

Disaster Recovery Program

Assistance for agricultural operations

Financial assistance for Albertans

The Disaster Recovery Program (DRP) provides financial assistance to qualifying agricultural operations for uninsurable loss and damage caused by emergencies and disasters. The DRP helps return essential property to its basic, pre-disaster functional condition.

DRPs are a final resort to assist after a disaster. You must access your own insurance options first. DRPs do not cover all types of damage or loss and may not cover the full cost of replacement.

Checklist of actions immediately after the disaster

1. Contact your insurance company and open a claim.
2. Obtain a letter confirming address of damaged property, date of loss and cause of loss. If insurance was paid, provide a detailed description of what was paid. If no coverage was provided, an explanation why.
3. Contact your local authority to see if there are any supports available to you through non-governmental organizations in the area.
4. Take pictures of:
 - All damaged items before you throw anything away or make any repairs.
 - The inside and outside of your property.
5. Record all of the time you spend cleaning up and making repairs.
6. Keep copies of all receipts and proof of payment for clean-up, repairs, and replacement of damaged property.
7. Contact your local authority and ask about the potential for a disaster recovery program in your area.
8. Submit a **Statement of Loss and Damage Application** (if/once a program is approved in your area). You can get a PDF application online at www.alberta.ca/DRP, and submit it by email to drp.info@gov.ab.ca. Upon receipt of your application, a case manager will contact you to guide you through the entire application process.
9. Gather, if applicable, the supporting documentation listed on the next page.
