Preface: Public Accounts 2005/2006

The Public Accounts of Alberta are prepared in accordance with the *Financial Administration Act* and the *Government Accountability Act*. The Public Accounts consist of the Annual Report of the Government of Alberta and the annual reports of each of the 24 Ministries.

The Annual Report of the Government of Alberta, released June 26, 2006, contains the Minister of Finance's accountability statement, the consolidated financial statements of the Province, and a comparison of the actual performance results to the desired results set out in the government's business plan, including the Measuring Up report.

This Annual Report of the Ministry of Education contains the Minister's accountability statement, the audited financial statements of the Ministry, and a comparison of actual performance results to desired results set out in the Ministry business plan.

The Alberta Education Annual Report also includes:

- the financial statements of entities making up the Ministry including the Department of Education and the Alberta School Foundation Fund, for which the Minister is responsible,
- other financial information as required by the *Financial Administration Act* and *Government Accountability Act*, either as separate reports or as a part of the financial statements, to the extent that the Ministry has anything to report, and

 financial information relating to accountable organizations and trust funds, which includes the Alberta Teachers' Retirement Fund and school jurisdictions in the public education system (public, separate, and francophone school boards and charter schools).

Minister's Accountability Statement

The Ministry's Annual Report for the year ended March 31, 2006, was prepared under my direction in accordance with the *Government Accountability Act* and the government's accounting policies. All of the government's policy decisions as at September 12, 2006, with material economic or fiscal implications of which I am aware, have been considered in the preparation of this report.

Gene Zwozdesky Minister of Education Government House Leader

Minister's Message

I am pleased to present Alberta Education's 2005/2006 Annual Report, complete with an exciting new look and layout. The report demonstrates the continued success and excellence of Alberta's outstanding K-12 education system.

A highlight for me this past year was my meetings with the province's 62 school boards and the charter schools. These meetings strengthen relationships and develop mutual understanding. Where feasible, I also met with teachers, superintendents, and parent council representatives.

A three-year bullying prevention public awareness campaign was launched in 2005/2006 in cooperation with Alberta Children's Services. It includes an interactive site for children at http://www.teamheroes.ca, which received over one million visitors in its first year! Resources also are available for parents and teachers online at http://www.bullyfreealberta.ca.

One of my highest priorities is high school completion. While I am pleased to see the improvement in high school completion rates, we need to do better. I am hosting a symposium in September 2006 that brings together youth, parents, business and community leaders, educators, and government to address

this issue and enable more of our young people to complete high school.

As Minister of Education, I am committed to ensuring that our education system provides the children of this province with the confidence, knowledge, skills, and attitudes needed for success.

Government made a significant investment of over \$4.76 billion in K – 12 education in 2005/2006, which constituted 17.5% of total government spending. This amount represented an increase of 8.5% over the previous year and included increased funding to school boards for transportation in response to unexpected rises in fuel costs. More than 98% of the funding for education in 2005/2006 supported programs for Alberta's K – 12 students, with approximately \$4.6 billion providing support for students and teachers in the classroom, and \$41.8 million supporting school construction.

Our focus on our students was sustained by Alberta Education's comprehensive response to all recommendations of Alberta's Commission on Learning, including an injection since October 2003 of \$551 million in new funding. As a result, the average class size guidelines recommended by the Commission were met ahead of schedule in Grades 4-12 and class sizes have been reduced in K-3.

New, on-going funding also supported enriched programming for First Nation, Métis, and Inuit students; students with special needs; and development of new curriculum and increased access to new technologies. Daily Physical Activity was introduced in September 2005 for students in Grades 1 – 9 to ensure all students benefit from routine physical activity.

During 2005, many events were held in schools across the province to commemorate Alberta's Centennial, culminating in a provincial celebration in September. Our proud history came alive for students in a variety of creative, hands-on activities and included 21 projects that provided a historical perspective on education in Alberta.

As Minister of Education, I am committed to ensuring that our education system provides the children of this province with the confidence, knowledge, skills, and attitudes needed for success. We will continue to work effectively with our education partners and stakeholders to ensure every child has an opportunity to learn and succeed.

Gene Zwozdesky Minister of Education Government House Leader

Management's Responsibility for Reporting

The Ministry of Education includes:

- · the Alberta School Foundation Fund
- the Department of Education.

The executives of the individual entities within the Ministry have the primary responsibility and accountability for the respective entities. Collectively, the executives ensure the Ministry complies with all relevant legislation, regulations, and policies.

Ministry business plans, annual reports, performance results, and the supporting management information are integral to the government's fiscal and business plans, annual report, quarterly reports, and other financial and performance reporting.

Responsibility for the integrity and objectivity of the consolidated financial statements and performance results for the Ministry rests with the Minister of Education. Under the direction of the Minister, I oversee the preparation of the Ministry's Annual Report, including consolidated financial statements and performance results. The consolidated financial statements and the performance results, of necessity, include amounts that are based on estimates and judgments. The consolidated financial statements are prepared in accordance with the government's stated accounting policies.

As Deputy Minister, in addition to program responsibilities, I establish and maintain the Ministry's financial administration and reporting functions. The Ministry maintains systems of financial management and internal control which give consideration to costs, benefits, and risks that

are designed to:

- provide reasonable assurance that transactions are properly authorized, executed in accordance with prescribed legislation and regulations, and properly recorded so as to maintain accountability of public money,
- provide information to manage and report on performance,
- safeguard the assets and properties of the Province under Ministry administration,
- provide Executive Council, Treasury Board, the Minister of Finance, and the Minister of Education any information needed to fulfill their responsibilities, and
- facilitate preparation of Ministry business plans and annual reports required under the Government Accountability Act.

In fulfilling my responsibilities for the Ministry, I have relied, as necessary, on the executive of the individual entities within the Ministry.

Keray Henke Deputy Minister Alberta Education

Overview

Introduction

In 2005/2006, Alberta Education continued to build on its strong foundation to provide the best possible Kindergarten to Grade 12 (K – 12) education for Alberta students.

Alberta Education's vision, mission, principles, and values define the Ministry. Together, the Ministry's vision and mission present Alberta's view of the future for education and how it will be realized. The principles identify the Ministry's approach to conducting its business, and the values demonstrate the beliefs or traits that guide Ministry actions.

Vision

The best Kindergarten to Grade 12 education system in the world.

Mission

The Ministry of Education, through its leadership and work with stakeholders, ensures that learners are prepared for lifelong learning, work, and citizenship so they are able to contribute to a democratic, knowledge-based, and prosperous society.

Values

Respect Integrity Trust Openness Caring

Principles

Learner Centred – The highest priority of the education system is the success of the student.

Accessible – Every student in Alberta has the right of access to a quality basic education consistent with the student's needs and abilities.

Collaborative – Kindergarten to Grade 12 education, which provides the foundation for lifelong learning, best occurs when partners and stakeholders work together to provide a holistic approach and a supportive environment.

Accountable – All those involved in the education system are accountable to Albertans for quality results, system sustainability, and fiscal responsibility.

Responsive – The education system is flexible, anticipates learner needs, and provides opportunities for parent and student choice.

Innovative – The education system demonstrates leading edge innovation for improved results.

Equitable – All students have equitable access to quality learning opportunities.

Alberta Education continues to play a key role in promoting Cross-Ministry Initiatives. These are priorities established by the provincial government each year that transcend the mandate of individual ministries.

During 2005/2006, the Ministry contributed to four of government's priority policy initiatives:

- Aboriginal Policy Initiative
- Alberta Children and Youth Initiative (ACYI)
- Health Renewal and Wellness Initiative
- Leading in Learning and Skilled Workforce Initiative.

The Ministry also contributed to government-wide administrative initiatives:

- Shared Services Delivery Improvement Strategy
- Corporate Human Resource Development Strategy
- Corporate Information Management/ Information Technology Strategy
- · Service Alberta.

The following core businesses were established for 2005/2006 and aligned with the business plan goals:

- Support High Quality Learning Opportunities in the Education System – Goal 1: High Quality Learning Opportunities for All
- Support Learners to Achieve Excellent Learning Outcomes – Goal 2: Excellence in Learner Outcomes
- Support the Continuous Improvement of the Ministry and Education System – Goal 3: Highly Responsive and Responsible Ministry.

