About the data

This publication provides a summary of Alberta's international trade statistics for 2011, with sections for exports by industry and exports by region. A profile is also included for each country that imported more than \$20 million of goods from Alberta since 1995, Alberta's top 20 export products and Canada's top 10 export products in 2011. Alberta's exports by each U.S. State, including and excluding energy products, are also provided.

Because service exports are not currently available for provinces on a country-specific basis, in this report "exports" refers only to the export of goods, except in the introductory "Year in Review" section, which includes an estimate of Alberta's global services exports. Additionally, "exports" – those grown, extracted or manufactured in Canada – and does not include "re-exports" – goods imported into Canada and minimally processed but not substantially enhanced in value before being exported again.

Most of the trade statistics in this report are based on the international Harmonized System (HS), which is administered by the World Customs Organization and organizes all traded goods under a standardized, logically ordered, numeric coding system. This system is used by more than 190 countries and forms the basis for customs tariffs, relevant WTO or bilateral free trade negotiations and international trade statistics. The HS system is used in this report to quantify product-specific exports. Sector and industry-based export statistics in this report, though, are based on the North American Industry Classification System (NAICS), which was adopted by Canada, the United States and Mexico in 1997 to provide common definitions of the industrial structure of the three countries and a common statistical framework to facilitate the analysis of the three economies. Because of technical differences in how trade statistics are tracked with the HS and NAICS systems there may be small differences in reported exports depending on the system used.

Export data in the country profile tables is presented at the HS 6-digit level. Product descriptions have been shortened to fit the space available. Full product descriptions can be found in Statistics Canada's "The Canadian Export Classification 2011" at: <http://www.statcan.ca/english/tradedata/cec/index.htm>.

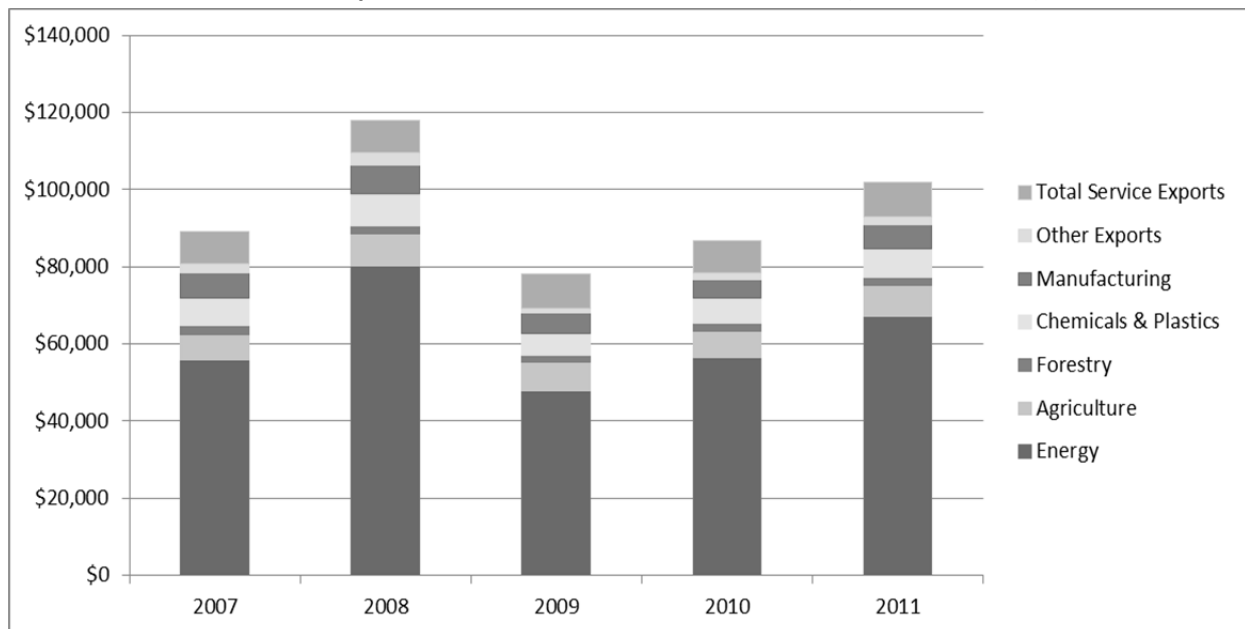

Statistics Canada is the main source of information on goods trade for this publication. Estimates for Service exports are developed by Alberta Treasury Board and Enterprise based on special survey's conducted by Statistics Canada. Information on GDP growth and forecasts come from the International Monetary Fund World Economic Outlook (April 2012), unless otherwise noted.

The Year in Review

2011 has seen a continuation of growth since the global economic recession. Alberta's agricultural; manufacturing and oil & gas exports all saw a generous increase over the 2010 start to the recovery. While 2008 still remains a high water mark for Alberta's exports, Alberta exports have seen positive growth over the last three years.

In 2011, Alberta exported a total of \$101.7 billion worth of goods and services, showing an increase of 17% from the previous year. Exports of merchandise goods from Alberta rose from \$78.6 billion in 2010 to \$93.1 billion in 2011, up 18%, while service exports increased from \$8.2 billion to \$8.9 billion, up 8.5%. Alberta's top export industries were mining and energy, manufacturing (with chemicals, food and beverage, and machinery again accounting for significant portion), and primary agricultural products. Alberta goods were imported by 188 countries in 2011. The top five export markets (in order) were the United States (US), China, Japan, the European Union (EU) and Mexico.

Alberta's Exports of Goods and Services, 2007-2011 (\$CDN, Millions)

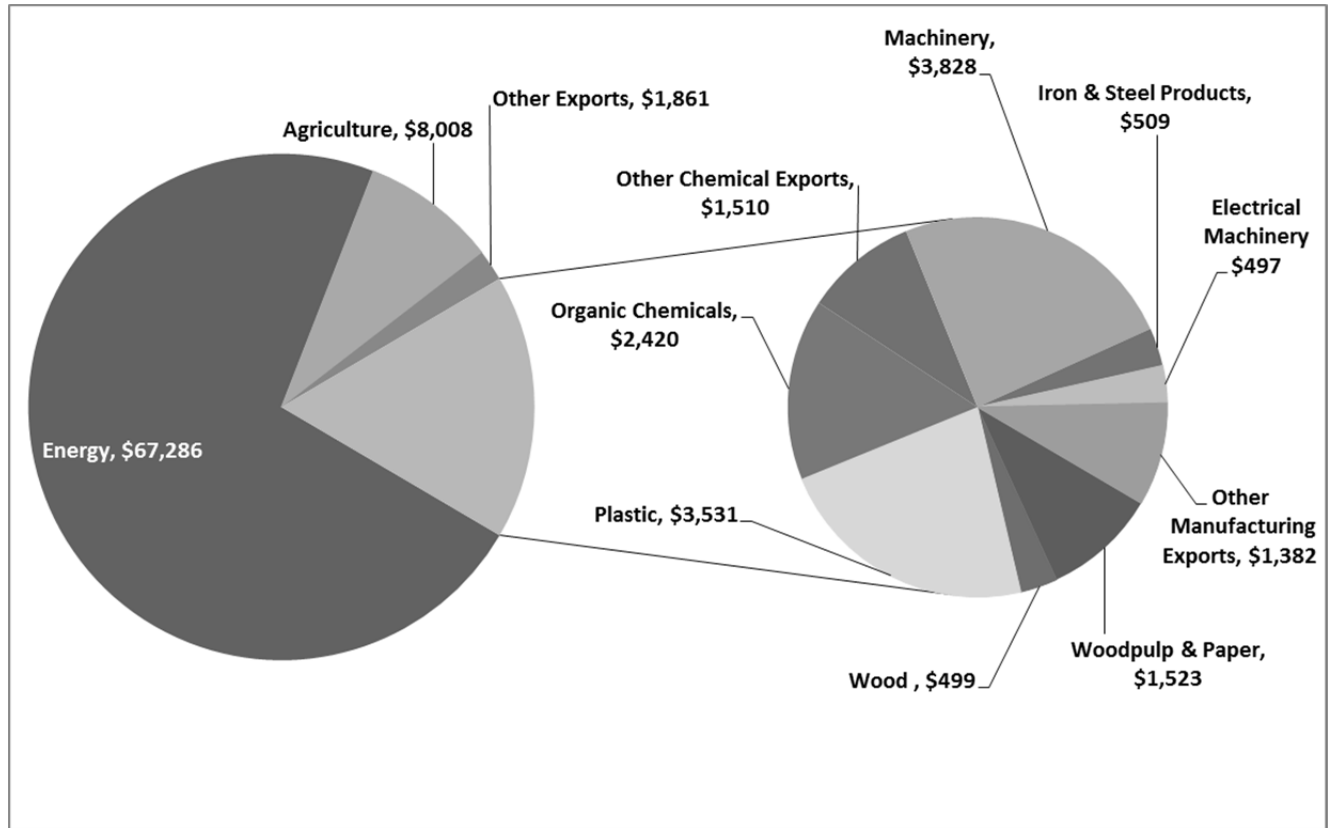

A summary of Alberta's exports by industry and global regions for 2011 follows.

Alberta's Exports by Industry

The value of Alberta's goods exports grew 18% from \$78.6 billion in 2010 to \$93.1 billion in 2011. Energy exports grew 19% in 2011, up from \$56.4 billion in 2010 to \$67.2 billion in 2011. Excluding energy and mining products, Alberta exported \$25.9 billion of other goods, up 16% from the previous year.

Distribution of Alberta's Exports by Industry in 2011 (\$CDN, Millions)

Energy exports totaled \$67.2 billion in 2011. Exports from the sector were composed of mostly of crude oil, worth \$51.9 billion (81% of total energy exports), and natural gas, worth \$10.9 billion (worth 17% of the total). Crude oil exports increased 32% from \$39.3 billion in 2010; natural gas exports saw a decrease of 22% from \$14.1 billion during the same time period. The value of crude oil and natural gas exports combined increased 17% from \$53.4 billion in 2010 to \$62.8 billion in 2011.

