Introduction

The Alberta Health Care Insurance Plan

The Alberta Health Care Insurance Plan (AHCIP) is a publicly-funded health care plan. It is established in accordance with the *Canada Health Act* principles of public administration, comprehensiveness, universality, portability and accessibility.

The AHCIP provides two types of coverage to Albertans. They are:

- Basic health coverage for insured services provided by physicians, dental specialists/oral surgeons and hospitals, and limited coverage for services provided by optometrists and podiatrists. All residents of Alberta are required to register for AHCIP coverage, but residents have the option to opt out.
- Supplementary health insurance through non-group supplementary plans for pharmaceutical and selected health service coverage. The supplementary plans included in this report cover some services beyond those insured by the AHCIP, which are funded by Alberta Health and Wellness and administered by Alberta Blue Cross. From April 1, 2010 to March 31, 2011, coverage was available to all Albertans under the age of 65 and their dependants, subject to the payment of a monthly premium. During the same period, premium-free coverage was provided to seniors and their dependants, and to recipients of the Alberta Widows' Pension and their dependants. In addition, premium-free drug coverage was provided to people diagnosed as being palliative and who received health care in their homes.

Information included in the Statistical Supplement

The Statistical Supplement is an accompaniment to the *Alberta Ministry of Health and Wellness Annual Report 2010/2011* and includes data on the number of people registered with the AHCIP, payments made by the AHCIP to Alberta physicians and allied practitioners (dental specialists/oral surgeons, optometrists and podiatrists) for services provided to Albertans, and payments for services provided to Albertans while they are out of the country. The Statistical Supplement also reports data on the non-group supplementary health insurance plans.

Data reported in the Statistical Supplement

This edition of the Statistical Supplement reports new data for the period April 1, 2010 to March 31, 2011. Where possible, data reports over a five-year period to facilitate long-term comparisons.

The majority of data are reported on a date-of-service basis, with the exception of Section 4, Non-Group Supplementary Plans, which reports data on a date-of-payment basis.

Note: Some data in the Statistical Supplement may differ from data reported in the Annual Report. The Statistical Supplement uses claims payment data, based on date-of-service, from the Claims Assessment System, while the Annual Report uses financial statement data, based on date-of-payment, from the Alberta Government Integrated Management Information System.

Information not included in the Statistical Supplement

The following information is not included in the Statistical Supplement:

- AHCIP payments for medical and hospital services Albertans received in other Canadian provinces/territories; and
- Services and costs (e.g. hospital and home care services and costs) provided by Alberta Health Services.

The *Alberta Ministry of Health and Wellness Annual Report 2010/2011* provides a range of financial information pertaining to Alberta Health Services. A copy of the Annual Report can be found on the Alberta Health and Wellness website at www.health.alberta.ca.

Note: This document reflects the fiscal year April 1, 2010 to March 31, 2011. Explanations of data and coverage may not be applicable for periods after March 31, 2011.

Section 1: Registration

Summary

This section provides statistics on the number of Albertans covered under the Alberta Health Care Insurance Plan (AHCIP) for basic health services. The tables provide registration data by age and gender, as at March 31, 2011.

Highlights

- A total of 3,786,238 Albertans were registered for basic health coverage. This is an increase of 2.55%, compared to 2009/2010. Included in this total are 61,404 individuals who have temporary Canada entry documents (e.g. Minister's permits, work permits, study permits) and are registered with the AHCIP compared to 73,193 individuals in 2009/2010.
- The number of Employment and Immigration Income Support recipients who received premium-free coverage was 125,924; an increase of 13.24% compared to the 2009/2010 year.
- In 2010/2011, 228 Albertans chose to opt out of the AHCIP compared to 283 in 2009/2010.

Distribution of Population Covered for Basic Health Services
by Age and Gender as at March 31, 2011

Explanatory Notes

Registrations

AHCIP registration data are based on the number of active registrations as at the last day of the fiscal year (March 31). Individuals registered with the AHCIP for part of the year, but not on March 31, are excluded. The number of registrations differs from the number of people covered. There is usually one registration per family/household. The number of people covered under one registration ranges from one (single coverage) to two or more (family coverage). Details regarding the number of registrations are available in Tables 1.1 and 1.2.

The population data reported in the Statistical Supplement differs from Statistics Canada provincial population estimates because:

- Alberta Health and Wellness continually updates AHCIP data.
- Persons who are temporarily absent from the province or who have left the province permanently, but retain their coverage for a period of three months (up to March 31), are included in the data.

Members of the Canadian Armed Forces, members of the Royal Canadian Mounted Police and inmates of federal penitentiaries are covered by the federal government. These groups are not entitled to AHCIP coverage and are not included in the AHCIP data. However, any of their family members who live permanently in Alberta are entitled to AHCIP coverage and are included in the data, where applicable.

Opting Out

Albertans may opt out of the AHCIP at any time. These individuals and their dependants are responsible for paying all of their health care expenses. The Opt Out program is a renewable three-year term and the resident has the option to rescind their decision to opt out at any time.

Income Support Category

Income Support helps unemployed people find and keep jobs and helps low-income Albertans cover their basic costs of living. Health benefits include medications listed in the Alberta Health and Wellness Drug Benefit List and the Alberta Employment and Immigration Drug Benefit Supplement.

Seniors Category

Alberta Health and Wellness provides AHCIP coverage and premium-free Non-Group Supplementary Plan coverage to all Alberta seniors and their dependants, regardless of income. Refer to Section 4, Non-Group Supplementary Plans, for more details about Non-Group Supplementary coverage.

Alberta Widows' Pension Category

Prior to April 1, 2004, lower income widows or widowers, aged 55 to 64, could apply for financial, health care and housing assistance through Employment and Immigration's Alberta Widows' Pension plan. As of April 1, 2004, no new applications have been accepted and Employment and Immigration staff direct people who inquire about the Alberta Widows' Pension to appropriate income support programs. With no new applicants, the number of Alberta Widows' Pension recipients continues to decline.

Currently, recipients of the Alberta Widows' Pension and their eligible dependants receive AHCIP coverage and premium-free Non-Group Supplementary coverage. Refer to Section 4, Non-Group Supplementary Plans, for more details about Non-Group Supplementary coverage.

