medically required services performed by physicians and dental/oral surgeons that are paid on a fee-for-service basis and those that are paid under the terms of Alternative Relationship Plans (ARPs)*. Certain podiatry, optometry and chiropractic services are fully or partially covered by the AHCIP. Fee-for-service items and rates payable by the AHCIP are published in individual schedules of benefits.

The number of registered Albertans who received at least one medical service during the year was 2,689,453 or 85.0 per cent of the total number of people eligible for health coverage.

Data are provided for fee-for-service payments, organized by practitioner specialty and type of service, by patient age and gender, and by the percentage of change in schedules of benefits (AHCIP approved services and rates). Unless otherwise noted, pathology services are included in the data.

Most tables only include in-province expenditures. However, Tables 2.18 to 2.20 provide selected statistics for services provided outside Canada.

Only practitioner data are provided. Hospital and non-hospital surgical facility costs associated with these services, with the exception of out-of-country hospital services, are not reported in the Supplement.

*ARP data is included in Table 2.17.

ALTERNATIVE RELATIONSHIP PLANS

Alternative Relationship Plans (ARPs) (previously Alternate Payment Plans) have an important role to play in health care delivery as they involve both alternate methods of remunerating physicians and can encourage innovation in clinical service. As well, ARPs may enhance the following five key dimensions:

- recruitment and retention
- team-based approach
- access to health services
- patient satisfaction
- value for money

Approximately 250 physicians in Alberta currently practice under part-time or full-time non-academic ARP agreements.

Several different ARP models are available to physicians and RHAs, including contractual, sessional (hourly) and capitation (population-based) models. Physicians who want to participate in an ARP are required to submit a proposal to Alberta Health & Wellness (AHW).

Academic ARPs (previously Alternate Funding Plans) provide a means of amalgamating and integrating the various sources of funding that are used to compensate physicians within an academic department for the variety of services that they provide. Responsibility is shared between AHW, Alberta Learning, Science Innovation and Technology, the University of Alberta, the University of Calgary and the RHAs. AHW provides grant funding for

Academic ARPs. The physicians who participate in an Academic ARP arrangement provide defined services (deliverables) in four major activity areas. They are:

- Medical Education
- Research
- Clinical Service
- Administration/Leadership

Academic ARPs were developed by the Government of Alberta in an effort to find a more appropriate and equitable way of funding Academic Health Centres (AHCs) while addressing their educational, research and recruitment needs. Most AHCs receive funding from multiple sources, which include the following:

- clinical services funded via fee-for-service billing to the AHCIP;
- education funded through provincial grants to the university; and
- research funding through government grants, non-profit organizations or corporations.

DATE OF SERVICE DATA

Data are reported on a date-of-service rather than date-of-payment basis. Practitioners have 180 days from the date of service to submit their claims to the AHCIP for payment. Most claims are paid within 30 days of the date of service.

TOTAL BASIC HEALTH SERVICES — PAYMENTS

The AHCIP issued \$1.27 billion in fee-for-service payments to Alberta physicians for basic health services in 2003/2004. This represents a 3.9 per cent increase over the previous year.

Allied health payments (to dental/oral surgeons, chiropractors, optometrists and podiatrists) increased 5.8 per cent over the previous year at a total cost of \$65.3 million in 2003/2004.

Practitioner	Overall Payments	Percentage Change Compared to 2002/2003
Physicians*	\$1,272,779,982	3.85
Dental/Oral Surgeons	\$2,404,042	0.40
Chiropractors	\$39,038,527	5.76
Optometrists	\$16,679,907	7.32
Podiatrists	\$7,149,189	4.13
Total*	\$1,338,051,646	3.94

*Not included above is \$17,461,049 in manual payments made to Alberta physicians during the period October 1, 2003 to March 31, 2004. These payments were made to address the 2.7 per cent fee increase negotiated through the Master Agreement and implemented retroactive to October 1, 2003.