Alberta Education enhanced its focus on outcomes and improving education for students in 2005/2006 with the introduction of the evaluation methodology for the Accountability Pillar, one of three pillars of the Renewed Funding Framework. The Funding Pillar distributes funding equitably and the

Flexibility Pillar gives school jurisdictions increased flexibility to allocate funds to meet student needs. In return, the Accountability Pillar evaluates school jurisdiction improvement and achievement on a common set of performance measures.

The Accountability Pillar measures also were incorporated in the Alberta Education 2005 – 2008 Business Plan for assessing and reporting on Ministry performance. In 2005/2006 a new Accountability Pillar measure, the diploma examination participation rate, was developed and is introduced in this Annual Report.

During 2005/2006, Alberta Education undertook an organizational review to improve the alignment of functions for leading and managing the K – 12 system and to improve communications within the organization and the system. The Ministry was restructured from the four divisions that were established in November 2004 when Education was created (Basic Learning, Corporate Services, Information and Strategic Services, and System Improvement and Reporting) to the new structure, effective June 1, 2006. This new structure is presented and described later in this section.

Alberta Education enhanced its focus on outcomes and achieving results in 2005/2006 with the introduction of the evaluation methodology for the Accountability Pillar, one of the three pillars of the Renewed Funding Framework.

Performance at a Glance

Selecting measures and setting targets to assess, report and improve upon the performance of the education system is key to being accountable for results. The performance measures and targets for 2005/2006 are established in the Alberta Education Business Plan for 2005 – 2008. Highlighted below are the performance measures reported in Alberta Education's 2005/2006 Annual Report, including:

- achievement of 2005/2006 targets,
- · most recent result, and
- · change over time.

Major activities undertaken in 2005/2006 to influence results in this and future years are presented in the Integrated Results Analysis.

Goal 1: High quality learning opportunities for all

+ Target Exceeded X Target not met n/a No target set for 2005/06 (insufficient data or new measure for 2006-2009)

 $^{^{\}rm 1}$ $\,$ The confidence interval is considered in assessing change over time on survey measures.

Note

 See Endnotes A and B for detailed information on assessing change over time and target achievement.

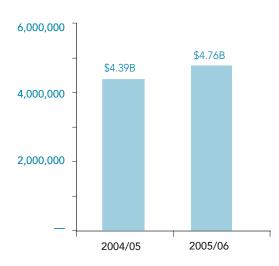

² Targets are considered met if the result is within 5% of the target value.

Financial Highlights

In 2005/2006, the Ministry of Education spent more than \$4.7 billion on K-12 education, an increase of 8.5% over 2004/2005.

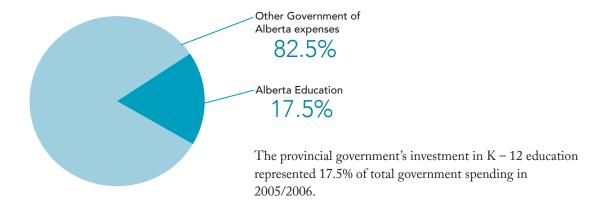

Education Spending

(in thousands)

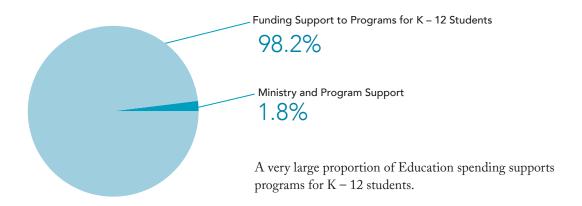

Spending on Education increased from less than \$4.4 billion to nearly \$4.8 billion from 2004/2005 to 2005/2006, an increase of 8.5%.

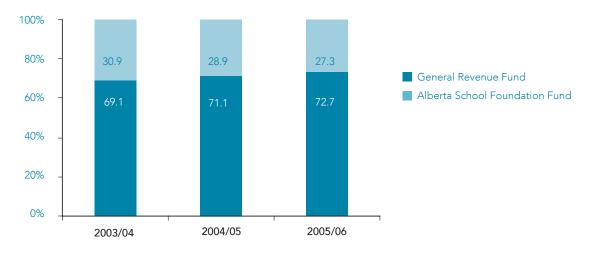

Education Expenses Compared to Government of Alberta Expenses

Percentage of Ministry Expenses to Support Programs for K – 12 Students

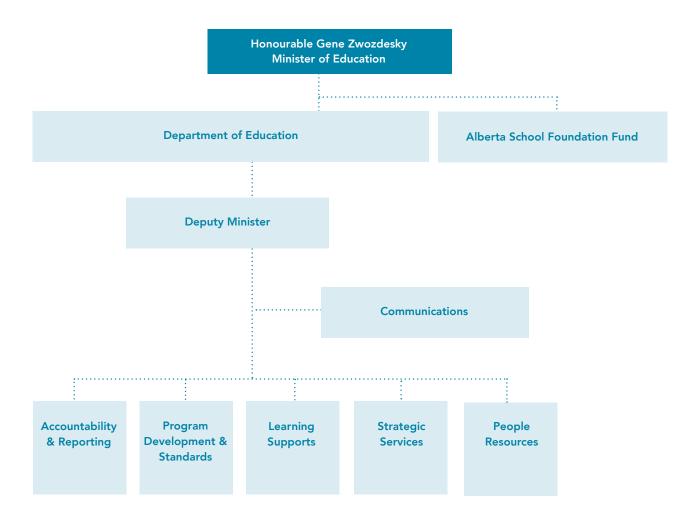

Education Spending by Source

Over time, the General Revenue Fund has provided an increasing portion of Education spending, from about 69% in 2003/2004 to nearly 73% in 2005/2006. Conversely, the portion funded by the Alberta School Foundation Fund, i.e., the funds raised by the education property tax, has decreased from almost 31% to just over 27% during the same time frame.

Ministry of Education Structure

as of June 1, 2006

The Ministry of Education consists of

- The Department of Education
- The Alberta School Foundation Fund

Operational Overview: Ministry of Education

The Ministry of Education consists of two entities: the Alberta School Foundation Fund and the Department of Education.

Alberta School Foundation Fund

The Alberta School Foundation Fund receives tax revenues from municipalities based on:

- the equalized assessment of real property in Alberta, and
- education mill rates established by the Lieutenant Governor in Council.

These monies, along with those from provincial General Revenues, are allocated on a fair and equitable basis to school boards.

Phone: (780) 427-2055. For toll-free access in Alberta, first dial 310-0000.

Department of Education

Students are the central focus of the Ministry. On average, about 590,000 Albertans, from preschoolers to young adults, enroll in the K-12 education system each year. Leading a basic education system that addresses the varied learning needs of students throughout the province, the Ministry ensures that students receive a strong foundation of knowledge and skills to prepare them for lifelong learning, citizenship, and work.

Phone: (780) 427-7219

Department Organization

To carry out its functions, the Department of Education is divided into six organizational units reporting to the Deputy Minister. These are described below and reflect the new structure that was put in place June 1, 2006, as a result of the organizational review that took place in 2005/2006.

Accountability and Reporting Division

In cooperation with stakeholders, the Accountability and Reporting Division develops a climate of continuous improvement with evidence-based decision criteria to improve student learning. The division takes a lead role in developing and reporting on results-based accountability and evaluation frameworks and performance measures for the Department and the K – 12 education system. This includes the development and management of provincial assessments in Grades 3, 6, 9, and 12; administration of high school equivalency exams (GED); and coordination of Alberta's participation in national and international assessments.

The division also develops the Ministry's Information Management Framework and develops, manages, and operates information and technology systems for the collection, analysis, and reporting of data to support decision making and analysis within the Ministry and within the K – 12 education system.

Phone: (780) 422-1608

E-mail: measurement.learning@gov.ab.ca

Program Development and Standards Division

The Program Development and Standards Division develops and supports K-12 programs of study in English and French to ensure they are relevant and responsive to the learning needs of students. The division also develops and/or acquires print and digital resources in English and French to support effective learning and teaching based on the Alberta Program of Studies.

The division works with school authorities and stakeholders to develop programs and standards that support students' needs and choices. It also works collaboratively with stakeholders and other ministry partners to support the implementation of initiatives for students.

