#### **PREFACE**

Budget 2002 consists of: (i) Budget 2002 - Fiscal Plan, (ii) Budget 2002 - Business Plans, (iii) the 2002-03 Offices of the Legislative Assembly Estimates, and (iv) this document, the 2002-03 Government and Lottery Fund Estimates.

The typical **Department Program Structure** is depicted on page 4, showing programs, sub-programs and elements identifying principal services, programs and cost centres.

The typical **Ministry Entity Structure** is shown on page 5, showing its department and any regulated funds, provincial agencies, commercial enterprises and Crown corporations.

The Schedule of Amounts to be Voted is excerpted from the *Appropriation Act, 2002*. The Legislative Assembly will be asked to appropriate spending authority from the General Revenue to departments and from the Lottery Fund.

## Amounts to be Voted by Category at the government level show:

- operating expense, which includes expenses such as salaries, supplies, grants, amortization of capital assets and debt servicing costs,
- capital investment in land, buildings, equipment, highways, bridges, dams and other capital assets,
- · non-budgetary disbursements, which include the exchange of cash for another form of asset, and
- Lottery Fund payments.

Statutory non-budgetary disbursements consist of loans, advances and debt retirement amounts.

Voted Estimates for each Department show the amount of each vote, program, sub-program and element. Amounts are shown for operating expense and capital investment. Lottery funded initiatives are identified.

Dedicated Revenue provides a means of budgeting for volume-sensitive services for which a recovery or credit can be derived from internal or external sources. These initiatives are identified in the budget, together with the gross expense, recovery or credit (dedicated revenue) and net expense. If, during the fiscal year, gross expense and dedicated revenue amounts are expected to increase due to greater use of services than budgeted, Treasury Board may increase the voted estimate, pursuant to section 24(2) of the *Financial Administration Act*. If the budgeted dedicated revenue is not realized, spending is managed so that it does not exceed the gross estimate less the dedicated revenue shortfall.

Comparable Amounts for the 2001-02 Forecast, the 2001-02 Budget and the 2000-01 Actuals have been restated using the government organization and budgeting methodology in effect on April 1, 2002. These changes are described on page 3. The Comparable 2001-02 Forecast includes changes shown in Quarterly Budget Reports and authorized by Supplementary Estimates if applicable. The Comparable 2001-02 Budget is based on the budget tabled on April 24, 2001. The Comparable 2000-01 Actuals are based on the government's annual report published on June 20, 2001.

#### Each ministry's budget documents include:

- the ministry's business plan summary, consisting of its vision, mission, core businesses, goals, major strategies, key performance measures and highlights for 2002-03,
- the ministry's consolidated statements of operations by program and by entity,
- the ministry's capital investment, change in capital assets and intra-ministry transactions,
- each entity's statement of operations,
- the ministry's full-time equivalent employment.

Three lists of entities are provided on page 467, showing government entities by ministry, name and type.

#### **GOVERNMENT ORGANIZATION CHANGES**

The Ministry of Agriculture, Food and Rural Development is planning two major organizational changes, for which legislation is pending. The Alberta Opportunity Company is to be merged in to the Agriculture Financial Services Corporation, effective April 1, 2002. The Alberta Dairy Control Board is to be dissolved and a new entity created outside the Government of Alberta, called Alberta Milk.

The Ministry of Community Development is merging the Persons with Developmental Disabilities Foundation into the Persons with Developmental Disabilities Provincial Board.

The Ministry of Infrastructure becomes responsible for plant operation and maintenance of public, separate and charter schools, which was formerly the responsibility of the Ministry of Learning.

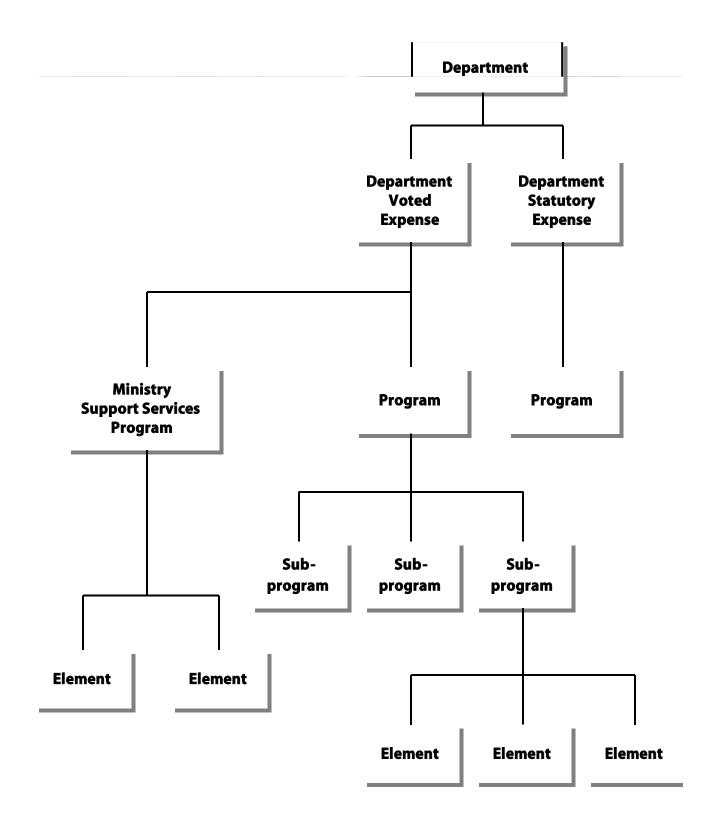

The Ministry of Revenue became responsible during 2001-02 for the support functions of investment settlement, systems support and performance measurement. In addition, support for central administration of Tax and Revenue Administration, support for Fees and Charges monitoring and support for the Future Summit were transferred from the Ministry of Finance.

