# Introduction

## The Alberta Health Care Insurance Plan

The Alberta Health Care Insurance Plan (AHCIP) is a publicly funded health care plan. It was established in accordance with the *Canada Health Act* principles of public administration, comprehensiveness, universality, portability and accessibility.

The AHCIP provides two types of coverage to registered Albertans. They are:

- Basic health coverage for insured services provided by physicians, dental specialists/oral surgeons and hospitals, and limited coverage for services provided by optometrists and podiatrists. All eligible residents of Alberta are required to register for AHCIP coverage, but residents have the option to opt out.
- Supplementary health insurance through non-group supplementary plans for pharmaceutical and selected health service coverage. The supplementary plans included in this report cover some services beyond those insured by the AHCIP, which are funded by Health and Wellness and administered by Alberta Blue Cross. From April 1, 2011 to March 31, 2012, coverage was available to all Albertans under the age of 65 and their dependants, subject to the payment of a monthly premium. During the same period, premium-free coverage was provided to seniors and their dependants, and to recipients of the Alberta Widows' Pension and their dependants. In addition, premium-free drug coverage was provided to people diagnosed as being palliative and who received health care in their homes.

## Information included in the Statistical Supplement

The Statistical Supplement is an accompaniment to the *Ministry of Health and Wellness Annual Report 2011-2012* and includes data on the number of people registered with the AHCIP, payments made by the AHCIP to Alberta physicians and allied health practitioners (dental specialists/oral surgeons, optometrists and podiatrists) for services provided to Albertans, and payments for services provided to Albertans while they are out of the country. The Statistical Supplement also reports data on the non-group supplementary health insurance plans.

## Data reported in the Statistical Supplement

This edition of the Statistical Supplement reports new data for the period April 1, 2011 to March 31, 2012. Where possible, data reports over a five-year period to facilitate long-term comparisons.

The majority of data are reported on a date-of-service basis, with the exception of Section 4, Non-Group Supplementary Plans, which reports data on a date-of-payment basis.

Note: Some data in the Statistical Supplement may differ from data reported in the Annual Report. The Statistical Supplement uses claims payment data, based on date of service, from the Claims Assessment System, while the Annual Report uses financial statement data, based on date of payment, from the Alberta Government Integrated Management Information System.

## Information not included in the Statistical Supplement

The following information is not included in the Statistical Supplement:

- AHCIP payments for medical and hospital services Albertans received in other Canadian provinces/territories; and
- Services and costs (e.g. hospital and home care services and costs) provided by Alberta Health Services.

The *Ministry of Health and Wellness Annual Report 2011-2012* provides a range of financial information pertaining to Alberta Health Services. A copy of the Annual Report can be found on the Health website at [www.health.alberta.ca](http://www.health.alberta.ca).

Note: This document reflects the fiscal year April 1, 2011 to March 31, 2012. Explanations of data and coverage may not be applicable for periods after March 31, 2012.

# Section 1: Registration

## Summary

This section provides statistics on the number of Albertans covered under the Alberta Health Care Insurance Plan (AHCIP) for basic health services. The tables provide registration data by age and gender, as at March 31, 2012.

## Highlights

- A total of 3,910,117 Albertans were registered for basic health coverage. This is an increase of 3.27%, compared to 2010-2011. Included in this total are 74,046 individuals who have temporary Canada entry documents (e.g. work permits, study permits) and are registered with the AHCIP, compared to 61,404 individuals in 2010-2011.
- In 2011-2012, there were 216 Albertans who chose to opt out of the AHCIP compared to 228 in 2010-2011.

## Figures and Charts

**Figure 1**  
**Distribution of Population Covered for Basic Health Services**  
**by Age and Gender as at March 31, 2012**

## Explanatory Notes

### Registrations

Alberta Health Care Insurance Plan registration data are based on the number of active registrations as at the last day of the fiscal year (March 31). Individuals registered with the AHCIP for part of the year, but not on March 31, are excluded. The number of registrations differs from the number of people covered. The number of people covered under one registration ranges from one (single coverage) to two or more (family coverage). Details regarding the number of registrations are available in Tables 1.1 and 1.2.

The population data reported in the Statistical Supplement differs from Statistics Canada provincial population estimates because:

- Health and Wellness continually updates AHCIP data.
- Persons who are temporarily absent from the province or who have left the province permanently, but retain their coverage for a period of three months (up to March 31), are included in the data.

Members of the Canadian Armed Forces, members of the Royal Canadian Mounted Police and inmates of federal penitentiaries are covered by the federal government. These groups are not entitled to AHCIP coverage and are not included in the AHCIP data. However, any of their family members who live permanently in Alberta are entitled to AHCIP coverage and are included in the data, where applicable.

### **Opting Out**

Albertans may opt out of the AHCIP at any time. These individuals and their dependants are responsible for paying all of their health care expenses. The Opt Out program is a renewable three-year term and the resident has the option to rescind their decision to opt out during this period.

### **Non-Seniors Category**

Health and Wellness provides premium-free AHCIP coverage to individuals who are under 65 years of age. Non-Group Supplementary coverage is available upon payment of a monthly premium. Section 4 provides more information on Non-Group Supplementary Plans.

### **Seniors Category**

Health and Wellness provides premium-free AHCIP and Non-Group Supplementary Plan coverage to all Alberta seniors and their dependants, regardless of income. Refer to Section 4, Non-Group Supplementary Plans, for more details about Non-Group Supplementary coverage.