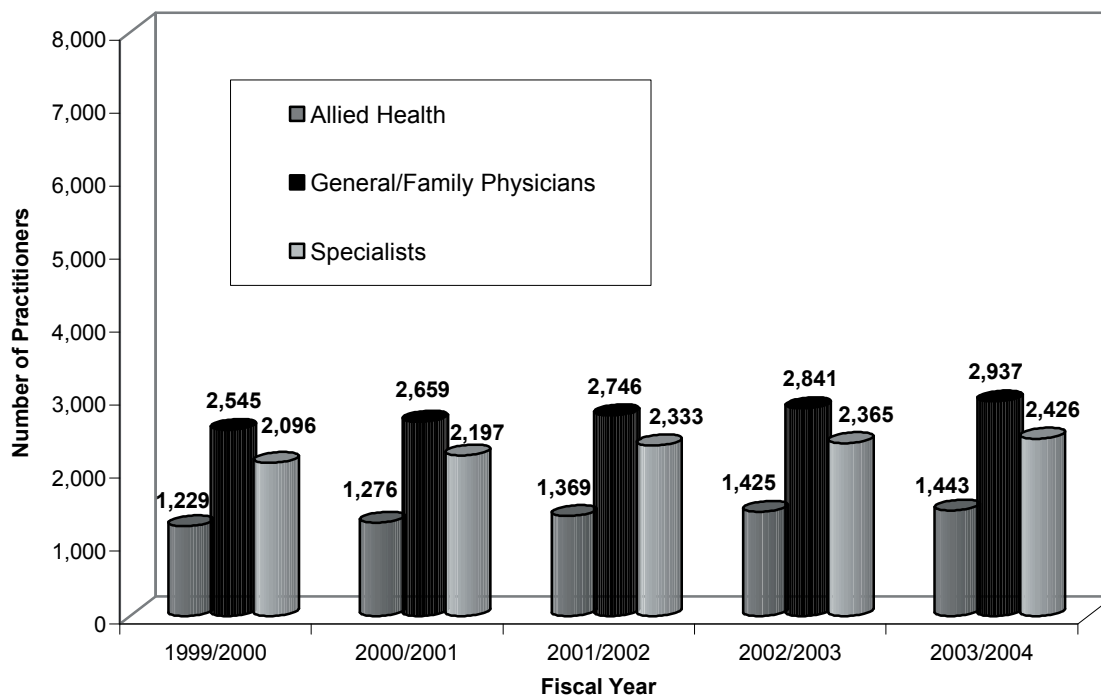

NUMBER OF PRACTITIONERS WHO BILLED AHCIP FEE-FOR-SERVICE

The number of Alberta practitioners who received fee-for-service payments during 2003/2004 increased by 2.64 per cent over last year.

Practitioner	Number	Percentage Change Compared to 2002/2003
Physicians	5,363	3.02
Dental/Oral Surgeons	216	(7.69)
Chiropractors	816	1.87
Optometrists	358	5.29
Podiatrists	53	6.00
Total	6,806	2.64

Figure 2 provides a comparison of the number of Alberta practitioners who received payments for basic health services over the past five years.

**Figure 2
Number of Alberta Practitioners Who Received Payment For Basic Health Services for the Service Years Ended March 31, 2000 to 2004**

AVERAGE PAYMENTS BY PRACTITIONER TYPE

The average payment per physician was \$237,326 (a 0.81 per cent increase over the previous year) and the median payment was \$198,980 (a 0.25 per cent increase). Two hundred fifty-two (252) physicians received less than \$10,000 in payments (an increase of 32 over the previous year), and 71 received more than \$1 million in payments (an increase of 10 physicians over the previous year).

Practitioner	Average Payments	Percentage Change Compared to 2002/2003
Physicians	\$237,326	0.81
Dental/Oral Surgeons	\$11,130	8.77
Chiropractors	\$47,841	3.82
Optometrists	\$46,592	1.92
Podiatrists	\$134,890	(1.77)
Total	\$196,599	1.27

PAYMENTS TO GENERAL AND FAMILY PHYSICIANS

Alberta Health and Wellness paid 2,937 general and family physicians fees for basic health services: 3.38 per cent more than the previous year. The average payment was \$192,352 (a 0.52 per cent increase over the previous year). The annual median payment was \$182,226. Forty-one (41) general/family physicians received more than \$500,000 in payments. This was an increase of one physician compared to the previous year.

PAYMENTS TO PHYSICIAN SPECIALISTS

A total of 2,406 physician specialists (excluding pathologists) received payments in 2003/2004: a 2.56 per cent increase over the previous year. The average payment was \$292,380, and the median payment was \$237,148.

HIGHEST AVERAGE PAYMENTS (EXCLUDING PATHOLOGISTS AND RADIOLOGISTS)

Three hundred sixty-three (363) specialists (15.1 per cent) received more than \$500,000 in fee-for-service payments. The average payment increased 1.18 per cent, and the median payment increased 0.80 per cent.

Specialty	Average Payment
Ophthalmology	\$592,035
Cardiovascular & Thoracic Surgery	\$548,864
Dermatology	\$493,553
Cardiology	\$464,413
Otolaryngology	\$461,734

MEDICAL ASSESSMENTS

Assessments (office visits) and consultations accounted for 46.3 per cent of fee-for-service payments to Alberta physicians in 2003/2004. These services accounted for 69.4 per cent of payments to general/family physicians.

TOTAL PAYMENTS, EXCLUDING PATHOLOGY

The AHCIP issued \$1.34 billion in fee-for-service payments to Alberta practitioners for basic health services in 2003/2004 compared to \$1.28 billion the previous year.

Total payments, excluding pathology, for physician services increased to \$1.27 billion in 2003/2004: a 3.83 per cent increase compared to the previous year.

Practitioner	Overall Payments	Percentage Change Compared to 2002/2003
Physicians*	\$1,268,402,472	3.83
Dental/Oral Surgeons	\$2,404,042	0.40
Chiropractors	\$39,038,527	5.76
Optometrists	\$16,679,907	7.32
Podiatrists	\$7,149,189	4.13
Total	\$1,333,674,137	3.93

*excludes pathology

PATHOLOGY

The AHCIP paid \$4.4 million for pathology in 2003/2004 (see Explanatory Notes, page 24).

PATIENTS RECEIVING PHYSICIAN SERVICES

Of the 3,165,157 people entitled to basic health services in 2003/2004, 85.0 per cent or 2,689,453 people received at least one physician service during the year. A total of 75.5 per cent of these patients received fee-for-services amounting to \$500 or less. Only 11.2 per cent of patients received more than \$1,000 in fee for physician services. Payments for these patients accounted for 52.3 per cent of all physician expenditures.

AVERAGE PATIENT PAYMENTS BY AGE AND GENDER

Figures 3 and 4 provide a summary of the annual average fee-for-service payments per Albertan, by age and gender, made to practitioners for basic health services.