#### **BUDGET COMPARABILITY CHANGES**

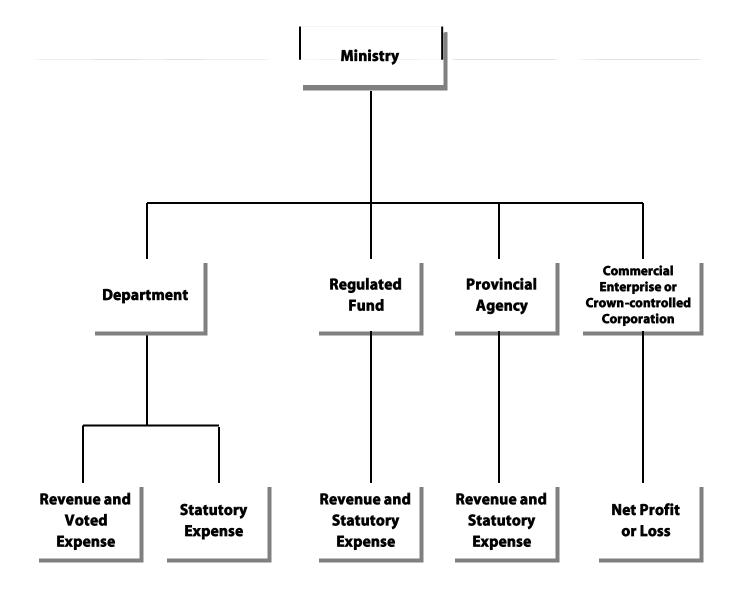

Adjustment to the Comparable Budget for Human Resources and Employment - Prior to Budget 2001, the Department made payments to its clients before April 1, which were charged to voted expense in the following fiscal year. To address a recommendation made by the Auditor General, Budget 2001 provided legislative approval for a one-time additional amount of \$34.8 million, and a valuation adjustment to ensure that the government's net fiscal position was unaffected. The Department's comparable voted budget for 2001-02 has been restated to report program costs on a consistent basis.

Lottery Fund Grants - Some lottery-funded initiatives have not proceeded as originally planned in 2001-02 due to corrective actions taken in October 2001. Comparable 2001-02 Forecast amounts for these initiatives now show the actual or forecast level of Lottery Fund spending in the year. Recipient departments report lapsed funding for selected lottery-funded initiatives, while the Lottery Fund's payment to General Revenue Fund (reported in Finance) is correspondingly greater.

#### 2002-03 BUDGET HIGHLIGHTS

The Ministry's overall budget remains largely unchanged through the 2002-05 Business Plan, decreasing marginally from \$30.210 million to \$30.182 million in 2002-03 and increasing marginally to \$30.219 million in 2003-04 and 2004-05.

As in previous years, the largest portion of the Ministry's budget is expended on Metis Settlements to meet a commitment made in the 1990 Metis Settlement legislation. Funding for Metis Settlements Governance continues to decline, reflecting increased self-reliance of the Metis Settlements. The Land Registry Office function previously performed by the Metis Settlements Transition Commission and other functions will be transferred to the Ministry as of April 1, 2002. As well the Metis Settlements Ombudsman Office is newly created for 2002-03. Statutory funding for the Metis Settlements remains \$10 million annually through 2007. The budget for Northern Development remains unchanged. The budget for Aboriginal Affairs increases slightly as a result of functions transferred from the Metis Settlements Transition Commission and the need to offset increases to corporate and cross government corporate costs, and the cumulative impact of government-wide salary increases for 2001-02 and 2002-03.

#### **MINISTRY BUSINESS PLAN SUMMARY**

### VISION

#### **MISSION**

Working together to enhance the ability of families and communities to develop nuturing and safe environments for children, youth and individuals.

### **CORE BUSINESSES AND KEY PROGRAM AREAS**

Promoting the development and well-being of children, youth and families

Keeping children, youth and families safe and protected Promoting healthy communities for children, youth and families

Early Intervention Programs, and Early Childhood Development (\$51.2 M) Child Care Programming (\$60.2 M) Resources for Children with Disabilities (\$62 M) An Alberta Response Model to transform Child Welfare (\$365.5 M) Prevention of Family Violence (\$11.1 M) Protection of Children Involved in Prostitution (\$5.6 M) Family and Community Support Services (\$57.4 M) Aboriginal Policy Initiatives\*

### PRIORITIES FOR 2002-05: "WORKING TOGETHER TO PUT CHILDREN FIRST"

Children's Services recognizes that the primary responsibility for children lies with parents and caregivers. Therefore, the Ministry works with families, communities, services providers, all Albertans, and all levels of government to support parents and communities as they provide the security, caring, and opportunities for children and youth to realize their potential, especially those that need help the most.

Implementing Early Childhood Development and Early Intervention Programs. The Ministry will implement early intervention programs to help families promote the optimal development of children, overcome at-risk circumstances, and reduce the need for crisis intervention.

Strengthening Child Care Programs. The Ministry will improve standards and best practices for child care to support families in providing quality care for their children.

Transforming Child Welfare and Improving Outcomes for Children. The Ministry will lead the transformation of child welfare by implementing an Alberta Response Model, a new way of helping families at-risk and ensuring that children reside in permanent, nurturing homes. We will engage community-based resources, with an emphasis on Family and Community Support Services, to help families at-risk effectively care for their own children. The case management model will be re-engineered to promote in-home supports for families whenever a child's safety and development can be assured, and will increase the number of children in care who are reunited with their families or are placed in other permanent, nurturing homes. Agency support will be expanded to include adoptions.