Agriculture was Alberta's second largest export industry in 2011, increasing 19% from \$6.7 billion in 2010 to \$8.0 billion in 2011. Cereals and Grains were the largest portion of exports in this industry, up 49% from 2010 to \$3.8 billion from \$2.6 billion in 2010. Meat exports were the second largest portion at \$1.4 billion, followed by livestock which was down 4.7% to \$526.9 million in 2011.

Exports of chemicals and plastics were the third largest export sector, up 17% from 2011 to \$7.4 billion. Plastic was the largest contributor in this sector, increasing by 14% to \$3.5 billion in 2011 from \$3.1 billion in 2010. Organic Chemicals made up the second largest portion of trade in this area, up 20% from \$2.0 billion in 2010 to \$2.4 billion in 2011.

Alberta's Exports by Industry in 2011(\$CDN, Millions)

Industry	2007	2008	2009	2010	2011	2010-2011 % Change

Agriculture, Food and Beverages

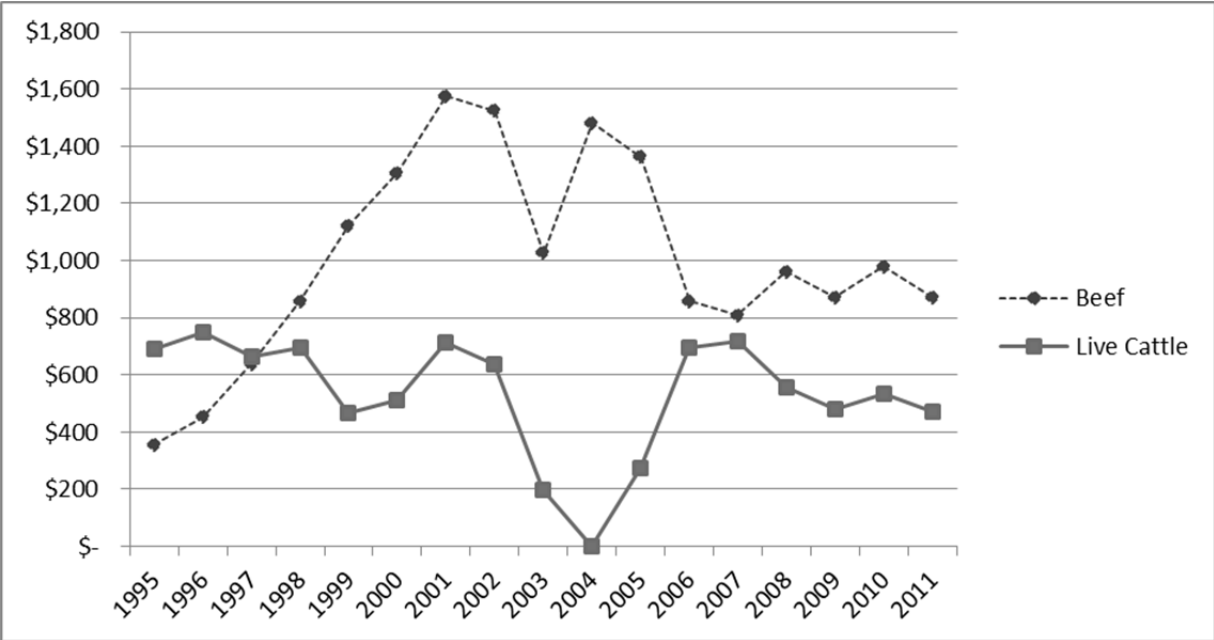

Alberta's exports in the Primary Agriculture and Food and Beverage Manufacturing sectors increased from \$6.7 billion in 2010 to \$8.0 billion in 2011, a 19% increase.

Description	2010	2011	2010-2011 % Change
Wheat And Meslin	\$ 1,409.6	\$ 1,915.3	35.9%
Canola Seed	\$ 996.2	\$ 1,651.9	65.8%
Beef	\$ 979.9	\$ 872.3	-11.0%
Canola Oil	\$ 756.0	\$ 706.0	-6.6%
Live Cattle	\$ 535.0	\$ 470.6	-12.0%
Pork	\$ 377.3	\$ 393.9	4.4%
Preserved Vegetables	\$ 191.2	\$ 201.8	5.5%
Malt	\$ 142.7	\$ 151.5	6.2%
Animal Feed Preparations	\$ 99.5	\$ 99.0	-0.5%
Animal Offal	\$ 92.2	\$ 118.6	28.6%
Barley	\$ 73.4	\$ 120.2	63.8%
Animal Fodder	\$ 51.7	\$ 64.4	24.6%
Vegetables	\$ 76.8	\$ 132.9	73.1%
Other Meat	\$ 51.4	\$ 43.9	-14.5%
Spirits and Liquers <80% Alcohol	\$ 43.9	\$ 42.4	-3.4%
Total Above	\$ 5,876.7	\$ 6,984.8	18.9%
Total Other	\$ 841.0	\$ 1,023.0	21.6%
Total Agriculture	\$ 6,717.7	\$ 8,007.8	19.2%

Crops exports were heavily influenced by the performance of wheat and canola seed, which made up approximately 78% of total crop exports. Alberta's exports of wheat increased 36% to \$1.9 billion in 2011. Canola seed exports increased from \$996.2 million in 2010 to \$1.7 billion in 2011, or 66%. Export prices for canola seed increased rapidly, resulting in a net gain in the value of canola seed exports. Other crops such as barley, which increased 64%, and leguminous vegetables, which increased 130% also contributed to the overall performance of crop exports in Alberta.

Frozen or fresh beef was worth \$872.3 million in total, down 11% from 2010 to 2011, while live cattle exports also decreased by 12% to \$470.6 million during the same period. This may be due to rapidly increasing costs of corn and other major feeding expenses, which has provided incentives for ranchers to decrease herd size. The chart below illustrates the long-term trend of these two industries since 1995.

Alberta's Exports of Live Cattle and Fresh and Frozen Beef 1995-2011 (\$CDN, Millions)

Energy

Mining and energy exports, which account for the largest portion of Alberta's exports, saw an increase of 19% in 2011 to \$67.9 billion from \$56.8 billion in 2010. Mining exports were once again diversified in their destination markets in 2010, with the United States and China accounting for 57%. Once again, 98% of Alberta's energy exports were destined for the US.

Alberta's Energy and Mining Sector Exports in 2011 (\$CDN, Millions)

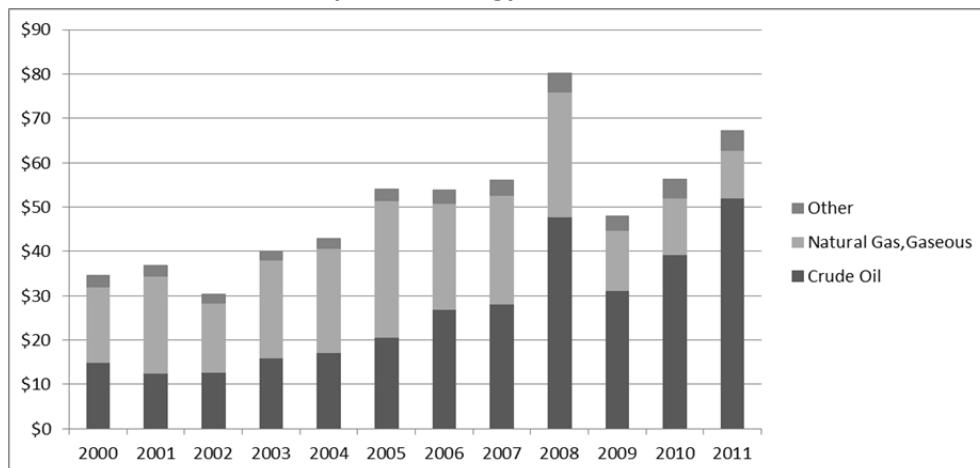

Description	2010	2011	2010-2011 % Change
Crude Oil	\$ 39,320.4	\$ 51,967.7	32%
Natural Gas,Gaseous	\$ 12,944.6	\$ 10,901.9	-16%
Coal	\$ 706.1	\$ 866.4	23%
Other Energy	\$ 3,924.9	\$ 4,187.8	7%
Energy	\$ 56,896.1	\$ 67,923.8	19%

Crude oil exports grew 32% from 2010 to \$51.9 billion in 2011, the average price of crude oil increased by 15% over the same time period. Exports of natural gas further declined from 2010 by 14% to \$10.9 billion in 2011. The following table shows price, volume and value data for Alberta's exports of crude oil and natural gas exports in 2010 and 2011.

Alberta's Exports of Energy by Quantity, Price and Value

Description	2010	2011	2010-2011 % Change
Crude Oil			
Quantity (cubic metres)	84021954	\$ 96,718,745.0	15.1%
Average Price (\$/cubic metre)	468	\$ 537.3	14.8%
Value (\$CDN, Millions)	39320	\$ 51,967.7	32.2%
Natural Gas (Gaseous)			
Quantity (thousands of cubic metres)	78114548	\$ 75,335,409.0	-3.6%
Average Price (\$/thousands of cubic metres)	163	\$ 144.7	-11.3%
Value (\$CDN, Millions)	12745	\$ 10,901.9	-14.5%

Alberta's Exports of Energy in 2011 (\$CDN, Billions)

Coal exports grew 23% in value from 2010 to 2011, reaching \$866.3 million. In 2011, Japan was the largest market for Alberta's coal products and consumed \$251.0 million of the total, up 14% from 2010. The second largest market for Alberta's coal in 2011 was South Korea at \$198.9 million. The United States ranked third at \$195.8 million.

Chemicals and Plastics

Chemical exports from Alberta increased 17%, from \$6.4 billion to \$7.54 billion in 2011. Chemical exports can be subdivided into several categories: ethylene-based exports/plastics, organic chemicals, fertilizers, and inorganic chemicals.