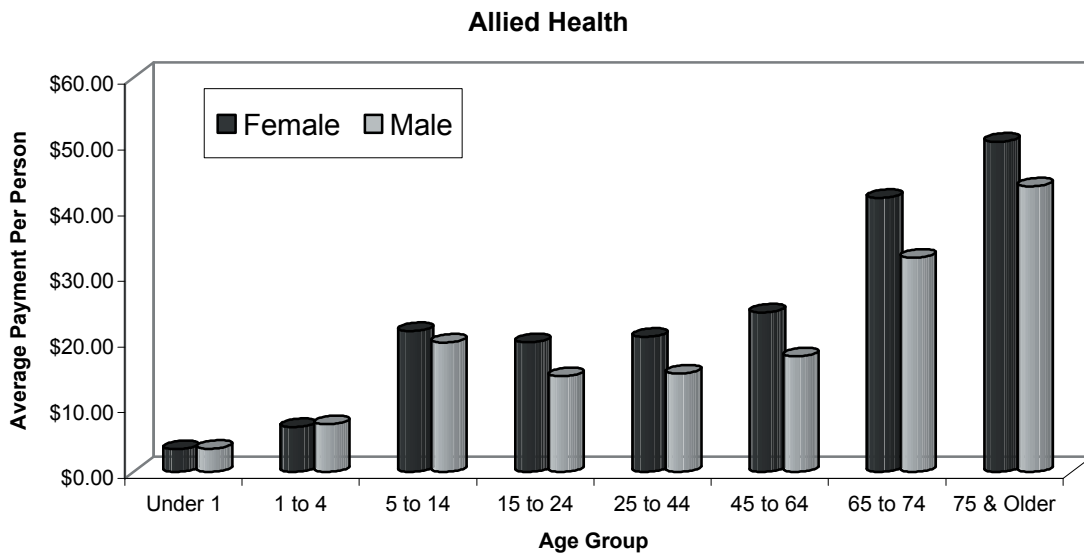

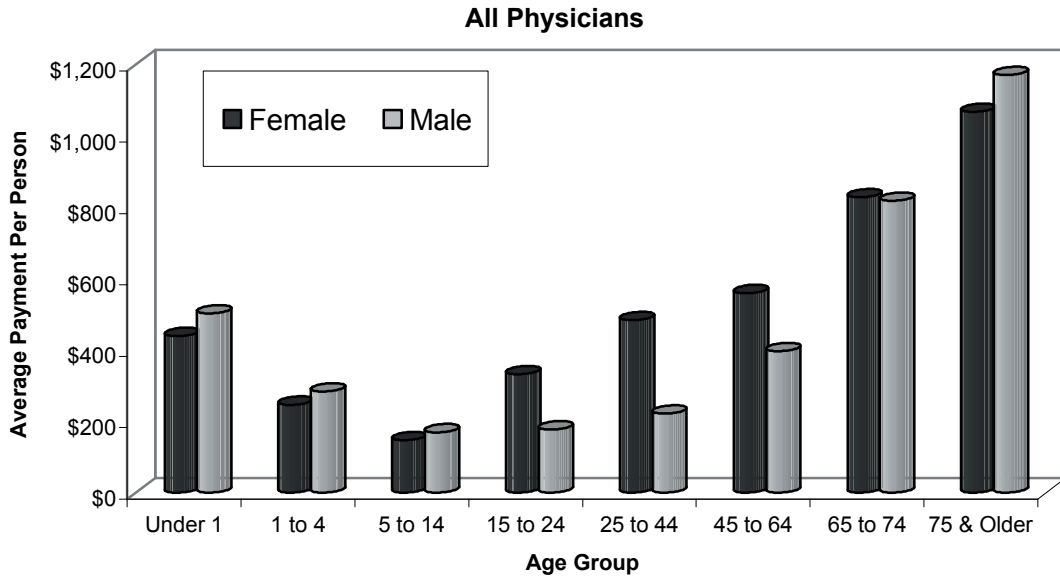

Did you know?

Compared to people in other provinces, and in many countries, Albertans are living longer and most of our years are spent in good health.

Source: Keeping Albertans Healthy, Fall 2004

Figures 3 & 4
Average Fee-For-Service Payment Per Albertan for Basic Health Services Broken Down
By Age and Gender for the Fiscal Year April 1, 2003 to March 31, 2004
Average Costs Per Patient

The average cost per patient for basic health services has increased by \$10.19 from last year. The cost was \$481.40 in 2003/2004 compared to \$471.21 in 2002/2003.

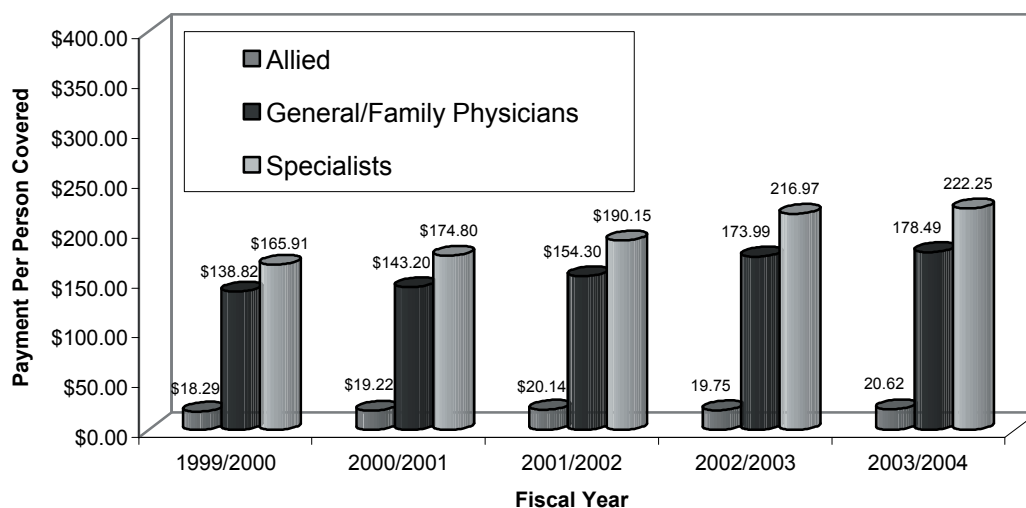

The total average cost per patient is not the sum of the average costs. It is the average of the total dollars paid for all practitioner types per patient.