Promoting the Ability of Families to Provide Safe and Nurturing Environments for their Children. In addition to the Alberta Response Model, Children's Services will collaborate with other ministries to ensure the seamless provision of support services for children 0-18 and their families. We will implement community-based home visitation, mentoring, and community response teams, and a range of parenting resources to help preserve families, and will continue programming to prevent and address family violence.

Advancing the Well-Being and Self-Reliance of Aboriginal Communities. The Ministry will work with First Nations, Metis Settlements, and delegated agencies to help Aboriginal communities in building the capacity to design and deliver their own prevention, early intervention, and protection services for children and families, as well as ensuring that all Ministry services are culturally appropriate.

<sup>\*</sup> Aboriginal Policy Initiatives are being funded through Early Intervention and Community Capacity Building

Strengthening Community-Based Service Delivery for Children and Families. The Ministry will further its support to help Child and Family Services Authorities, Family and Community Support Services and community partners to deliver proven preventative social programs, integrate services, and strengthen partnerships for children and families.

#### MINISTRY GOALS

- 1.1 Children and youth will have a healthy start in life and the supports they need to reach their potential.
- 2.1 Families will be safe, healthy, and able to promote their children's development.
- 2.2 Children in need will be protected and supported by permanent, nurturing relationships.
- 3.1 The well-being and self-reliance of Aboriginal children, families and communities will be promoted, supported and comparable to that of other Albertans.
- 3.2 Communities will have the capacity to plan and deliver services that promote the well-being of Alberta's children, youth and families.

### **KEY STRATEGIES FOR 2002-05**

- Develop and implement an Alberta Response Model that will: (a) help families at-risk effectively care for their own children and (b) re-engineer the case management model to promote in-home supports for families and the reunification of children with families whenever a child's safety and development can be assured.
- Expand the role of agencies in providing adoption services, and other initiatives to provide children and youth in care with permanent, nurturing homes, and life-long connections to family and community.
- Implement provincial, regional and community early intervention strategies for children and their families that include: supports for families to promote healthy birth and infancy, early screening of children for risk factors and referral to community services where needed, early childhood development programs, home visitation for families at-risk, and parenting supports such as mentoring and parenting skills programs.
- Strengthen standards and best practices for child care to support parents in providing quality care for their children.
- Realign the Resources for Children with Disabilities program, including development of a communications tool, so that families are referred to the most appropriate support in their communities to meet the needs of children with disabilities.
- Lead the development of a cross-ministry framework to address the needs of adolescents, and promote community supports for youth making the transition to adulthood.
- Continue to develop and implement a ministry specific plan for implementing the Aboriginal Policy Initiative, including attention to the needs of Aboriginal children not served through Metis Settlements or First Nations agreements.
- Promote the capacity of Family and Community Support Services and regional authorities to deliver preventive and early intervention programs for children and families, increase integration of programs and services, and promote strong partnerships.

### **SELECTED KEY PERFORMANCE MEASURES**

#### **MINISTRY BUSINESS PLAN SUMMARY**

The Ministry consists of the Department of Energy and the Alberta Energy and Utilities Board.

# **Department of Energy**

#### VISION

Alberta's competitive environment attracts investment in its energy and mineral resources, for the benefit of present and future Albertans.

#### **MISSION**

Optimize the sustained contribution from Alberta's energy and mineral resources in the interests of Albertans.

# CORE BUSINESSES, GOALS, KEY STRATEGIES, KEY PERFORMANCE MEASURES AND TARGETS CORE BUSINESS 1: SECURING BENEFITS FOR ALBERTANS

**Goal 1.1:** Optimize Albertans' resource revenue share and benefits from the development of their energy and mineral resources over the long term.

### **Key Strategies:**

- Ensure Albertans continue receiving their share of resource revenue within a fiscal regime (royalties, bonuses, taxes, rentals) that responds to changing industry, government, public and economic conditions.
- Ensure Alberta's royalty regime is competitive and provides predictability and certainty to industry to encourage continued investment in, and development of, Alberta's resources.
- Ensure business continuity through development, testing and maintenance of plans for the resumption of all business processes and associated personnel, information, infrastructure, and equipment.

#### **Key Performance Measures:**

- Sharing the Profits from Resource Development Target: The target range is 20% to 25%.
- Crown Revenue Assurance Target: Audit adjustments to be less than 2.0%. This measures industry's compliance with Alberta's resource revenue regime.

#### **CORE BUSINESS 2: RESOURCE DEVELOPMENT**

**Goal 2.1:** Advance the competitiveness of Alberta's energy and mineral resources. **Key Strategies:** 

- Work with Alberta Environment, Alberta Sustainable Resource Development and others to streamline
  regulations and approval processes for energy and mineral resource development, while maintaining and
  enhancing environmental and safety standards.
- Advocate for Alberta's energy and mineral development and jurisdictional interests nationally and internationally.
- Position and market Alberta as the 'hub' for northern gas transportation to markets.
- Work with Aboriginal communities, resource developers, stakeholders and other levels of government to implement the Aboriginal Policy Initiative and create opportunities for Aboriginal people to participate equitably in the resource economy of Alberta.

#### Key Performance Measure:

• Resource Competitiveness - The department is presently developing a new performance measure.

**Goal 2.2:** Secure future energy supply and benefits for Albertans, within a growing and competitive global energy marketplace.

#### **Key Strategies:**

- Develop long-term energy strategy and policy options based on an assessment of the long-term energy outlook (completed in 2001-02), consultation with Albertans and industry, and recommendations arising from the Future Summit.
- Work with Alberta Environment to identify the implications of climate change proposals, and develop policies that support an effective response, while maintaining Alberta's competitiveness and economic advantages.
- Work with other ministries and industry to ensure the security of Alberta's energy resources and infrastructure.