Alberta's Chemical and Plastic Exports in 2011 (\$CDN, Millions)

Description	2010	2011	2010-2011 % Change
Plastic	\$ 3,105.3	\$ 3,531.2	14%
Ethylene Polymers	\$ 1,798.9	\$ 1,998.8	11%
Polyethylene specific gravity >= 0.94	\$ 574.1	\$ 734.4	28%

Carbon Blacks	\$ 56.7	\$ 63.2	11%
Other Inorganic Chemicals	\$ 21.7	\$ 31.9	47%
Other Chemicals and Plastics	\$ 264.7	\$ 236.1	-11%
Total Chemicals and Plastics	\$ 6,401.5	\$ 7,461.3	17%

Plastic exports from Alberta to the world totaled \$3.5 billion in 2011, up from \$3.1 billion in 2010. The U.S. consumed \$3.1 billion of Alberta's plastic exports in 2011, showing no growth since 2010 when they also consumed \$3.1 billion. Mexico followed the U.S. as the second largest importer of plastics growing 17% in 2011 to \$140.2 million from \$119.8 million in 2010. Our third largest market of exports from Alberta in 2011 was China; the Chinese have been decreasing their imports of plastic from Alberta since 2006. In 2011 exports to China further decreased by 21% in to \$95.5 million from \$120.9 million in 2010.

Organic chemicals ranked as Alberta's second largest chemical and plastics export in 2011. Organic chemicals accounted for \$2.4 billion worth of exports, up 20% from \$2.0 billion in 2010. Exports of organic chemicals to the US, the largest market for Alberta's chemicals, expanded 21% from 2010 to 2011, from \$1.5 billion to \$1.7 billion. China absorbed the \$511.2 million in 2011, up 19% from 429.2 in 2010. Within the organic chemicals category, exports of ethylene glycol (antifreeze) accounted for \$1.4

billion of the total in 2011, up from \$1.1 billion in 2010. The largest market for ethylene glycol was the U.S. at \$812.8 million, followed by China at \$509.0 million. Other significant exports included styrene (\$452.0 million) and acyclic hydrocarbons (\$285.5 million). Both exports were destined almost entirely to the U.S.

Alberta's exports of fertilizers, such as urea and ammonium nitrate, were worth \$656.2 million in 2011, up 13%, from \$580.3 million in 2010. Exports of fertilizers were mostly destined for the United States, which absorbed 97% of the total (\$637.4 million).

Inorganic chemical exports grew 42% from \$435.5 million in 2010 to \$617.4 million in 2011. Anhydrous ammonia accounted for the bulk of inorganic exports in 2011 at \$522.3 million in 2011, up from \$357.1 million in 2010. The U.S. was the most significant export destination of inorganic chemicals, at 92%.

Manufacturing

Alberta's manufacturing exports increased 27% in value, to \$6.9 billion in 2011. The manufacturing sector made up 6.1 % of Alberta's non-energy goods exports during this period. Machinery was the largest portion of this sector, up 30% from \$2.9 billion in 2010 to \$3.8 billion in 2011. Iron and steel products were the second largest export in the manufacturing sector up 11% to \$509.0 million in 2011 from \$459.6 million in 2010

Manufacturing of transportation equipment performed exceptionally well in 2011, with an increase of 89% to \$324.0 million. On the other hand, furniture manufacturing experienced slight declines in exports of 15%. Other subsectors remained relatively stable between 2010 and 2011, experiencing minor fluctuations in exports during this period.

Alberta's Manufacturing Exports 2011 (\$CDN, Millions)

Description	2010	2011	2010-2011 % Change
Total Manufacturing	\$ 4,953.4	\$ 6,216.6	26%
Machinery	\$ 2,938.8	\$ 3,828.4	30%

Machinery

Alberta's exports of machinery increased 32% from \$2.6 billion in 2010 to \$3.4 billion in 2011. Boring and sinking machinery and part exports increased 18% in value from \$729.9 million in 2010 to \$863.4 million in 2011. Exports of pumps for gas turbines decreased almost 15% in 2011 to \$265.3 million. Liquid pumps and parts exports rose over 100% from \$300.3 million to \$600.9 million in 2011.

Alberta's Machinery Exports in 2010 (\$CDN, Millions)

Description	2010	2011	2010-2011 % Change

The destinations for Alberta's machinery exports were diversified in 2011. While the U.S. absorbed 65% of all machinery exports from Alberta, there were significant exports to Russia (4.7%), China (3.9%) and Australia (3.0%). It should also be noted that South Korea, which had absorbed 3.4% of Alberta's machinery exports in 2010, absorbed only 0.7% in 2011. In 2010, South Korea ranked as Alberta's third largest destination for machinery exports, while in 2011 it ranked seventeenth. Overall, machinery exports worth \$2.0 million or more were sent to 66 countries in 2011, up from 58 countries in 2010.

Electrical/Electronic Equipment and Precision Instruments

Alberta's exports of electrical, electronic and precision equipment products increased 11% from \$851.7 million in 2010 to \$944.6 million in 2011. Within this category, exports of computer and electronic products increased 9.1% to \$600.8 million, while electrical equipment exports grew 16% to \$288.3 million.

Alberta's Electrical, Electronic Equipment, and Precision Instrument Exports in 2011 (\$CDN, Millions)

Description	2010	2011	2010-2011 % Change
Instruments for Physical Analysis	\$ 101.7	\$ 91.6	-10%

Other Exports	\$ 53.3	\$ 55.5	4%
Total Electrical, Electronic Equipment, Precision Instrument Exports	\$ 851.7	\$ 944.6	11%

Products in these industries can be divided into three categories; computers, electrical machinery, and precision instruments. Exports of Alberta's computers and computer components grew 2.8% from \$58.1 million in 2010 to \$59.8 million 2011.

Forestry

Forestry exports from Alberta declined in 2011 by 10% in value, to \$2.0 billion.

Woodpulp and paper exports were relatively stable between 2010 and 2011, experiencing a slight decline from \$1.6 billion in 2010 to \$1.5 billion in 2011 (down 4.5%). Whereas newsprint declined 12% from \$123.2 million in 2010 to \$108.6 million in 2011, other paper products such as cartons, paper, and woodpulp experienced very minor fluctuations.

Exports of wood products decreased by 23% from \$643.5 million in 2010 to \$498.8 million in 2011. Lumber exports, the largest wood product export, decreased 13% from \$382.5 million in 2010 to \$332.5 million in 2011. Oriented strandboard, Alberta's second largest wood product export, declined from \$153.5 in 2010 to \$68.5 in 2011, down 55%. Prefabricated buildings, Alberta's third largest wood product export in 2011 decreased 18%.

Alberta's Forestry Manufacturing Exports 2011 (Including Wood, Woodpulp, Paper and Wood Product, \$CDN, Millions)

Description	2010	2011	2010-2011 % Change
Woodpulp	\$1,428.6	\$1,364.9	-5%
Lumber	\$382.5	\$332.5	-13%
Orientated Strand Board	\$153.5	\$68.5	-55%
Prefabricated Buildings	\$63.4	\$52.0	-18%
Newsprint, In Rolls Or Sheets	\$123.2	\$108.6	-12%
Paper	\$23.5	\$23.4	0%
Fibreboard	\$23.3	\$24.4	5%
Plywood and Veneered Panels	\$15.4	\$10.6	-31%
Wood not Stripped of Bark	\$13.8	\$14.3	4%
Cartons	\$13.1	\$13.2	1%
Total Above	\$2,240.3	\$2,012.4	-10%
Paper Products & Wood Pulp	\$1,596.7	\$1,523.5	-5%
Wood Products	\$643.5	\$498.8	-23%
Total Forestry	\$2,240.3	\$2,022.3	-10%

The U.S. was Alberta's largest market for woodpulp with sales at \$651.5 million in 2011, down from \$733.2 million in 2010. China and Japan ranked as Alberta's second and third largest export destinations for woodpulp at \$273.9 million and \$151.6 million respectively. The U.S. absorbed nearly all of Alberta's paper exports in 2011 at \$154.8.

Wood exports were predominantly destined for U.S. and Japan. Exports of wood to the U.S. totaled \$409.4 million, down 26% from 2010, while wood exports to Japan declined 4.8% to \$63.5 million. Prefabricated buildings were largely exported to the U.S. in 2011 and were worth \$48.5 million, down 18% from 2010.

Other Exports

Alberta's other exports grew 13% in 2011 from \$1.6 billion in 2010 to \$1.8 billion in 2011. This area has seen slow but steady recovery since dropping off in 2009 by 62%.

Other Exports from Alberta (\$CDN, Millions)

Description	2010	2011	2010-2011 % Change
Other Exports	\$ 1,649.9	\$ 1,860.5	12.8%
Unwrought Nickel	\$ 698.3	\$ 743.3	6.4%
Sulfur	\$ 452.0	\$ 638.2	41.2%
Cobalt	\$ 196.6	\$ 175.7	-10.6%
Aluminum	\$ 103.4	\$ 99.9	-3.4%
Copper	\$ 28.9	\$ 29.2	1.0%
All Other	\$ 377.47	\$ 374.04	-0.9%

The largest export in this category for Alberta is unwrought nickel, used primarily in the production of stainless steel and other corrosion resistant alloys. Exports of unwrought nickel increased by 6% in 2011, up from \$698.3 million in 2010 to \$743.3 million in 2011. The largest importer of Alberta's nickel was the Netherlands at \$379.3 million in 2011, followed by China who imported \$174.3 million worth and Italy at \$49.1 million.

The second largest export was sulfur, which increased by 41% to \$638 million in 2011 from \$451.9 million in exports in 2010. Sulfur, which is a byproduct of the oil and natural gas industries, benefited from another year of increases in the average price in 2011. China (\$172.8 million), The United States (\$171.9 million), and Australia (\$94.0 million) were the most significant export markets for Alberta's sulfur in 2011.

Cobalt was the third largest export at \$175.7 million in 2011, down 11% from \$196.6 million in 2010. Cobalt is used in a variety of items including magnets, ceramics, special glasses, and tools. Aluminum also fell in 2011, down 3.4% from \$103.4 million to \$99.9 million.

