

<b>Number:</b> MED 258	<b>Date:</b> October 07, 2022
<b>Subject:</b> Policy Update - Payment for Diagnostic Imaging Referred by Chiropractors, Physiotherapists, and Audiologists	<b>Reference:</b> This Bulletin supersedes <a href="#">MED 212</a> (posted February 20, 2020)

**To: Physicians, Chiropractors, Physiotherapists, Audiologists and their billing staff**

Effective **October 06, 2022**, Diagnostic Imaging (DI) services referred by a chiropractor, physiotherapist, or audiologist will be **insured** under the Alberta Health Care Insurance Plan (AHCIP).

The change allows practitioners to use their full scope of practice in supporting patient access to medically required services under the AHCIP. Practitioners may only refer for DI services if authorized to do so by their regulatory college, and must adhere to the relevant standards of practice.

Changes to the Claim Assessment System (CLASS) are complete. Claims for DI services that are referred by a chiropractor, physiotherapist, or audiologist can now be submitted to Alberta Health.

**Inquiries:**

Any inquiries regarding this change can be sent to [health-pcsp.admin@gov.ab.ca](mailto:health-pcsp.admin@gov.ab.ca)