The Program Development and Standards Division leads the implementation of the Ministry's International Education Strategy and provides strategic advice and direction on international education matters.

Phone: (780) 427-7484

Learning Supports Division

The Learning Supports Division provides leadership and support services related to program implementation to meet the diverse learning needs of children and students. The division facilitates the exchange of promising practices and innovative ideas that build capacity to better meet students' needs and improve student learning.

The division enhances effective and collaborative relationships with school authorities and stakeholders and provides timely information, advice, and support on the education system and in issues management. The Learning Supports Division also provides leadership and support to school authorities related to school infrastructure and innovative ways to use technology to meet the changing needs of the education system.

The division works collaboratively with stakeholders, other ministries, and other jurisdictions across Canada to support the implementation of initiatives for children and students. Staff in this division gather information and monitor school authorities for compliance with Ministry requirements. They also produce and distribute learning and support resources.

Phone: (780) 427-2051

Strategic Services Division

The Strategic Services Division provides strategic planning, policy, financial, legislative, records management, and administrative services to the Ministry. The division develops comprehensive environmental scans and trend analysis to support the development of policy frameworks, initiatives, and proposals that will sustain and improve opportunities for students in Alberta. Strategic Services supports continuous improvement in teaching and learning through Alberta Initiative for School Improvement

projects. The division coordinates inter-provincial and territorial initiatives and provides departmental support to the Council of Ministers of Education, Canada.

The Strategic Services Division develops the ministry business plans, budget proposals and plans; conducts fiscal analysis of education property tax, and provides financial accountability analysis and reporting; processes payments to school authorities; reviews and recommends funding support to school jurisdictions and initiatives; monitors high school funding; and performs due diligence reviews to ensure financial resources are appropriately administered.

Phone: (780) 427-3663

People Resources Section

The People Resources Section provides strategies and advice on human resource management, sector workforce planning, and teacher development and certification programs. The section focuses on planning and policy development impacting the education sector workforce in the longer term as well as department succession planning; recognition, attraction, and retention; employee relations; staff learning, safety, and wellness. People Resources also supports the Council on Alberta Teaching Standards (COATS) and the Certification Appeal Committee.

Phone: (780) 427-3659

Communications Branch

The Communications Branch works with the Ministry and its stakeholders to provide communications advice and support by providing information to Albertans on Ministry achievements and initiatives, supporting the Ministry through the provision of strategic communications advice and planning, specialized writing and editing, and facilitation of internal communications within the Ministry.

Phone: (780) 422-4495

E-mail: comm.contact@learning.gov.ab.ca

Integrated Results Analysis

Deputy Minister's Message

In 2005/2006, Alberta Education continued to ensure that young Albertans have the skills and knowledge they need to contribute to a prosperous Alberta. Through its leadership and work with partners and stakeholders, the department invested significantly in the students in our K – 12 education system. The Renewed Funding Framework continues to be reviewed to ensure it provides equitable and sustainable funding to school boards, while balancing increased flexibility with accountability for results.

As part of the province's work on the Renewed Funding Framework, this year we introduced the evaluation methodology for the Accountability Pillar, which assesses school jurisdiction achievement and improvement on a common set of performance measures. The department calculates and provides to school jurisdictions the results and evaluations on the Accountability Pillar measures. Combined with the flexibility of the Renewed Funding Framework, the Accountability Pillar provides school jurisdictions the freedom to develop their own solutions to address local challenges and to improve results. The department's support of the improvement efforts of school jurisdictions includes analyzing and providing data that underlie the Accountability Pillar results, a self-evaluation toolkit that was piloted in 2005/2006, as well as resources and advice on an ongoing basis.

Each year, the department invests approximately \$26 million to support curriculum development and implementation and an additional \$8 million for teacher professional development. A special focus recently has been the review and phased introduction of a new Social Studies curriculum, starting with K – 3. The new Social Studies curriculum has a greater focus on citizenship and identity, and includes more Canadian and Alberta history.

This past year, we held five discussions with Aboriginal communities to address student achievement and high school completion. The department released new student textbooks for high school Aboriginal studies courses, as well as infused First Nation, Métis, and Inuit perspective into several high school science and math programs.

One of my key initiatives this past year was a review of the department's organizational structure. The review and resulting reorganization considered the support and resources we provide for the education system, building on strengths while leveraging opportunities for growth and innovation.

As capital funding for schools is transferred to our department in 2006/2007, I look forward to working with our partners and stakeholders to address changing enrollment patterns and the varied school facility needs around the province.

A continuing priority for the Ministry is to sustain and enhance relationships with educators, students, parents, stakeholders, and partners to ensure our education system is adaptable, innovative, and responsive. In this report, information is provided on the funding, initiatives, programs, and results that offer a glimpse of the outstanding work being done throughout the K-12 system to meet the needs of Alberta's students.

Keray Henke Deputy Minister Alberta Education

Report of the Auditor General on the Results of Applying Specified Auditing Procedures to Performance Measures

To the Members of the Legislative Assembly

Management is responsible for the integrity and objectivity of the performance results included in the Ministry of Education's 2005/2006 Annual Report. My responsibility is to carry out the following specified auditing procedures on performance measures in the annual report. I verified:

Completeness

1. Performance measures and targets matched those included in Budget 2005. Actual results are presented for all performance measures.

Reliability

- 2. Information in reports from external organizations, such as Statistics Canada, matched information used to calculate the actual results.
- Information in reports that originated in the Ministry matched information that the Ministry used to calculate the actual results. In addition, I tested the processes the Ministry used to compile the results.

Comparability and Understandability

4. Actual results are presented clearly and consistently with the stated methodology and are presented on the same basis as targets and prior years' information.

I found no exceptions when I performed these procedures.

As my examination was limited to these procedures, I do not express an opinion on whether the set of performance measures is relevant and sufficient to assess the performance of the Ministry in achieving its goals.

(a) Adjustments include any dedicated revenue shortfalls and Supplementary Estimates for additional in-year funding.

Below are the goals and outcomes for each core business.

Core Business 1

Goal 1: High Quality Learning Opportunities for All

Outcomes

- The education system meets the needs of all learners, society, and the economy.
- Children at risk have their needs addressed through effective programs and supports.
- Schools are safe and caring.

Core Business 2

Goal 2: Excellence in Learner Outcomes

Outcomes:

- Learners demonstrate high standards.
- Learners complete programs.
- Learners are well prepared for lifelong learning.
- Learners are well prepared for employment.
- Learners are well prepared for citizenship.

Core Business 3

Goal 3: Highly Responsive and Responsible Ministry

Outcomes:

- Improved results through effective working relationships with partners and stakeholders.
- The Ministry demonstrates leadership and continuous improvement.

Support High Quality Learning Opportunities in the Education System

Spending Highlights

More than \$4.09 billion, constituting 86% of total Ministry spending, was provided in 2005/2006 for this core business to support high quality learning opportunities for students in the education system. This amount represented a funding increase of 8.5% over 2004/2005 and included:

- \$3.4 billion in operating grants to public and separate school jurisdictions, a funding increase of 6% over 2004/2005, which included an increase of \$30 million for a total of \$379 million in support for Plant Operations and Maintenance in 2005/2006;
- an increase of \$11.8 million for a total of \$134.7 million in operating grant funding to private schools and private ECS programs, which comprised 2.8% of Ministry spending; and
- nearly \$108 million to further reduce average class sizes.

Ministry spending reflects Alberta Education's allocation formulas. School boards have flexibility in how they use the funds provided, except for targeted initiatives, such as the Class Size Initiative.

Goal 1: High Quality Learning Opportunities for All

What it means

The Ministry of Education strives to provide high quality learning opportunities for K-12 learners by setting policies and standards for program development, providing implementation support, enhancing programs to meet the needs of K-12 learners, and providing funding for the education system.

Outcomes

- The education system meets the needs of all learners, society, and the economy.
- Children at risk have their needs addressed through effective programs and supports.
- · Schools are safe and caring.

Strategies

1.1 Work with stakeholders to implement governmentapproved recommendations from Alberta's Commission on Learning to improve the education system.

Accomplishments

Reduced average class sizes at all levels and achieved Alberta Commission on Learning average class size guidelines ahead of schedule at all levels except K-3.