Figure 5 shows a five-year comparison of the average payment per person covered for basic health services and practitioner type. All years have been adjusted to exclude pathology services and payments. These numbers differ from average patient costs, which only include those individuals who actually received a service.

AVERAGE PATIENT COSTS BY PRACTITIONER TYPE

Practitioner	Average Cost/Patient	Percentage Change
Physicians	\$473.25	2.02
Dental/Oral Surgeons	\$219.09	13.86
Chiropractors	\$89.50	2.47
Optometrists	\$48.86	3.76
Podiatrists	\$77.33	4.58
Total	\$481.40	2.16

Figure 5
Average Basic Health Services (Excluding Pathology) Payment Per Person
For the Fiscal Years Ended March 31, 2000 to 2004

Did you know?

In 2004, the vast majority of Albertans (88 per cent) rated their health as excellent, very good or good.

Source: Health Quality Council of Alberta

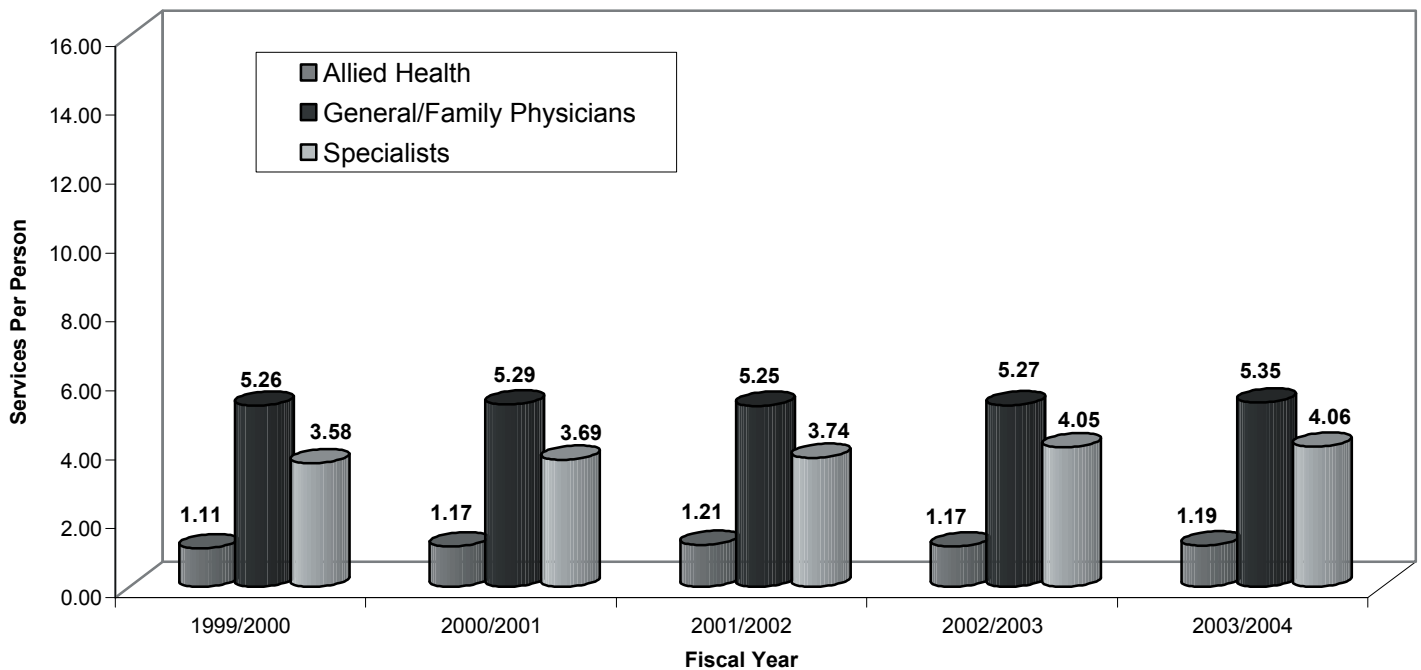

PHYSICIAN SERVICES AND PHYSICIAN RATIOS

The number of physician services (excluding pathology) per 1,000 persons covered by the AHCIP increased to 9,412: a 1.07 per cent increase compared to 2002/2003.

The number of physicians (excluding pathology) per 1,000 patients increased to 1.69: a 1.81 per cent increase from 2002/2003.

Figure 6 provides a five-year comparison of the average number of basic health services per person and practitioner type. All years have been adjusted to exclude pathologists. Please see Explanatory Notes on page 23 for more details.

Figure 6
Average Number of Services Per Person for Basic Health Services (Excluding Pathology)
For the Fiscal Years Ended March 31, 2000 to 2004

Explanatory Notes

DEFINITION OF PRACTITIONER

The term “practitioner” refers to all fee-for-service physicians and allied health practitioners (dental/oral surgeons, chiropractors, optometrists and podiatrists) who received payment for basic health services.