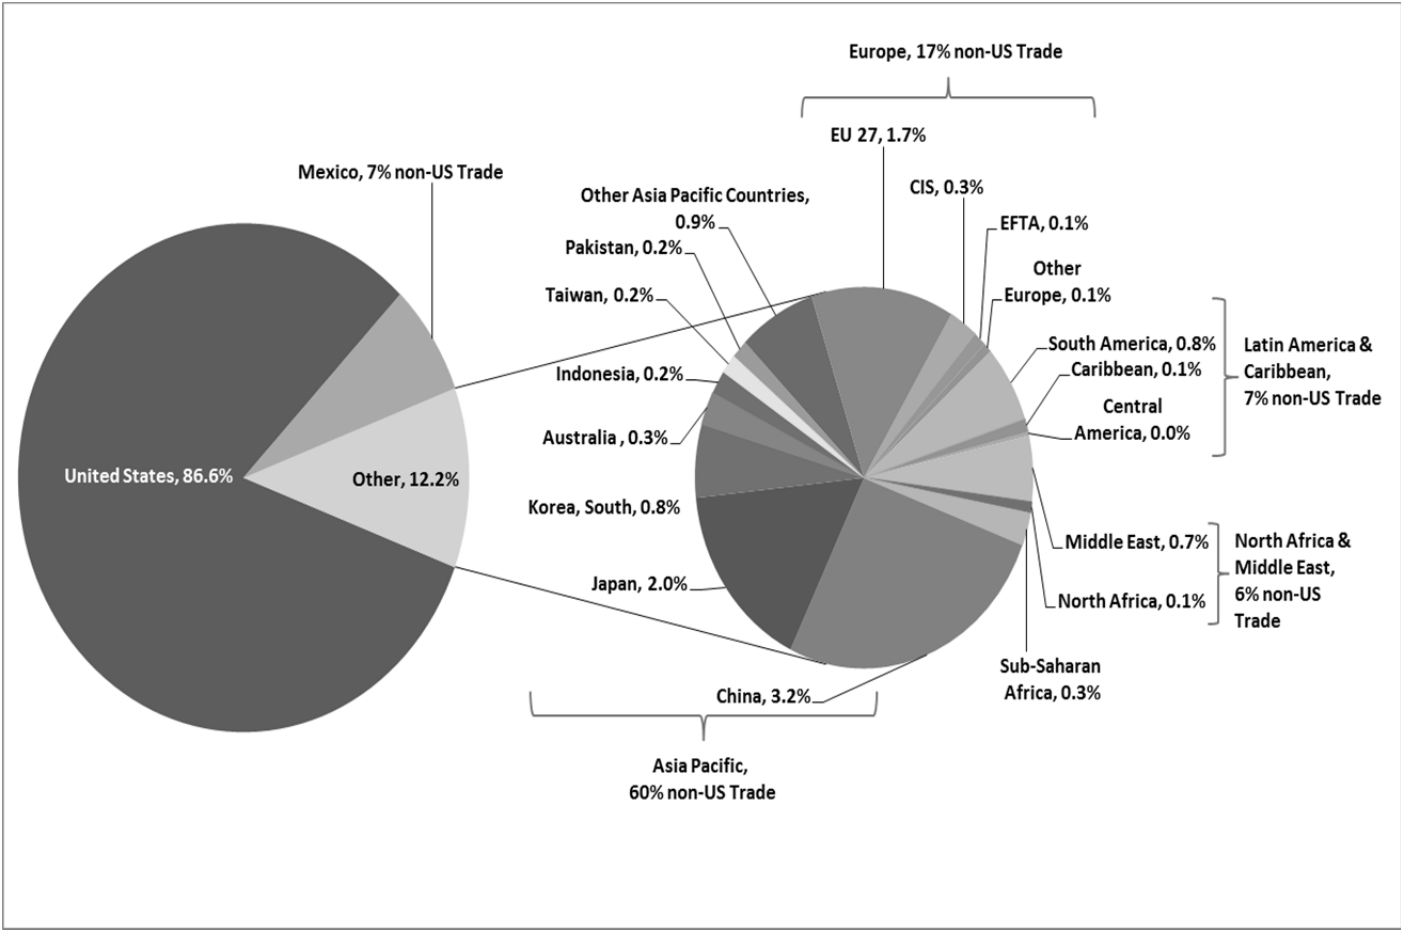

Alberta's Exports by Region

As is the norm, the North American Free Trade Agreement countries continued to be Alberta's largest export market in 2011 (\$81.7 billion). The United States consumed \$80.7 billion of Alberta's exports, with energy the dominant export product. Overall energy exports accounted for \$66.1 billion to the US, approximately 82% of total exports. Alberta's exports in the North Asia region, increased from \$5.2 billion in 2010 to \$5.9 billion in 2011, 6.3% of Alberta's total exports. Exports to the South Asia & Oceania region increased 21% from \$1.2 billion in 2010 to \$1.4 billion in 2011, equaling 1.5% of our total exports. The exports consumed by the Europe region increased by 27% in 2011, up from \$1.6 billion in 2010 to \$2.1 billion in 2011, accounting for approximately 2.2% of our total exports. The following is a report on Alberta's exports by region with key countries for each region highlighted. Please see the Market Profiles in the Appendix for detailed export statistics on individual countries.

Alberta's Exports by Region in 2011 (\$CDN, Millions)

Description	2010	2011	% Change 2010-2011	2011 Share of Exports	Share of Non- U.S. Exports

Alberta's Exports by Region in 2011: Total = \$93.2 Billion

North America

North America is Alberta's largest trade region and accounted for 88% of total Alberta exports in 2011. Merchandise exports to NAFTA partners were valued at \$81.7 billion, up 18% from 2010. 99% of Alberta's North American exports were destined for the US.

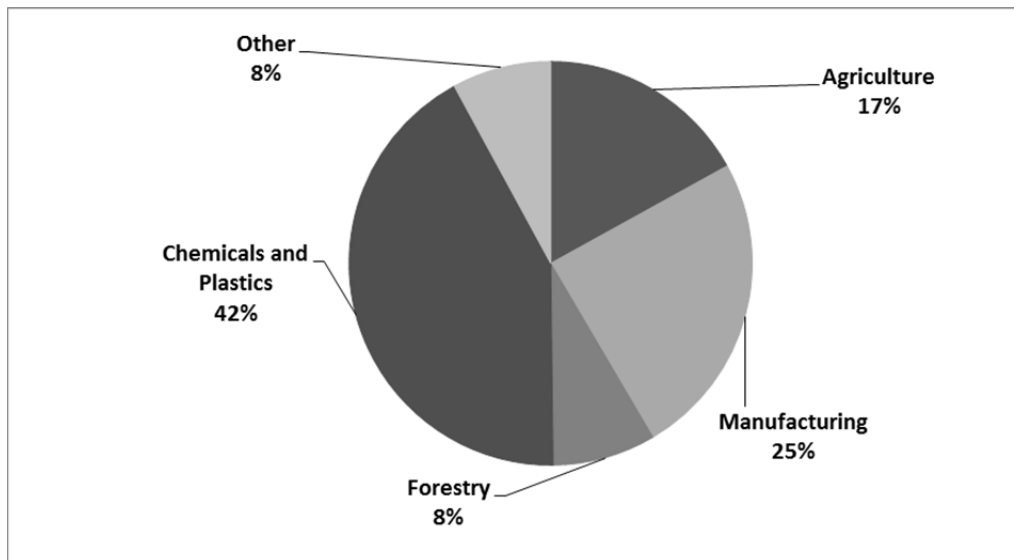

Energy products accounted for 82% of Alberta's exports to North America, \$66.8 billion. Crude oil made up 63% (\$51.6 billion, up 32% from 2010) of energy exports in 2011 while natural gas accounted for 13% (\$10.9 billion, down 14%). Calcined petroleum coke, light oils and coal made up the remainder. Most of Alberta's energy exports to NAFTA countries were destined for the US.

United States

The U.S. was Alberta's single largest trading partner in 2011 at \$80.7 billion (88% of Alberta's total exports). With exports oriented heavily to that market, Alberta is particularly susceptible to U.S. economic performance relative to that of other countries. The U.S. economy growth did slow in 2011 as expected, however was growing at a rate of 1.7% as opposed to the predicted 1.5%.¹

Energy was the largest sector to the U.S. in 2011. Exports of energy increased by 19% in 2011, from \$55.5 billion in 2010 to \$66.1 billion in 2011. Higher prices and larger export volumes contributed to the growth of energy exports from 2010 to 2011**. Overall, the quantity of crude oil exports, the largest export product to the US, grew 19% from 2010 to 2011, while the price of crude oil increased 15%. The value of crude oil exports to the U.S. rose from \$39.1 billion in 2010 to \$51.5 billion in 2011, a 32% increase. Natural gas was Alberta's second largest export to the US, despite shrinking 14% from \$12.7 billion to \$10.9 billion in 2011. Liquefied propane exports grew 16%, from \$1.5 billion to \$1.7 billion during the same period. Energy prices are still recovering from the dip in 2009, and while a return to price levels in 2008 are unlikely, the price for crude oil is expected to increase in 2012.

Alberta's Share of Non-Energy Exports to the U.S. in 2011

¹ (International Monetary Fund, World Economic Outlook 2012 – Table 1)

** See the Mining and Energy Sector section for tables and charts illustrating volume and pricing trends.

Alberta's non energy exports to the U.S. grew from \$12.5 billion in 2010 to \$14.4 billion in 2011. A breakdown of these exports by sector is provided in the previous chart (chart 1). Note that these categories will be different than those used in the previous section.

Agricultural exports increased 5.6% from \$2.3 billion in 2010 to \$2.5 billion in 2011. Alberta's exports of meat products to the U.S. decreased 10% from \$795.3 million in 2010 to \$716.4 million in 2011 and remained the largest export from the agricultural sector. Beef comprised the bulk of the meat exports at \$623.3 million 2011, down 13% from \$716.6 million in 2010. Cattle were the largest component of live animal exports in 2011 at \$466.2 million, down 13% from \$534 million in 2010. This was likely caused by an average increase of 21% in the price of beef. Exports of cereals (such as wheat, barley and oats) increased from \$185.4 million to \$273.9 million in 2011, an increase of 48%. Exports of fats and oils (primarily canola oil) from Alberta increased from \$157.8 million in 2010 to \$219.53 million 2011, an increase of 39%.