Worked collaboratively with Alberta Infrastructure and Transportation (AIT) in the transition of responsibilities from AIT to Education.

1.1 Work with stakeholders to implement governmentapproved recommendations from Alberta's Commission on Learning to improve the education system. (continued)

Accomplishments (continued)

Assumed responsibility for Plant Operations and Maintenance funding and funding for construction of modular classrooms. Provided new modular classrooms and relocated existing modulars to address pressing facility needs of school boards

Assumed greater responsibility for establishing strategic capital priorities to better align school facilities with program needs, and identified capital projects worth \$207 million, which were approved by government.

Trained 138 Effective Behavioural Supports coaches and 62 school teams in support of safe and caring schools.

Developed a model for teacher in-service and support through collaboration with the Alberta Regional Professional Development Consortia and the Alberta Online Consortium.

Completed and distributed to schools the Guide for Comprehensive Professional Development.

Published and distributed to schools Individualized Program Planning to facilitate development of comprehensive IPPs (Individualized Program Plans) for students with special needs.

Conducted six Special Education Programming Standards Reviews to ensure consistency in identification of students with special needs, to ensure programming for students meets Ministry requirements, and to identify best practices that can be shared across the province.

Implemented the second year of the Aboriginal Learner Data Collection Initiative with a 35% increase in self-identification in 2005/2006.

1.2 Implement K – 12 Revisioning Plan with a focus on working with stakeholders.

Accomplishments (continued)

Approved implementation in Grade 4 of nine-year language and culture programs of study in seven languages: Chinese, Cree, French, German, Japanese, Spanish, and Ukrainian.

In September implemented a requirement for 30 minutes of daily physical activity (DPA) for all students in Grades 1-9. Provided \$1.2 million to school jurisdictions to help purchase resources that help students in Grades 1-9 develop healthy lifestyles.

Revised the *Kindergarten Program Statement* and distributed it to all schools. Completed and posted on the Ministry's website, the *Alberta Authorized Resource List* and *Annotated Bibliography for Primary Programs*.

Implemented the new Social Studies curriculum, developed the Program of Studies, and authorized learning and teaching resources in English and French.

Published in English and French, and distributed to all schools, *The Heart of the Matter: Character and Citizenship Education in Alberta Schools*.

Conducted a Summer Institute for teachers of Grades 4 and 7 Social Studies

Published Safety in the Science Classroom for Grades 1-12.

Completed the French Teacher's Guide and Resource for Science.

1.3 Implement Learner Career Pathways to improve opportunities for learners to explore career options. The ministries of Advanced Education, Education, and Human Resources and Employment approved the development of a career development strategy for Alberta.

Supported the implementation of the new Knowledge and Employability (K & E) courses by developing:

- an online Guide to Implementation for K & E courses in academic and occupational courses for junior and senior high schools, and
- an information manual for Grades 8 12 to assist administrators, teachers, and counselors to implement K & E courses.

To ensure Career and Technology Studies (CTS) courses are relevant and responsive to students' needs, authorized 95 student and teacher resources for 19 CTS strands, and withdrew 537 out-of-date resources.

1.4 Focus on using new technologies to increase program choice and access for students in rural communities.

1.5 Enrich and expand student learning opportunities through continued implementation of the Learning and Technology Policy Framework, including the Alberta SuperNet, LearnAlberta.ca, technology standards and solutions, and related research.

1.6 Develop and support the implementation of anti-bullying strategies, programs, and interventions in schools.

Accomplishments (continued)

Expanded program choice and access for students in rural communities by focusing on new technologies, including video-conferencing.

Collaborated with school jurisdictions to develop a provincial vision for video conferencing.

Supported development of video-conferencing and professional development resources to assist teachers, administrators and technical staff in using this emerging technology effectively.

Provided grant funding to support 15 strategic video-conferencing projects.

Collaborated with Restructuring and Government Efficiency to facilitate connection of almost all Alberta schools to SuperNet.

Posted 1,200 new digital resources to the http://www.LearnAlberta. ca website and introduced a Social Studies online guide for K – 3 teachers.

Established Education Standing Offers for school jurisdictions to facilitate savings on technology investments.

Provided grant funding to 15 school jurisdictions to research emerging technologies.

Facilitated a research working group with international researchers and completed a concept paper entitled *Using Research to Improve Learning and Teaching with Technology*.

Launched a bullying prevention public awareness campaign, targeting children 3-11 years old, which includes an interactive website for children (http://www.teamheroes.ca) and an information and resources website for parents and professionals (http://www.bullyfreealberta.ca). Provided bullying prevention "Starter Kits" to nearly 6,200 community partners.

Performance Highlights

Education system results for 2005/2006 for Goal 1 are highlighted below and discussed on the pages that follow. These results are cumulative and reflect years of investment of resources and effort.

Targets

- ✓ Target Met
- ✓+ Target Exceeded× Target not met
- n/a No target set for 2005/06 (insufficient data or new measure for 2006-2009)

Results over time

- ↑ Improved performance
- ~ No change in performance
- ↓ Performance decline

Outcomes	Performance Measures	2005/06 Targets	Results
The education system meets the needs of all learners, society, and the economy.	Student, parent, teacher, school board member, and public satisfaction with the overall quality of K – 12 education	n/a	85% ~1
	Student, parent, teacher, and school board member satisfaction that students are receiving a solid grounding in language arts, mathematics, science and social studies	n/a	84% ~1
	Student, parent, teacher, and school board member satisfaction with the opportunity of students to receive a broad program of studies	n/a	79% ~1
	Employer satisfaction with the skills and quality of work of high school graduates	87% √²	84% ~1
Children at risk have their needs addressed through effective programs and supports.	Annual dropout rate of students aged 14-18	6% √+	4.9% ↑
Schools are safe and caring.	Student, parent, teacher, and school board member agreement that students are safe at school, are learning the importance of caring for others, are learning respect for others, and are treated fairly at school	n/a	92% ~1

¹ The confidence interval is considered in assessing change over time on survey measures.

Note

 See Endnotes A and B for detailed information on assessing change over time and target achievement.

² Targets are considered met if the result is within 5% of the target value.

Performance Measures

Quality of Basic Education

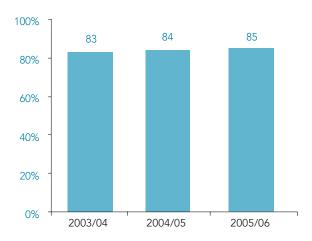

Target

• No target was set for 2005/2006 in the 2005 - 2008 Business Plan, as there was insufficient data.

Discussion

- Satisfaction of students, parents, teachers, school board members, and the public with the overall quality of basic education was 85% in 2005/2006, similar to results in previous years.
- Satisfaction of students, parents, teachers, and school board members continues to be higher than public satisfaction.

Percentages of Students, Parents, Teachers, School Board Members, and the Public Satisfied with the Overall Quality of Basic Education

Respondent Group	2003/04	2004/05	2005/06
High School Students	88%	91%	91%
Parents (ECS – 12)	82%	83%	84%
Teachers	91%	90%	91%
School Board Members	88%	88%	90%
Public	66%	67%	69%
Overall	83%	84%	85%

Source: Alberta Education: Compustat Consultants Inc. - 2004, 2005, 2006.

- In 2003/2004, "school board members" included elected trustees and superintendents, while in 2004/2005 and 2005/2006, only trustees
- For students, parents, teachers, and school board members, overall satisfaction is a roll-up of satisfaction levels with the following specific aspects of the school system:
 - overall satisfaction with education at schools,
 - the quality of teaching at schools,
 - what is being learned in the core subjects is useful/ students are learning what they need to know,
 - school work is interesting,
 - school work is challenging, and
 - learning expectations at school are clear.
- For the public, overall satisfaction is a roll-up of responses to the following two questions:
 - overall satisfaction with education at schools, and
 - students are learning what they need to know.
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.

Core Subjects

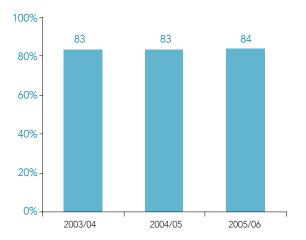

Target

 No target was set for 2005/2006 in the 2005 – 2008 Business Plan, as there was insufficient data.