#### **Key Performance Measure:**

• Energy Resource Portfolio Diversification - Target: Sustain energy production through diversification.

#### **CORE BUSINESS 3: AWARENESS AND UNDERSTANDING**

Goal 3.1: Increase public awareness about Alberta's energy and mineral sectors.

# **Key Strategies:**

- Increase public awareness of Alberta's energy and mineral resources, industry practices and the importance and economic significance of the energy and mineral sectors, today and in the future.
- Inform Albertans about the opportunities for a continuing supply of Alberta's energy and mineral resources from conventional and non-conventional sources.

#### **Key Performance Measures:**

• Albertans' understanding of Alberta's energy and mineral resources and their economic significance - Target: To increase Albertans awareness and understanding of energy resources to at least 60% by 2004-05.

#### **CORE BUSINESS 4: ENERGY FOR ALBERTANS**

**Goal 4.1:** Establish a competitive market framework, which provides competitively priced energy for Albertans. **Key Strategies:** 

- Work with industry and consumer groups to increase the competitiveness of wholesale electricity markets.
- Enable and foster a competitive retail market for electricity and natural gas to provide Alberta consumers with choice, innovative services and competitive prices.
- Provide consumers, industry and other government agencies with clear and timely communication of changes in the natural gas and electric industries.

### **Key Performance Measures:**

- New Power Generation Target: Alberta's net supply of electricity will increase through industry investment.
- Electricity Restructuring Target: Alberta will remain a leader in implementing deregulation in the electricity marketplace.
- Annual Residential Natural Gas Reference Price Target: Annual average residential natural gas price is less than the annual average national residential price.

# **BUDGET HIGHLIGHTS FOR 2002-03**

Resource revenues are forecast to decline over the next three years, as both natural gas and crude oil prices will be lower than in 2001-02. Increased natural gas and oilsands production will partially offset the effect of lower prices, leading to non renewable resource revenue of \$3.7 billion in 2002-03, \$3.6 billion in 2003-04 and \$3.3 billion in 2004-05. Department spending on operations in 2002-03 is forecast to be \$100.7 million, a decline of \$1.3 million from the 2001-02 Budget amount of \$102.0 million. Service delivery will be maintained despite the reduction to the operating Budget.

# Alberta Energy and Utilities Board

#### VISION

The EUB will continue to build a regulatory framework that inspires public confidence.

#### **MISSION**

To ensure that the discovery, development and delivery of Alberta's resources and utilities services take place in a manner that is fair, responsible and in the public interest.

# CORE BUSINESSES, GOALS, KEY STRATEGIES, KEY PERFORMANCE MEASURES AND TARGETS: CORE BUSINESS 1: ADJUDICATION AND REGULATION

**Goal 1.1:** Prompt and appropriate resolution of landowner, public and industry conflicts in the energy sector. **Key Strategy:** 

• Expand field staff's facilitative role to improve landowner/public/industry relations. This includes working with stakeholders to develop and implement alternatives for dispute resolution.

#### Key Performance Measures:

- Percent of Applications Filed Without Landowner/Public Objections Target: By 2002-03, maintain 95% of applications filed without objection related to new facilities.
- Percent of Objections Resolved Related to New Facilities *Target: By 2002-03, maintain 90% of objections resolved without a hearing.*
- Percent of Complaints Responded to in a Timely Manner Target: By 2003-04, 87% of complainants are satisfied with the EUB response in a timely manner.

**Goal 1.2:** Stakeholders accept that the hearing procedures and the decision making process are timely, fair and objective.

# **Key Strategies:**

- Ensure a tripartite team is responsible and accountable for the hearing from the start to finish including the development of any action plan. This team will consist of the Panel Chair, Counsel and Hearing Coordinator.
- Conduct focus/test groups and/or peer reviews on a sample of decisions for process procedures and quality. Establish a baseline measure and in 2002-05 evaluate the results against the baseline measure.
- Continue the implementation of mentoring and education programs to encourage communication and working together with other departments to improve the process.

# Key Performance Measure:

• Timeliness of Hearing Decisions - Target: Maintain 95% of decisions issued in 90 days or less from the end of the hearing.

Goal 1.3: Provide effective utility regulation that allows for an orderly, fair and transparent development of electric and gas infrastructure and markets in Alberta.

#### Key Strategy:

• Develop and implement standards for financial and service level scrutiny of utilities and a position paper or guideline respecting Performance Based Regulations and Negotiated Settlement Process.

# Key Performance Measure:

• Power Plant Applications Turnaround Time - Target: For 2002-05 meet the Board's commitment to case manage the power plant application process to 12 to 18 months for coal fired plants.

## **CORE BUSINESS 3: SURVEILLANCE AND ENFORCEMENT**

Goal 3.1: Ensure industry complies with regulatory requirements.

#### **Key Strategies:**

- Incorporate 90% of the recommendations of the Provincial Advisory Committee on Public Safety and Sour Gas into the EUB business plans for implementation by 2003-04.
- Develop and implement surveillance information management and compliance reporting systems to ensure compliance, and cost effective and efficient surveillance.

## **Key Performance Measures:**

- Non-compliance Reduction Target: By 2004-05 reduce the percentage of major and serious unsatisfactory incidents of non-compliance to regulatory requirements related to field inspections to 3%.
- Flaring and Venting Reduction Target: Reduction in solution gas flared and vented in accordance with current and future Clean Air Strategic Alliance recommendations.
- Public Safety and Sour Gas Recommendations Target: By 2003-04, incorporate 90% of the recommendations into the EUB Business Plans for implementation.