Section 2: Basic Health Services (Physicians and Allied Health Practitioners)

Summary

The Alberta Health Care Insurance Plan (AHCIP) provides Albertans with coverage for basic health services. These include insured services provided by physicians and dental specialists/oral surgeons and some services provided by podiatrists and optometrists. Alberta practitioners receive fee-for-service payments and/or are paid through Alternate Relationship Plans. See Table 2.17 for information about Alternate Relationship Plans.

In this section, data are primarily for fee-for-service payments. Data are organized by practitioner specialty and type of service, by patient age and gender, and by the percentage of change in schedules of benefits. Individual schedules of benefits provide details about services and fee-for-service rates payable by the AHCIP. Unless otherwise noted, pathology services are included in this fee-for-service data. Alternate Relationship Plan and Primary Care Network data are reported separately in Tables 2.17 and 2.21.

Highlights

- In Alberta, 6,743 physicians and 791 allied practitioners received fee-for-service payments from the AHCIP during 2010/2011.
- The physician to population ratio for physicians (excluding pathologists) who submitted fee-for-service claims increased to 1.78 per 1,000 patients, up from 1.76 per 1,000 patients.
- Of the 3,786,238 Albertans registered for coverage with the AHCIP, 81.05% (3,068,772 people) received at least one fee-for-service physician service during 2010/2011.
 - A total of 62.74% of these patients received fee-for-service physician services valued at \$500 or less.
 - 19.23% of these patients received fee-for-service physician services valued at more than \$1,000. Payments for these patients' services accounted for 66.27% of all fee-for-service payments to physicians.
- Office visits (assessments) and consultations accounted for 50.32% of the fee-for-service payments made to Alberta physicians in 2010/2011. These services accounted for 77.23% of the fee-for-service payments made to general/family physicians.
- 16.47% of Alberta's population, 623,565 Albertans, obtained allied health services (services provided by dental specialists/oral surgeons, optometrists and podiatrists) in 2010/2011.
- Alberta Health and Wellness spent \$47,347,514 on optometry and podiatry services in 2010/2011. Coverage for these services is not required by the *Canada Health Act*.
- A total of \$17,007,831 was spent on optometry care for Alberta's children in 2010/2011.

- The AHCIP paid fee-for-service totalling \$2,355,575,748 to Alberta physicians and allied health practitioners in 2010/2011. This figure represents an 8.00% increase compared to 2009/2010.
- In 2010/2011, the average total fee-for-service payment per Alberta physician was \$341,462 (3.76% higher than it was in 2009/2010). This brought the median payment to \$279,360 (an increase of 2.80% compared to 2009/2010).
- A total of 1,304 physicians each received more than \$500,000 in fee-for-service payments in 2010/2011. This represents an increase of 122 physicians compared to 2009/2010. Of the 1,304 physicians, 391 were general/family physicians, an increase of 33 over 2009/2010.
- Of the 1,304 physicians, a total of 243 physicians each received more than \$1 million in fee-for-service payments in 2010/2011. Forty-two (42) of the 243 physicians received more than \$2 million. In 2009/2010, 201 physicians received more than \$1 million and 33 received more than \$2 million in fee-for-service payments.
- In 2010/2011, a total of 1,688 physicians participated in Alternate Relationship Plans, up from 1,459 in 2009/2010. A total of \$271,259,255 was spent on Alternate Relationship Plan expenditures.
- Thirty-nine (39) Primary Care Networks operated in the five continuum health zones as of March 31, 2011, up from 32. These 39 Primary Care Networks involved a total of 2,216 physicians who provided services to 2,553,384 patients.

Charts and Figures

2010/2011 Fee-For-Service Payments and Percentage Change		
Practitioner Type	Overall Fee-For-Service Payments	Percentage Change from 2009/2010 to 2010/2011
Physicians*	\$2,302,481,210	7.94
Dental Specialists/Oral Surgeons	5,747,026	18.56
Optometrists	38,131,485	11.09
Podiatrists	9,216,029	5.93
Total	\$2,355,575,750	8.00

*\$7.3 million of the overall payments made by the AHCIP to physicians were for pathology services (see Explanatory Notes).

2010/2011 Practitioners Who Submitted Fee-For-Service Claims and Percentage Change		
Practitioner Type	Number of Practitioners	Percentage Change from 2009/2010 to 2010/2011
Physicians	6,743	4.03
Dental Specialists/Oral Surgeons	207	(2.36)
Optometrists	524	7.82
Podiatrists	60	0.00
Total	7,534	4.06

for Basic Health Services
for the Fiscal Years Ended March 31, 2007 to March 31, 2011

Explanatory Notes

Expenditure Location

Unless stated otherwise, the tables in Section 2 represent Alberta practitioner data. Hospital and non-hospital surgical facility costs are not reported in this Statistical Supplement, with the exception of select out-of-country hospital services, which are reported in Tables 2.18 to 2.20.

Pathology Services

Alberta Health Services pays for most laboratory services. A few select pathology services, such as minor consultations, electrocardiograms (technical) and skin tests, are paid for by the AHCIP.

Pathologists often submit fee-for-service claims through organizations rather than as individuals, so data about them is not directly comparable to those of other physicians. These statistics are listed separately whenever possible to allow for year-over-year comparisons.

Payments Do Not Reflect Income

These statistics cannot be used as an accurate measure of a practitioner's personal income. The figures quoted are payments from which practitioners may pay business expenses, such as office and staff expenses, and payments reported in this document do not depict other sources of income or benefit programs which may include some of the following:

- Workers' Compensation Board, third party medicals, and for services not covered by the AHCIP;
- salaried positions and contractual arrangements with Alberta Health Services or private employers;
- payments for services rendered to non-Albertans are not included;
- Alternate Relationship Programs: Sessional, Contractual, Academic, Capitation;
- Medical Liability Reimbursement Program;
- Retention Benefit Program;
- Continuing Medical Education Benefit Program;
- Physician On-Call Program that compensates physicians being on-call;
- Clinical Stabilization Initiative that provides funding for business expenses and retention of physicians;
- The Physician Office System Program that provides funds for electronic office equipment;
- Performance and Diligence Indicator Fund that compensates family physicians who meet specific performance targets;
- Compassionate Expense Program;
- Parental Leave Program;
- Federal Government Funding: e.g. travel to and from reserves for First Nation services; and
- through per capita funding of Primary Care Networks.

Under special circumstances, physicians may also claim and be paid for services provided by medical residents and nurses they supervise, and for diagnostic services provided by technicians.

