

Alberta Provincial  
Electoral Divisions

# Calgary- South East

---

Compiled from the 2016 Census of Canada

# Introduction

The following report produced by the Office of Statistics and Information presents a statistical profile for the Provincial Electoral Division (PED) of Calgary-South East. A PED is a territorial unit represented by an elected Member to serve in the Alberta Provincial Legislative Assembly. This profile is based on the electoral boundaries that will be in effect for the 2019 Provincial General Election.

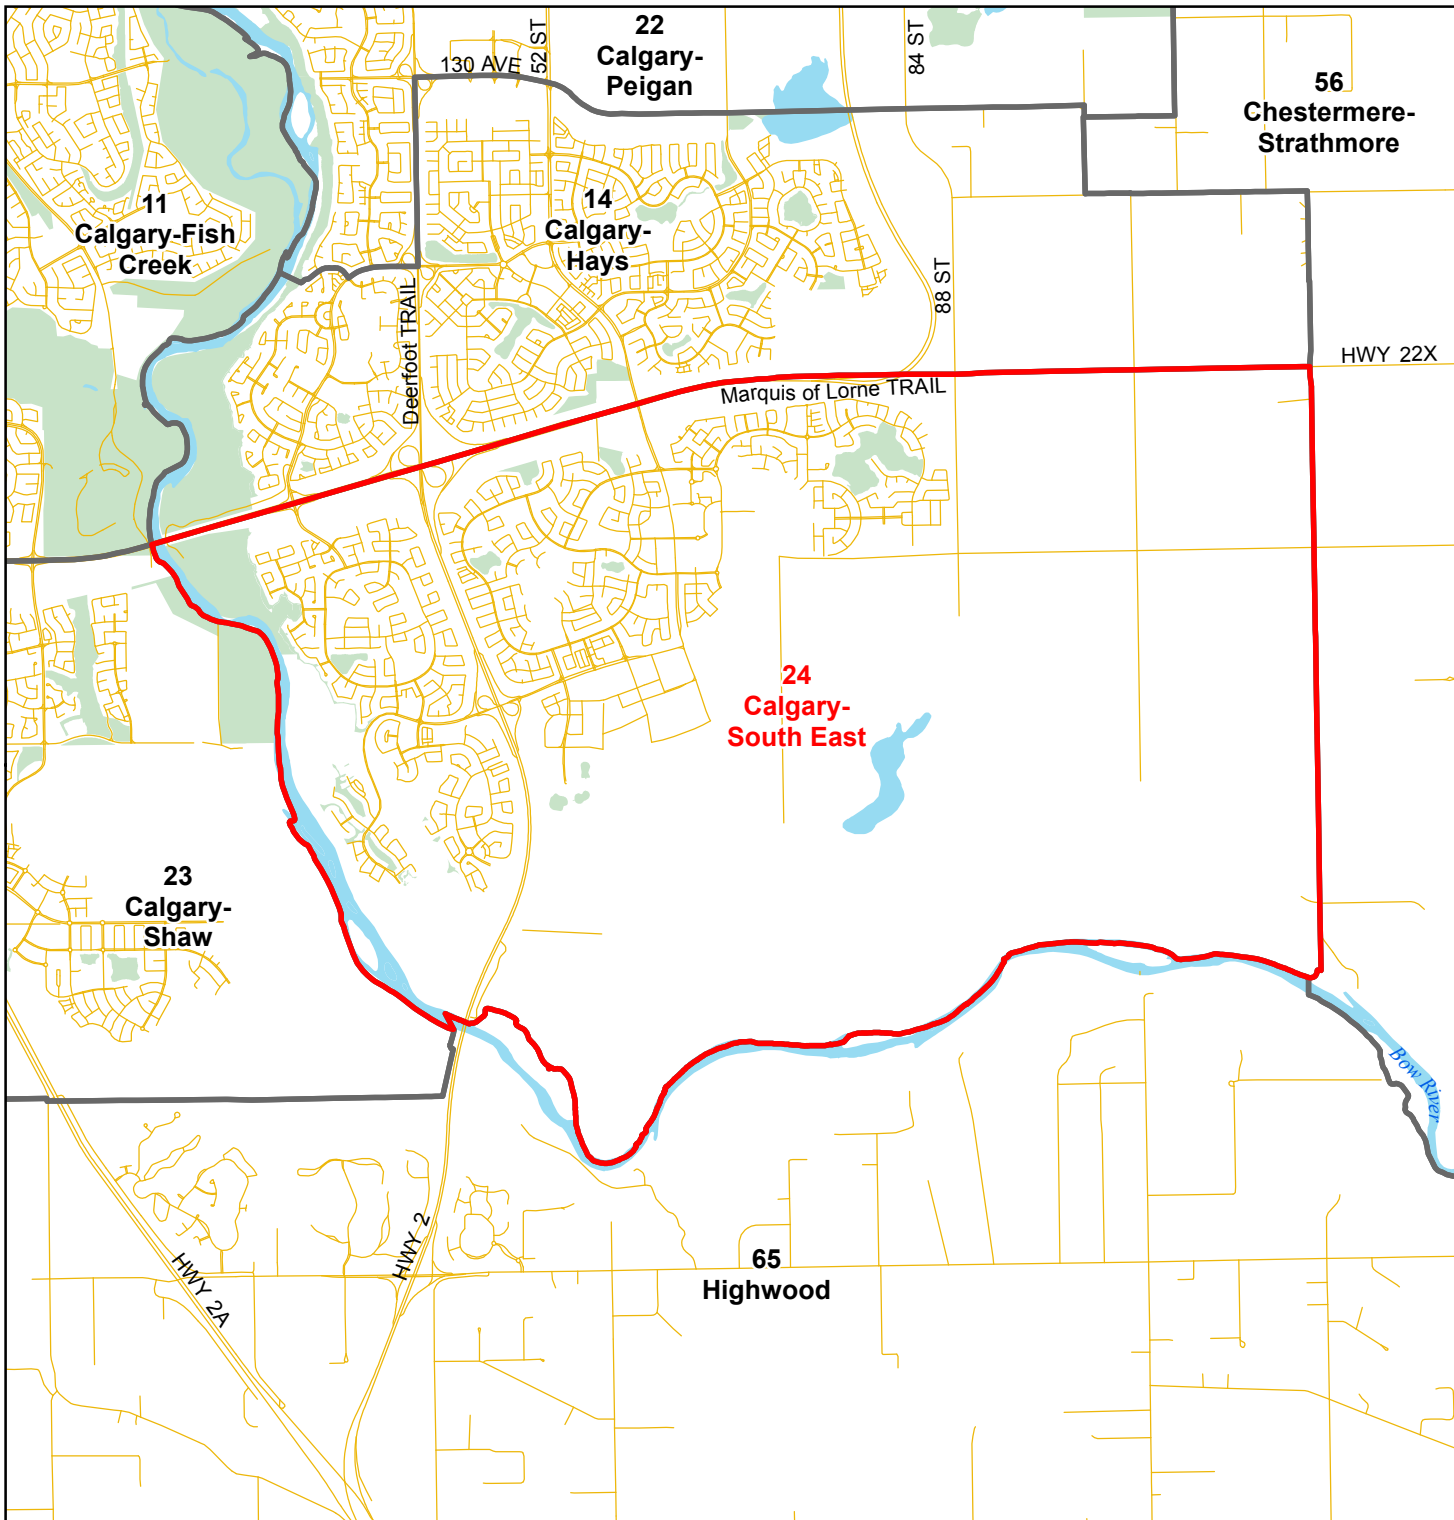

General characteristics of the PED of Calgary-South East are described with statistics from the 2016 Census of Canada, including: age, sex, marital status, household types, language, Aboriginal identity, citizenship, ethnic origin, place of birth, visible minorities, mobility, dwellings, education, labour force and income.

Users are advised to refer to the endnotes of this profile for further information regarding data quality and definitions.