# **Major Strategies:**

- Develop and maintain a complete picture of energy resources and reserves including credible estimates of ultimate potential.
- Develop annual supply/demand forecasts for the energy sectors.
- Complete a mineral-mapping plan of northern Alberta for stakeholder's use.

#### Key Performance Measures:

- Increase Stakeholders Satisfaction Target: For 2002-03 establish a baseline measure of stakeholders satisfied with EUB energy resources information to include Ultimate Gas Potential report, Crude Bitumen Atlas and Reserves Supply/Demand report. In 2003-05 evaluate the results of stakeholders' satisfaction against the baseline measure.
- Development of Mapping Information Target: Development of one surficial map at 1:250,000 scale per year (approximately 5% of coverage in area) beginning 2002-03.

#### **BUDGET HIGHLIGHTS FOR 2002-03**

The coming year anticipates activity levels to be generally sustained. Expenditures are expected to decline slightly from last year's forecast to offset lower revenues from the sale of information and services. The industry levy will increase modestly to offset the reduction in the grant from government. The budget anticipates that the orphan abandonment activity will be handled by the recently established delegated administrative organization.

# EXECUTIVE COUNCIL - Continued PUBLIC AFFAIRS BUREAU

#### **MINISTRY BUSINESS PLAN SUMMARY**

## VISION/MISSION

The Office of the Premier/Executive Council provides responsive support to the Premier and Executive Council, while maintaining open communication with Albertans. The Public Affairs Bureau helps the government in its ongoing dialogue with Albertans by providing quality, coordinated and cost-effective communications and consulting services.

#### **CORE BUSINESSES**

- 1. Help government ministries communicate with Albertans;
- 2. Provide Albertans with two-way access to government; and
- 3. Publish and sell Alberta's laws and other materials.

## **GOALS**

Responding to an increased public demand for quality information on government programs and services is the focus of the Bureau's business planning activities. Many initiatives are designed to deliver public information quickly and conveniently, particularly through popular resources such as the Internet and e-mail, while others are designed to help Bureau staff receive the training and supports they need to maintain established client and public service levels. The plan also reflects work to help achieve the government's key cross-ministry initiatives. The Bureau's goals are to:

- 1. Increase communications with Albertans in the areas they identify as top priorities;
- 2. Make government information more accessible to Albertans;
- 3. Improve the efficiency and coordination of communications across government; and
- 4. Deliver products and services that allow us to meet or exceed revenue projections and customers' needs.

#### **STRATEGIES**

Highlights from the 2002-05 Business Plan include:

- Assist client ministries in communicating government plans and actions, as well as for cross-ministry initiatives such as the Aboriginal Policy Initiative, the Alberta Children and Youth Initiative, the Economic Development Strategy and the Health Sustainability Initiative.
- Increase the public's awareness and use of Alberta Connects and RITE telephone information services and ensure that the system is able to effectively respond to increased traffic.
- Assist in the Alberta One-Window Initiative, a government-wide project to provide a single point of access to Alberta government programs and services.
- Redevelop the RITE telephone directory database to allow for efficiencies in updating online and print listings and to automate publishing of the printed directory.
- Continue to build on the human resource programs and supports available to staff and to achieve goals set out in the Corporate Human Resource Development Strategy.
- Work with the Clerk of the Legislative Assembly and Alberta Justice Chief Legislative Counsel to explore the
  feasibility and costs of developing a standardized electronic format for publishing, managing content and revising
  Alberta's laws.
- Relocate Calgary Bookstore operations to the Calgary RITE offices in order to combine resources and staffing for the two services; ensure that Calgary Bookstore customers are aware of the move.

#### **2002-03 BUDGET HIGHLIGHTS**

- Revenue from video lottery terminals, casino gambling terminals and ticket lotteries is expected to be \$1,205 million in 2002-03, an increase of \$77 million over the 2001-02 forecast of \$1,128 million. This Alberta Lottery Fund revenue is used to support charitable, non-profit, public and community-based initiatives by Gaming and other ministries.
- Liquor and related revenue is expected to be \$558 million in 2002-03, an increase of \$63 million over the 2001-02 forecast of \$495 million. Increased revenues result from higher liquor mark-ups.
- Ministry expenses are expected to be \$1,234 million, an increase of \$79 million over the 2001-02 forecast of \$1,155 million. Increased allocation of Alberta Lottery Fund revenue to other ministries and higher operating costs of the Alberta Gaming and Liquor Commission account for the change.

#### **KEY STRATEGIES FOR 2002-03**

#### **GOAL 1: EFFICIENT LICENSING AND REGISTRATION SERVICES.**

- Continue to effectively manage and deliver the Ministry's wide-range of services.
- Use technology to enhance the security of licensing and registration processes and improve client access.
- Commence renewal of the personal property, land titles and motor vehicles information technology systems to accommodate increasing service volumes, improve client access and convenience, and enable service delivery concepts for Alberta One Window.
- Work with the Security Task Force as they review security considerations for a new driver's licence.
- Continue to explore public and private sector partnerships to create opportunities for service improvements and cost reduction.
- Manage the ministry's comprehensive accountability framework, which includes best practices, performance standards, and customer satisfaction assessments.
- Continue to analyze our costs of providing services and ensure our fees are appropriate.
- Review *Business Corporations Act* and *Companies Act*.