Physician Data

Data in this section include all Alberta physicians who had fee-for-service payments of one dollar or more in 2010/2011. When physicians have multiple specialties, they have been counted in the specialty where they received the highest fee-for-service payments.

Alternate Relationship Plan data are reported separately from fee-for-service data (Table 2.17).

Over the past five years, a number of manual payments have been made.

Manual payments totalling \$35,447,056 made to Alberta physicians for the service period October 1, 2006 to March 31, 2007, are not included in the data. These payments were made to address the 4.50% fee increase negotiated through the *Master Agreement* and implemented retroactively to October 1, 2006.

Manual payments totalling \$37,704,829 made to Alberta physicians for the service period April 1, 2007 to June 30, 2007, are not included in the data. These payments were made to address the 4.50% fee increase negotiated through the *Master Agreement* implemented retroactively to April 1, 2007.

Manual payments totalling \$57,264,523 made to Alberta physicians for the service period April 1, 2008 to March 31, 2009, are not included in the data. These payments were made as part of the 4.90% fee increase negotiated through the *Master Agreement*.

Manual payments totalling \$2,974,824 made to Alberta physicians for the service period April 1, 2009 to March 31, 2010, are not included in the data. These payments were made as part of the 5.00% fee increase negotiated through the *Master Agreement*.

The Clinical Stabilization Initiative is part of the *Amending Agreement to the Tri-Lateral Master Agreement* for physicians. Effective September 1, 2007, the Clinical Stabilization Initiative was established to address three specific emergent issues:

- Business Cost Program - addresses the rising cost of medical practices in Alberta
- Rural Remote Northern Program - addresses the challenges of recruiting physicians to live and practise in rural, remote and northern areas of the province
- Communities in Crisis - addresses the challenges of recruiting physicians to live and practise in communities in crisis

Manual payments for the Clinical Stabilization Initiative, totalling \$53,527,896 made to Alberta physicians for the service period September 1, 2007 to March 31, 2008, are not included in the data.

Manual payments for the Clinical Stabilization Initiative, totalling \$90,652,998 made to Alberta physicians for the service period April 1, 2008 to March 31, 2009, are not included in the data.

Manual payments for the Clinical Stabilization Initiative, totalling \$96,490,752 made to Alberta physicians for the service period April 1, 2009 to March 31, 2010, are not included in the data.

Manual payments for the Clinical Stabilization Initiative, totalling \$97,789,200 made to Alberta physicians for the service period September 1, 2010 to March 31, 2011, are not included in the data.

Practitioner

Practitioner refers to physicians and allied health practitioners (dental specialists/oral surgeons, optometrists and podiatrists) who received fee-for-service payments from the AHCIP.

Reporting Dates

Data are reported on a date-of-service rather than a date-of-payment basis. Practitioners have 180 days from the date of service to submit claims to the AHCIP for payment.

Number of Services

Some health services listed in the schedules of benefits are paid based on time units. Where applicable, the number of services reported will be the number of time units paid.

Types of Service

The types of service reported in the fee-for-service payment tables are based on the health service codes from the relevant schedules of benefits and include all payments made for the service regardless of the practitioner's role.

Optometry Services

Alberta children (18 years of age and younger) and residents who are 65 years of age and older are entitled to one complete eye exam, one partial eye exam, and one diagnostic test each year. Additional services are paid when specific medical conditions exist or if a physician refers a patient in these age groups to an optometrist. Effective October 1, 2007, coverage was expanded to include certain medically necessary eye care services for 19 to 64 year olds. Routine eye exams for Albertans 19 to 64 years of age are not covered by the AHCIP.

Manual payments totalling \$791,248 made to Alberta optometrists for the service period April 1, 2006 to March 31, 2007, are not included in the data. These payments were made to address the 4.00% increase negotiated through the *Master Agreement* and implemented retroactive to April 1, 2006.

Manual payments totalling \$911,581 made to Alberta optometrists for the service period April 1, 2007 to September 30, 2007, are not included in the data. These payments were made to address the 8.70% increase negotiated through the *Master Agreement* and implemented retroactively to April 1, 2007.

Manual payments totalling \$3,023,303 made to Alberta optometrists for the service period April 1, 2008 to February 28, 2009, are not included in the data.

Manual payments totalling \$168,770 made to Alberta optometrists for the service period April 1, 2009 to March 31, 2010, are not included in the data.

Podiatry Services

Podiatry services covered by the AHCIP are paid at a set rate per service (as detailed in the Schedule of Podiatry Benefits), with a maximum annual benefit per patient of \$250.

On June 1, 2006, a new Schedule of Podiatric Surgery Benefits was implemented. Services under the new schedule are fully covered by the AHCIP, if the surgeries are provided by a podiatrist in a hospital or non-hospital surgical facility under contract to Alberta Health Services.

Manual payments totalling \$32,505 made to Alberta podiatrists for the period January 1 to May 31, 2006 are not included in the data. These payments were made in relation to an agreement between Alberta Health and Wellness and the Alberta Podiatry Association to support podiatrists with credentials from the American Board of Podiatric Surgery or credentials from the American Board of Multiple Specialists in Podiatry and who have been granted hospital privileges by Alberta Health Services.

Chiropractic Services

As of July 1, 2009, chiropractic services were no longer covered under the AHCIP. Tables 2.1, 2.3, 2.4, 2.6, 2.7 and Figure 4 have been recalculated to exclude chiropractic data from 2007 to 2009 for ease of year-to-year comparison.

Continued...

(1) Numbers have been recalculated to exclude chiropractors from 2006 to 2009.

(2) Number of Discrete Physician Patients represents the actual count of patients receiving at least one service from a physician.

(3) Number of Discrete Allied Patients represents the actual count of patients receiving at least one service from an allied practitioner.

