Day(s) and time of market operation		Distance from proposed market	
Public Health Inspector serving located:	ng the ar	ea where the proposed market will be	
Address:			
Telephone:		Email:	

Additional Questions:

۱.	How will you ensure your market will regularly consist of a minimum of 10 vendors, 80% of whom sell Alberta products which they, a family member, a staff member or a member of a producer-owned cooperative or their staff have made, baked or grown?
2.	Will your market operate a minimum of two consecutive hours per market, for a minimum of 10 calendar days per year? O Yes O No
3.	Does your town council and/or local merchants' group support the idea of a farmers' market located in or near their town? O Yes O No
	At least 3 letters of support from local community leaders/groups must be provided with the application.
1.	Proof of liability insurance is a condition of approval. A certificate of insurance must be received in this office before the first market date.

- 5. **Business Case**: This section **must** address the following questions:
 - Describe your vision for the market, how it fits the mandate of your sponsoring organization, if applicable, and explain WHY you want to start the market.
 - Provide a SWOT analysis (strengths, weaknesses, opportunities and threats) on the proposed market. What role will the farmers' market play in your community? Describe the benefits to the community, an assessment of the pros and cons of having the market as well as any potential threats that you foresee. Be sure to address the seasonality of your proposed market in your analysis, i.e. seasonal market only or year-round market.
 - Successful markets impact many stakeholders and businesses in the community. Planning
 discussions for a market should include these stakeholders so that all points of view are
 considered. Describe how community leaders, customers and potential vendors have been
 consulted in the planning for this market.
 - How do you know there is sufficient customer demand for the proposed market to be successful?
 What tools were used to collect information about customer demand?
 - Convenience is very important to today's customers. Will the target audience/market identified above find the market day, hours and location convenient? Provide copies of surveys or other instruments used to collect this information.
 - Elaborate on the demographics and population in the trading area noted on Page 4. Describe how the population in the trading area is sufficient to support a viable market.
 - A successful farmers' market has a strong vendor base consisting primarily of agriculture and food products. Describe your plans for securing and maintaining an appropriate product mix for the market.
 - Describe your plans for maintaining the vendors submitted with this application. Describe how additional vendors will be recruited.
 - Describe how you will work with vendors to ensure compliance with the Guidelines and regulatory requirements.
 - If planning a year-round market, describe how you will maintain an appropriate vendor mix and ensure the "80/20 Rule" is adhered to for the entire market year.
 - If the proposed market is operating on the same day and at the same time as another market in

the area (either approved or public), describe how the population in the trading area is sufficient to support a viable market without negatively impacting the other market.

- Describe how the proposed market will be promoted.
- Describe the role of the sponsor in the proposed market, if applicable.

If more space is required, use additional paper to complete this section in full.

Vendor List

The information on the following pages is used to ensure the market is going to meet the minimum requirements of:

- 10 Vendors Rule

 There must be at least ten vendors listed or the application will not be approved
- 80/20 Rule Where 80% of the vendors are Albertans selling Alberta products which they, an immediate family member, a staff member or a member of a producer-owned cooperative or their staff have made, baked or grown. The remaining 20% of the vendors can be made up of out-of-province vendors, resellers or vendors selling commercially available products.

When including vendor information on this application, it is important the vendors are confirmed as attending as well as provide you with an indication of how often they plan to attend during the upcoming season. This intention will then be used to calculate the average vendors and average 80/20 breakdown for the market.

A lot of time and effort goes into planning a farmers' market and we want the market to be successful. In addition, vendors rely on a market to contribute to their overall income. It is important that a new market is starting out with the expectation of success for all those involved.

Approval status is conditional upon both the above rules being achieved in the first year of operation.

Confirmed Vendors: (please add pages as needed)