#### GOAL 2: INFORMED CONSUMERS AND BUSINESSES, AND A HIGH STANDARD OF MARKETPLACE CONDUCT.

- Maintain a provincial Call Centre and provide effective, accessible, and plain language information about marketplace legislation to consumers and businesses.
- Partner with government, consumer groups, and business associations to improve consumer education and marketplace awareness through the media and other means.
- Monitor the marketplace to anticipate and respond to changing conditions. This includes conducting periodic inspections of regulated businesses.
- Continue to implement an investigative strategy and performance standards, including a focus on the most serious violations (e.g. trade practices, time-shares, loan brokers, collection practices, and residential tenancies).
- Investigate marketplace practices and take appropriate enforcement action as required.
- Continue to improve cooperative enforcement and consumer protection nationally and internationally (e.g.
  Agreement on Internal Trade, reciprocal agreements, expanded use of the CANSHARE database, membership in
  the National Association of Consumer Agency Administrators).
- Work with and support the operations of regulatory agencies that administer provincial legislation in specific market sectors (i.e., Real Estate Council of Alberta, Alberta Funeral Services Regulatory Board, Alberta Motor Vehicle Industry Council, and Credit Counselling Services of Alberta).
- Review the *Residential Tenancies Act*.

### GOAL 3: A SERVICE DELIVERY ENVIRONMENT THAT ENABLES ALBERTANS TO ACCESS GOVERNMENT INFORMATION AND SERVICES IN A MANNER OF THEIR CHOICE.

- Implement the Alberta One Window accountability framework within all departments.
- Collaborate with Innovation and Science to develop a proposal for a common authentication scheme that allows individuals to conduct transactions or exchange personal information in a secure environment.
- Prepare ministry staff to use the Alberta One Window website as a key source of information in service provision.
- Ensure Albertans are aware of Alberta One Window.
- Implement customer feedback processes to ensure services meet Albertans' needs.
- Commence implementation of the call centre integration strategy.
- Develop an Alberta One Window over-the-counter service integration strategy.

#### GOAL 4: FIRST CLASS SUPPORT SERVICES DELIVERED TO THE GOVERNMENT OF ALBERTA.

- Continue to collaborate with the Councils of Human Resource Directors, Senior Financial Officers, Chief Information Officers, and Administration Services to maintain cross-government service standards.
- Determine resources required to meet the needs of ministries, including their associated agencies, boards and commissions, and develop related service level agreements.
- Identify best practices and implement new or improved processes.
- Manage the change process, internally and externally, through training, communicating, and partnering.
- Deliver, monitor, and evaluate the effectiveness, efficiency, and economy of service delivery.

#### GOAL 5: EFFECTIVE ACCESS TO INFORMATION AND PROTECTION OF PRIVACY.

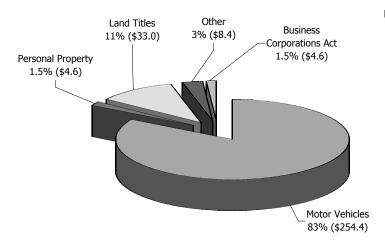

- Provide support to the select special committee of the Legislative Assembly as it conducts its review of the *Freedom of Information and Protection of Privacy Act* (FOIP).
- Promote the effective application and a greater understanding of FOIP by providing advisory services and training and promoting cross-ministry co-ordination.
- Develop a plan to implement private sector privacy legislation in Alberta.
- Begin implementation, in partnership with Innovation & Science, of the recommendations for the Information Management Framework for Government (e.g. policies/standards for electronic records).

To administer, interpret and enforce Alberta's collective bargaining laws in an impartial, knowledgeable, efficient, timely and consistent way. It will do this by:

- 1. Educating the labour relations community and the public of their statutory rights and obligations.
- 2. Developing policies and processes that will assist the parties to prevent disputes or resolve their differences over these rights and obligations without resorting to litigation.
- 3. Providing timely, appropriate, impartial resolution of those differences.

#### **Core Business**

The Board's core activities arise from the responsibilities placed on it by the labour relations legislation it oversees. These activities are:

- Investigation, processing, and determination of applications made to the Board by parties in Alberta's collective bargaining regime.
- Formal adjudication of issues arising out of the application/complaint process.
- Informal mediation of differences in attempts to limit the need for formal adjudication and help build mutually beneficial relationships between parties.
- Education of Alberta's labour community in the interpretation of Alberta's labour relations legislation and the Board's rules, policies and procedures.
- Development of formal and informal consultative processes with the province's labour relations community to ensure that Board policies and procedues are sensitive to the current realities in the community.

### GOALS STRATEGIES

- 1. To provide timely, effective and efficient services to the Alberta labour relations community.
- The Board promotes the use of Alternative Dispute Resolution methods to resolve issues before reaching formal hearings.
- 3. Decisions must be clear and timely so the parties can quickly implement the resolution.
- Investigate applications in a timely and accurate manner to ensure early resolution of differences.
- Ensure that Board officials develop and maintain the proper facilitation skills required and that these techniques and skills are applied to all appropriate applications.
- Minimize the length of time that parties await decisions.

Key Performance Measures	2002-03	2003-04	2004-05
• The average number of days from receipt of an application to the first			
date that a hearing is held. These averages will provide an indication of the			
timeliness of the Board's investigative and administrative services.			
The average number of days from the acceptance of an application to the			
date of the first hearing is to be:	65 days	65 days	60 days
• Percentage of applications, with Board involvement, settled before reaching			
a formal hearing. This provides an indication of the successful use of			
Alternative Dispute Resolution methods. Percentage of applications settled			
through Board intervention will be:	51%	53%	55%
• Percentage of decisions rendered within the prescribed number of			
calendar days from the completion of the hearing(s). Percentage of			
decisions rendered within 90 calendar days from the completion of the			
hearing is to be:	85%	85%	85%

# GOAL 8 TO BE RECOGNIZED INTERNATIONALLY AS A LEADER IN THE INNOVATIVE AND COST-EFFECTIVE USE OF INFORMATION AND COMMUNICATIONS TECHNOLOGY (ICT) IN THE DELIVERY OF GOVERNMENT PROGRAMS AND COST EFFECTIVE GOVERNMENT ADMINISTRATION.