New Measure

- Overall satisfaction that students are receiving a solid grounding in core subjects was 84% in 2005/2006, similar to results in 2003/2004 and 2004/2005.
- Student, parent, teacher, and school board member satisfaction is consistently higher than public satisfaction.

Percentages of Students, Parents, Teachers, School Board Members, and the Public Satisfied that Students are Receiving a Solid Grounding in Language Arts, Mathematics, Science, and Social Studies

Respondent Group	2003/04	2004/05	2005/06
High School Students	89%	91%	90%
Parents (ECS – 12)	83%	83%	84%
Teachers	83%	82%	83%
School Board Members	84%	85%	86%
Public	75%	74%	75%
Overall	83%	83%	84%

Source: Alberta Education: Compustat Consultants Inc. – 2004, 2005, 2006.

Note

- In 2003/2004, "school board members" included trustees and superintendents. In 2004/2005 and 2005/2006 only trustees were included.
- For students, the percentages reported are aggregates of agreement levels that "you are getting better at ... reading, writing, mathematics, science, social studies."
- For parents, teachers, school board members, and the public, percentages reported are aggregates of satisfaction levels that "the curriculum focuses on what students/your child needs to learn in ... reading, writing, mathematics, science, social studies."
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.

Performance Measures (continued)

Program of Studies

Target

 No target was set for 2005/2006 in the 2005 – 2008 Business Plan, as there was insufficient data.

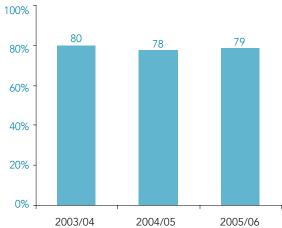

Discussion

- Overall satisfaction with students' opportunities to receive a broad program of studies was 79% in 2005/2006, similar to results in previous years.
- Satisfaction of high school students is slightly higher than that of parents and school board members.

Board Members Satisfied with the Opportunity of Students to Receive a Broad Program of Studies

100%]

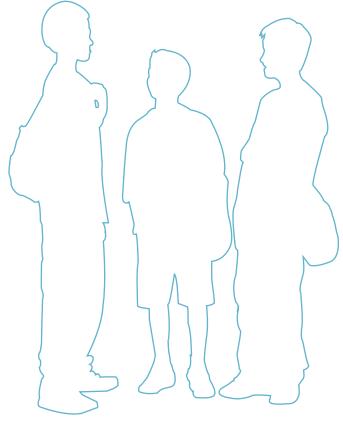

Percentages of Students, Parents, Teachers, and School

Respondent Group	2003/04	2004/05	2005/06
High School Students	81%	83%	81%
Parents (ECS – 12)	78%	76%	77%
Teachers	80%	78%	79%
School Board Members		74%	77%
Overall	80%	78%	79 %

Source: Alberta Education: Compustat Consultants Inc. – 2004, 2005, 2006.

- School board members were not asked this question in the 2003/2004 surveys.
- Percentages reported are aggregates of satisfaction levels that "you/your child/your students/students in your jurisdiction have opportunities to learn about: ... music, drama, art, computers, health, another language" and with "opportunities to participate in physical education."
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.

Employer Satisfaction

Target

• The target for 2005/2006 was met (the result was within 5% of the target).

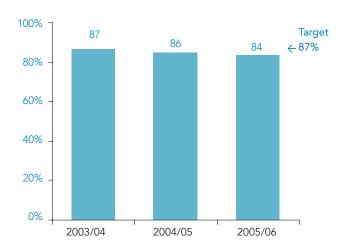

Discussion

- In 2005/2006, 84% of employers who had hired recent high school graduates were satisfied with the skills and quality of work of learning system graduates. Results are similar over time.
- The learning system includes K 12, post-secondary, and apprenticeship programs.
- 2005/2006 is the last year to report employer satisfaction with learning system graduates.

New Methodology

- The methodology for the employer satisfaction measure has been revised in the 2006 2009 Business Plan to focus specifically on high school graduates. The new question asks employers about their satisfaction with the skills and quality of work of the recent graduates they hired whose highest level of education was high school completion.
- The result for this new question, asked for the first time on the 2005/2006 employer survey, was 77%.
- Satisfaction with recent high school graduates
 is significantly lower than satisfaction with
 other graduate types. Recent high school
 graduates typically are younger and have less
 skill, education, and experience than recent
 graduates of post-secondary and apprenticeship
 programs.

Satisfaction of Employers who Hired High School Graduates with the Skills and Quality of Work of Learning System Graduates

Note

The measure was stated in the 2005 – 2008 Business Plan as "employer satisfaction with the skills and quality of work of high school graduates." However, results for 2005/2006 reported on the graph are for learning system graduates, which is more comparable to the methodology used to report results in prior years and to set the target. The result for employer satisfaction with high school graduates was 77% in 2005/2006, as presented in the table below.

Employer Satisfaction by Type of Graduate (2005/06)

Graduate Type	Responses	Satisfaction	
High School	499	77%	
Post-secondary Degree	128	96%	
Post-secondary Diploma	121	93%	
Post-secondary Certificate	92	95%	
Apprenticeship	49	92%	
Overall	889	84%	

Source: Alberta Education: Environics West – 2002, Environics Research Group – 2004; R.A. Malatest & Associates – 2006.

- Employer surveys are conducted every other year.
- The survey question was revised in 2005/2006 from satisfaction with learning system graduates to satisfaction with each specific type of learning system graduate (high school only, degree, diploma, certificate, journeyperson). The 2005/2006 result reported is a weighted average of employer satisfaction with each graduate type.
- See Endnote A, pages 65-67 for information on surveys conducted for Alberta Education.
- See Endnote B, pages 68-69, for information on assessment of results over time.

Performance Measures (continued)

Students at Risk

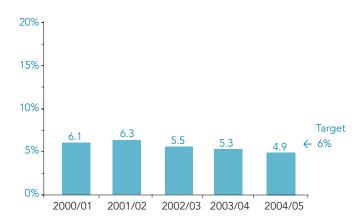

Target

• The target was exceeded.

Discussion

- The proportion of students aged 14-18 who dropped out of school for at least a year has declined significantly over time from more than 6% in earlier years to less than 5% in 2004/2005.
- The improvement in the dropout rate may indicate acknowledgement by students of the importance of completing school for their future success, and the efforts of parents, teachers, and administrators to encourage students to stay in school.
- Dropping out of school can be a temporary interruption of education. Of the students who dropped out in 2003/2004, more than 21% resumed their education in 2004/2005.
- In addition, many students who do not complete high school in the K – 12 education system (see page 44) attain completion status as adults (see the high school completion rate of Albertans aged 25-34, page 45).

Annual Dropout Rates of Students Aged 14-18

Source: Alberta Education

- Students aged 14-18 who are not enrolled in school (including K – 12, an Alberta post-secondary institution, or apprenticeship program) and have not completed high school in the following year are included in the annual dropout rate. For example, students aged 14-18 in 2003/2004 were tracked for one year. Those who were not enrolled and had not completed are included in the 2004/2005 dropout rate.
- An estimated adjustment for attrition, e.g., moving out of province, has been applied in calculating the dropout rate.
- See Endnote C, Annual Dropout Rate of Students Aged 14-18, page 70.

Safe and Caring Schools

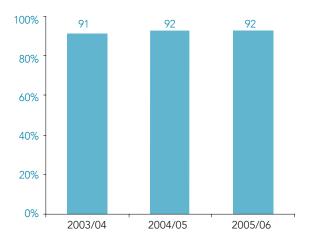

Target

 No target was set for 2005/2006 in the 2005 – 2008 Business Plan, as there was insufficient data.

Discussion

- Overall agreement that students are safe at school, are learning the importance of caring for others, are learning respect for others, and are treated fairly was 92% in 2005/2006.
- Agreement within respondent groups has been consistent over time, while agreement was slightly lower for parents than for the other groups in all three years.

