Publication of Joint elevating devices/building STANDATA interpretation 19-EDI-013/19-BCI-031 Firefighters' emergency operation for alterations (FEO)

Publication of Joint STANDATA 19-EDI-013/19-BCI-031 Firefighters' emergency operation for alterations (FEO)

STANDATA 19-EDI-013/19-BCI-031 "Firefighters' emergency operation for alterations (FEO)" replaces STANDATA 19-FCI-016/19-BCI-022/13-EDI-001/18-CECI-007 "Existing elevator modernization/fire alarm interface"

STANDATA 19-FCI-016/19-BCI-022/13-EDI-001/18-CECI-007 "Existing elevator modernization/fire alarm interface" had inaccurate information which was not supported by the Elevating Devices Code or the Building Code. The STANDATA has been archived.

An updated joint STANDATA interpretation 19-EDI-013/19-BCI-031 "Firefighters' Emergency Operation for alterations (FEO)" has been published. The new STANDATA does not include Fire and Electrical Disciplines as there were no interpretations of either the fire or electrical code.

STANDATA 19-EDI-013/19-BCI-031 "Firefighters' emergency operation for alterations (FEO)" is in effect on March 15, 2023.