Should you have any questions or require additional information, please contact:

## Provincial Electoral Division of Calgary-South East\*

### Economic Family Income (2015)<sup>(36)\*\*\*^</sup>

<b>Total number of economic families</b>	<b>11,350</b>
Median family income (\$)	\$142,085
<b>Couple families</b>	<b>3,395</b>
Median family income (\$)	\$139,259
<b>Couple-with-children economic families</b>	<b>6,715</b>
Median family income (\$)	\$152,435
<b>Lone-parent economic families</b>	<b>980</b>
Median family income (\$)	\$80,130

### Incidence of Low Income in 2015 on after-tax low-income measure (LIM-AT)<sup>(37)\*\*\*^</sup>

<b>Population in Low Income<sup>(38)</sup></b>	<b>1,745</b>	<b>4.3%</b>
Aged 0 to 17 years	660	5.4%
Aged 0 to 5 years	230	4.2%
Aged 18 to 64 years	1,010	3.8%
Aged 65 years and over	70	5.1%
<b>Males in Low Income</b>	<b>820</b>	<b>4.1%</b>
<b>Females in Low Income</b>	<b>920</b>	<b>4.6%</b>

### Endnotes:

The global non-response rate (GNR) for Calgary-South East is 2.8%. The GNR combines both complete non-response (household) and partial non-response (question) into a single rate. The GNR is an indication of data quality, where a smaller GNR suggest greater accuracy and a lower risk of non-response bias. When the GNR is 50% or above, the data are suppressed. The GNR is identified for each region. A higher GNR indicates the need for user caution.

Data in this report have been specially tabulated from the Statistic Canada 2016 Census of Canada, by allocation of the Statistics Canada block face reference points to PEDs

- ^ Income statistics presented in this report are based on 25% sample data from 2016 Census. Statistics Canada has also released income data using a 100% sample, as such, Alberta income statistics in this report may not match data presented elsewhere. Income statistics from the 100% sample was not available at the PED level at the time of publication.
- \* Totals may not add to 100% due to random rounding.
- \*\* 100% Data
- \*\*\* 25% Sample Data
- (1) All persons under the age of 15 years are considered 'never married' and not living common-law.
  - (2) Census family is defined as a married couple and the children, if any, of either and/or both spouses; a couple living common law and the children, if any, of either and/or both partners; or a lone parent of any marital status with at least one child living in the same dwelling and that child or those children. All members of a particular census family live in the same dwelling. A couple may be of opposite or same sex. Children may be children by birth, marriage, common-law union or adoption regardless of their age or marital status as long as they live in the dwelling and do not have their own married spouse, common-law partner or child living in the dwelling. Grandchildren living with their grandparent(s) but with no parents present also constitute a census family.
  - (3) Language spoken most often at home at the time of the Census. More than one language can be reported if the languages are spoken equally often. Caution is advised when using for historical comparability purposes.
  - (4) Refers to whether a person can conduct a conversation in the language. For a child who has not yet learned to speak, this includes languages the child is learning.
  - (5) Includes persons who reported being an Aboriginal person (First Nations/North American Indian, Métis or Inuk/Inuit) and/or having Registered or Treaty Indian status, and/or membership in a First Nation or Indian band. Estimates associated with this variable are most affected by the incomplete enumeration of Indian reserves or settlements. Permission for enumeration was not given for Saddle Lake 125, and data is not available for this region.
  - (6) Includes persons who indicated only one Aboriginal group (i.e. First Nations, Metis or Inuit).
  - (7) Includes persons who indicated any two or all three of First Nations, Metis or Inuit.
  - (8) Includes persons who are not First Nations, Metis or Inuit, but who reported Registered or Treaty Indian status and/or membership in a First Nation or Indian band.
  - (9) Includes Canadian citizens by birth and naturalization.
  - (10) Persons who are Canadian citizens by birth.
  - (11) Persons who are, or have ever been, landed immigrants or permanent residents. Immigrants who have obtained Canadian citizenship by naturalization are included in this category. This category includes immigrants who landed in Canada on or prior to May 10, 2016.
  - (12) Includes persons from another country who have a work or study permit or who are refugee claimants, and their family members living in Canada with them.
  - (13) Includes places of birth in Oceania and responses not included elsewhere (i.e. born at sea).
  - (14) Refers to whether a person belongs to a visible minority group as defined by the *Employment Equity Act*, and, if so, the visible minority group to which the person belongs. Under the *Act*, visible minorities are "persons, other than Aboriginal peoples, who are non-Caucasian in race or non-white in colour."
  - (15) Refers to the ethnic or cultural origins of the person's ancestors (usually more distant than a grandparent).
  - (16) The sum of the ethnic groups in this table is greater than the total population count because a person may report more than one ethnic origin.