DISCRETE PATIENTS

Unless otherwise noted, the data are based on the number of discrete patients. This is the number of individuals registered with the AHCIP who received a basic health service covered by the AHCIP. Individuals who are registered with the AHCIP but did not receive any services in the current year are not included in the discrete fee-for-service patient count, but are included in the registration data.

ANNUAL MEDICAL SERVICES BUDGET

An annual budget of \$1,341,800,000 paid through the AHCIP for fee-for-service, benefits and Alternative Relationship Plan payments for physician services was established through a negotiated agreement between the Minister of Health and Wellness, the regional health authorities and the Alberta Medical Association for the 2003/2004 fiscal year.

DETERMINING PAYMENT RATES TO PRACTITIONERS

The Alberta Medical Association and the Alberta Association of Optometrists negotiate agreements with Alberta Health and Wellness to determine payment rates. Payment rates for all other practitioner services covered under the AHCIP are set by Alberta Health and Wellness after consultation with the respective professional association.

BALANCE BILLING

Physicians and dental/oral surgeons (by law) and optometrists (by agreement) are not allowed to bill patients additional amounts for basic health services covered under the AHCIP.

PAYMENTS DO NOT REFLECT INCOME

Payments to practitioners represent fee-for-service payments made by the AHCIP. These statistics cannot be used as an accurate measure of a practitioner’s personal income because:

- some practitioners receive income from other sources (e.g., Workers’ Compensation Board, balance billing, third party medicals, and for other services not covered by the AHCIP);
- both full-time and part-time practitioners are included in the statistics;
- salaried positions and contractual arrangements with regional health authorities or private employers are not included;
- payments for services rendered to non-Albertans are not included; and

- the figures quoted are payments from which practitioners pay business expenses such as office and staff expenses.

Each practitioner must submit claims for the services he or she provides. Under special circumstances, physicians can claim and are paid for services provided by medical residents and nurses they supervise and for diagnostic services provided by technicians.

PHYSICIAN DATA SOURCE

Physician data in this section include all Alberta physicians who had fee-for-service billings of one dollar or more in the 2003/2004 fiscal year. For the purpose of the *Statistical Supplement*, in cases where a physician has multiple specialties, he or she has been included under the specialty in which he or she had the highest earnings.

Unless otherwise specified in the *Statistical Supplement*, the data are for payments made for services provided in Alberta.

Not included in the statistics is \$17,461,049 in manual payments made to Alberta physicians for the period October 1, 2003 to March 31, 2004. These payments were made to address the 2.7 per cent fee increase negotiated through the Master Agreement and implemented retroactive to October 1, 2003. ARP expenditures are reported separately in Table 2.17 (page 60).

PATHOLOGY SERVICES

Most laboratory services are paid by the regional health authorities. A few select pathology health services, such as minor consultations, electrocardiograms (technical) and skin tests, are still paid for by the AHCIP. These figures are listed separately whenever possible to allow for year-over-year comparisons.

CHIROPRACTIC, OPTOMETRY AND PODIATRY

During the 2003/2004 year, the maximum benefit was \$12.91 for a chiropractic visit and \$21.37 for an x-ray, with an annual patient limit of \$200.

Children (18 and under) and residents who are 65 and older are entitled to one complete and one partial eye exam, and one diagnostic test each year. Additional services are paid when specific medical conditions exist or if a physician refers the patient to an optometrist. Optometry services for Albertans aged 19 to 64 are not covered by the AHCIP.

Podiatry services covered by the AHCIP are paid at a set rate per service, and the maximum annual benefit per patient is \$250.

Continued...

(1) "Number of Discrete Physician Patients" contains the actual count of patients receiving at least one service.

(2) "Number of Discrete Patients Per Physician" in this instance refers to all Physicians, including Pathology.

(3) "Number of Discrete Allied Patients" represents a discrete count within all Allied Practitioners.

Table 2.1
Medical and Allied Practitioners: Selected Indicators
For the Service Years Ended March 31, 2000 to March 31, 2004

Indicators	Percentage Change

(1) Laboratory physicians (Pathology and Radiology) are excluded.

(2) FTE methodology is as follows:

Definition of a Full-Time Equivalent Practitioner: The definition is based on the methodology developed in 1984 by Health Canada (Health Information Division).

Step 1: - Within each specialty or group of specialists, rank the amounts paid in ascending order; the lower and upper benchmarks are the payment values which correspond to the 40th and 60th percentile for those practitioners with claims in all four quarters of the fiscal year.

Step 2: - Count all physicians with payments within the lower and upper benchmark as one FTE.

- Count all physicians with payments below the lower benchmark as a fraction of a FTE equal to the ratio of his/her payments to the lower benchmark.

- Count all physicians with payments above the upper benchmark using a log-linear relationship, as 1 FTE plus the natural logarithm of the ratio of his/her payments to the upper benchmark. The reason for attributing diminishing weight to payments above the upper benchmark is to prevent outliers from seriously biasing the measure. This is not necessary on the lower benchmark because payments less than zero are not recorded and, as such, a natural barrier exists to prevent bias at the lower end.

- Since these calculations are not made in direct comparison of other jurisdictions, the benchmarks have not been deflated by fee schedule increases.

(3) New specialty effective January 1, 2001.

Total Expenditures	Model Total	GP Subtotal	SP Subtotal	Physician Total ⁽¹⁾
\$50,526,702	23	180	333	513

Note: The data presented in this table can be variable and is only accurate for the end of the fiscal year 2003/2004.