Table 2.1
Medical and Allied Practitioners: Selected Indicators
for the Service Years Ended March 31, 2007 to March 31, 2011⁽¹⁾

Indicators	Percentage Change			
	2008/2007	2009/2008	2010/2009	2011/2010
REGISTRATIONS				
Population Covered	2.64%	3.32%	2.86%	2.55%
Number of Discrete Physician Patients ⁽²⁾	2.21	1.94	2.35	1.01
Number of Discrete Patients per Physician	(1.23)	(1.46)	(1.05)	(2.99)
OVERALL PHYSICIAN SUMMARY				
Number of Physician Services Provided	3.01	2.24	4.11	1.72
Number of Physicians	3.56	3.43	3.45	4.03

Table 2.5A
Distribution of Optometry Payments and Services per Patient for Recipients
0 to 18 Years of Age for the Service Years Ended March 31, 2007 to March 31, 2011

Year	Total Optometry Payments	Number of Optometry Services	Average Cost per Service	Number of Discrete Patients ⁽¹⁾	Average Cost per Discrete Patient	Number of Services per Patient	Population Covered
2006/2007	\$11,768,511	286,037	\$41.14	255,491	\$46.06	1.12	849,493
2007/2008	12,734,895	296,937	42.89	264,947	48.07	1.12	862,884
2008/2009	13,998,585	311,986	44.87	277,508	50.44	1.12	879,601
2009/2010	15,762,021	320,429	49.19	283,634	55.57	1.13	894,837
2010/2011	\$17,007,831	331,343	\$51.33	291,939	\$58.26	1.13	909,719

Note: This table reflects fee-for-service data only.

(1) Number of Discrete Patients contains the actual count of patients receiving at least one service.

Table 2.5B
Distribution of Optometry Payments and Services per Patient for Recipients
19 to 64 Years of Age for the Service Years Ended March 31, 2008 to March 31, 2011

Year	Total Optometry Payments	Number of Optometry Services	Average Cost per Service	Number of Discrete Patients ⁽¹⁾	Average Cost per Discrete Patient	Number of Services per Patient	Population Covered
2007/2008	\$1,083,288	26,054	\$41.58	20,065	\$53.99	1.30	2,238,660
2008/2009	3,338,666	80,401	41.53	57,655	57.91	1.39	2,325,138
2009/2010	4,578,680	101,222	45.23	71,420	64.11	1.42	2,400,052
2010/2011	\$5,769,500	122,189	\$47.22	84,406	\$68.35	1.45	2,465,582

Note: This table reflects fee-for-service data only.

(1) Effective October 1, 2007, coverage was expanded to include certain medically necessary eye care services for 19 to 64 year olds. However, routine eye exams for Albertans age 19 to 64 years of age are not covered.

(2) Number of Discrete Patients contains the actual count of patients receiving at least one service.

Table 2.5C
Distribution of Optometry Payments and Services per Patient for Recipients
65 Years of Age and Older for the Service Years Ended March 31, 2007 to March 31, 2011

Year	Total Optometry Payments	Number of Optometry Services	Average Cost per Service	Number of Discrete Patients ⁽¹⁾	Average Cost per Discrete Patient	Number of Services per Patient	Population Covered
2006/2007	\$8,035,835	185,810	\$43.25	129,953	\$61.84	1.43	360,706
2007/2008	8,820,617	195,593	45.10	135,981	64.87	1.44	372,452
2008/2009	10,088,319	209,686	48.11	144,720	69.71	1.45	384,755
2009/2010	13,984,233	224,520	62.29	153,674	91.00	1.46	397,112
2010/2011	\$15,354,154	237,442	\$64.66	159,677	\$96.16	1.49	410,937

Note: This table reflects fee-for-service data only.

(1) Number of Discrete Patients contains the actual count of patients receiving at least one service.

Table 2.6
Total and Average Gross Payments to Physicians and Allied Practitioners by Practitioner Type

Note: This table reflects fee-for-service data only.

Continued...

- (1) The average payments and percentage change for fee-for-service reflect the fact that some physician specialties are now being paid primarily through Alternate Relationship Plans rather than through fee-for-service claims. Due to the change in payment method, average and median payments for these specialties have not been provided.
- (2) Other General Practice Physicians refers to community medicine, geriatric medicine and occupational medicine.

2,000,000 & Over	4,739,483	2	63,410,011	23
Total	\$7,297,830	21	\$260,315,359	314

Note: This table reflects fee-for-service data only.

(1) A blank cell represents a zero value.

(2) These statistics cannot be used as an accurate measure of a physician's income, because they do not include other sources of income. The figures quoted are payments from which physicians physicians pay business expenses, such as office and staff expenses.

Table 2.12
Number of Full-Time Equivalent Physicians by Specialty
for the Service Year April 1, 2010 to March 31, 2011 ⁽¹⁾

Physicians by Specialty	Number of Physicians	Number of Full-Time Equivalent Physicians ⁽²⁾	Proportion of Full-Time Equivalent Physicians		Average Payment per Full-Time Equivalent Physician	Number of Registered Persons per Full-Time Equivalent Physician
			Above 60th Percentile	Below 40th Percentile		
All Physicians (except Laboratory) ⁽³⁾	6,406	5,617.7	33.7	48.7	\$362,141	674

Urology	46	43.9	39.1	43.5	553,533	86,188

Note: This table reflects fee-for-service data only.

(1) The average payments and percentage change for fee-for-service reflect the fact that some physician specialties are now being paid primarily through Alternate Relationship Plans rather than through fee-for-service claims. Due to the change in payment method, average and median payments for these specialties have not been provided.

(2) Full-Time Equivalent methodology is as follows:

Definition of a Full-Time Equivalent Physician: The definition is based on the methodology developed in 1984 by Health Canada.

Step 1 - Within each specialty or group of specialists, rank the amounts paid in ascending order; the lower and upper benchmarks are the payment values which correspond to the 40th and 60th percentile for those physicians with claims in all four quarters of the fiscal year.

Step 2 - Count all physicians with payments within the lower and upper benchmark as one full-time equivalent.

- Count all physicians with payments below the lower benchmark as a fraction of a full-time equivalent equal to the ratio of his/her payments to the lower benchmark.

- Count all physicians with payments above the upper benchmark using a log-linear relationship, as one full-time equivalent plus the natural logarithm of the ratio of his/her payments to the upper benchmark. The reason for attributing diminishing weight to payments above the upper benchmark is to prevent outliers from seriously biasing the measure. This is not necessary on the lower benchmark because payments less than zero are not recorded and, as such, a natural barrier exists to prevent bias at the lower end.

- Since the benchmarks for the calculations of full-time equivalents in past Statistical Supplements are re-calculated based on the payments within each given year, and payments over time are not adjusted for fee changes, the full-time equivalents in this table should not be compared with those released in previous versions of the Statistical Supplement.