### **Alberta Widows' Pension Category**

Prior to April 1, 2004, lower income widows or widowers, aged 55 to 64, could apply for financial, health care and housing assistance through Employment and Immigration's Alberta Widows' Pension plan. As of April 1, 2004, no new applications have been accepted and Employment and Immigration staff direct people who inquire about the Alberta Widows' Pension to appropriate income support programs. With no new applicants, the number of Alberta Widows' Pension recipients continues to decline.

Currently, recipients of the Alberta Widows' Pension and their eligible dependants receive AHCIP coverage and premium-free Non-Group Supplementary coverage. Refer to Section 4, Non-Group Supplementary Plans, for more details about Non-Group Supplementary coverage.

## Section 2: Basic Health Services (Physicians and Allied Health Practitioners)

### Summary

The Alberta Health Care Insurance Plan (AHCIP) provides Albertans with coverage for basic health services. These include insured services provided by physicians and dental specialists/oral surgeons and some services provided by podiatrists and optometrists. Alberta practitioners receive fee-for-service payments and/or are paid through Alternate Relationship Plans. See Table 2.17 for information about Alternate Relationship Plans.

In this section, data are primarily for fee-for-service payments. Data are organized by practitioner specialty and type of service, by patient age and gender, and by the percentage of change in schedules of benefits. Individual schedules of benefits provide details about services and fee-for-service rates payable by the AHCIP. Unless otherwise noted, pathology services are included in this fee-for-service data. Alternate Relationship Plan and Primary Care Network data are reported separately in Tables 2.17 and 2.21.

### Highlights

- In Alberta, 7,015 physicians and 837 allied health practitioners received fee-for-service payments from the AHCIP during 2011-2012.
- The physician to population ratio for physicians (excluding pathologists) who submitted fee-for-service claims increased to 1.79 per 1,000 persons, up from 1.78 per 1,000 patients.
- Of the 3,910,117 Albertans registered for coverage with the AHCIP, 80.44% (3,145,227 people) received at least one fee-for-service physician service during 2011-2012.
  - A total of 61.76% of these patients received fee-for-service physician services valued at \$500 or less.
  - 19.97% of these patients received fee-for-service physician services valued at more than \$1,000. Payments for these patients' services accounted for 67.38% of all fee-for-service payments to physicians.
- Office visits (assessments) and consultations accounted for 50.01% of the fee-for-service payments made to Alberta physicians in 2011-2012. These services accounted for 77.16% of the fee-for-service payments made to general/family physicians.
- 17.32% of Alberta's population, (677,314 people), obtained allied health services (services provided by dental specialists/oral surgeons, optometrists and podiatrists) in 2011-2012.
- Health and Wellness spent \$53,094,035 on optometry and podiatry services in 2011-2012. Coverage for these services is not required by the *Canada Health Act*.
- A total of \$18,215,775 was spent on optometry care for Alberta's children in 2011-2012.

- The AHCIP paid fee-for-service totalling \$2,509,547,261 to Alberta physicians and allied health practitioners in 2011-2012. This figure represents a 6.54% increase compared to 2010-2011.
- In 2011-2012, the average total fee-for-service payment per Alberta physician was \$349,274 (2.29% higher than it was in 2010-2011). This brought the median payment to \$282,214 (an increase of 1.02% compared to 2010-2011).
- A total of 1,423 physicians each received more than \$500,000 in fee-for-service payments in 2011-2012. This represents an increase of 119 physicians compared to 2010-2011. Of the 1,423 physicians, 422 were general/family physicians, an increase of 31 over 2010-2011.
- Of the 1,423 physicians, a total of 272 physicians each received more than \$1 million in fee-for-service payments in 2011-2012. Fifty (50) of the 272 physicians received more than \$2 million. In 2010-2011, there were 243 physicians who received more than \$1 million and 42 received more than \$2 million in fee-for-service payments.
- In 2011-2012, a total of 1,717 physicians participated in Alternate Relationship Plans, up from 1,688 in 2010-2011. A total of \$277,289,363 was spent on Alternate Relationship Plan expenditures.
- Forty (40) Primary Care Networks operated in the five continuum health zones as of March 31, 2012, up from 39. These 40 Primary Care Networks involved a total of 2,483 physicians who provided services to 2,806,926 patients.

## Charts and Figures

<b>2011 - 2012 Fee-For-Service Payments and Percentage Change</b>		
<b>Practitioner Type</b>	<b>Overall Fee-For-Service Payments</b>	<b>Percentage Change from 2010/2011 to 2011/2012</b>
<b>Physicians*</b>	\$2,450,159,476	6.41
<b>Dental Specialists/Oral Surgeons</b>	6,293,750	9.51
<b>Optometrists</b>	43,307,665	13.58
<b>Podiatrists</b>	9,786,370	6.19
<b>Total</b>	<b>\$2,509,547,261</b>	<b>6.54</b>

\*\$7.8 million of the overall payments made by the AHCIP to physicians were for pathology services (see Explanatory Notes).

<b>Practitioner Type</b>	<b>Average Fee-For-Service Cost/Patient</b>	<b>Percentage Change from 2010/2011 to 2011/2012</b>
Physicians	\$779.01	3.83
Dental Specialists/Oral Surgeons	461.99	5.63
Optometrists	73.60	3.37
Podiatrists	94.98	3.02
<b>Total based on averages</b>	<b>\$778.92</b>	<b>3.89</b>

**Figure 4**  
**Average Number of Services per Person**  
**for Basic Health Services**  
**for the Fiscal Years Ended March 31, 2008 to March 31, 2012**

**Explanatory Notes**

**Expenditure Location**

Unless stated otherwise, the tables in Section 2 represent Alberta practitioner data. Hospital and non-hospital surgical facility costs are not reported in this Statistical Supplement, with the exception of select out-of-country hospital services, which are reported in Tables 2.18 to 2.20.