*The general practitioner and specialist counts may include part-time physicians who may or may not bill fee-for-service in addition to the ARP program they are participating in.

(1) The physician total can fluctuate month-to-month and should be considered approximate.

Model Type Definitions:

Academic ARP - Model which merges funding for medical education, clinical services, and research, into one main funding grant based on an agreement between the academic department of an Academic Health Centre, the Government, and any other major funder(s).

Capitation ARP - This model is used for the provision of family medicine or primary health care with a predetermined annual amount for each of its patients within a defined population and basket of services.

Contract ARP - Contractual funding is based on a pre-negotiated amount, for a pre-determined level of services, over a specified period of time (e.g. one year).

Sessional ARP - Under this model the physician is paid an hourly rate for work during a set period of time for the provision of insured medical services within an organized program.

Out-of-Country Basic Health Services
Distribution of Payments, Number of Services and Discrete Patients⁽¹⁾
For the Service Year April 1, 2003 to March 31, 2004

Practitioner Type	Total Out-of-Country			United States			Out-of-Country (except United States)		
	Number of Services	Discrete Patients	Payments	Number of Services	Discrete Patients	Payments	Number of Services	Discrete Patients	Payments
Total	20,753	7,499	\$963,299	6,651	2,305	\$330,523	14,102	5,375	\$632,776
Physicians ⁽²⁾	20,073	7,332	951,068	6,368	2,212	324,056	13,705	5,289	627,011
Dental/Oral Surgeons	3	2	2,420	3	2	2,420	0	0	0
Chiropractors	609	179	7,894	253	91	3,266	356	96	4,628

Podiatrists	44	29	1,047	16	9	366	28	20	681

(1) The total discrete patients is a discrete overall patient count and not a sum.

(2) Does not include physician services which were paid under the Out-of-Country Health Services Program.

OUT-OF-COUNTRY HEALTH COVERAGE

Out-of-country practitioner and hospital services received by Albertans are paid at Alberta rates that have been established by the Alberta Legislature.

Many out-of-country medical services cost more than the amount paid by the AHCIP and any additional cost is the responsibility of the patient. Alberta Health and Wellness strongly encourages Albertans travelling outside Canada to purchase supplementary health insurance.

Under certain circumstances, the Out-of-Country Health Services Committee considers funding, in addition to the benefits paid by the AHCIP, for insured physician, dental/oral surgeon and hospital services not available in Canada. The program has specific criteria that must be met for funding to be considered.

SECTION 3: REGIONAL DATA

Summary

Regional health authorities are responsible for hospitals, continuing care facilities, community health services and public health programs in Alberta. They deliver health services in the regions and work with communities to deliver health services to local residents. In April 2003, the number of regional health authorities in Alberta was reduced from 17 to nine. The statistics in this section provide regional breakdowns for the registered population, physician and allied practitioner payments, physician payments by disease classification and average payments to physicians.

EXPLANATORY NOTES

Statistics listed in this section may not correspond exactly with data appearing elsewhere in the *Statistical Supplement*. For example, in this section, physicians are counted in each health region where they have provided services. Therefore, physicians may be counted more than once if they provided services in more than one health region.

The number of practitioners reported in a region is the number of practitioners who provided services in that particular region. A practitioner may work in several regions. Data are provided on a “service location” basis, which is the health region where the service was actually provided. “Recipient location” is the region where the person receiving the service lives, according to the AHCIP registration data.

The breakdown of physician payments by “service location” rather than “recipient location” impacts the data. Large regions often attract patients from smaller, rural areas and this affects statistics on health services and payments for both location types. This point is illustrated in Table 3.2, which shows a breakdown of medical payments to physicians based on service location and also recipient location.

Data in this section are based on the health region and recipient location as of the day the service was provided. Regional boundaries are subject to change; therefore, year-over-year comparisons by region need to be interpreted with caution. Figure 7 shows the boundaries in place on December 1, 2003, noted on the map of Alberta.

Figure 7
Map of Regional Boundaries

Table 3.1
Distribution of Population Covered by Service Location Health Region
As of March 31, 2004 ⁽¹⁾

SECTION 4: ALBERTA BLUE CROSS NON-GROUP COVERAGE

Summary

Alberta Blue Cross Non-Group Coverage plans are supplemental health insurance plans for pharmaceuticals and selected health services. These supplemental plans are funded by Alberta Health and Wellness and administered by Alberta Blue Cross. Premium-free coverage is offered to seniors and their dependants, to recipients of the Alberta Widows' Pension and their dependants, and to people who have been diagnosed as being palliative and receive their health care at home. All other Albertans under the age of 65 can purchase Alberta Blue Cross Non-Group Coverage. Reduced premium rates are provided to Albertans who apply and qualify for AHCIP premium subsidy.

These categories are collectively referred to as "non-group" membership to distinguish them from "group" or private employer-sponsored supplemental benefit plans offered by Alberta Blue Cross.

Non-group coverage includes prescription drugs, ambulance services, clinical psychological services, home nursing care, prosthetic and orthotic benefits and mastectomy prostheses. Coverage for private or semi-private hospital accommodation is included in the plan offered to Albertans under the age of 65 and their eligible dependants. The Alberta Health and Wellness Drug Benefit List and Palliative Care Drug Benefit Supplement define the prescription drugs that are covered by the Alberta Blue Cross Non-Group Plans.

The data on Alberta Blue Cross Non-Group Coverage in this section includes the number of persons covered by level of premium payment, by age and gender, and by type

of services (ambulance, drugs, hospital, or other). Information is also provided on drug prescriptions: the number, types and costs of prescriptions, and the 10 prescription drugs with the highest cost.