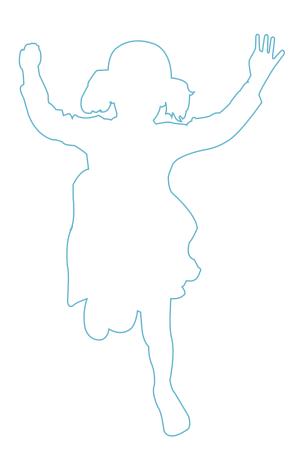

Percentages of Students, Parents, Teachers, and School Board Members who Agree that Students are Safe at School, are Learning the Importance of Caring for Others, are Learning Respect for Others, and are Treated Fairly

Respondent Group	2003/04	2004/05	2005/06
High School Students	92%	94%	93%
Parents (ECS – 12)	87%	87%	88%
Teachers	92%	92%	93%
School Board Members	93%	94%	95%
Overall	91%	92%	92%

Source: Alberta Education: Compustat Consultants Inc. – 2004, 2005, 2006.

- For all respondent groups, percentages reported are aggregates of agreement levels that:
 - students feel safe at school,
 - students feel safe on the way to and from school,
 - students treat each other well at school,
 - teachers care about their students, and
 - students are treated fairly by adults at school.
- Overall agreement rates for all three years are the average of agreement rates for each respondent group.
- In 2003/2004, "school board members" included elected trustees and superintendents, while in 2004/2005 and 2005/2006, only trustees were included.
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.

Support Learners to Achieve Excellent Learning Outcomes

Spending Highlights

To support this core business in 2005/2006, the Ministry of Education spent \$651.2 million, including:

- \$227.4 million to improve school boards' ability to meet the needs of students with severe disabilities, a funding increase of more than \$23 million (11.3%) over 2004/2005;
- school transportation funding of \$218.8 million, an increase of 8.9% over 2004/2005, which included about \$9 million to address higher fuel costs;
- over \$70 million for innovative projects that support student learning as part of the Alberta Initiative for School Improvement (AISI), a 3% increase over 2004/2005;
- an increase in funding for Student Health Services of almost \$1.8 million over 2004/2005 levels, to nearly \$39 million; and
- funding for English as a Second Language of \$30.7 million, an increase of 18.9% over 2004/2005 levels.

Ministry spending reflects Alberta Education's allocation formulas. School boards have flexibility in how they use the funds provided, except for targeted initiatives, such as AISI.

Goal 2: Excellence in Learner Outcomes

What it means

The Ministry of Education strives to achieve excellence in learner outcomes by supporting learners in their quest for success. This support is provided through effective implementation of provincial and school-based student assessment and by providing consultation and technical services to school authorities. Excellence in learner outcomes means that all learners are well prepared for lifelong learning, work, and citizenship, and that they have the skills and knowledge to be successful.

Outcomes

- Learners demonstrate high standards.
- Learners complete programs.
- Learners are well prepared for lifelong learning.
- · Learners are well prepared for employment.
- Learners are well prepared for citizenship.

- 2.1 Implement the First Nations,
 Métis, and Inuit Education
 Policy Framework according
 to priorities established in
 consultation with the First
 Nations, Métis, and Inuit
 Education Advisory Committee.
- 2.2 Continue to support school authorities in integrating effective practices from Alberta Initiative for School Improvement (AISI) projects.

- 2.3 Improve success for learners by enhancing early interventions and transitions between school and home, community, work, and further study.
- 2.4 Implement a comprehensive provincial plan to increase high school completion rates.

Accomplishments

Infused Aboriginal content into provincial programming by implementing the new K – 3 Social Studies curriculum and completing new textbooks for high school Aboriginal Studies courses.

Received the Book Publishers Association of Alberta award for the Aboriginal Studies 10 textbook.

Incorporated Aboriginal perspectives into the following programs of study: Biology 20-30, Chemistry 20-30, Physics 20-30, and Knowledge and Employability Science courses.

Shared AISI effective practices with school jurisdictions at regional meetings and the annual conference, and updated the online resources.

The AISI University Partners completed three research reviews based on AISI projects, as follows:

- Professional Learning Communities by the University of Alberta,
- · Mathematics and Numeracy by the University of Calgary, and
- Language Arts and Literacy by the University of Lethbridge.

Identified screening tools that include criteria to assess three-year old children who are at risk.

Prepared a resource on transitions for students with special needs, entitled *Building on Success: Helping Students Make Transitions from Year to Year* for distribution to schools in 2006/2007.

The High School Completion Task Force completed stakeholder consultations.

Established an advisory group to plan:

- consultations with youth on issues affecting high school completion, and
- a Minister's symposium for September 2006 on high school completion, which was announced in the Throne Speech.

- 2.5 Enhance the quality and variety of measures in the provincial student assessment programs to ensure valid, comparable information on student achievement over time.
- 2.6 Expand the capacity of schools to use classroom and provincial assessment results to improve teaching and learning and to provide a more comprehensive view of overall student achievement.
- 2.7 Work collaboratively with school authorities to improve results in schools where student achievement does not meet the provincial standards over time.

Accomplishments (continued)

Completed the diploma examination equating process to ensure results are directly comparable from year to year by establishing baseline diploma examinations in January for Applied Mathematics 30, Biology 30, English Language Arts 30-1, and English Language Arts 30-2.

Conducted a special session with stakeholders on the benefits of exam comparability in ensuring students have fair and equitable access to scholarships and post-secondary admission.

Piloted the new process for Grade Level Achievement (GLA) data collection in each school jurisdiction. Provided information and in-service sessions on the GLA initiative throughout the province.

Held professional development sessions for teachers and administrators on the use and interpretation of achievement test and diploma examination results.

Conducted 12 information activities on focusing jurisdiction planning on continuous improvement for trustees, superintendents, school jurisdiction staff, principals, and Alberta Education staff.

Piloted Supporting Continuous Improvement in Schools - A Toolkit in two schools.

Consulted with Aboriginal communities on student achievement and high school completion. **Outcomes**

Performance Highlights

Education system results for 2005/2006 for Goal 2 are highlighted below and discussed on the pages that follow. These results are cumulative and reflect years of investment of resources and effort.

² Targets are considered met if the result is within 5% of the target value.

Performance Measures

Achievement Test Results Overall

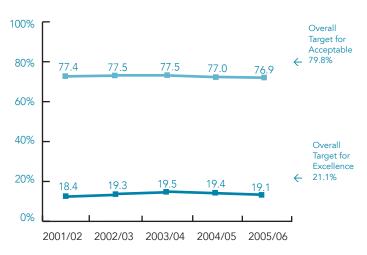

Targets

- The target for overall results on provincial achievement tests in Grades 3, 6, and 9 at the standard of excellence was not met.
- The target at the acceptable standard was not met.

Discussion

- Overall results on provincial achievement tests at the excellence level have been stable over time.
- Overall results at the acceptable level in 2005/2006 are similar to the 2004/2005 results, but are slightly lower than results in earlier years.
- The participation rates improved or remained the same for 9 of 14 tests in 2005/2006 compared to the previous year (see next page).

Overall Results — Percentages of Students in Grades 3, 6, and 9 who Achieved Standards on Provincial Achievement Tests

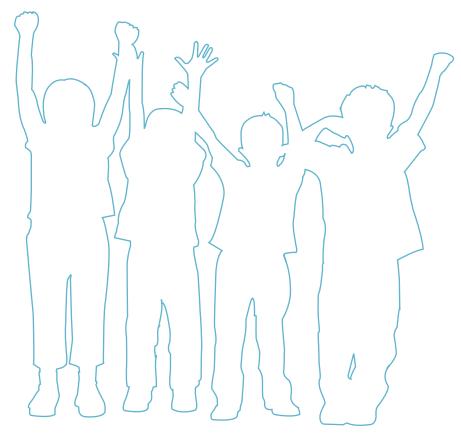

Source: Alberta Education.

- The percentages of students achieving the acceptable standard include the students achieving the standard of excellence.
- Results are based on total enrollment in Grades 3, 6, and 9.
- Overall results are a weighted average. Prior years' results have been restated, as previously published results were calculated as a simple average, and did not include French Language Arts and Français.
- The overall results do not include Science 9 test results, as there
 was insufficient data to set a target for that test based on the new
 program.
- Overall targets are the averages of the targets for each subject and grade for the acceptable standard and for the standard of excellence.
- See Endnote C, Provincial Achievement Tests, page 70.