**Pathology Services**

Alberta Health Services pays for most laboratory services. A few select pathology services, such as minor consultations, electrocardiograms (technical) and skin tests, are paid for by the AHCIP.

Pathologists often submit fee-for-service claims through organizations rather than as individuals, so data about them is not directly comparable to those of other physicians. These statistics are listed separately whenever possible to allow for year-over-year comparisons.

### **Payments Do Not Reflect Income**

These statistics cannot be used as an accurate measure of a practitioner's personal income. The figures quoted are payments from which practitioners may pay business expenses, such as office and staff expenses, and payments reported in this document do not depict other sources of income or benefit programs which may include some of the following:

- Workers' Compensation Board, third party medicals, and for services not covered by the AHCIP;
- salaried positions and contractual arrangements with Alberta Health Services or private employers;
- payments for services rendered to non-Albertans are not included;
- Alternate Relationship Programs: Sessional, Contractual, Academic, Capitation;
- Medical Liability Reimbursement Program;
- Retention Benefit Program;
- Continuing Medical Education Benefit Program;
- Physician On-Call Program that compensates physicians being on-call;
- Clinical Stabilization Initiative that provides funding for business expenses and retention of physicians;
- The Physician Office System Program that provides funds for electronic office equipment;
- Performance and Diligence Indicator Fund that compensates family physicians who meet specific performance targets;
- Compassionate Expense Program;
- Parental Leave Program;
- Federal Government Funding: e.g. travel to and from reserves for First Nation services; and
- through per capita funding of Primary Care Networks.

Under special circumstances, physicians may also claim and be paid for services provided by medical residents and nurses they supervise, and for diagnostic services provided by technicians.

### **Physician Data**

Data in this section include all Alberta physicians who had fee-for-service payments of one dollar or more in 2011-2012. When physicians have multiple specialties, they have been counted in the specialty where they received the highest fee-for-service payments.

Alternate Relationship Plan data are reported separately from fee-for-service data (Table 2.17).

Over the past five years, a number of manual payments have been made.

Manual payments totalling \$37,704,829 made to Alberta physicians for the service period April 1, 2007 to June 30, 2007, are not included in the data. These payments were made to address the 4.50% fee increase negotiated through the *Master Agreement* implemented retroactively to April 1, 2007.

Manual payments totalling \$57,264,523 made to Alberta physicians for the service period April 1, 2008 to March 31, 2009, are not included in the data. These payments were made as part of the 4.90% fee increase negotiated through the *Master Agreement*.

Manual payments totalling \$2,974,824 made to Alberta physicians for the service period April 1, 2009 to March 31, 2010, are not included in the data. These payments were made as part of the 5.00% fee increase negotiated through the *Master Agreement*.

The Clinical Stabilization Initiative is part of the *Amending Agreement to the Tri-Lateral Master Agreement* for physicians. Effective September 1, 2007, the Clinical Stabilization Initiative was established to address three specific emergent issues:

- Business Cost Program - addresses the rising cost of medical practices in Alberta
- Rural Remote Northern Program - addresses the challenges of recruiting physicians to live and practise in rural, remote and northern areas of the province
  - Communities in Crisis - addresses the challenges of recruiting physicians to live and practise in communities in crisis

Manual payments for the Clinical Stabilization Initiative, totalling \$53,527,896 made to Alberta physicians for the service period September 1, 2007 to March 31, 2008, are not included in the data.

Manual payments for the Clinical Stabilization Initiative, totalling \$90,652,998 made to Alberta physicians for the service period April 1, 2008 to March 31, 2009, are not included in the data.

Manual payments for the Clinical Stabilization Initiative, totalling \$96,490,752 made to Alberta physicians for the service period April 1, 2009 to March 31, 2010, are not included in the data.

Manual payments for the Clinical Stabilization Initiative, totalling \$97,789,200 made to Alberta physicians for the service period April 1, 2010 to March 31, 2011, are not included in the data.

Manual payments for the Clinical Stabilization Initiative, totalling \$104,491,989 made to Alberta physicians for the service period April 1, 2011 to March 31, 2012, are not included in the data.

### **Practitioner**

Practitioner refers to physicians and allied health practitioners (dental specialists/oral surgeons, optometrists and podiatrists) who received fee-for-service payments from the AHCIP.

### **Reporting Dates**

Data are reported on a date-of-service rather than a date-of-payment basis. Practitioners have 180 days from the date of service to submit claims to the AHCIP for payment.

### **Number of Services**

Some health services listed in the schedules of benefits are paid based on time units. Where applicable, the number of services reported will be the number of time units paid.

### **Types of Service**

The types of service reported in the fee-for-service payment tables are based on the health service codes from the relevant schedules of benefits and include all payments made for the service regardless of the practitioner's role.

### **Optometry Services**

Alberta children (18 years of age and younger) and residents who are 65 years of age and older are entitled to one complete eye exam, one partial eye exam, and one diagnostic test each year. Additional services are paid when specific medical conditions exist or if a physician refers a patient in these age groups to an optometrist. Effective October 1, 2007, coverage was expanded to include certain medically necessary eye care services for 19 to 64 year olds. Routine eye exams for Albertans 19 to 64 years of age are not covered by the AHCIP.