NUMBER OF PEOPLE COVERED

In 2003/2004, a total of 499,078 Albertans received coverage under Alberta Blue Cross Non-Group Coverage plans.

The number of persons who paid regular premiums increased by 4.3 per cent to 96,003 compared to the 2002/2003 year. Out of the total non-group membership, only 19.2 per cent paid full premiums. A total of 37,776 people (7.6 per cent of total membership) received coverage at reduced premium rates: a 2.24 per cent increase over the previous year. The number of people with premium-free coverage under the Seniors, Widows' Pension and Palliative Care categories totalled 365,299: 73.2 per cent of all people with non-group coverage.

BENEFIT PAYMENTS

Alberta Blue Cross Non-Group Coverage paid more than \$485 million in benefits in 2003/2004. Drugs accounted for \$464,068,735 or 95.7 per cent of these expenditures. Ambulance services accounted for \$15,922,123 or 3.3 per cent of the total. These two benefits accounted for 99.0 per cent of all Alberta Blue Cross Non-Group expenditures.

Nine of the top-ten-selling drugs are used to treat common chronic diseases: gastro-intestinal ulcers and acid-related diseases (Losec, Pantoloc, Prevacid), high cholesterol (Lipitor — two strengths), arthritis (Celebrex, Vioxx) and high blood pressure (Norvasc — two strengths). Losec (20 mg), an ulcer treatment drug, was prescribed the most with a total of 182,207 prescriptions and a net payment of \$25,521,537.

DRUG PAYMENTS BY PREMIUM LEVEL

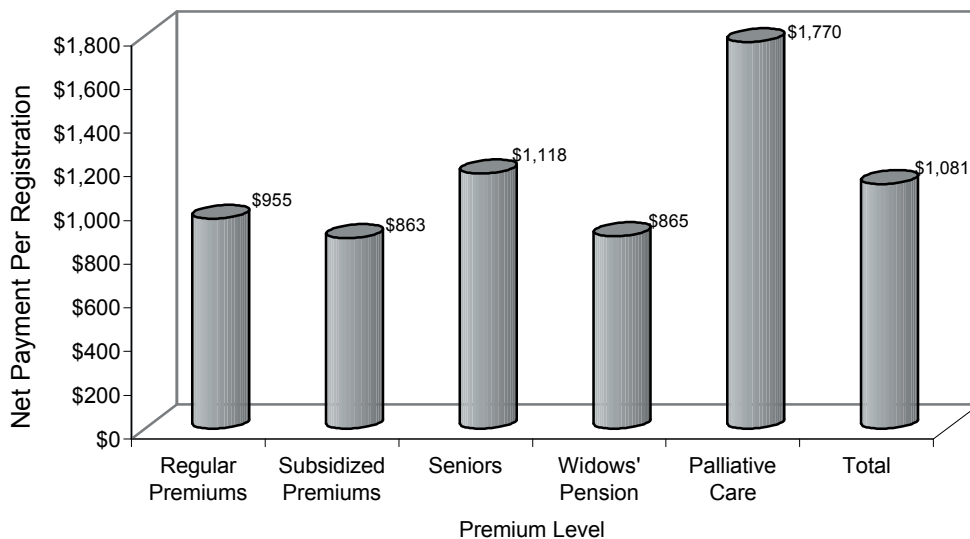

Figure 8 provides a comparison of the Alberta Blue Cross Non-Group Coverage net payment for drugs per registration for the different categories. A registration may be for a single person or can include a spouse/partner and/or dependants.

Did you know?

Albertans spend a lower percentage of their household incomes on prescription drugs than most other Canadians

Figure 8
Alberta Blue Cross Non-Group Coverage Net Payment for Drugs Per Registration by Coverage Category for the Service Year April 1, 2003 to March 31, 2004

Explanatory Notes

DATA

Data in this section are provided directly by Alberta Blue Cross with the exception of Table 4.6, which is provided by the Alberta College of Pharmacists. The tables report the payments made to subscribers on a daily basis, to pharmacy providers (pharmacists) on a bi-weekly basis (every two weeks) and to other providers, such as ambulance service providers, psychologists, etc., on a weekly basis.

ALBERTA BLUE CROSS PALLIATIVE CARE DRUG COVERAGE

During 2003/2004 an average of 1,121 people were provided with Alberta Blue Cross Palliative Care Drug coverage. Most of these people (an average of 743 per month) were also covered under the three other supplemental Alberta Blue Cross plans offered by Alberta Health and Wellness and are reported in Table 4.2. However, an average of 378 of these people were only covered by the Alberta Blue Cross Palliative Care Drug plan and are not reported in the table or elsewhere in this supplement.

(1) Gross Cost = Net Payment + Co-Insurance Amount + Coordination of Benefits.

(2) The sums of the columns may not match the totals due to rounding.

(3) Reflects a small number of prescriptions for imiglucerase, an expensive prescription drug used to treat a rare health condition.

(4) Coordination of Benefits would apply in situations where a person can submit a claim to more than one supplementary health plan. Coordination of Benefits represents amounts paid by other payers.

