

The

Alberta Aids to Daily Living (AADL)

Bulletin #41

October 2016

Change in Vendor for Homecare beds and accessories

Effective October 31, 2016 Eco Medical Equipment will be the vendor handling distribution and servicing of homecare beds, and accessories for the Alberta Aids to Daily Living (AADL) program.

AADL provides eligible Albertans with homecare beds, mattresses, rails, over the bed tables and trapeze bars through a single supplier. Eco Medical Equipment can be contacted at 1-800-232-9450 if AADL clients have bed frames, pressure relief mattresses, over bed tables and trapeze bars that are no longer required and need to be picked up on or after October 31, 2016.

Home Care Bed Recycle Depot will continue to fill orders and pick up home care beds and accessories until October 27, 2016. They can be reached at 1-800-220-9684.

AADL will process authorizations received on or after October 28, 2016 using Eco Medical Equipment as the vendor for home care beds and accessories. AADL will be working with the both vendors to ensure an effective transition that will not impact services to clients.