Manual payments totalling \$911,581 made to Alberta optometrists for the service period April 1, 2007 to September 30, 2007, are not included in the data. These payments were made to address the 8.70% increase negotiated through the *Master Agreement* and implemented retroactively to April 1, 2007.

Manual payments totalling \$3,023,303 made to Alberta optometrists for the service period April 1, 2008 to February 28, 2009, are not included in the data.

Manual payments totalling \$168,770 made to Alberta optometrists for the service period April 1, 2009 to March 31, 2010, are not included in the data.

### **Podiatry Services**

Podiatry services covered by the AHCIP are paid at a set rate per service (as detailed in the Schedule of Podiatry Benefits), with a maximum annual benefit per patient of \$250.

On June 1, 2006, a new Schedule of Podiatric Surgery Benefits was implemented. Services under the new schedule are fully covered by the AHCIP, if the surgeries are provided by a podiatrist in a hospital or non-hospital surgical facility under contract to Alberta Health Services.

### **Chiropractic Services**

As of July 1, 2009, chiropractic services were no longer covered under the AHCIP. Tables 2.1, 2.4, 2.6, 2.7 and Figure 4 have been recalculated to exclude chiropractic data from 2007 to 2009 for ease of year-to-year comparison.

*Continued...*

- (1) The average payments and percentage change for fee-for-service reflect the fact that some physician specialties are now being paid primarily through Alternate Relationship Plans rather than through fee-for-service claims. Due to the change in payment method, average and median payments for these specialties have not been provided.
- (2) Other General Practice Physicians refers to community medicine, geriatric medicine and occupational medicine.

- Radiology	8.74	10.98	3.92	(4.38)

Note: This table reflects fee-for-service data only.

(1) The average payments and percentage change for fee-for-service reflect the fact that some physician specialties are now being paid primarily through Alternate Relationship Plans rather than through fee-for-service claims. Due to the change in payment method, average and median payments for these specialties have not been provided.

(2) Other General Practice Physicians refers to community medicine, geriatric medicine and occupational medicine.

Urology	48	46.8	37.5	39.6	579,073	83,623

Note: This table reflects fee-for-service data only.

(1) The average payments and percentage change for fee-for-service reflect the fact that some physician specialties are now being paid primarily through Alternate Relationship Plans rather than through fee-for-service claims. Due to the change in payment method, average and median payments for these specialties have not been provided.

(2) Full-Time Equivalent methodology is as follows:

Definition of a Full-Time Equivalent Physician: The definition is based on the methodology developed in 1984 by Health Canada.

Step 1 - Within each specialty or group of specialists, rank the amounts paid in ascending order; the lower and upper benchmarks are the payment values which correspond to the 40th and 60th percentile for those physicians with claims in all four quarters of the fiscal year.

Step 2 - Count all physicians with payments within the lower and upper benchmark as one full-time equivalent.

- Count all physicians with payments below the lower benchmark as a fraction of a full-time equivalent equal to the ratio of his/her payments to the lower benchmark.

- Count all physicians with payments above the upper benchmark using a log-linear relationship, as one full-time equivalent plus the natural logarithm of the ratio of his/her payments to the upper benchmark. The reason for attributing diminishing weight to payments above the upper benchmark is to prevent outliers from seriously biasing the measure. This is not necessary on the lower benchmark because payments less than zero are not recorded and, as such, a natural barrier exists to prevent bias at the lower end.

- Since the benchmarks for the calculations of full-time equivalents in past Statistical Supplements are re-calculated based on the payments within each given year, and payments over time are not adjusted for fee changes, the full-time equivalents in this table should not be compared with those released in previous versions of the Statistical Supplement.

(3) Laboratory physicians (19 Pathology and 329 Radiology physicians) and 3 Endocrinology/Metabolism physicians are excluded.

(4) Other General Practice Physicians refers to community medicine, geriatric medicine and occupational medicine.

### Alternate Relationship Plans

The 2003 *Tri-Lateral Master Agreement* between Health and Wellness, Alberta Health Services, and the Alberta Medical Association was in effect until March 31, 2011. Innovative health delivery models are funded using agreements known as Alternate Relationship Plans.

The purpose of Alternate Relationship Plans is to provide physician funding models other than fee-for-service that promote innovation in clinical service delivery, improved patient care, and/or enhance practitioner satisfaction. The intent of the Alternate Relationship Plans is to advance the following:

- recruitment and retention of physicians,
- team-based approach to service delivery,
- access to health services for Albertans,
- patient satisfaction, and
- value for money.

## Model Type Definitions

### Clinical Alternate Relationship Plans

At present, there are 45 Clinical Alternate Relationship Plans that use three working models for funding physician services, which are:

- Capitation Alternate Relationship Plan – This model is used in two Alternate Relationship Plans for the provision of family medicine or primary health care. Physician payment is based on a pre-determined amount per patient, per annum within a defined basket of insured health service codes.
- Annualized Alternate Relationship Plan – This model is used in 27 Alternate Relationship Plans for specialized health service delivery to targeted patient groups. Physician payment is based on a pre-negotiated amount for delivery of insured health services per full-time equivalent physician per annum.
- Sessional Alternate Relationship Plan – This model is used in 16 Alternate Relationship Plans for physician services delivered part-time. Physician payment is based on an hourly rate for the delivery of insured health services within an organized program to a defined patient group.

