

Emergency Financial Support and Benefits for Ukrainian Newcomers to Alberta

Alberta's government is helping Ukrainians fleeing the war by providing access to emergency financial benefits for those arriving in Alberta with little or no savings or income. Ukrainian newcomers with limited assets and resources may be eligible for the same benefits as Albertans facing similar financial circumstances.

The Ukrainian Evacuee Emergency Financial Support and Benefits (UEEFSB) program provides one-time emergency benefits and ongoing monthly financial assistance to eligible Ukrainian newcomers. These supports are different from the federal financial supports.

Receiving assistance from the UEEFSB program does not impact an individual's immigration status or application for permanent residency.

One-time Emergency Benefits

One-time emergency benefits may be provided to Ukrainian newcomers in an emergency situation who do not have the resources to meet their emergency needs. Benefits may be issued to assist with temporary accommodation, transportation, food and clothing.

To be eligible for one-time emergency benefits, Ukrainian newcomers do not need to provide a Canadian bank account or medical note.

Anyone facing an emergency can request financial assistance by calling the Alberta Supports Contact Centre during business hours (1-877-644-9992) or by calling the Income Support Contact Centre (1-866-644-5135), which is open 24 hours a day, 7 days a week.

Ongoing Financial Assistance

Effective June 1, 2024, approval of new applications for ongoing assistance will be limited to individuals assessed as having significant barriers to employment, including seniors and persons with disabilities.

Monthly financial assistance may be provided to eligible Ukrainian newcomers with significant barriers to employment who do not have the resources to meet their basic needs, like food, clothing and shelter. This is

a program of last resort and people applying for these benefits must demonstrate a financial need. Benefit amounts are based on a person's income and assets, ability to work, and the number of people in a household.