(3) Laboratory physicians (21 Pathology and 314 Radiology physicians) and 2 Endocrinology/Metabolism physicians are excluded.

(4) Other General Practice Physicians refers to community medicine, geriatric medicine and occupational medicine.

Table 2.13
Distribution of Physician Payments by Type of Service and Specialty
for the Service Year April 1, 2010 to March 31, 2011 ^{(1) (2)}

Alternate Relationship Plans

Under the 2003 *Tri-Lateral Master Agreement* between Alberta Health and Wellness, Alberta Health Services, and the Alberta Medical Association, which was in effect until March 31, 2011. Innovative health delivery models are funded using agreements known as Alternate Relationship Plans.

The purpose of Alternate Relationship Plans is to provide physician funding models other than fee-for-service that promote innovation in clinical service delivery, improved patient care, and/or enhance practitioner satisfaction. The intent of the Alternate Relationship Plans is to advance the following:

- recruitment and retention of physicians,
- team-based approach to service delivery,
- access to health services for Albertans,
- patient satisfaction, and
- value for money.

Model Type Definitions

Clinical Alternate Relationship Plans

At present, there are 47 Clinical Alternate Relationship Plans that use three working models for funding physician services, which are:

- Capitation Alternate Relationship Plan – This model is used in two Alternate Relationship Plans for the provision of family medicine or primary health care. Physician payment is based on a pre-determined amount per patient, per annum within a defined basket of insured health service codes.
- Contractual Alternate Relationship Plan – This model is used in 29 Alternate Relationship Plans for specialized health service delivery to targeted patient groups. Physician payment is based on a pre-negotiated amount for delivery of insured health services per full-time equivalent physician per annum.
- Sessional Alternate Relationship Plan – This model is used in 16 Alternate Relationship Plans for physician services delivered part-time. Physician payment is based on an hourly rate for the delivery of insured health services within an organized program to a defined patient group.

Academic Alternate Relationship Plans

Academic Alternate Relationship Plans are funding arrangements that provide alternate compensation under a contractual model for clinical practice and conditional grant funding to compensate physicians for their teaching, administrative and research roles. These agreements have been successful in

:

- attracting and retaining needed specialists to the province,
- supporting innovative clinical practice, and
- enhancing the quality of Alberta's medical education and research.

Ten Academic Alternate Relationship Plans were implemented in Alberta in 2010/2011. Academic Alternate Relationship Plans involve the following: the Universities and Faculties of Medicine, the participating physicians, Alberta Health and Wellness, Alberta Health Services, the Alberta Medical Association, other funding bodies, and related ministries such as Advanced Education and Technology.

Table 2.17
Alternate Relationship Plans (ARP) Summary by Type
For the Service Year April 1, 2010 to March 31, 2011

	General Practitioners	Specialists	Expenditures ⁽¹⁾
Clinical ARPs	664	244	107,058,003
Academic ARPs	73	707	164,201,252
Total ⁽²⁾	737	951	\$271,259,255
Total ARP Physicians	1,688		

(1) Expenditures for the 2010/2011 Fiscal Year as of August 31, 2011 and payments associated with the Clinical Stabilization Initiative are not included.

(2) Physician count is not discrete between Clinical and Academic Alternate Relationship Plans.

Out-of-Country Health Coverage

Alberta Health and Wellness provides two sources of funding for Albertans who wish to receive insured medical treatment outside Canada: application through the Alberta Health Care Insurance Plan (AHCIP) or through the Out-of-Country Health Services Committee (OOCHSC).

The AHCIP provides only limited physician and hospital costs outside of Canada.

Insured physician services received outside Canada are paid at the lesser of the amount claimed or the rate an Alberta physician or dentist would be paid for that service. The rate for in-patient hospital services is \$100 (Canadian) per day. The outpatient rate is \$50 (Canadian) per day.

As of July 1, 2006 coverage for out-of-province and out-of-country podiatry, chiropractic and optometry services was discontinued.

Table 2.18
Out-of-Country Basic Health Services:
Distribution of Payments, Number of Services and Discrete Patients
for the Service Year April 1, 2010 to March 31, 2011 ⁽¹⁾

Practitioner Type	Total Out-of-Country			United States			Out-of-Country (except United States)		
	Number of Services	Number of Discrete Patients	Payments	Number of Services	Number of Discrete Patients	Payments	Number of Services	Number of Discrete Patients	Payments
Physicians ⁽²⁾	15,646	6,281	\$908,221	518	108	\$49,147	15,128	6,276	\$859,074
Dental Specialists/Oral Surgeons	8	5	1,493	8	5	1,493	0	0	0
Total	15,654	6,284	\$909,715	526	113	\$50,640	15,128	6,276	\$859,074

Note: This table reflects fee-for-service data only.

(1) Number of Discrete Patients is a discrete overall patient count and not a sum.

(2) Does not include physician services which were paid under the Out-of-Country Health Services Program.

The OOCCHSC considers applications for funding of insured physician, oral surgical and hospital services received outside of Canada when a resident has endeavoured to receive the services in Canada and the services were not available.

The OOCCHSC operates at arm's length from Alberta Health and Wellness. Committee decisions can be appealed in writing to the Out-of-Country Health Services Appeal Panel which also operates at arm's length from Alberta Health and Wellness.

Table 2.19
Out-of-Country Health Services Program:
Applications Reviewed
for the Service Years Ended March 31, 2007 to March 31, 2011

Hospital Services	1,993,838	2,888,451	2,264,340	2,945,522	2,716,470
Total	\$2,994,504	\$3,545,854	\$3,725,883	\$3,731,127	\$3,584,044

Primary Care Networks

Primary Care Networks are formed through formal arrangements between groups of primary care physicians and Alberta Health Services. Primary Care Networks are organized to deliver a wide range of primary care services. They have the flexibility to design local programs that meet the needs of patients in the community, while working within the provincial framework.

Primary Care is defined as the first point of contact with the health system, where health services are mobilized and co-ordinated to promote health, prevent and care for illness, and manage ongoing problems.

The goals of Primary Care Networks are to:

- improve access to primary care services for more Albertans,
- manage access to appropriate round-the-clock primary care services,
- increase the focus on health promotion and disease prevention, and on care for patients with medically complex problems or chronic illnesses,
- improve coordination and integration of primary care services with hospital, long-term and specialty care, and
- foster a multi-disciplinary team approach to providing primary care.