#### **Major Strategies**

- 8.1 Provide strategic direction and a government-wide framework to guide ministries in the innovative and costeffective use of ICT to deliver government programs and services.
- 8.2 Provide strategic leadership in setting cross-government business, technical and operational standards that ensure all major systems can readily exchange and share information in a secure manner that protects individual privacy and promotes direct service delivery to Albertans where practical.
- 8.3 Provide strategic advice and analysis to Treasury Board regarding ICT investment directions and priorities.

#### **Key Performance Measure**

1. Adoption of corporate standards by individual departments:

Baseline Estimate (2001-02): 36% of the 24,727 desktops throughout all ministries have already been converted to the Windows 2000/Office 2000 standard.

Target (2002-03): 92% of desktops converted to Windows 2000 and Office 2000.

A specific target will be set for each standard as it is established.

#### **BUDGET HIGHLIGHTS FOR 2002-03**

- \$121.8 million will be allocated to continue the implementation of Alberta SuperNet. SuperNet will provide affordable high-speed network connectivity and Internet access to all universities, school boards, libraries, hospitals, government buildings and regional health authorities throughout the province. Internet Service Providers will also be able to access SuperNet at competitive rates to allow them to make commercial and residential high-speed Internet services available in 422 communities at rates comparable to those in Edmonton and Calgary.
- \$36.7 million will be allocated to provide strategic leadership for science and research in Alberta through the allocation of funding to priority science and research initiatives, research infrastructure and the retention of top quality faculty at Alberta universities and research hospitals.
- \$18.1 million will be allocated to Alberta Science and Research Authority institutes to coordinate, support and promote research and technology transfer in the areas of agriculture, forestry and energy.
- \$74.0 million in operating expense and \$4.3 million in capital investment will be spent by the Alberta Research Council Inc. (ARC) to support research in the areas of life sciences (agriculture, forestry, health and biotechnology research), ICT, energy, technology commercialization and contract research and development. ARC helps to advance the economy and well being of Alberta by providing technology and innovation to meet current and emerging needs of government and industry.
- \$10 million will be allocated to iCORE to attract and recruit outstanding researchers and support strong scientific teams in ICT, building on existing excellence and strengths in Alberta's universities.
- \$3.7 million will be allocated to promote the adoption of new knowledge and technology by commercializing research in existing and emerging industries with the ultimate goal of attracting high technology businesses to the province.
- \$51.8 million in operating expense and \$5.9 million in capital investment will be allocated to providing strategic leadership and direction in the innovative and cost-effective use of ICT; coordinating the effective use of computer technology, voice and data networks and information systems within government; and expanding public access to information and services through the Alberta One-Window Initiative.

- Provide leadership and coordination for Premier's missions and advice on other ministerial missions.
- Coordinate and facilitate mutually-beneficial involvement with Alberta's "sister provinces". Assess potential new twinnings.
- Support the work of the Advisory Council on Alberta-Ukraine Relations in enhancing bilateral relations with Ukraine.
- Develop partnerships with the private sector and educational institutions to pursue projects funded by International Financial Institutions.
- Develop a formal federal-provincial agreement that stipulates full provincial participation in Canada's negotiation of agreements affecting provincial jurisdiction or interests.
- Manage government-wide implementation of the North American Free Trade Agreement, the World Trade Organization Agreement and other agreements. Anticipate and prevent disputes.
- Coordinate Alberta's participation in World Trade Organization negotiations on issues involving provincial jurisdiction (e.g., environment, labour, agriculture, competition/business regulation, and services) and in other regional and multilateral negotiations (e.g., Free Trade Area of the Americas, Asia-Pacific Economic Cooperation).
- Manage disputes and defend Alberta's interests in the Agreement on Internal Trade.
- Work with other Canadian governments to enhance domestic trade through bilateral and multilateral negotiations and other regional agreements.

#### 2002-03 BUDGET HIGHLIGHTS

The Ministry's 2002-03 Estimates are reduced by \$20,000 from the 2001-02 Budget. Reductions to International Relations (\$113,000), Canadian Intergovernmental Relations (\$36,000) and Trade Policy (\$30,000) are required to offset increases to corporate and cross-ministry costs, and the cumulative impact of government-wide salary increases for 2001-02 and 2002-03. It is anticipated that these reductions should not have an adverse impact on priorities in the upcoming fiscal year.

#### PERFORMANCE MEASURES AND INDICATORS

International and Intergovernmental Relations has several methods of measuring its performance, including:

#### 1. Reports on Department Performance

Many of the department's outcomes are long term, frequently dependent on factors outside the control of the department (i.e., dependent upon obtaining agreement from other governments), and difficult to present as quantitative data. To ensure the clear reporting of departmental performance, while keeping in mind the limitations faced in developing such data, the department provides a detailed narrative record of its achievements and activities.

This narrative is found in the department's Annual Reports and documents the accomplishments for each goal. In addition to the Annual Report, other assessments on key initiatives are done from time-to-time. They may include reports issued after the conclusion of major conferences, trade negotiations or international missions.

#### 2. Client Satisfaction Surveys

Another measure of outcomes for International and Intergovernmental Relations is stakeholder or client satisfaction. Through periodic surveys, the department consults these clients to evaluate the department's contribution to advancing Alberta's priorities and positions. The 2001 Client Survey, which was the fourth broad survey completed by the Ministry, indicated that clients, both internal and external to government, indicated a high level of satisfaction (close to 4 on a scale to 5) in virtually all areas of services provided, meeting the department's target (4 out of 5).