### Academic Alternate Relationship Plans

Academic Alternate Relationship Plans are funding arrangements that provide alternate compensation under a contractual model for clinical practice and conditional grant funding to compensate physicians for their teaching, administrative and research roles. These agreements have been successful in:

- attracting and retaining needed specialists to the province,
- supporting innovative clinical practice, and
- enhancing the quality of Alberta's medical education and research.

Ten Academic Alternate Relationship Plans have been implemented in Alberta. Academic Alternate Relationship Plans involve the following: the Universities and Faculties of Medicine, the participating physicians, Health and Wellness, Alberta Health Services, the Alberta Medical Association, other funding bodies, and related ministries such as Advanced Education and Technology.

**Table 2.17**  
**Alternate Relationship Plans (ARP) Summary by Type**  
**For the Service Year April 1, 2011 to March 31, 2012**

	General Practitioners	Specialists	Expenditures <sup>(1)</sup>
Clinical ARPs	744	188	109,668,495
Academic ARPs	78	707	167,620,868
<b>Total <sup>(2)</sup></b>	<b>822</b>	<b>895</b>	<b>\$277,289,363</b>
<b>Total ARP Physicians</b>	<b>1,717</b>		

(1) Expenditures for the 2011-2012 Fiscal Year as of August 31, 2012 and payments associated with the Clinical Stabilization Initiative are not included.

(2) Physician count is not discrete between Clinical and Academic Alternate Relationship Plans.

## Out-of-Country Health Coverage

Health and Wellness provides two sources of funding for Albertans who wish to receive insured medical treatment outside Canada: application through the Alberta Health Care Insurance Plan (AHCIP) or through the Out-of-Country Health Services Committee.

The AHCIP provides only limited physician and hospital costs outside of Canada.

Insured physician services received outside Canada are paid at the lesser of the amount claimed or the rate an Alberta physician or dentist would be paid for that service. The rate for in-patient hospital services is \$100 (Canadian) per day. The outpatient rate is \$50 (Canadian) per day.

As of July 1, 2006 coverage for out-of-province and out-of-country podiatric, chiropractic and optometric services was discontinued.

The Committee considers applications for funding of insured medical, oral surgical and/or hospital services that are not available in Canada.

The Committee is independent, and operates at arm's length from Health and Wellness. On August 1, 2011, the *Out-of-Country Health Services Regulation* was amended, based on recommendations from the Alberta Ombudsman. Applications to this committee can only be made by an Alberta physician or dentist on an Albertan's behalf.

Committee decisions can be appealed in writing to the Out-of-Country Health Services Appeal Panel which also operates at arm's length from Health and Wellness. The Albertan or applying physician/dentist may register an appeal.

<b>Total</b>	<b>39,593</b>	<b>13,753</b>	<b>\$2,358,315</b>	<b>25,868</b>	<b>8,158</b>	<b>\$1,647,293</b>	<b>13,725</b>	<b>5,655</b>	<b>\$711,021</b>

Note: This table reflects fee-for-service data only.

This table provides restated figures for service year April 1, 2010 to March 31, 2011 due to a change in the methodology of capturing the out of country claim process. The change now includes a one year lag from the fiscal year end to date of payment for more precise data.

(1) Number of Discrete Patients is a discrete overall patient count and not a sum.

(2) Does not include physician services which were paid under the Out-of-Country Health Services Program.

## Primary Care Networks

Primary Care Networks are formed through formal arrangements between groups of primary care physicians and Alberta Health Services. Primary Care Networks are organized to deliver a wide range of primary care services. They have the flexibility to design local programs that meet the needs of patients in the community, while working within the provincial framework.

Primary Care is defined as the first point of contact with the health system, where health services are mobilized and co-ordinated to promote health, prevent and care for illness, and manage ongoing problems.

The goals of Primary Care Networks are to:

- improve access to primary care services for more Albertans,
- manage access to appropriate round-the-clock primary care services,
- increase the focus on health promotion and disease prevention, and on care for patients with medically complex problems or chronic illnesses,
- improve coordination and integration of primary care services with hospital, long-term and specialty care, and
- foster a multi-disciplinary team approach to providing primary care.

The first Primary Care Network to launch in Alberta was Edmonton Southside Primary Care Network on May 1, 2005. As of March 31, 2012, there are 40 Primary Care Networks.

**Table 2.21**

Sexsmith/Spirit River	North Zone (Zone 5)	7	10,425	\$520,075
St. Paul/Aspen	North Zone (Zone 5)	31	38,365	\$1,922,925
West Peace	North Zone (Zone 5)	7	9,762	\$479,350
Wood Buffalo	North Zone (Zone 5)	29	59,268	\$2,922,000
<b>Total</b>		<b>2,483</b>	<b>2,806,926</b>	<b>\$137,511,125</b>

- (1) The term Primary Care Physician includes both family physicians and general practitioners. Physicians participating in Primary Care Networks continue to be compensated for insured medical services using either fee-for-service or existing alternate payment arrangements.
- (2) Informal enrollment is based on a default method of calculating one patient encounter with a Primary Care Network health service provider at a Primary Care Network service delivery location for services in the past three years. Informal enrolment is based on assignment of discrete patients to Primary Care Networks based on overall volume of care to a single provider.
- (3) Primary Care Networks receive a capitation payment up to \$50 per patient, per year.

# Section 3: Regional Data

## Summary

As of May 15, 2008, the Alberta Health Services Board became the common governance board responsible for the delivery of health services previously provided by the nine regional health authorities, the Alberta Cancer Board, the Alberta Alcohol and Drug Abuse Commission, and the Alberta Mental Health Board.