Chemicals and plastics continued to be Alberta's largest non-energy export to the U.S. again in 2011. These exports grew 18% in 2011, from \$5.2 billion in 2010 to \$6.2 billion in 2011. Alberta's exports of plastic grew 17% from \$2.6 billion in 2010 to \$3.1 billion in 2011. Organic chemicals and fertilizers were important chemical exports to the U.S. and were worth \$1.7 billion (an increase of 19%) and \$637.4 million (an increase of 12%) in 2011 respectively.

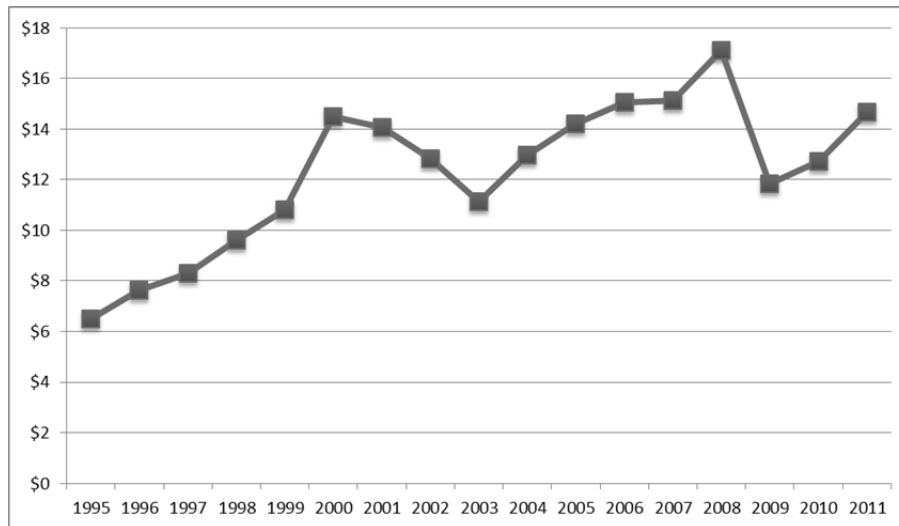

Alberta's manufacturing exports products grew 34%, from \$3.1 billion in 2010 to \$4.2 billion in 2011. Machinery exports were worth \$2.4 billion in 2011, up 43% from the previous year. Alberta's exports of precision instruments grew from \$202.7 million in 2010 to \$240.9 million in 2011. Exports of electrical machinery grew 19% to \$283.9 million in 2011. Exports of vehicles to the U.S. saw the largest percentage of growth in the sector at 116% from \$96.1 million in 2010 to \$207.6 million in 2011.

Exports from Alberta's forestry sector fell declined by 16% in 2011, from \$1.5 billion in 2010 to \$1.2 billion in 2011. Exports of wood and lumber saw a decrease of 26%, falling from \$552.4 million in 2010 to \$409.4 million in 2011. Woodpulp and paper exports were worth \$651.5 million in 2011 (down 11%) and \$154.8 million (down 7.2%) respectively in 2011. Forestry exports to the U.S. did lower as predicted in 2010 both in the average price and the volume of forestry products being shipped.

Alberta's other exports increased 12% from \$1.1 billion in 2010 to \$1.2 billion in 2011. Iron and steel products were the largest portion of Alberta's other exports, increasing 12% from \$349.8 million in 2010 to \$393.3 million in 2011. Unwrought iron and steel exports grew 29% from \$126.8 million to \$163.3 million in 2011. Salt, sulfur and stone exports (primarily sulfur), the third largest export sector in the category, grew 40% in value from 2010 to 2011, from \$151.6 million to \$212.6 million.

It is difficult to identify the final destination for Alberta's exports to the U.S., since goods are frequently shipped on to new locations following their recorded arrival in the U.S. Oil and natural gas are particularly difficult since those goods are moved via pipeline, making it nearly impossible to determine a final destination. However the available data can be used to identify which states are the largest in terms of point of first access. U.S. Midwest states continue to be the major markets for Alberta oil and natural gas products in 2011. More information on the total exports including energy can be found in the Appendix.

Alberta's Non-Energy Exports to the U.S. 1995-2011 (\$CDN, Billions)

Excluding oil and natural gas exports (and excluding the U.S. as a whole), Texas continues to be Alberta's second largest global export market after China, at \$2.6 billion in 2011. Illinois ranked as Alberta's 4th largest market for non-energy exports after Japan, followed by California, Mexico and North Dakota.

Alberta's exports (excluding oil and gas) to Texas, the largest in the market in the United States, grew 47% to \$2.6 billion in 2011, up from \$1.7 billion in 2010. Machinery, mostly oil and natural gas equipment and parts, was the largest export product to Texas from Alberta and accounted for \$1.1 billion, up 72% from 2010 levels. Plastic was the second largest export to Texas in 2011, growing 61% from \$297.4 million in 2010 to \$478.0 million in 2011. Organic chemicals ranked as Alberta's third largest non-energy export to Texas at \$399.0 million up 15% to from 2010.

Non-energy exports to Illinois increased 34% from \$800.7 million in 2010 to \$1.1 billion in 2011. Alberta's largest exports to Illinois were organic chemicals (\$406.7 million, up 28%), plastic (\$329.6 million, up 71%), and meat (\$51.6 million, no growth in 2011).

California was Alberta's third largest U.S. market for non-energy exports and accounted for \$949.1 million in 2011, up 3.7% from \$915.5 million in 2010. Meat exports were the largest exports to California, accounting for \$254.6 million in 2011, down 6% from 2010. Plastic made up the second largest export, up 7.3% from \$156.9 million in 2010 to \$168.4 million in 2011. The third largest export category to California was Machinery, up 48% from \$63.2 million in 2010 to \$93.7 million in 2011.

Alberta's exports to North Dakota, the fourth largest non-energy U.S. market, grew 51% from \$599.7 million in 2010 to \$907.7 million in 2011. Machinery exports, largely the type used for the development of oil and gas increased 142%, from \$94.4 million in 2010 to \$228.7 million in 2011. Fertilizers and inorganic chemicals were the second and third largest commodities exported to the state, at \$172.4 million in 2011 and \$131.42 million respectively. Miscellaneous grain, seed (mostly canola) and fruit, was the fourth largest export. Exports of the commodity grew 75% from \$70.4 million in 2010 to \$123.3 million in 2011.

Mexico

Mexico's economy grew 3.9%² in 2011, and is expected to grow in the near future by 4.0% in 2012, and 3.5% in 2013. However, similar to Canada, Mexico is heavily reliant on the U.S. as a market for goods and continuing uncertainty in the U.S. could impact economic growth.

Alberta's exports to Mexico increased by 26% from \$744.0 million in 2010 to \$936.4 million in 2011. Canola seed was the largest export from Alberta to Mexico and totalled \$301.6 million, up 56% from \$192.9 million in 2010. Alberta's exports of cereals grew 55% from \$72.5 million in 2010 to \$112.7 million in 2011. Plastic exports grew 17% from \$119.8 million in 2010 to \$139.8 million in 2011. Meat exports saw further decreases in 2011, down 15% from \$162.3 million in 2010 to \$138.6 million in 2011. Machinery exports, mostly boring or sinking machinery parts, grew a modest 12% from \$33.4 million 2010 to \$37.3 million in 2011, still down significantly from 2009 volumes.

² International Monetary Fund (IMF), World Economic Outlook 2012.

Asia Pacific

The Asia Pacific region was the next largest regional market for Alberta goods after North America. Exports to the region grew in 2011 owing to strong continued growth in the region's economies throughout the year³. Growth is expected to continue; however, some uncertainty still remains in the marketplace.

Alberta's Exports to the Asia-Pacific in 2011 (\$CDN, Millions)

Rank	Country/Region	2009	2010	2011	% Change 2010-2011	2011 Regional Share

Overall, real GDP varied substantially in the region in 2011, from -0.7% (Japan) to 17.3% (Mongolia). China's GDP is expected to grow in 2012 by 8.0% and 8.5% in 2013, while India is expected to increase 6.1% and 6.5% respectively. Japan's GDP saw a decline at a growth rate of -0.7%, but is projected to see a growth rate of 2.5% in 2012 and 1.5% in 2013. The South Korean economy grew 3.6% and is expected to grow at a steady pace by 3.5% in 2012 and 3.9% in 2013. Australia's GDP grew 2.0% in 2011 and is projected to see continued growth at a rate of 3.0% in 2012 and 3.5% in 2013.

³ International Monetary Fund (IMF), World Economic Outlook Database.

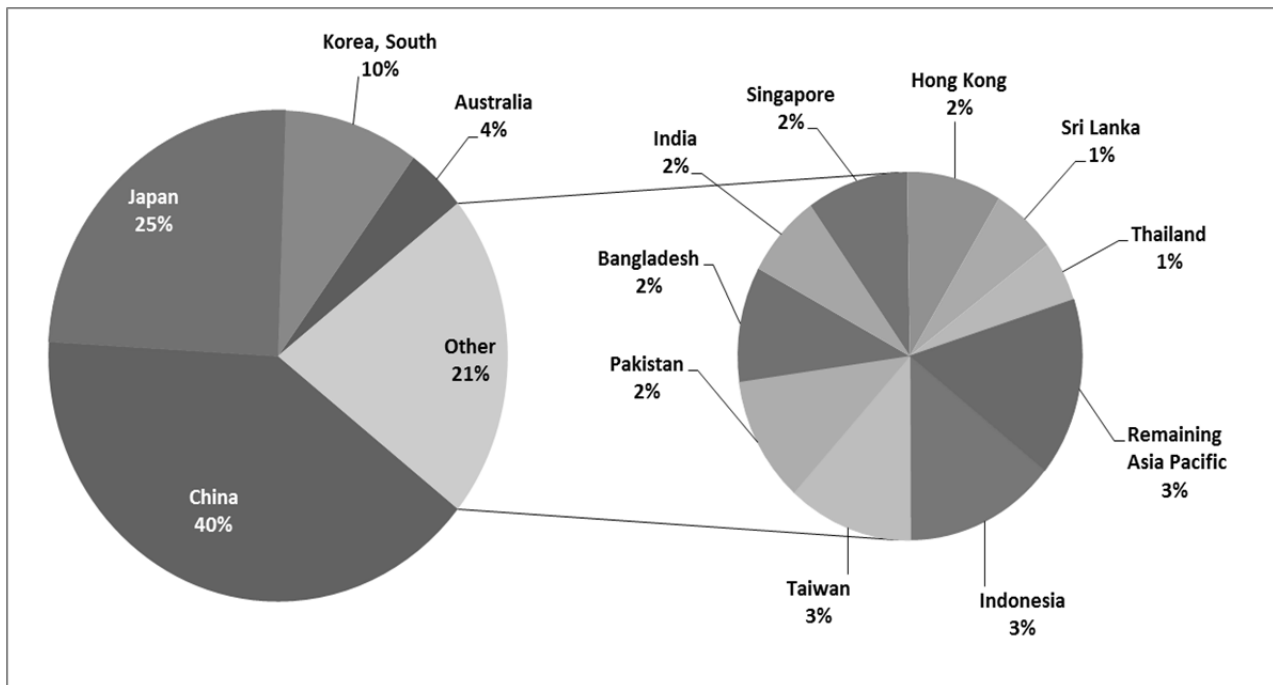

At the time of this report, Canada has recently begun negotiating its inclusion into the Trans-Pacific Partnership (TPP). The TPP is a regional free trade agreement that will include Australia, Brunei, Chile, Malaysia, Mexico, New Zealand, Peru, Singapore, the U.S., and Vietnam and may include Japan. This is a good opportunity for Canada to address a number of outstanding trade issues with the U.S. and further integrate into the global economy.

