REQUIREMENTS FOR THE RESTRICTIONS EXEMPTION PROGRAM

Overview

The Restrictions Exemption Program (REP) permits in-scope businesses/entities/organizers¹ to implement a screening program for their patrons and to operate without the majority of public health restrictions in [CMOH Order 44-2021](#), as amended by [CMOH Order 47-2021](#), and [CMOH Order 53-2021](#), if implemented in alignment with this document and [CMOH Order 54-2021](#). This document has been developed to support the implementation of the necessary requirements to qualify for the exemption.

In-scope businesses/entities/organizers who implement REP must continue to apply indoor masking and other requirements outlined in [CMOH Order 54-2021](#). Out-of-scope businesses/entities/organizers for REP, as listed in the appendix, are not exempt from public health restrictions even if they decide individually to introduce additional requirements for entry. There is a chart of the in-scope and out-of-scope businesses/entities/organizers in the appendix of this document.

REP is an optional program, and businesses/entities/organizers who choose not to participate are required to implement all of the public health restrictions outlined in [CMOH Order 44-2021](#), as amended by [CMOH Order 47-2021](#), and [CMOH Order 53-2021](#).

REP is not intended or required for employees or contractors attending workplaces. Operators are strongly encouraged to promote COVID-19 vaccination to staff, volunteers, attendees and other eligible persons as part of their public health strategy, and any vaccine requirements for staff is an employer decision.

Good public health practices are always encouraged, and can minimize transmission of respiratory infections, including COVID-19, influenza and common colds. These practices include: immunization, proper hand washing or use of hand sanitizer, respiratory etiquette, and enhanced cleaning and disinfecting. In addition, staying home when sick with COVID-19 symptoms is legally required even if a test is not done.

This document and the guidance within it is subject to change and will be updated as needed.

Last Revised: December 2021.

¹ Examples of entities/organizers may include not for profit organizations, municipalities, or community groups, as long as there is a responsible party overseeing the Restrictions Exemption Program.