Table 4.9
Alberta Blue Cross Non-Group Membership
Number of Prescriptions and Gross Payments
By Drug Cost Components - Direct Bill Claims Only
For the Year Ending March 31, 2004

Recipient Group	Number of Prescriptions	Drug Material Cost [A]	Dispensing Fee ⁽¹⁾ [B]	Additional Inventory Allowance ⁽³⁾ [C]	Adjustment [D]	Gross Payment ⁽⁵⁾ [E]	Co-Payment [F]	Coordination of Benefit ⁽⁴⁾ [G]	Net Payment ⁽⁶⁾ [H]
Total⁽²⁾	10,024,151	475,765,519	94,170,875	7,472,187	-100,475	577,308,106	108,967,353	6,776,648	461,564,104
Average Cost Per Prescription		47.46	9.39	0.75		57.59	10.87	0.68	46.05
<i>By Groups</i>									
Regular and Subsidized Premium	1,704,874	108,758,344	16,081,989	1,286,997	-11,013	126,116,317	19,189,040	5,090,343	101,836,934
Seniors	8,258,949	363,875,545	77,477,749	6,144,439	-88,319	447,409,415	89,200,649	1,507,421	356,701,345
Widows' Pension	39,154	1,809,673	356,413	29,382	-1,123	2,194,345	420,981	17,062	1,756,301
Palliative Care	21,174	1,321,956	254,723	11,369	-20	1,588,029	156,684	161,822	1,269,523

(1) Dispensing fee is based on all eligible drug claims including claims for oral contraceptives, insulin and injectables.

(2) The sums of the columns may not match the totals due to rounding.

(3) Additional Inventory Allowance may include upcharge amounts for pharmacies in the Northwest Territories.

(4) Coordination of Benefits would apply in situations where a person can submit a claim to more than one supplementary health plan. Coordination of Benefits represents amounts paid by other payers.

(5) Gross Payment [E] = [A] + [B] + [C] + [D]

(6) Net Payment [H] = [E] - [F] - [G]

GLOSSARY/DEFINITIONS

Additional Inventory Allowance — The amount of the total prescription cost that relates to the pharmacy charge for additional inventory allowance. The total prescription cost is made up of three components: the actual acquisition cost of the drug product, the dispensing fee, and the additional inventory allowance. The dispensing fee and additional inventory allowance are paid to pharmacy proprietors.

Alberta Blue Cross Group Plan — Group coverage available through employers. Data on this coverage is not included in the *Statistical Supplement*.

Alberta Blue Cross Non-Group Plan — Government subsidized supplemental health insurance coverage for pharmaceuticals and other selected health services administered by Alberta Blue Cross on behalf of Alberta Health and Wellness. Premium-free coverage is offered to seniors and their dependants, to recipients of the Alberta Widows' Pension and their dependants, and to people who have been diagnosed as being palliative and receive their health care at home. All other Albertans under the age of 65 and their dependants can purchase non-group coverage through Alberta Health and Wellness at special premium rates.

Alberta Health Care Insurance Plan (AHCIP) — Non-profit, publicly funded plan administered and operated by Alberta Health and Wellness under the *Alberta Health Care Insurance Act* and regulations. The AHCIP pays for insured physician, dental/oral surgical and hospitalization services as required under the *Canada Health Act* and allied health services provided to eligible residents of Alberta.

Alternative Relationship Plan (ARP) — A contractual payment method used to replace fee-for-service.

Allied Health Services — Basic health services (other than insured services) provided by chiropractors, optometrists, and podiatrists.

Balance Billing — The amount charged to a patient above the current rate listed in the applicable AHCIP Schedule of Benefits. Podiatrists and chiropractors are allowed to balance bill. However, opted-in physicians, dental/oral surgeons and optometrists are not allowed to balance bill for services covered under the AHCIP.

Basic Health Services — Services of physicians, osteopaths, and dental/oral surgeons deemed medically required according to the *Canada Health Act*. Also includes some services provided by optometrists, chiropractors, and podiatrists.

Blank Cell — Represents a zero value.

Discrete Patients — The number of people who receive an insured service. Discrete patients are only counted once.

Discrete Service Providers — The number of practitioners who provide a service payable under the AHCIP. Discrete service providers are only counted once.

Fee-for-Service — A payment system agreed upon for the provision of health services.

Fiscal Year — April 1st of one year to March 31st of the next year.

Health Regions — A geographic area within Alberta that has been identified and defined for the purpose of assigning responsibility for and authority over the delivery of health care services within its boundaries. There are currently nine Health Regions in Alberta.

Insured Services — Physician and dental/oral surgical services as defined by the *Canada Health Act* and the *Alberta Health Care Insurance Act*.

Medical Assessments — Primarily office visits and consultations.

Medical Services — Services provided by a physician.

N/A — Not available.

n.a. — Not applicable.

— — Non-zero value; actual value was too small to be shown.

Net Payment — The amount of the total prescription drug cost that is paid by Alberta Health and Wellness through the Alberta Blue Cross Non-Group Plans.

Nil — No change.

Payments — Gross fee-for-service practitioner payments made by the AHCIP for basic health services. Represents neither the total income nor the net income of a practitioner. Payment data is reported on a date-of-service basis and includes only fee-for-service payments to Alberta practitioners for services that were provided to Alberta residents unless stated otherwise.

Practitioner — Licensed health care provider who is registered with the AHCIP and provides basic health services.

Registrations — The number of premium accounts with the AHCIP. A registration may include one person (as in single coverage) or two or more people (as in family coverage).

Registered/Insured Persons — The number of Alberta residents insured under a program and therefore entitled to receive services.

Schedule of Benefits — List of practitioner services and rates paid by the AHCIP. Includes the governing rules, procedure list, fee modifier definitions and price list. The *Statistical Supplement* includes data on five distinct benefit schedules (medical, oral maxillofacial dental surgery, chiropractic, optometry and podiatry).