The first Primary Care Network to launch in Alberta was Edmonton Southside Primary Care Network on May 1, 2005.

Table 2.21
Primary Care Networks:

- (1) The term Primary Care Physician includes both family physicians and general practitioners. Physicians participating in Primary Care Networks continue to be compensated for insured medical services using either fee-for-service or existing alternate payment arrangements.
- (2) Informal enrollment is based on a default method of calculating one patient encounter with a Primary Care Network health service provider at a Primary Care Network service delivery location for services included in Article 8, Schedule G of the Primary Care Initiative Agreement, in the past three years. Informal enrolment is based on assignment of discrete patients to Primary Care Networks based on overall volume of care to a single provider.
- (3) Primary Care Networks operate within a mixed payment environment, receiving a capitation payment up to \$50 per patient, per year. In addition, some Primary Care Networks are eligible for the following grants: Capacity Building Grants, Specialist Linkages and the Pharmacist Integration Pilot Project.

Section 3: Regional Data

Summary

As of May 15, 2008, the Alberta Health Services Board became the common governance board responsible for the delivery of health services previously provided by the nine regional health authorities, the Alberta Cancer Board, the Alberta Alcohol and Drug Abuse Commission and the Alberta Mental Health Board.

Alberta Health Services has divided Alberta into five continuum zones for ease of management of the delivery of health care services. The five health zones are loosely related to the former health regions as follows:

Zone 1 (South Zone):	Chinook Regional Health Authority Palliser Health Region
Zone 2 (Calgary Zone):	Calgary Health Region
Zone 3 (Central Zone):	David Thompson Regional Health Authority East Central Health
Zone 4 (Edmonton Zone):	Capital Health
Zone 5 (North Zone):	Aspen Regional Health Authority Peace Country Health Northern Lights Health Region

This section provides practitioner fee-for-service data broken down by the five zones.

Alberta Health Services is responsible for hospitals, continuing care facilities, community health services and public health programs in Alberta. Alberta Health Services works with communities to deliver health services, including mental health services, to local residents. Information about services and costs for Alberta Health Services is in the *Alberta Ministry of Health and Wellness Annual Report 2010/2011*. Performance measures and financial information for 2010/2011 is reported based on the boundaries of the former regions and boards.

Highlights

- A total of 38.26% of physician fee-for-service expenditures were for services received in Zone 4 (Edmonton Zone); 37.59% for services received in Zone 2 (Calgary Zone) and the balance (24.15%) for services received in the other three zones.
- An average of 89.09% of payments for services received by patients were provided in the health zone where the patient resides.

Figures and Charts

Explanatory Notes

Number of Practitioners

The figures shown for the number of practitioners in a former health region are based on the number of practitioners who received fee-for-service payments for services provided in that particular region. A practitioner may work in several regions and will have been counted in each region where he/she provided services.

Number of Services

Some health services listed in the schedules of benefits are paid based on time units. Where applicable, the number of services reported will be the number of time units paid.

Health Boundary Changes

Health boundaries are subject to change; therefore, year-over-year comparisons by regions should be interpreted with caution. The map on continuum health zones shows the previous health region boundaries and the current continuum zones that were put in place on May 15, 2008.

Service Location and Recipient Location

Data in this section are provided on a service location basis. Patients from rural and remote regions often travel to larger urban centres in other regions to receive services. This has an effect on statistics for health services and payments for both regions involved. This is illustrated in Table 3.2, which shows payments to physicians based on both service location and recipient location. Recipient location data are for the former health region where the patient lived on the date of service.

Table 3.1
Distribution of Population Covered by Former Health Region Service Location
as at March 31, 2011 ⁽¹⁾

Former Health Region Service Location	Registered Population		
	Total	Male	Female

Note: This table reflects fee-for-service data only.

(1) This report reflects discrete physician counts of physicians within each region. The number of physicians reported in the total is not the actual number of physicians in Alberta since physicians may provide health services in multiple regions and will be double counted.

(2) The total amount paid may not match the sum of amounts paid due to rounding.

(3) Excludes pathology and radiology laboratory specialists because billings for more than one physician may be included under one physician billing number.

Section 4: Non-Group Supplementary Plans

Summary

Non-Group supplementary health plans provide coverage for prescribed drugs and selected health services. These supplementary health plans are funded by Alberta Health and Wellness and administered by Alberta Blue Cross.

Albertans under the age of 65 can purchase Non-Group coverage. A reduced premium rate is available to Albertans with lower incomes, premium-free coverage is offered to seniors and their dependants, and to recipients of the Alberta Widows' Pension Program and their dependants. Premium-free drug coverage is also provided to people who have been diagnosed as being palliative and receive their health care at home rather than at a hospital.

The government-sponsored Non-Group supplementary health plans are collectively referred to as "non-group" plans to distinguish them from the "group" or employer-sponsored and individual supplementary benefit plans available through Alberta Blue Cross and other insurers.

The data in this section include the number of persons covered by level of premium payment, by age and gender, and by types of services (ambulance, drugs, hospital accommodation or other). Information is also provided about the number, types and costs of drug prescriptions, and the top 10 drug expenditures.

Highlights

- In 2010/2011, the number of Albertans who were covered under Non-Group supplementary plans decreased to 560,618, a decrease of 0.96% compared to 2009/2010.
- The number of persons covered through full premium rates was 90,600 (16.16% of the total Non-Group membership).
- A total of 18,145 people (3.23% of the total Non-Group membership) received non-group coverage at reduced premium rates.
- A total of 451,873 people (80.60% of total Non-Group membership) received their coverage premium-free.
- Almost \$732 million was paid for benefits under the Non-Group supplementary plans in 2010/2011, an increase of 3.55% compared to 2009/2010.
- More than \$566 million was paid for benefits for seniors and their dependants in 2010/2011. These payments accounted for 77.40% of the total amount spent on the Non-Group supplementary plans.
- Drugs accounted for more than \$705 million or 96.41% of total Non-Group benefit expenditures. Ambulance services accounted for over \$25 million or 3.53% of the total.