Alberta Health Services has divided Alberta into five continuum zones for ease of management of the delivery of health care services. The five health zones are loosely related to the former health regions as follows:

South Zone	(Zone 1):	Chinook Regional Health Authority Palliser Health Region
Calgary Zone	(Zone 2):	Calgary Health Region
Central Zone	(Zone 3):	David Thompson Regional Health Authority East Central Health
Edmonton Zone	(Zone 4):	Capital Health
North Zone	(Zone 5):	Aspen Regional Health Authority Peace Country Health Northern Lights Health Region

This section provides practitioner fee-for-service data broken down by the five zones.

Alberta Health Services is responsible for hospitals, continuing care facilities, community health services and public health programs in Alberta. Alberta Health Services works with communities to deliver health services, including mental health services, to local residents. Information about services and costs for Alberta Health Services is in the *Ministry of Health and Wellness Annual Report 2011-2012*. Performance measures and financial information for 2011-2012 is reported based on the boundaries of the former regions and boards.

## Highlights

- A total of 38.48% of physician fee-for-service expenditures were for services received in Edmonton Zone (Zone 4); 38.04% for services received in Calgary Zone (Zone 2) and the balance, 23.48%, for services received in the other three zones.
- In Alberta, 89.49% of payments for services received by patients were provided in the health zone where the patient resides.

Figures and Charts

## **Explanatory Notes**

### **Number of Practitioners**

The figures shown for the number of practitioners in a geographic zone are based on the number of practitioners who received fee-for-service payments for services provided in that particular zone. A practitioner may work in several zones and will have been counted in each zone where he/she provided services.

### **Number of Services**

Some health services listed in the schedules of benefits are paid based on time units. Where applicable, the number of services reported will be the number of time units paid.

### **Health Boundary Changes**

Health boundaries are subject to change; therefore, year-over-year comparisons by zones should be interpreted with caution. The map on continuum health zones shows the current five continuum zones that were put in place on May 15, 2008.

### **Service Location and Recipient Location**

Data in this section are provided on a service location basis. Patients from rural and remote zones often travel to larger urban centres in other zones to receive services. This has an effect on statistics for health services and payments for both zones involved. This is illustrated in Table 3.2, which shows payments to physicians based on both service location and recipient location. Recipient location data are for the geographic zone where the patient lived on the date of service.

**Table 3.1**  
**Distribution of Population Covered by Alberta Health Services Geographic Zone**

## Section 4: Non-Group Supplementary Plans

### Summary

Non-Group supplementary health plans provide coverage for prescribed drugs and selected health services. These supplementary health plans are funded by Health and Wellness and administered by Alberta Blue Cross.

Albertans under the age of 65 can purchase Non-Group coverage. A reduced premium rate is available to Albertans with lower incomes; premium-free coverage is offered to seniors and their dependants, and to recipients of the Alberta Widows' Pension Program and their dependants. Premium-free drug coverage is also provided to people who have been diagnosed as being palliative and receive their health care at home rather than at a hospital.

The government-sponsored Non-Group supplementary health plans are collectively referred to as "non-group" plans to distinguish them from the "group" or employer-sponsored and individual supplementary benefit plans available through Alberta Blue Cross and other insurers.

The data in this section include the number of persons covered by level of premium payment, by age and gender, and by types of services (ambulance, drugs, hospital accommodation or other). Information is also provided about the number, types and costs of drug prescriptions, and the top 10 drug expenditures.

### Highlights

- In 2011-2012, the number of Albertans who were covered under Non-Group supplementary plans increased to 572,206, an increase of 2.07% compared to 2010-2011.
- The number of persons covered through full premium rates was 84,893 (14.84% of the total Non-Group membership).
- A total of 14,138 people (2.47% of the total Non-Group membership) received non-group coverage at reduced premium rates.
- A total of 473,175 people (82.69% of total Non-Group membership) received their coverage premium-free.
- Almost \$740 million was paid for benefits under the Non-Group supplementary plans in 2011-2012, an increase of 1.11% compared to 2010-2011.
- More than \$573 million was paid for benefits for seniors and their dependants in 2011-2012. These payments accounted for 77.56% of the total amount spent on the Non-Group supplementary plans.
- Drugs accounted for more than \$712 million or 96.34% of total Non-Group benefit expenditures. Ambulance services accounted for over \$26 million or 3.61% of the total.

- Over the past five years significant savings have been realized through generic price reductions. The savings resulted from a lowering of the price threshold for listing and patent expiry for key molecules. These generic savings have slowed the growth in total program expenditures.
- In conjunction with lower generic drug pricing, the \$3 per prescription Transition Allowance paid to pharmacies that was introduced in April 2010 to allow the industry time to adjust to lower generic drug pricing, was decreased to \$2 in April 2011. This allowance will further decrease to \$1 in April 2012 and \$0 in April 2013.
- In 2011-2012, the 10 highest expenditure drugs were used to treat common chronic conditions including:
  - Age-related Macular Degeneration treated using Lucentis.
  - Rheumatoid arthritis/Crohn's Disease treated using Remicade.
  - Rheumatoid arthritis/psoriasis treated using Humira.
  - Rheumatoid arthritis/psoriasis treated using Enbrel.
  - High cholesterol conditions treated using Crestor.
  - Prevention of heart attack and stroke treated using Plavix.
  - Chronic Obstructive Pulmonary disease treated using Spiriva.
  - Multiple Sclerosis treated using Copaxone.
  - Asthma treated using Symbicort Turbuhaler.
  - Obstructive airways diseases using Advair.