Canada has also been pursuing free trade negotiations in the region, notably the Canada-South Korea Free Trade Agreement (FTA), which has continued to be dormant. Negotiations started with India on a Comprehensive Economic Partnership Agreement (CEPA) in November 2010. Canada and Japan have also recently begun negotiating an Economic Partnership Agreement. .

Exports from Alberta to the Asia-Pacific region increased by 15% in 2011, up from \$6.5 billion in 2010 to \$7.4 billion in 2011. Alberta was the third largest provincial exporter to the region. British Columbia’s exports to the region grew by 22% from \$11.8 billion in 2010 to \$14.3 billion in 2011. Ontario was the second largest exporter to the Asia Pacific in 2011, up 32% to \$8.2 billion from \$6.2 billion in 2010. Canada’s exports to the Asia Pacific region grew 25% from \$38.0 billion in 2010 to \$47.4 billion in 2011.

Top exports to the Asia Pacific region in 2011 included canola seed (\$969.8 million), wheat (\$752.3 million), coal (\$557.8 million), chemical woodpulp (\$516.0 million), canola oil (\$421.0 million) and crude oil (\$407.2 million). Further breakdown of the countries in receipt of our exports follows.

Distribution of Alberta’s Exports to the Asia Pacific in 2010 (\$CDN, Millions)

North Asia

Trade in North Asia accounts for the largest portion of exports sent from Alberta to the Asian Pacific Region. North Asia accounted for \$5.9 billion in exports for 2011, up 13% from \$5.2 billion in 2010. China accounted for the largest portion of our exports to the region, increasing by 5.5% up from \$2.8 billion in 2010 to \$3.1 billion in 2011. The second largest export destination in the region was Japan; exports to the country grew 24%, up from \$1.5 billion in 2010 to \$1.8 billion in 2011.

Alberta's Exports to North Asia in 2011 (\$CDN, Millions)

Description	2009	2010	2011	% Change 2010-2011	2011 Regional Share
China	\$ 2,706.5	\$ 2,880.8	\$ 3,039.3	5.5%	51.4%
Japan	\$ 1,491.3	\$ 1,472.4	\$ 1,832.3	24.4%	31.0%
Korea, South	\$ 532.7	\$ 541.4	\$ 707.3	30.6%	11.9%
Taiwan	\$ 156.6	\$ 190.0	\$ 187.6	-1.3%	3.2%
Hong Kong	\$ 99.2	\$ 146.9	\$ 141.8	-3.5%	2.4%
Total Above	\$ 4,986.4	\$ 5,231.6	\$ 5,908.2	12.9%	99.8%
Other North Asia	\$ 8.8	\$ 2.3	\$ 10.4	345.7%	0.2%
North Asia	\$ 4,995.2	\$ 5,233.9	\$ 5,918.6	13.1%	100.0%

China

China was the largest market for the Asia Pacific region and the second largest export market overall for Alberta. Ethylene glycol (commonly used for antifreeze) was the largest export to China, increasing 19% from \$426.2 million in 2010 to \$508 million in 2011. Crude oil was the second largest export at \$407.2 million in 2011, up 133% from \$174.9 million in 2010. Canola oil exports to China were down by 41% in 2011 at \$369.2 million from \$622.5 million in 2010. Canola seed was the fifth largest export increasing 38% from \$200.7 million in 2010 to \$277.1 million in 2011.

Japan

Japan was the second largest market for the Asia Pacific region and the third largest export market overall for Alberta. The largest export to Japan for 2011 was canola seed, increasing by 73% from \$287.1 million in 2010 to \$495.4 million in 2011. This was followed by coal at \$251.0 million, up 15% from \$218.8 million in 2010. The third largest export to the region was pork which exports decreased by 5.5% from \$201.7 million in 2010 to 190.0 million in 2011. Exports of Wheat increased 83% from \$77.9 million in 2010 to \$142.8 million in 2011.

South Korea

Exports to South Korea grew 31% in 2011, from \$541.4 million 2010 to \$707.3 million. The largest export to South Korea was coal; in 2011 we exported \$199.0 million up 84% from \$108.1 million in 2010. The second largest export to the country was wheat at \$184.02 million, up 158% from \$71.3 million in 2010; followed by woodpulp (\$115.4 million), pork (\$42.4 million) and fats and oils (\$31.2 million).

South and Southeast Asia and Oceania

The South & Southeast Asia and Oceania region accounted for \$1.4 billion in exports for 2011, up 21% from \$1.2 billion in 2010. Australia accounted for the largest portion of our exports to the region, increasing by 20% up from \$267.0 million in 2010 to \$319.1 million in 2011. The second largest export destination in the region was Indonesia; exports to the country grew 58%, up from \$143.4 million in 2010 to \$227.2 million in 2011.

Alberta's Exports to South & Southeast Asia and Oceania in 2011 (\$CDN, Millions)

Australia

Australia is the largest export destination in the region for Alberta. The largest export to the area was machinery, up 21% from \$96.1 million in 2010 to \$116.5 million in 2011; a large portion of which were parts and machines used for boring and sinking worth \$70.1 million in 2011, up 14% from \$61.3 million in 2010. The second largest export was sulfur, up 46% from \$64.2 million in 2010 to \$94.0 million in 2011. The next largest exports to the region in 2011 were pork (\$37.5 million) and chemical woodpulp (\$23.9 million), which saw increases of 15% and 11% respectively from 2010.

Indonesia

The largest export to Indonesia in 2011 was wheat, which grew 79% from \$62.8 million in 2010 to \$112.4 million. The second largest export to the country was Machinery, mostly parts used for oil and gas production. Machinery exports grew 97% from \$15.5 million in 2010 to \$30.1 million in 2011. The next largest export to Indonesia was animal feed (\$21.7 million) followed by sulfur (\$18.7 million), which saw changes, in volume of -16% from \$25.7 million in 2010 and 135% from \$8.1 million in 2010.

Europe & CIS

The economies of Europe and the Commonwealth of Independent States grew in 2011 and but are expected to continue growing at a slower rate in 2012 and 2013.

EU 27

The EU consists of 27 member countries and is the largest economic grouping in Europe. Its GDP increased 1.6% in 2011. The EU growth rate is predicted to slow down in 2012 to 0.03% and then return to a more normalized rate in 2013 of 1.3%. Canada and the EU continue to negotiate the Comprehensive Economic and Trade Agreement (CETA), which has the potential to be the largest free trade agreement negotiation that Canada has undertaken since the NAFTA.

As a whole the EU was Alberta's fourth largest export market; however Alberta shipped only 1.7% of its total domestic exports to the EU in 2011, at \$1.5 billion, up 34% from \$1.2 billion in 2010.

Nickel was the province's largest export to the EU and accounted for 33% of all EU exports in 2011. Nickel exports grew 29%, from \$401.9 million in 2010 to \$516.9 million in 2011. This increase was due to a large increase in the volume of nickel as prices overall for the year grew modestly by only 2.0%.

The second largest export for Alberta was machinery at \$164.3 million, an increase of 34% from \$122.5 million in 2010. Exports of machinery accounted for 11% of total exports to the EU in 2011. Cereal, consisting primarily of wheat, was the third largest export from Alberta to the EU in 2011, up 21% over last year at \$134.1 million. Energy was our fourth largest export to the EU, up 52% from \$79.8 million in 2010 to \$121.3 million in 2011.

Overall, the value of Alberta's top 20 exports to the EU rose 36% in value, while other Albertan export growth remained flat in 2011. Canola oil represented the fastest growing export, growing from an extremely small base, skewing the results. Canola seed saw the second largest growth, more than doubling from 2010 volumes.

Historically, the Netherlands, the United Kingdom and Belgium have served as points of entry for Canadian goods into Europe and do not necessarily represent the final destination for these products.

Netherlands

The Netherlands was the largest destination for Alberta exports in the EU. Overall, the Netherlands' economy grew 1.3% in 2011, down from the predicted 1.5%. The International Monetary Fund (IMF) is predicting a negative growth rate of -0.05% for 2012 and a growth of 0.8% in 2012⁴.

Exports to the Netherlands grew by 19% to \$515.4 million from 2010 to 2011. Unwrought nickel remained the dominant export product from Alberta to the Netherlands during this time period. Exports rose 20% from \$317.3 million to \$379.3 million during this period. Unwrought nickel accounted for 74% of exports to the country. The second largest export product to the Netherlands in 2011 was cobalt, which grew 20% from \$26.6 million in 2010 to \$31.8 million in 2011. The third largest export was Woodpulp, up 26% to \$23.1 million in 2011.

Italy

The Real GDP of Italy rose by 0.4% in 2011. Real GDP is expected to shrink here as in many other EU member countries for 2012. Italy is expected to experience a decrease in growth of -1.9% in 2012 followed by -0.8% in 2013⁵. Italy was the second largest trading partner for Alberta exports to the EU for the second year in a row.