Achievement Test Results for All Students in Grades 3, 6 and 9

Targets

 The targets for results at the standard of excellence were met in Science 6 and Social Studies 6, while the targets for all other subjects at both the acceptable and excellence levels were not met.

Discussion

- Grade 3 Mathematics results increased at both the acceptable and excellence levels in 2005/2006, whereas student performance in Grade 3 Language Arts at both standards has declined.
- Compared to 2004/2005, Grade 6 student performance at the acceptable and excellence levels improved in four of six tests.
- Results at both the acceptable and excellence levels for Grades 6 and 9 Social Studies improved since 2004/2005.
- Science 9 results at the excellence level continued to improve, while the results at the acceptable level remained virtually the same.
- Compared to last year, results for Grade 9
 Language Arts and Mathematics declined at both the acceptable and excellence levels. However,
 Grade 9 Mathematics results at the acceptable level have improved over time.
- Grade 9 results in Language Arts and Mathematics are reported annually by the provincial government as indicators of literacy and numeracy, as adult literacy surveys are not conducted regularly. Students who achieve the acceptable standard in these subjects have developed the foundation skills needed to become literate and numerate adults.

Notes to table on page 39

- The percentages of students who achieved the acceptable standard include the students who achieved the standard of excellence.
- The 2002/2003 Science 9 test results do not include one-third
 of Grade 9 students who wrote Science 9 Form B, based on
 the learning outcomes of the new Program of Studies. The
 2003/2004 to 2005/2006 results in Science 9, based on the new
 program, are not comparable to earlier years' results.
- No target was set for Science 9 for 2005/2006, as there was insufficient data. The overall results do not include Science 9.
- See Endnote C, Provincial Achievement Tests, page 70.

Diploma Examination Results

Targets

 No targets were set for 2005/2006, as results were not directly comparable from year to year at the time targets were set. Targets will be set in future years with the implementation of exam equating.

Discussion

- As test equating is being phased in, results are directly comparable for the following diploma examinations: Social Studies 30 and 33 since 2003/2004, and Chemistry 30, Physics 30, and Pure Mathematics 30 since 2004/2005.
- Results for Social Studies 33 have improved since 2003/2004 both at the acceptable and excellence levels.
- Results for Social Studies 30 at the acceptable standard increased, compared to last year, but were still lower than those in 2003/2004, while the results at the standard of excellence increased slightly, compared to 2003/2004, but were not as high as results last year.
- Results for Pure Mathematics 30, Chemistry 30, and Physics 30 all improved at both the acceptable and excellence levels, compared to 2004/2005.
- No direct comparisons of results from year to year can be made for other diploma exam results, as equating was not in place in prior years.

Source: Alberta Education.

- The percentages of students achieving the acceptable standard include the percentages of students achieving the standard of excellence.
- Results for Social Studies 30 and Social Studies 33 in 2003/2004, 2004/2005, and 2005/2006 are directly comparable. Results for Pure Mathematics 30, Chemistry 30, and Physics 30 for 2004/2005 and 2005/2006 are directly comparable.
- Starting in 2002/2003 for the social studies exams and in 2003/2004 for all exams for all math and science courses, the written and multiple
 choice portions are administered in separate sittings.
- Overall results are a weighted average of results for each diploma examination.
- See Endnote C, Diploma Examinations, page 71.

Diploma Examination Participation

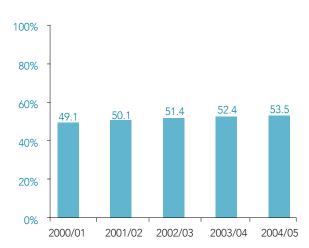

Target

 New measure developed in 2005/2006 for the Accountability Pillar. No target was set for 2005/2006 in the 2005 – 2008 Business Plan.

Discussion

- Multi-year results are presented to introduce this new measure of diploma examination participation.
- This new measure reports the proportion of students who have written four or more diploma examinations within three years of entering Grade 10.
- The diploma examination participation rate has increased each year from about 49% in 2000/2001 to more than 53% in 2004/2005.
- Nearly all students who have written four or more diploma examinations have taken courses in the core subjects (language arts, mathematics, the sciences, and social studies) throughout high school.

Percentages of Students Writing Four or More Diploma Examinations (new)

Source: Alberta Education.

- The most recent results available for this measure are for the 2004/2005 school year as information for this measure lags one year.
- An estimated adjustment for attrition, e.g., moving out of province, is applied in calculating diploma exam participation rates
- See Endnote C, Diploma Examination Participation Rate, page 72.

Rutherford Scholarships

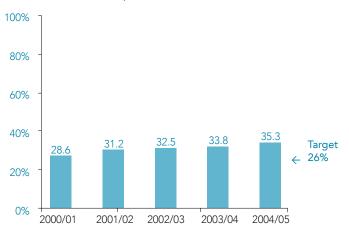

Target

• The target was exceeded.

Discussion

- In 2004/2005, over 35% of Grade 12 students had marks in courses during high school that met the requirements for a Rutherford Scholarship.
- The proportion of Grade 12 students eligible for a Rutherford Scholarship has increased steadily over time, from less than 29% in 2000/2001 to more than 35% in 2004/2005.
- The percentage of students eligible to receive the Rutherford Scholarship also has increased each year since 2000/2001 at all three grade levels, with the greatest increase over this period occurring at the Grade 11 level.
- Results indicate that a greater proportion of Alberta's high school students are achieving academic excellence.

Percentages of Grade 12 Students Eligible for a Rutherford Scholarship

Source: Alberta Education.

- Students need marks of 80% or higher in certain high school courses to qualify for a Rutherford Scholarship.
- The measure reports the percentages of Grade 12 students whose marks in specified courses in Grades 10, 11, and 12 met the criteria for a Rutherford Scholarship, not the percentages who received the scholarship.
- In order to receive a Rutherford Scholarship, students must enroll in a post-secondary program.
- The target for 2004/2005 was set using results based on an incomplete set of eligible courses. Targets for future years in the 2006 – 2009 Business Plan reflect the complete information.
- See Endnote C, Rutherford Scholarship Eligibility Rate, page 72.

High School Completion

Target

· The target was met.

Discussion

- The high school completion rate within five years of entering Grade 10 (the Business Plan measure) increased from less than 74% in 2000/2001 to more than 77% in 2004/2005.
- Approximately 3% of students are still in high school after the fifth year and may complete in a subsequent year.
- The four-year high school completion rate also has increased over time, from about 70% in 1999/2000 to about 75% in 2004/2005.
- The three-year high school completion rate has increased over time as well, from less than 63% in 1998/1999 to more than 70% in 2004/2005.
- These improvements reflect increased attention to high school completion in recent years and the recognition that high school completion is needed for future success.
- Of the students who completed high school within five years, most (over 87% in 2004/2005) completed in three years. This makes the three-year rate a reliable predictor of the four- and five-year rates in subsequent years. Projections indicate that the four- and five-year rates are likely to continue to increase in the next few years.
- Substantial portions of students who do not complete high school in the basic education system attain high school completion status as adults (see Educational Attainment, next page).

High School Completion Rates

Source: Alberta Education.

- Projections indicate results likely to be achieved given the threeyear completion rates for these groups of Grade 10 students and completion rates in prior years. The projection for 2006/2007 also considers the projected 5-year rate for 2005/2006.
- Included in the calculation of high school completion rates is an estimated adjustment for attrition, e.g., moving out of province.
- See Endnote C, High School Completion Rates, page 72.

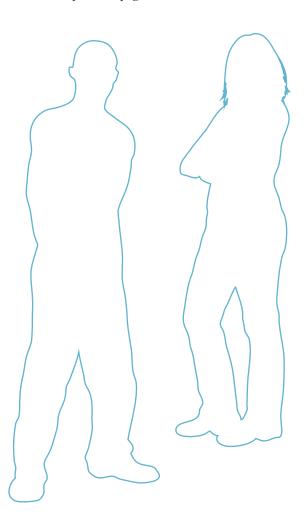

Educational Attainment

Target

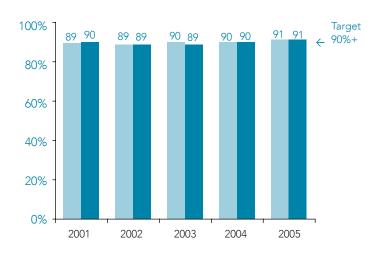

· The target was met.