## Provincial Electoral Division of Calgary-South East\*

- (17) Refers to the status of a person with regard to the place of residence on the reference day, May 10, 2016, in relation to the place of residence on the same date one year earlier. Non-migrants are persons who moved but remained in the same city, town, village or Indian reserve. Migrants include internal migrants, who moved to a different jurisdiction (such as a city or town) but remained within Canada. External migrants include persons who lived outside Canada at the earlier reference date.
- (18) Refers to the status of a person with regard to the place of residence on the reference day, May 10, 2016, in relation to the place of residence on the same date five years earlier.
- (19) Includes mobile homes and other dwellings such as houseboats, recreational vehicles and railroad cars.
- (20) All expenses paid by household renters including monthly rent, electricity, heat, water and other municipal services where applicable.
- (21) All expenses paid by household owners including mortgage, electricity, heat, water, taxes, condominium fees, and other municipal services where applicable.
- (22) Highest level of education a person has successfully completed and measures the broader concept of 'Educational Attainment'. A person who has completed one type of certification will not necessarily have completed the certification below it in the hierarchy. For example, a person with a trades certificate may not have completed a high school certification.
- (23) Includes only people who have this as their highest educational qualification. Excludes persons with a postsecondary certificate, diploma or degree.
- (24) Includes trades certificates/diplomas such as pre-employment or vocational certificates from brief trade programs completed at community colleges, institutes of technology, vocational centres and the like.
- (25) Includes Journey person's designations.
- (26) The main discipline or subject of learning for the person's highest completed postsecondary qualification, classified according to the Classification of Instructional Programs (CIP) Canada 2016.
- (27) Refers to whether a person aged 15 years and over was employed, unemployed or not in the labour force during the week of May 1-7, 2016.
- (28) Includes persons aged 15 years and over with or without an incorporated business with or without paid help, as well as unpaid family workers.
- (29) Includes unemployed persons aged 15 years and over who have never worked for pay or in self-employment, or who had last worked prior to January 1, 2015.
- (30) Refers to the kind of work performed by persons during the week of May 1-7, 2016, as determined by their kind of work and the description of the main activities in their job, according to the National Occupational Classification (NOC) 2016.
- (31) Refers to the general nature of the business carried out where the person worked, classified according to the North American Industry Classification (NAICS) 2012.
- (32) Census assumes that commute to work begins at the usual place of residence, but this may not always be the case.
- (33) Includes all income received as wages, salaries and commissions from paid employment and net self-employment income from farm or non-farm unincorporated business and/or professional practice in the calendar year of 2015. Full-time full-year workers are those who worked 30 hours or more per week for at least 49 weeks in the calendar year of 2015.
- (34) Total income refers to monetary receipts from certain sources (e.g., employment income, government transfer, Old Age Security, income from investment, spousal support etc.), before income taxes and deductions, during calendar year 2015.
- (35) Total income of all household members, before income taxes and deductions for the calendar year of 2015.
- (36) Total income of all economic family members, before income taxes and deductions for the calendar year of 2015. An economic family refers to a group of two or more people who live in the same dwelling and are related by blood, marriage, common-law union, adoption or foster relationship. A couple may be of opposite or same sex. By definition, all people who are members of a census family are also members of an economic family. However, members of an economic family need not be members of the same census family.
- (37) The low-income measure after tax (LIM-AT) is a fixed percentage (50%) of median-adjusted after-tax income of households. The household after-tax income is adjusted to take economies of scale into account. The adjustment for different household sizes reflects the fact that a household's needs increase, but at a decreasing rate, as the number of members increases. LIM-AT is not related or comparable to the low-income cut-offs (LICO) in the 2006 Census. Direct comparisons with low-income estimates from other sources is discouraged; however, it is appropriate to compare this low-income data for the 87 PEDs presented here.
- (38) The income situation in relation to a specific low-income line, with those below the line considered to be in low income. Low income concepts are not applied in certain areas based on census subdivision types (i.e. Indian reserves). Substantial in-kind transfers (i.e. subsidized and/or band housing), barter economies and/or consumption from hunting, farming or fishing, could make the interpretation of low income statistics difficult in these cases.