### Premium Subsidy Program

Eligibility for the Premium Subsidy Program is based on the applicant's family category and the taxable income of the applicant and his/her spouse or partner (if applicable) for the year which precedes the subsidy period. A subsidy period runs from April 1 of one year to March 31 of the following year.

Family category (shown below) is determined based on whether or not the applicant is single (one person) or family (two or more people) with a spouse/partner and/or children on the registration account.

<b>2011 - 2012 Premium Subsidy Thresholds</b>	
<b>Family Category</b>	<b>Full Premiums</b>
<b>Single</b>	over \$20,970
<b>Family - no children</b>	over \$33,240
<b>Family - with children</b>	over \$39,250

### Explanatory Notes

#### Data

Data in this section are provided by Health and Wellness (Tables 4.1 - 4.3), Alberta Blue Cross (Figure 6, Tables 4.4 - 4.5 and Tables 4.7 - 4.9), and the Alberta College of Pharmacists (Table 4.6).

#### Non-Group Supplementary Coverage Parameters

Non-Group coverage includes drugs and selected health services such as: some ambulance services; clinical psychological services; some home nursing care; prosthetic and orthotic benefits; and mastectomy prostheses. Coverage for private or semi-private hospital accommodation is included in the plan offered to Albertans under the age of 65 and their eligible dependants. The Alberta Health Drug Benefit List defines the drugs that are covered by the Non-Group Supplementary plans.

Note: The subtotals/totals across tables may not match due to rounding.

- (1) A blank cell represents a zero value.  
(2) Number of prescriptions represents the number of transactions reported by Alberta Blue Cross.  
(3) The sum of net payments may not match the sub-totals or totals due to rounding.  
(4) Refers to drugs available only with a prescription.  
(5) Refers to an otherwise over-the-counter drug type which has been prescribed for these members.  
(6) Adjustments refer to retroactive transactions (e.g. coverage effective dates and cancellations, refunds, etc.).

(1) Number of Prescriptions represents the number of transactions reported by Alberta Blue Cross.

(2) Co-Payment represents the portion of the prescription cost the recipient pays when a prescription is filled.

(3) Coordination of Benefits represents amounts paid by other supplementary health plans. Coordination of Benefits would apply in situations where a person submits a claim to more than one supplementary health plan.

(4) Gross Cost = Net Payment + Co-Payment + Coordination of Benefits.

(5) Only those devices used with prescription drugs.

(6) Negative payments represent adjustments and/or reversals of claim payments.

(7) The sums of the columns may not match the totals due to rounding.

<b>Total <sup>(10)</sup></b>	<b>13,793,927</b>	<b>\$710,973,501</b>	<b>\$140,425,239</b>	<b>\$30,825,586</b>	<b>(\$23,701)</b>	<b>\$882,200,624</b>	<b>\$153,683,503</b>	<b>\$19,401,279</b>	<b>\$709,115,843</b>

(1) A direct bill claim is submitted for payment directly to Alberta Blue Cross by the pharmacy.

(2) Number of Prescriptions represents the number of transactions reported by Alberta Blue Cross.

(3) The Dispensing Fee is the portion of the overall prescription cost that covers pharmacists' professional services and business overhead.

(4) Additional Inventory Allowance is an additional fee paid to pharmacies to compensate for a portion of their inventory management.

(5) Adjustments refer to retroactive transactions (e.g. coverage effective dates and cancellations, refunds, etc.)

(6) Gross Cost [E] = [A] + [B] + [C] + [D]

(7) Co-Payment represents the portion of the prescription cost the recipient pays when the prescription is filled.

(8) Coordination of Benefits represents amounts paid by other supplementary health plans. Coordination of Benefits would apply in situations where a person submits a claim to more than one supplementary health plan.

(9) Net Payment [H] = [E] - [F] - [G]

(10) The sums of the columns may not match the totals due to rounding.

# Glossary/Definitions

## **Alberta Health Care Insurance Plan (AHCIP)**

A non-profit, publicly funded plan administered and operated by Health and Wellness under the *Alberta Health Care Insurance Act* and its regulations. The AHCIP pays for insured physician and dental specialist/oral surgical services and some services provided by optometrists and podiatrists to eligible residents of Alberta.

## **Allied Health Services**

Services provided by dental specialists/oral surgeons, optometrists and podiatrists, and funded by the AHCIP. Some fees for allied health services may exceed the coverage provided by the AHCIP in which case the individual patient is responsible for the difference.

## **Alternate Relationship Plan**

A plan that provides physicians with an alternative to the traditional fee-for-service payment method and provides physicians with flexibility in the way they provide care. An Alternate Relationship Plan enables a team-based approach and promotes improved access to care, patient satisfaction and the recruitment/retention of physicians.

## **Basic Health Services**

Insured services provided by physicians and dental specialists/oral surgeons as well as a number of services provided by optometrists and podiatrists.

## **Blank Cell**

Represents a zero value.

## **Bracketed Data**

Bracketed data ( ) indicates negative figures.

## **Clinical Stabilization Initiative**

Established in the 2006 *Amending Agreement to the Tri-Lateral Master Agreement* and includes: the Rural Remote Northern Program; the Business Cost Program; and the Communities in Crisis Program. The purpose of the Rural Remote Northern Program is to improve physician recruitment and retention in underserved areas by providing physician incentive programs. The Business Cost Program is intended to help physicians with the rising costs associated with running community offices by paying a flat bonus on top of each office-based or consultative service provided by all physicians in any community in Alberta. The Communities in Crisis Program addresses the challenges of recruiting physicians to live and practise in communities in crisis.