- The costs for new and existing generic drugs were reduced significantly as part of the broader Alberta Pharmaceutical Strategy. The Strategy is to make drug coverage more accessible, affordable, efficient and therapeutically effective by improving the management, funding and purchasing processes for prescription drugs paid for fully or partially by the Government of Alberta. Related to this change, the expenditure for the cholesterol lowering agent known as Lipitor decreased by \$14 million.
- In conjunction with lower generic drug pricing, effective April 2010, a \$3 per prescription Transition Allowance was paid to pharmacies to allow the industry time to adjust to lower generic drug pricing. This allowance will decrease to \$2 in April 2011, \$1 in April 2012 and \$0 in April 2013.
- In 2010/2011, the 10 highest expenditure drugs were used to treat common chronic conditions including:
 - Age related Macular Degeneration treated using Lucentis.
 - Rheumatoid arthritis/Crohn's Disease treated using Remicade.
 - Rheumatoid arthritis/psoriasis treated using Humira.
 - Prevention of heart attack and stroke treated using Plavix.
 - High cholesterol conditions treated using Crestor.
 - Rheumatoid arthritis/psoriasis treated using Enbrel.
 - Chronic Obstructive Pulmonary disease treated using Spiriva.
 - Multiple Sclerosis treated using Copaxone.
 - Asthma treated using Symabicort Turbuhaler.
 - Acid reflux disease/ulcers treated using Apo-Lansoprazole.

Premium Subsidy Program

Eligibility for the Premium Subsidy Program is based on the applicant's family category and the taxable income of the applicant and his/her spouse or partner (if applicable) for the year which precedes the subsidy period. A subsidy period runs from April 1 of one year to March 31 of the following year.

Family category (shown below) is determined based on whether or not the applicant is single (one person) or family (two or more people) with a spouse/partner and/or children on the registration account.

2010/2011 Premium Subsidy Thresholds	
Family Category	Full Premiums
Single	over \$20,970
Family - no children	over \$33,240
Family - with children	over \$39,250

Charts and Figures

Per Recipient by Coverage Category for the Service Year April 1, 2010 to March 31, 2011

Explanatory Notes

Data

Data in this section are provided by Alberta Health and Wellness (Tables 4.1 - 4.3), Alberta Blue Cross (Figure 6, Tables 4.4 - 4.5 and Tables 4.7 - 4.9), and the Alberta College of Pharmacists (Table 4.6).

Non-Group Supplementary Coverage Parameters

Non-Group coverage includes drugs, and selected health services such as: some ambulance services; clinical psychological services; some home nursing care; prosthetic and orthotic benefits; and mastectomy prostheses. Coverage for private or semi-private hospital accommodation is included in the plan offered to Albertans under the age of 65 and their eligible dependants. The Alberta Health and Wellness Drug Benefit List defines the drugs that are covered by the Non-Group Supplementary plans.

Note: The subtotals/totals across tables may not match due to rounding.

Note: As at March 31, 2010, 1,373 people were covered by the Palliative Care Drug Program. Of these, 497 are not included in this table as they were covered only under the Palliative Care Drug Program and had no other Non-Group supplementary coverage.

(1) The population figures are as at March 31, calculated in July.

(2) The report reflects a discrete count of people receiving Non-Group supplementary coverage. The table excludes people on the Palliative Care Drug Program as those under the program who were seniors, purchased Non-Group coverage or received the Alberta Widows' Pension are accounted for under these coverage categories.

Palliative Care	29,405	1,614,080
Total	13,385,427	\$705,578,171

(1) A blank cell represents a zero value.

(2) Number of prescriptions represents the number of transactions reported by Alberta Blue Cross.

(3) The sum of net payments may not match the sub-totals or totals due to rounding.

(4) Refers to drugs available only with a prescription.

(5) Refers to an otherwise over-the-counter drug type which has been prescribed for these members.

(6) Adjustments refer to retroactive transactions (e.g. coverage effective dates and cancellations, refunds, etc.).

Table 4.6
Number and Percentage Change of
Licensed Community Pharmacies in Alberta
as at March 31, 2007, 2008, 2009, 2010 and 2011 ⁽¹⁾

Year	Number of Pharmacies	Percentage Change from the Prior Year
2006/2007	912	2.13

(1) Number of Prescriptions represents the number of transactions reported by Alberta Blue Cross.

(2) Co-Payment represents the portion of the prescription cost the recipient pays when a prescription is filled.

(3) Coordination of Benefits represents amounts paid by other supplementary health plans. Coordination of Benefits would apply in situations where a person submits a claim to more than one supplementary health plan.

(4) Gross Cost = Net Payment + Co-Payment + Coordination of Benefits.

(5) Only those devices used with prescription drugs.

(6) Negative payments represent adjustments and/or reversals of claim payments.

(7) The sums of the columns may not match the totals due to rounding.

**Table 4.9
Non-Group Supplementary Coverage:
Number of Prescriptions and Prescription Cost Components
by Coverage Category (Direct Bill Claims Only)
for the Year Ending March 31, 2011 ⁽¹⁾**

Coverage Category	Number of Prescriptions ⁽²⁾	Drug Material Cost [A]	Dispensing Fee ⁽³⁾ [B]	Additional Inventory Allowance ⁽⁴⁾ [C]	Adjustments ⁽⁵⁾ [D]	Gross Cost ⁽⁶⁾ [E]	Co-Payment ⁽⁷⁾ [F]	Coordination of Benefits ⁽⁸⁾ [G]	Net Payment ⁽⁹⁾ [H]

Total ⁽¹⁰⁾	13,309,203	\$701,582,585	\$134,866,587	\$37,164,651	(\$65,655)	\$873,548,168	\$153,429,219	\$18,696,950	\$701,421,999

(1) A direct bill claim is submitted for payment directly to Alberta Blue Cross by the pharmacy.
(2) Number of Prescriptions represents the number of transactions reported by Alberta Blue Cross.
(3) The Dispensing Fee is the portion of the overall prescription cost that covers pharmacists' professional services and business overhead.
(4) Additional Inventory Allowance is an additional fee paid to pharmacies to compensate for a portion of their inventory management.
(5) Adjustments refer to retroactive transactions (e.g. coverage effective dates and cancellations, refunds, etc.)
(6) Gross Cost [E] = [A] + [B] + [C] + [D]
(7) Co-Payment represents the portion of the prescription cost the recipient pays when the prescription is filled.
(8) Coordination of Benefits represents amounts paid by other supplementary health plans. Coordination of Benefits would apply in situations where a person submits a claim to more than one supplementary health plan.
(9) Net Payment [H] = [E] - [F] - [G]
(10) The sums of the columns may not match the totals due to rounding.

