

# Agricultural Land Resource Atlas of Alberta

## Available spatial data sources

This table lists and provides access to available spatial data sources and metadata for use by both map browser and geographic information system (GIS) software. The spatial data for the maps in the Atlas may be downloaded in 4 industry formats for many of the maps contained in the [2nd edition of the Agricultural Land Resource Atlas](#):

- Representational State Transfer (REST) services
- Spatial Data either as in the form of:
  - ESRI shape file (SHP) format compressed into a zip file
  - Keyhole markup language compressed zip file (KMZ)
