

Alberta's Exports 1995-2010 (\$CDN)

Alberta exported \$77.8 billion worth of goods in 2010, up 11.3% from 2009. Alberta's exports are now greater than they were in 2006 but less than they were in 2007.

Higher energy prices accounted for much of the improved export performance. Overall, energy exports increased 15.8% from \$48.1 billion in 2009 to \$55.6 billion in 2010.

Non-energy exports also increased during this period, but at a rate of 0.7%, from \$22.1 billion to \$22.3 billion.

Alberta was the second largest provincial exporter in 2010, behind Ontario and ahead of Quebec. Alberta accounted for 20.8% of Canada's exports of goods in 2010.

Canada exported a total of \$373.3 billion in 2010, an increase of 11.6% from 2009.

Distribution of Canada's Exports in 2010 by Province (\$CDN)

Alberta's Crude Oil Exports (Price vs. Quantity)

Alberta exported a total of \$38.8 billion in 2010, up 24.7% from 2009. The price of crude oil exports increased 18.9% from 2009 to 2010, while the volume of oil increased 6.3% during the same time period. Note that the price is the average for 2010 and disguises large variations throughout the year.

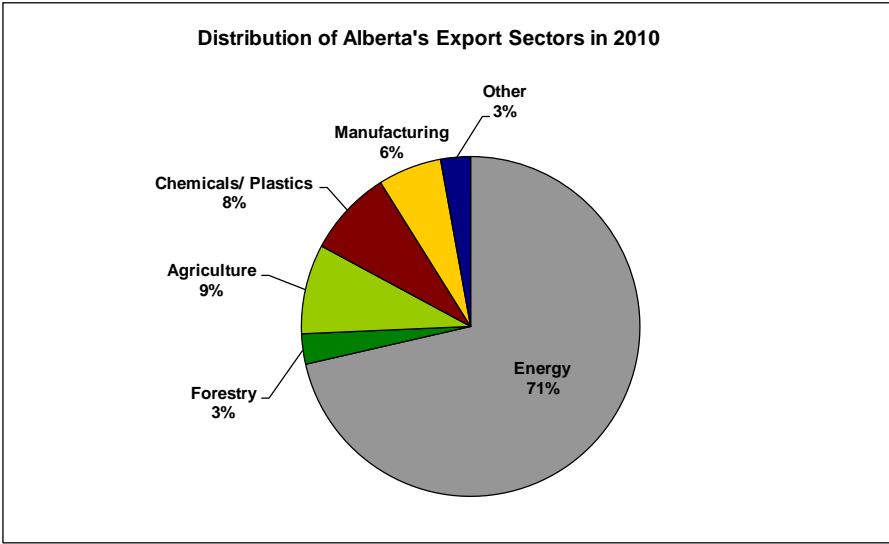

Refers to HS 270900. Quantity is in millions of cubic meters. Price is in Canadian dollars per cubic meters.

Alberta's Natural Gas Exports (Price vs. Quantity)

Natural gas exports from Alberta totaled \$12.3 billion in 2010, a decrease of 8.8% from 2009. The price of natural gas exports decreased 2.2% from 2009 to 2010. The volume of natural gas exports also decreased 2.4% during the same time period.

Refers to HS 271121. Quantity is in billions of cubic meters. Price is in Canadian dollars per thousand cubic meters.

Since 1993, the year before the implementation of the NAFTA, Alberta's exports to NAFTA countries (US and Mexico) have increased 323% to \$68.1 billion in 2010. Exports to the rest of the world during the same time period increased 166% to \$9.7 billion.