Wheat was the most significant export to Italy in 2011, increasing by 8.5% from \$62.5 million in 2010 to \$67.7 million in 2011. Wheat accounted for 35% of the total exports to Italy. Unwrought nickel exports to Italy increased by 33% to \$49.1 million in 2011, accounting for 26% of Alberta's exports to Italy. Woodpulp (worth \$32.5 million) and machinery (worth \$20.1 million) were the third and fourth largest exports to Italy from Alberta and respectively grew by 32% and 34% from 2010 to 2011.

Germany

Germany was Alberta's third largest trading partner for 2011 at \$155.9 million, meaning that the United Kingdom once again fell in its ranking as an export destination from Alberta. Germany's GDP grew 3.1% in 2011 and is expected to grow by 0.6% and 1.5% for 2012 and 2013 respectively.

Canola oil was the most significant export to Germany in 2011 at \$59.6 million; this was the first year since 2007 that Alberta has shipped canola oil to the region. The second largest export was energy, accounting for 18% of the exports to Germany from Alberta at \$27.9 million, up 32% from 2010. Machinery, mostly boring and sinking, accounted for \$17.7 million in exports, up 127% from 2010. Vehicles were the fourth largest export at \$8.29 million, up 65% from \$5.01 million in 2010.

Total Exports to CIS		\$ 252.8	\$ 310.0	\$ 315.1	1.6%	100.0%

Real GDP in the Commonwealth of Independent States (CIS) grew by 4.8% in 2011 and is forecast to grow by 4.1% for both 2012 and 2013. Combined the CIS consumed \$315.1 million of Alberta's exports in 2011. Russia, Ukraine and Kazakhstan, the three largest markets for Alberta goods in the region, absorbed a total of \$301.5 million (96%)

Russia

The Russian economy grew by 4.3% in 2011 according to the IMF. Russia's estimated GDP growth in 2012 is 4.0% followed by 3.9% in 2013.

Alberta exports to Russia increased by 15% from \$239.9 million in 2010 to \$274.8 million in 2011. Machinery was our largest export to Russia, accounting for 65% of all exports to Russia. Distilling plants used to supply water to boilers as well as boring and sinking machinery accounted for a large portion of the exports which grew by only 4.7% in 2011, from \$170.2 million in 2010 to \$178.1 million in 2011. Meat, consisting mostly of pork, was the second largest export, up 28% to \$55.1 million in 2011.

Ukraine

Ukraine's economy increased 5.2% in 2011. Growth is expected to continue into 2012 and 2013 at a rate of 3.0% and 3.5% respectively.

Alberta's exports to the Ukraine totaled \$15.6 million in 2011, down 48% from \$29.8 million in 2010. The majority of exports to the Ukraine were machinery used for oil and gas production. Machinery exports decreased by 51% from \$24.8 million in 2010 to \$12.2 million in 2011.

Kazakhstan

Kazakhstan's economy expanded by 7.5% in 2011 and the economy is expected to grow by 5.9% in 2012, and 6.0% in 2013.

Alberta's exports to the country saw a significant decline, down 54% from \$24.1 million in 2010 to \$11.0 million in 2011. Machinery used for oil and gas production was the largest export to Kazakhstan in 2011, decreasing 56% from \$12.5 million in 2010 to \$5.5 million in 2011.

EFTA and Other Europe

Alberta's Exports to EFTA in 2011 (\$CDN, Millions)

Total Exports to Other Europe		\$ 33.1	\$ 37.6	\$ 79.7	111.9%	100.0%

Alberta's exports to other European countries increased 14%, from \$37.6 million to \$79.7 million in 2011. Albania and Turkey remained the largest export destinations for Alberta's products at 95% of exports to this region.

Real GDP in the region grew 5.3% in 2011 but it expected to see slower growth, The IMF estimates that 2012 growth should be 1.9% and 2013 2.9%.

Switzerland

Switzerland's economy grew 1.8% in 2011. Real GDP in Switzerland is expected to grow 0.8% in 2012 and 1.7% in 2013.

Alberta's exports to Switzerland increased from \$83.8 million in 2010 to \$88.4 million in 2011, an increase of 5.5%. Alberta exported \$32.9 million worth of turbo-propellers and their parts to Switzerland, down 27% from \$45.4 million in 2010. Radio and navigation equipment was the second largest export at \$14.8 million

Albania

Albania's economy grew 3.5% in 2011 and is expected to see real GDP growth of 2.0% in 2012 and 0.5% in 2013.

Alberta's exports to Albania increased by 119% in 2011, from \$23.3 million in 2010 to \$50.8 million. Machinery was the largest export to the country, worth 57% of the total exports to the country. Pumps, engines, boring and sinking machinery and parts, and other technology used in the production of oil were the main export in this area. Exports of machinery grew 108% from \$13.7 million in 2010 to \$28.7 million in 2011. The second largest export was steel, used for pipes and tubing, which grew 147% from \$7.1 million in 2010 to \$17.5 million in 2011.

Norway

Norway's real GDP increased by 1.7% in 2011 and the country is estimated to see growth in the country at a rate of 1.8% in 2012 and 2.0% in 2013.

The total exports to Norway increased by 39.3% in 2011, up from \$35.2 million in 2010 to \$49.0 million in 2011. The largest export to the region was machinery, mostly for boring and sinking used in oil production, accounting for 71% of the total exports to Norway from Alberta. Machinery exports increased by 41% from \$24.7 million in 2010 to \$34.7 million in 2011. The second largest export was in precision medical instruments, exports in this area decreased by 14% from \$4.8 million in 2010 to \$4.1 million in 2011.

Latin America and the Caribbean

Combined, Latin American and Caribbean economies (excluding Mexico) expanded 4.5% in 2010. These economies are expected to continue growing in 2012 at 3.4% and in 2013 at 4.2%.

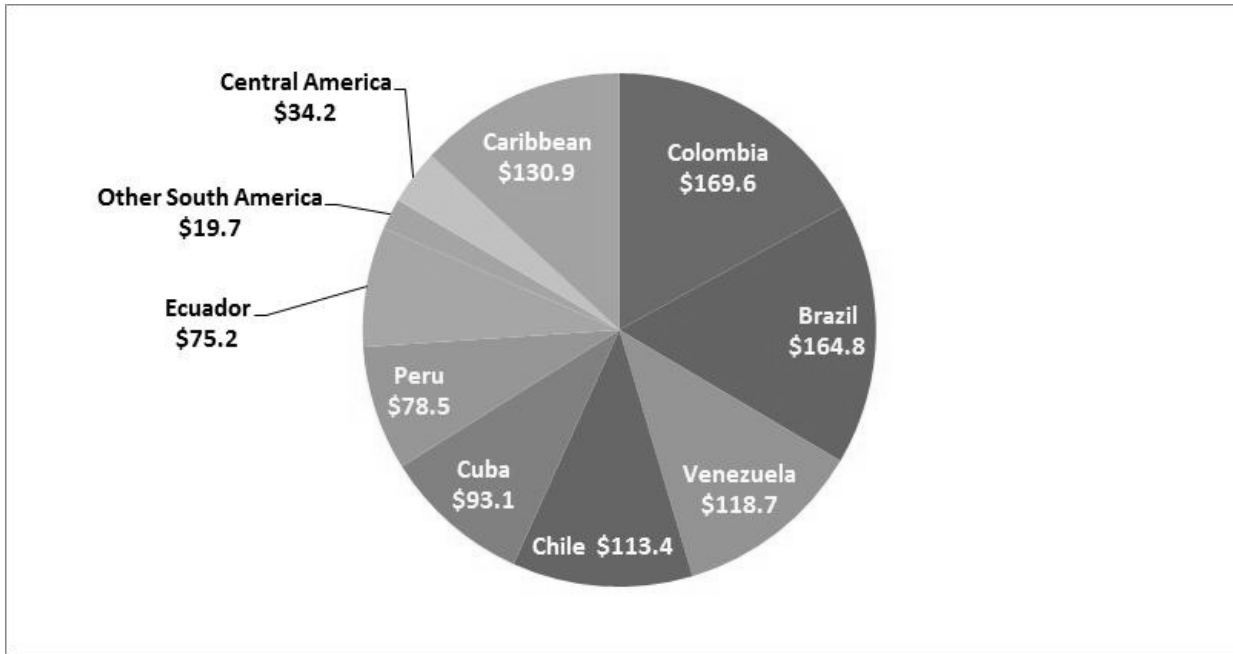

Latin America is an area where Canada has been proactive in negotiating FTAs. Canada has pre-existing FTAs with Chile and Costa Rica. The Canada-Peru FTA came into effect on August 1, 2009. The Canada-Colombia FTA was signed on May 14, 2010, and the Canada-Honduras FTA was finalized in August 2011. Negotiations are still ongoing for a Canada-Caribbean Community FTA, a Canada-Dominican Republic FTA, and for trade agreements with the remaining Central American countries (El Salvador, Guatemala, and Nicaragua). Canada has also joined the Trans Pacific Partnership trade negotiations with 11 other countries, among them are Peru and Chile.

Strong economic growth was coupled with exceptional trade growth, as Alberta exports to Latin America and the Caribbean increased 35% from \$671.8 million to \$905.0 million in 2011. South American countries consumed the largest share of Alberta's exports to the region at 82%, a total of \$739.9 million in 2011. This is an increase of 34% in value from 2010, when exports in the region were \$552.2 million.

Exports to the Caribbean grew 35% from \$96.8 million in 2010 to \$130.9 million in 2011. Exports to Central America grew from \$22.8 million to \$34.2 million at a rate of 50% during the same period.

Colombia was the largest export market for Alberta products in Latin America during 2011 for the second consecutive year. Colombia consumed a combined total of \$169.6 million, approximately 19% of Alberta’s total exports to the region. Brazil followed Colombia as the second largest destination for Alberta’s exports at \$164.8 million, up 58% from \$104.1 million in 2010. Venezuela rose to third in 2011 at \$118.7 million, up 43% since 2010.

Distribution of Alberta’s Exports to Latin America in 2010 (\$CDN, Millions)

Colombia

Colombia’s economy grew 5.9% in 2011 and is expected to grow 4.7% in 2012 and 4.4% in 2013.