## **Discrete Count**

The discrete items are only counted once.

## **Discrete Patients**

The number of individuals registered with the AHCIP who received at least one basic health service paid on a fee-for-service basis by the AHCIP. Discrete patients are only counted once. Individuals who are registered with the AHCIP but did not receive any services in the current year are not included in the discrete fee-for-service patient count, but are included in the registration data. Unless otherwise noted, the data in the Statistical Supplement are based on the number of discrete patients.

**Discrete Service Providers**

The number of practitioners who provided at least one service payable under the AHCIP. Discrete service providers are only counted once.

**Double Dash (--)**

Represents a non-zero value; actual value was too small to be shown.

**FP**

Family Physician.

**FTE**

Full-time equivalent.

**Fee-for-Service**

A standard business model in which services are unbundled and paid for separately. In the health insurance and health care industry, fee-for-service refers to practitioner payments for individual services such as office visits, procedures or other health services.

**Fiscal Year**

April 1 of one year to March 31 of the following year.

**GP**

General Practitioner.

**Health Zones**

Alberta is divided into five continuum zones for the ease of management of the delivery of health care services by Alberta Health Services.

**Insured Services**

Physician and dental specialist/oral surgeon services as defined by the *Canada Health Act* and the *Alberta Health Care Insurance Act*.

**Medical Assessments**

Primarily office visits and consultations.

**Medical Services**

Services provided by a physician.

**N/A**

Not available.

**n.a.**

Not applicable.

**Net Payment**

The total amount paid by Health and Wellness through Non-Group Supplementary plans.

**Nil**

No change.

**Non-Group Supplementary Plans**

Supplementary health services coverage administered by Alberta Blue Cross on behalf of Health and Wellness for prescription drugs and selected health services.

**Number of Services**

Some health services listed in the schedules of benefits are paid based on time units. Where applicable, the number of services reported in the tables is the number of time units paid.

**Practitioner**

Licensed health care provider who is registered with the AHCIP and provides basic health services.

**Practitioner Payments**

Gross fee-for-service practitioner payments made by the AHCIP for basic health services. Represents neither the total income nor the net income of a practitioner. Unless otherwise stated, payment data are reported on a date-of-service basis and include only fee-for-service payments to Alberta practitioners for services provided to Alberta residents.

**Primary Care Network**

A network of family physicians that uses a team approach with other health care professionals to coordinate primary care for their patients. A Primary Care Network receives program funding in addition to fee-for-service.

**Recipient Location**

The health zone where the person who received the health service lived at the time of service based on AHCIP registration data.

**Registration**

The number of single and family accounts registered with the AHCIP; one person (as in single coverage) or two or more people (as in family coverage).

**Registered/Insured Persons**

Alberta residents insured under a program and therefore entitled to receive benefits.

**Schedules of Benefits**

Schedules of practitioner services and fee-for-service rates paid by the AHCIP. Includes the general rules, procedure list, fee modifier definitions, price list and explanatory codes. The Statistical Supplement includes data for five distinct benefits schedules (medical, oral and maxillofacial surgery, optometry, podiatric surgery and podiatry).

**Service Location**

The health zone where a health service was provided.

## Year at a Glance

	2010-2011	2011-2012
Total Albertans covered under the Alberta Health Care Insurance Plan	3,786,238	3,910,117
Non-seniors	3,334,646	3,437,113
Seniors	451,592	473,004
Amount paid to Alberta practitioners (fee-for-service)	\$2,355,575,749	\$2,509,547,261
Physicians	\$2,302,481,210	\$2,450,159,476
Allied Health Practitioners	\$53,094,539	\$59,387,785
Average annual fee-for-service payment		
All Physicians (except Pathology)	\$341,444	\$349,274
All Specialists (except General/Family Physicians and Pathology)	\$432,414	\$443,323
General/Family Physicians	\$270,211	\$274,624
Number of practitioners who submitted fee-for-service claims	7,534	7,852
Physicians (including General Practitioners) <sup>(1)</sup>	6,743	7,015
General Practitioners	3,770	3,907
Dental Specialists/Oral Surgeons	207	218
Optometrists	524	557
Podiatrists	60	62
Number of physicians by gross payment range (fee-for-service) <sup>(2)</sup>		
Less than \$500,000	5,439	5,592
More than \$500,000	1,304	1,423
More than \$1 million	243	272
More than \$2 million	42	50
Alternate Relationship Plans		
Total Expenditures	\$271,259,255	\$277,289,363
Total Alternate Relationship Plans	57	55
Total Physicians <sup>(1)</sup>	1,688	1,717
Primary Care Networks		
Total Payments	\$125,237,697	\$137,511,125
Total Primary Care Networks	39	40
Total Physicians <sup>(1)</sup>	2,216	2,483
Total Patients Enrolled	2,553,384	2,806,926

(1) Fee-for-service, alternate relationship plan and primary care network total physicians cannot be added together to obtain a total physician count as alternate relationship plan and primary care network physicians may or may not already be included in the fee-for-service physician count.

(2) These statistics cannot be used as an accurate measure of a practitioner's personal income, because they do not depict other sources of income and the figures quoted are payments from which practitioners pay business expenses, such as office and staff expenses.

	<b>2010-2011</b>	<b>2011-2012</b>
Allied health services provided (fee-for-service)		
Total Number of Services Provided	1,013,407	1,112,167