#### 3. Intermediate Outcomes

In order to track the intermediate outcomes of major projects, the department prepares status reports or contributes to the reports prepared by others. Since these projects span many years, preparing regular progress reports or measuring intermediate outcomes allows governments and taxpayers to keep track of the progress of complex, long-term issues. Examples of this approach are:

- regular status reports that measure the implementation of the Agreement on Internal Trade and the progress of complaints and disputes under that agreement;
- regular Progress Reports to Premiers by the Provincial/Territorial Council on Social Policy Renewal; and
- communiqués released at the end of Premiers' meetings.

These reports are posted on the International and Intergovernmental Relations departmental website: <a href="http://www.iir.gov.ab.ca">http://www.iir.gov.ab.ca</a>. In addition, the website includes updates on preparations for and progress in domestic and international trade negotiations.

#### 4. Public Polling Data

An important measure of how the Alberta government is performing in the areas of international and intergovernmental relations is public polling data. In measuring the performance of the provincial government based on the satisfaction level of Albertans, the polling data does not specifically rate the performance of the department, but tracks the performance of the whole government. However, the department does play an important role in supporting the Premier and his cabinet colleagues in achieving intergovernmental goals. The polling data is based on a regular, national, opinion poll conducted by Environics Canada, reported in the Focus Canada Report. The Ministry's target is to maintain the government's public approval rating in federal-provincial relations on par with the average of four other provinces (British Columbia, Saskatchewan, Manitoba, and Ontario).

#### **GOVERNMENT-WIDE GOALS**

Much of the work of the Ministry relates to Goal 19 of the Government Business Plan for 2002-05:

Goal 19: Alberta will work with other governments and maintain its strong position in Canada.

As well, Ministry strategies contribute to the realization of the following government-wide goals:

Goal 2: Our children will be cared for, safe, successful at learning and healthy.

Goal 7: Alberta will have a prosperous economy

Goal 8: Our workforce will be skilled and productive

Goal 10: Alberta's value-added industries will lead economic growth

Goal 14: Alberta businesses will increase exports

Goal 17: The high quality of Alberta's environment will be maintained or enhanced.

- For 2002-03 Alberta Justice will spend approximately \$236 million. The budget provides an equitable distribution of funding to maintain services in Courts, Prosecutions, Justice Services to Albertans in Need and Legal Services to Government.
- \$14.4 million and 29 FTEs has been approved to provide additional resources to continue to address workload and retention issues and improve prosecution and legal services. The additional resources affirm the Government's commitment to the safety and security of Albertans.
- \$28.2 million has been allocated for Legal Aid. This includes an additional \$1.0 million to continue improvements to the Legal Aid system and ensure more low-income Albertans have access to it. Funds are included to continue the government's support of the Family Law Legal Aid offices that opened in Edmonton and Calgary last year. The offices ensure there are lawyers and services available to help low-income families who need legal assistance in a timely manner.
- A \$13.1 million dedicated revenue initiative will be set up in Court Services and *Highway Traffic Act* fines will be increased and used for staff and systems costs incurred in processing and handling tickets.
- Capital funding of \$2.1 million has been provided to continue work on the Maintenance Information Management System. The system is one of many operating improvements implemented in the Maintenance Enforcement Program in response to an MLA Review conducted in September, 1998. The system is scheduled for completion in 2004.

#### **BUDGET HIGHLIGHTS FOR 2002-03**

The 2002-03 Gross Operating Estimates for the Ministry of \$132.3 million reflects a net \$70.9 million decrease over the Gross Comparable 2001-02 Budget. The decrease is primarily due to the lapsing of the Underground Petroleum Storage Tanks program that was \$70 million in 2001-02.

Under the Local Government Services core business, the Unconditional Municipal Grant Program, Grants in Place of Taxes Program, Municipal Debenture Interest Rebate Program, and the Municipal Sponsorship Program will be ongoing. In addition, the Regional Partnership Initiative, which supports the Economic Development Strategy, and the Minister's Provincial/Municipal Council on Roles, Responsibilities and Resources in the 21st Century will be continued. These programs and initiatives are key components of the Ministry's core business that serves to support Alberta municipalities.

The budget for Safety Services and Fire Protection core business includes funding for the Fire Commissioner's Office to support the Aboriginal Policy Initiative strategy for fire protection, training and education programs, and the Alberta Children and Youth Initiative for Fire Safety education programs such as *Risk Watch*. Safety Services Branch will contribute to the Health Sustainability Initiative through its ongoing work with codes and standards for private sewage disposal systems that will contribute to the safeguarding of water quality.

For the Disaster Services core business, funding is provided to coordinate business resumption planning activities across the Alberta Government, foster the development of emergency response in First Nations communities, and support the Health Sustainability Initiative with emergency response planning for health-related events such as pandemic influenza and bio-terrorism.

#### MINISTRY BUSINESS PLAN SUMMARY

#### INTRODUCTION

- Continue to assist low-income seniors experiencing financial difficulties or unexpected expenses by providing \$27.1 million to Special Needs Assistance for Seniors Program.
- Continue to provide province-wide access to accurate, up-to-date and relevant information about government and community programs and services for seniors.

- Maintain support for lodges and self-contained housing for low-income seniors, for a total budget of \$14.5 million.
- Improve the ministry's ability to address low-cost housing pressures by finalizing a new social housing agreement with Canada Mortgage and Housing Corporation, which will improve the flow of housing funds from the federal government to the province.
- Pursue plans to reinvest proceeds from housing units that no longer fit the ministry's portfolio into local solutions that help to address the housing needs of low-income Albertans.
- Finalize an agreement with the federal government that will provide access to approximately \$67 million over five years to assist Alberta communities in developing low-cost housing.
