All of the government's policy decisions as of March 18, 2008 with material economic or fiscal implications of which I am aware have been considered in preparing the business plan.

## LINK TO THE GOVERNMENT OF ALBERTA STRATEGIC BUSINESS PLAN

Executive Council is linked to Government of Alberta Strategic Business Plan Goal 4: *Alberta will have a financially stable, open and accountable government and maintain its strong position nationally and internationally.* The Ministry contributes to this goal by improving the accountability, transparency and governance of government agencies, boards and commissions and taking a coordinated approach to policy development and government communications.

## SIGNIFICANT OPPORTUNITIES AND CHALLENGES

The Government of Alberta is recognized as a leader in strategic planning and policy development and for having an innovative public service which provides high quality policy analysis and advice to support elected officials. However, the environment in which policy making and strategic planning occur is becoming increasingly complex as issues that frequently extend across multiple sectors and jurisdictions require increased coordination. Executive Council staff support decision-makers and ministries by facilitating a collaborative approach for strategic planning and policy development across government. This provides an opportunity to enhance policy capacity and crossministry collaboration and to ensure consistency with overall government strategic direction. As the nature of government organization and service delivery continue to change and evolve, there is a need to review the structure and effectiveness of government agencies, boards and commissions. Executive Council will oversee the implementation of the recommendations from the Board Governance Review to improve governance, accountability and transparency of government agencies, boards and commissions. The Premier's Council for Economic Strategy will provide advice to the Premier on economic strategies to ensure a high quality of life for Albertans and that Alberta is the best place to live, work, visit and invest.

The structure of the Public Affairs Bureau, with communications staff assigned to all government ministries, offers advantages and opportunities to coordinate government communications. The implementation of a strategic communications plan and corporate communications policy for the Government of Alberta, along with continued collaboration with the Policy Coordination Office, will enhance efforts to ensure that government communications with Albertans and government staff are as consistent, meaningful, coordinated and timely as possible. The result will be targeted and strategic two-way communications that allow government to assess public needs and expectations while ensuring that all Albertans enjoy easy access to information about their immediate priorities, government's long-term plans and programs and services. A coordinated branding campaign for the province will reinforce a positive view of Alberta as a great place to live, work, visit and invest.