Glossary/Definitions

Alberta Health Care Insurance Plan (AHCIP)

A non-profit, publicly-funded plan administered and operated by Alberta Health and Wellness under the *Alberta Health Care Insurance Act* and its regulations. The AHCIP pays for insured physician and dental specialist/oral surgical services and some services provided by optometrists and podiatrists to eligible residents of Alberta.

Allied Health Services

Services provided by dental specialists/oral surgeons, optometrists and podiatrists, and funded by the AHCIP. Some fees for allied health services may exceed the coverage provided by the AHCIP in which case the individual patient is responsible for the difference.

Alternate Relationship Plan

A plan that provides physicians with an alternative to the traditional fee-for-service payment method and provides physicians with flexibility in the way they provide care. An Alternate Relationship Plan enables a team-based approach and promotes improved access to care, patient satisfaction and the recruitment/retention of physicians.

Basic Health Services

Insured services provided by physicians and dental specialists/oral surgeons as well as a number of services provided by optometrists and podiatrists.

Blank Cell

Represents a zero value.

Bracketed Data

Bracketed data () indicates negative figures.

Clinical Stabilization Initiative

Established in the 2006 *Amending Agreement to the Tri-Lateral Master Agreement* and includes: the Rural Remote Northern Program; the Business Cost Program; and the Communities in Crisis Program. The purpose of the Rural Remote Northern Program is to improve physician recruitment and retention in underserved areas by providing physician incentive programs. The Business Cost Program is intended to help physicians with the rising costs associated with running community offices by paying a flat bonus on top of each office-based or consultative service provided by all physicians in any community in Alberta. The Communities in Crisis Program addresses the challenges of recruiting physicians to live and practise in communities in crisis.

Discrete Count

The discrete items are only counted once.

Discrete Patients

The number of individuals registered with the AHCIP who received at least one basic health service paid on a fee-for-service basis by the AHCIP. Discrete patients are only counted once. Individuals who are registered with the AHCIP but did not receive any services in the current year are not included in the discrete fee-for-service patient count, but are included in the registration data. Unless otherwise noted, the data in the Statistical Supplement are based on the number of discrete patients.

Discrete Service Providers

The number of practitioners who provided at least one service payable under the AHCIP. Discrete service providers are only counted once.

Double Dash (--)

Represents a non-zero value; actual value was too small to be shown.

FP

Family Physician.

FTE

Full-time equivalent.

Fee-for-Service

A standard business model in which services are unbundled and paid for separately. In the health insurance and health care industry, fee-for-service refers to practitioner payments for individual services such as office visits, procedures or other health services.

Fiscal Year

April 1 of one year to March 31 of the following year.

GP

General Practitioner.

Health Zones

Alberta is divided into five continuum zones for the ease of management of the delivery of health care services by Alberta Health Services.

Insured Services

Physician and dental specialist/oral surgeon services as defined by the *Canada Health Act* and the *Alberta Health Care Insurance Act*.

Medical Assessments

Primarily office visits and consultations.

Medical Services

Services provided by a physician.

N/A

Not available.

n.a.

Not applicable.

Net Payment

The total amount paid by Alberta Health and Wellness through Non-Group Supplementary plans.

Nil

No change.

Non-Group Supplementary Plans

Supplementary health services coverage administered by Alberta Blue Cross on behalf of Alberta Health and Wellness for prescription drugs and selected health services.

Number of Services

Some health services listed in the schedules of benefits are paid based on time units. Where applicable, the number of services reported in the tables is the number of time units paid.

Practitioner

Licensed health care provider who is registered with the AHCIP and provides basic health services.

Practitioner Payments

Gross fee-for-service practitioner payments made by the AHCIP for basic health services. Represents neither the total income nor the net income of a practitioner. Unless otherwise stated, payment data are reported on a date-of-service basis and include only fee-for-service payments to Alberta practitioners for services provided to Alberta residents.

Primary Care Network

A network of family physicians that uses a team approach with other health care professionals to coordinate primary care for their patients. A Primary Care Network receives program funding in addition to fee-for-service.

Recipient Location

The health region where the person who received the health service lived at the time of service (according to the AHCIP registration data).

Registration

The number of single and family accounts registered with the AHCIP; one person (as in single coverage) or two or more people (as in family coverage).

Registered/Insured Persons

Alberta residents insured under a program and therefore entitled to receive benefits.

Schedules of Benefits

Schedules of practitioner services and fee-for-service rates paid by the AHCIP. Includes the general rules, procedure list, fee modifier definitions, price list and explanatory codes. The Statistical Supplement includes data for five distinct benefits schedules (medical, oral and maxillofacial surgery, optometry, podiatric surgery and podiatry).

Service Location

The health zone where a health service was provided.

Year at a Glance

	2009/2010	2010/2011
Total Albertans covered under the Alberta Health Care Insurance Plan	3,692,001	3,786,238
Non-seniors	3,294,889	3,334,646
Seniors	397,112	451,592
Amount paid to Alberta practitioners (fee-for-service)	\$2,181,072,223	\$2,355,575,749
Physicians	\$2,133,199,354	\$2,302,481,210
Allied Practitioners	\$47,872,869	\$53,094,539

Less than \$500,000	5,300	5,439
More than \$500,000	1,182	1,304
More than \$1 million	201	243
More than \$2 million	33	42
Alternate Relationship Plans		
Total Expenditures	\$233,832,512	\$271,259,255
Total Alternate Relationship Plans	53	57
Total Physicians ⁽¹⁾	1,459	1,688
Primary Care Networks		
Total Payments	\$109,271,239	\$125,237,697
Total Primary Care Networks	32	39
Total Physicians ⁽¹⁾	1,927	2,216
Total Patients Enrolled	2,222,067	2,553,384

(1) Fee-for-service, alternate relationship plan and primary care network total physicians cannot be added together to obtain a total physician count as alternate relationship plan and primary care network physicians may or may not already be included in the fee-for-service physician count.

(2) These statistics cannot be used as an accurate measure of a practitioner's personal income, because they do not depict other sources of income and the figures quoted are payments from which practitioners pay business expenses, such as office and staff expenses.

	2009/2010	2010/2011
Allied services provided (fee-for-service)		
Total Number of Services Provided	959,086	1,013,407