Exports to Columbia grew 24.2% to \$169.6 million in 2011, up from \$136.6 million in 2010. The largest export product from Alberta to Colombia in 2011 was wheat at \$80.6 million, up 78% from \$44.9 million. Parts for boring and sinking machinery declined 30.9% from \$28.8 million to \$19.9 million during the same period. Whereas there were no colza oil exports from Alberta to Colombia in 2010, it was Alberta’s third largest export to Colombia at \$6.2 million in 2011.

Brazil

In 2011, Brazil’s economy grew 2.7%. Real GDP is expected to continue to increase in 2012 at a rate of 3.0% and 4.2% in 2012 and 2013 respectively.

Overall, Alberta’s exports to Brazil increased from \$104.1 million in 2010 to \$164.8 million in 2011. The top three exports from Alberta to Brazil were ethylene glycol, bituminous coal, and turbo-propellers. Exports to ethylene glycol increased 244% from \$21.3 million in 2010 to \$73.3 million in 2011. Bituminous coal increased from zero exports in 2010 to \$13 million in 2011. Turbo-propeller exports grew 51% from \$8.9 million to \$13.4 million over the same period.

Venezuela

Venezuela's economy expanded 4.2% in 2011 and is expected to continue growing at 4.7% in 2012 and 3.2% in 2013.

Venezuela consumed \$118.7 million worth of Alberta's goods in 2011, up 43%. Top ranked exports to Venezuela in 2011 were wheat, parts of pumps for liquid, and durum wheat. Wheat exports increased 28% from \$53.8 million in 2010 to \$68.9 million in 2011. Parts of pumps for liquids increased 257% in 2011 from \$4.9 million to \$17.5 million. Exports of durum wheat increased 52% from \$10.5 million to \$16 million in the same period.

North Africa		\$ 246.5	\$ 153.8	\$ 107.1	-30.4%	14.0%
Total Exports to MENA		\$ 1,091.5	\$ 680.8	\$ 765.2	12.4%	100.0%

The countries of the Middle East and North Africa (MENA) consumed approximately \$765.2 million of Alberta's exports in 2011, up 12 % from \$680.8 million in 2010. Exports to the Middle East increased 25% in value, from \$527.0 million in 2010 to \$658.2 million in 2011. Alberta's exports to North Africa shrank 30% in value, from \$153.8 million to \$107.1 million during the same time period.

The Canada-Jordan FTA was signed on June 28, 2009. Of all countries in the MENA region, Jordan ranked 20th in terms of consumption of Alberta's exports, with a value of \$1.2 million in 2011. Canada signed the Canada-Israel FTA in 1996, coming into effect in 1997. Israel is Alberta's third largest destination for exports in the region. Canada has launched negotiations with Morocco in 2011, Alberta's 8th largest destination for goods in the region at \$25.6 million in 2011.

In 2011, the Middle East and North Africa economy expanded 3.5%. The overall economic outlook for the region is positive in 2012 and 2013 at 4.2% and 3.7% respectively. Alberta's largest export destinations in the Middle East were the United Arab Emirates (UAE, \$293.3 million), Saudi Arabia (\$131.1 million), and Israel (\$60.6 million). Top export destinations for Alberta's goods in North Africa include Sudan (\$49.4 million), Morocco (\$25.6 million), and Algeria (\$25.1 million).

Distribution of Alberta's Exports to the Middle East and North Africa in 2011 (\$CDN, Millions)**United Arab Emirates (UAE)**

Real GDP in the UAE increased in 2011 by 4.9% and is forecast to grow 2.3% and 2.8% in 2012 and 2013 respectively. Exports to the UAE grew 57% to \$293.3 million in 2011. The UAE consumed 38% of all Alberta exports to the MENA region.

Canola seed dominated Alberta's exports to the UAE in 2011 at \$169.2 million, up 64% from \$103.2 million in 2010. Wheat was ranked second at \$29.1 million, up 83% from 2010. Alberta's third largest export to the UAE in 2011 was parts for boring and sinking machinery, at \$18.1 million in 2011, up from \$13.8 million in 2010.

Saudi Arabia

Saudi Arabia's economy grew 6.8% in 2011 and is expected to continue growing at rates of 6.0% in 2012 and 4.1% in 2013. Alberta exported goods worth \$131.1 million, up 22% from \$107.4 million in 2010. Overall, Saudi Arabia consumed 17% of Alberta's total exports to the region.

The largest Alberta export product to Saudi Arabia in 2011 was wheat at \$76.3 million, up 55% from \$49.2 million in 2010. Barley was Alberta's second largest export to Saudi Arabia in 2011 at \$18.7 million, up 39% from \$13.5 million in 2010. Parts for boring and sinking machinery decreased 15% to \$6.5 million in 2011.

Israel

Israel's real GDP grew 4.7% and is expected to grow in 2012 at a rate of 2.7% and in 2013 at a rate of 3.8%. Alberta's exports to Israel increased 73.3% from \$35 million in 2010 to \$60.6 million in 2011.

Sulfur was the largest export product from Alberta to Israel in 2011. Sulfur exports were worth \$46.5 million, up 93% from \$24.1 million in 2010. Plastic was Alberta's second largest export to Israel and increased 5.5% to \$5.8 million in 2011. There were no exports of diamonds from Alberta to Israel in 2010, but diamond exports accounted for \$2.1 million of Alberta's exports to the country in 2011.

Sub-Saharan Africa		\$ 220.5	\$ 223.2	\$ 311.1	39.4%	100.0%

The IMF reported that Sub-Saharan African economies expanded 5.3% in 2011 (in real dollar terms). Sub-Saharan countries are expected to grow 5.1% and 5.4% in 2012 and 2013 respectively. South Africa's economy grew 3.1% in 2011 and is expected to grow 2.7% in 2012 and 3.4% in 2013. Ghana's economy grew 14% in 2011 and is expected to grow 8.8% and 7.4% in 2012 and 2013 respectively. Nigeria's economy has also grown at a rate of 7.2% in 2011, and is expected to rise at a rate of 7.1% and 6.6% in the next two years.

Alberta's exports to Sub-Saharan Africa grew 39% from \$223.2 million to \$311.1 million in 2011. The top three destinations for Alberta's goods, South Africa, Ghana, and Nigeria, accounted for 62% of exports to the entire region. Wheat was the largest export to the region, and was worth \$161.4 million, up 45% in 2011 from \$111.1 million in 2010. Sulfur was Alberta's second largest export to the region at \$53.9 million in 2011, an increase of 142%.

The Global Economy

Exchange Rates: Canadian Dollar to U.S. Dollar and Euro (Source: Bank of Canada)

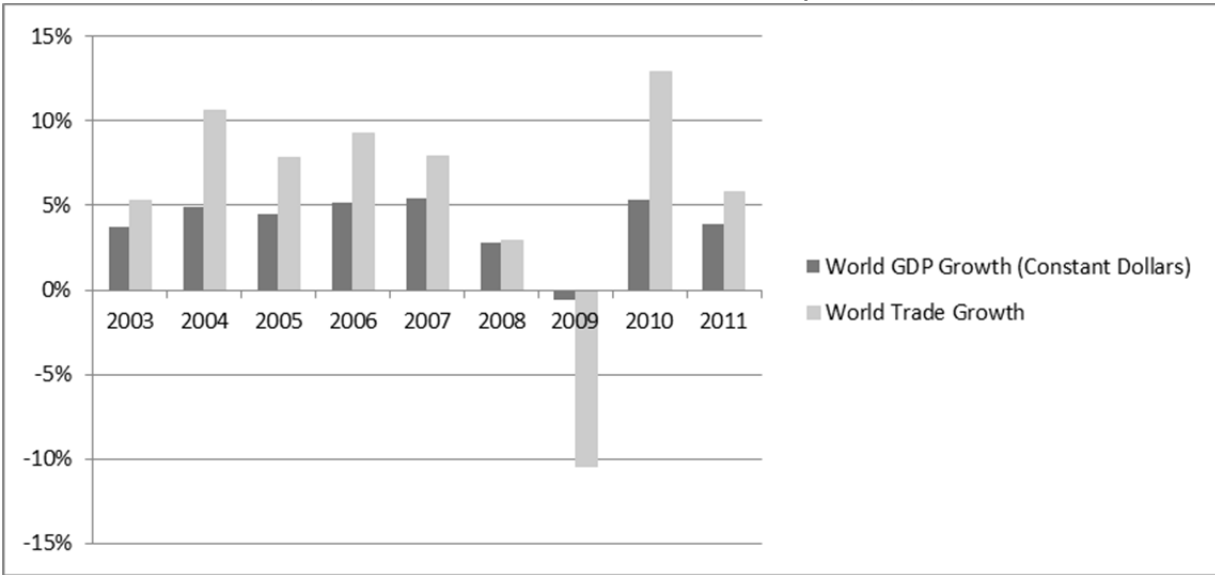

At the start of 2011, the dollar was just above parity with the U.S. dollar. The dollar has remained above parity for most of 2011; however it slipped back under parity in September. Generally speaking, a high dollar puts Alberta's exports at a competitive disadvantage by making them more expensive internationally, thereby decreasing their demand. However, a higher dollar allows Alberta consumers to purchase more goods imported from the US.

The global economy grew 3.9% in 2011 and is expected to continue growing in 2012 at a rate of 3.5%. Real GDP is also expected to grow at a rate of 4.1% in 2013. The volume of world trade grew 4.8%, on par with the rate of world GDP. Trade volumes are expected to expand in 2012 and 2013 at rates of 4.0% and 5.6% respectively.

The International Monetary Fund (IMF) has stated that the global economy has experienced some respite and stabilization in financial conditions, as fiscal stimulus eases and consumer demands resumes driving the economy. However, recovery is occurring at varying rates with a general split between slow-growing advanced economies and fast-growing developing economies.

Significant risks remain in the global economy. Overarching problems in financial markets, particularly in Europe, still exists and much of the recovery in developing economies is based on higher commodity prices. Fiscally, public debt remains high in most advanced economies, and the U.S. continues to face mounting political challenges to addressing public debt.