Discussion

- The percentages of Albertans aged 25-34 with at least high school completion has increased slightly over time to 91%.
- Alberta's results remain similar to the national average.
- 2005/2006 is the last year to report this as a separate measure. In future years, information on the educational attainment of Albertans aged 25-34 will be incorporated into the discussion of the high school completion rate (see previous page).

Percentages of Albertans Aged 25-34 who Completed High School

Source: Statistics Canada Labour Force Survey, special tabulation for Alberta Education

- Since respondents were asked about their highest level of education, those who indicated they have participated in or completed some post-secondary studies are considered to have completed high school.
- See Endnote B, pages 68-69 on assessment of results over time.
- See Endnote C, Educational Attainment of Albertans Aged 25-34, page 72.

Preparation of Children for School

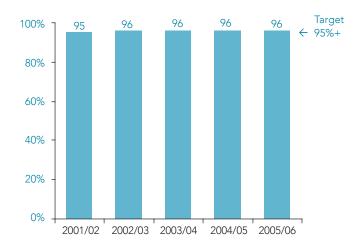

Target

· The target was met.

Discussion

- The percentage of children who participated in Early Childhood Services (ECS) programs before entering Grade 1 was 96% in 2005/2006 and has been stable over time.
- Nearly all parents in Alberta choose to enroll their children in ECS programs even though ECS attendance is not mandatory.
- ECS programming is designed to prepare children for entry into Grade 1 and to provide a foundation for success in school.

Percentages of Grade 1 Students who Attended Early Childhood Services (ECS) Programs

Source: Alberta Education.

- Includes children enrolled in Early Childhood Services (ECS) or ungraded programs prior to Grade 1.
- See Endnote C, Participation in Early Childhood Services Programs, page 73.
- See Endnote B, pages 68-69, for information on assessment of results over time.

Transition to Post-Secondary

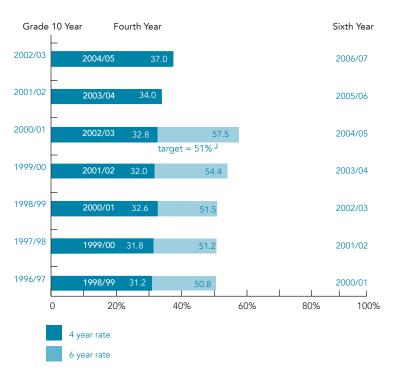

Target

The target was exceeded.

Discussion

- The high school to post-secondary transition rates report the proportion of students who have enrolled in a post-secondary program within four and six years of entering Grade 10.
- The proportion of Alberta's high school students who have made the transition to post-secondary within six years of beginning high school (the Business Plan measure) has risen each year from less than 51% in 2000/2001 to more than 57% in 2004/2005.
- Similarly, the proportion of Alberta's high school students who have enrolled in a post-secondary program within four years of entering Grade 10 has increased over time from about 31% in 1998/1999 to 37% in 2004/2005.
- Increased government investment in post-secondary education in recent years may have contributed to these increases.
- The results show that a substantial proportion of Alberta's young people delay their entry to post-secondary programs after high school. About one-third are attending a post-secondary program within four years of starting Grade 10, while more than half are attending within six years of starting Grade 10.

High School to Post-Secondary Transition Rates

Source: Alberta Education.

- Students are considered to be attending post-secondary if they are enrolled in a publicly funded private post-secondary institution in Alberta or registered in an apprenticeship program in Alberta.
- Starting in 2003/2004, information on post-secondary enrollment is from a different data source. This may account for the difference from prior years' results.
- The rates include an estimation for attrition, e.g., moving out of province during high school, and for the proportion of students who attend an out-of-province post-secondary institution.
- See Endnote C, High School to Post-Secondary Transition Rates, page 73.

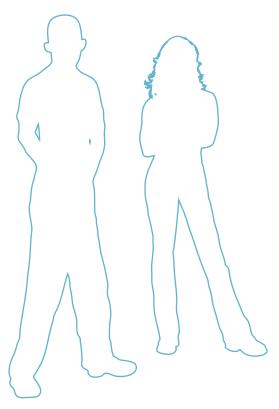

Preparation for Employment

Target

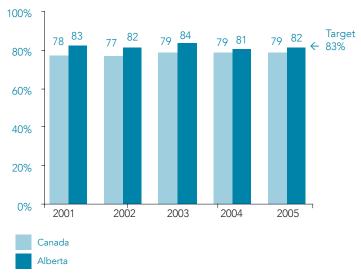

• The target was met (the result is within 5% of the target).

Discussion

- The employment rate was 82% in 2005 for Albertans aged 25-34 whose highest level of education was high school completion. The rate has been similar over time.
- Alberta's employment rates are above the Canadian average, which is directly related to the strength of Alberta's economy.
- In 2005, Alberta also had the highest labour force participation rate (over 72%) and the lowest unemployment rate (under 4.0%) among all provinces.

Employment Rate of Albertans Aged 25-34 whose Highest Level of Education is High School Completion

Source: Statistics Canada Labour Force Survey, special tabulation for Alberta Education.

Note

- See Endnote C, Employment Rates of Albertans Aged 25-34, page 74.
- See Endnote B, pages 68-69, for information on assessment of results over time.

Preparation for Employment (continued)

Replacement Measure

 The employment rate was replaced in the 2006 – 2009 Business Plan with a survey measure: parent, teacher, and public agreement that students are taught attitudes and behaviours that will make them successful at work when they finish school.

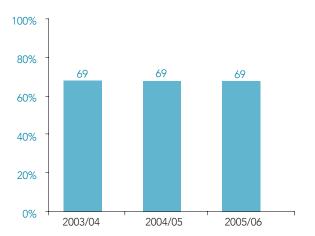

Target

No target was set for this new measure in 2005/2006 in the 2005 – 2008 Business Plan, as there was insufficient data.

Discussion

- Overall agreement (all respondent groups combined) was stable at 69% in all three years.
- Within each respondent group, results also were stable over time.
- However, agreement levels varied significantly among respondent groups in all three years.
 Results for parents and teachers were much higher than results for the public.

Percentages of Parents, Teachers, and the Public who Agree that Students are Taught Attitudes and Behaviours that will Make them Successful at Work when they Finish School

Overall	69%	69%	69%
Public	47%	48%	48%
Teachers	85%	86%	83%
Parents (ECS-12)	75%	74%	76%
Respondent Group	2003/04	2004/05	2005/06

Source: Alberta Education: Compustat Consultants Inc. – 2004, 2005, 2006.

- The overall agreement rate for each year is the average of agreement rates for each respondent group (parents, teachers, and the public).
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.

Preparation for Citizenship

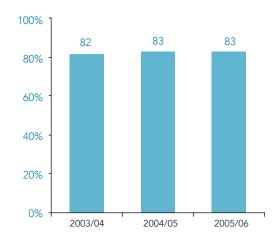

Target

 No target was set for 2005/2006 in the 2005 – 2008 Business Plan, as there was insufficient data.

Discussion

- Overall agreement that students model the characteristics of active citizenship was 83% in 2005/2006, similar to previous years' results.
- Results for each respondent group (high school students, parents, and teachers) were consistent across all three years.
- Teacher agreement levels have been consistently higher than those of parents and high school students.

Percentages of Students, Parents, and Teachers who Agree that Students Model the Characteristics of Active Citizenship

Respondent Group	2003/04	2004/05	2005/06
High School Students	76%	78%	78%
Parents (ECS – 12)	79%	81%	81%
Teachers	90%	90%	90%
Overall	82%	83%	83%

Source: Alberta Education: Compustat Consultants Inc. - 2004, 2005, 2006.

- For all respondent groups, percentages reported are aggregates of agreement levels that:
 - students help each other,
 - students respect each other,
 - students are encouraged to get involved in activities that help people in the community,
 - students are encouraged to try their best, and
 - students follow the rules.
- Overall agreement rates for all three years are the average of agreement rates for each respondent group.
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.

Support the Continuous Improvement of the Ministry and Education System

Spending Highlights

To carry out this core business in 2005/2006, about \$22.9 million, representing less than 0.5% of Ministry expenses, was spent on Ministry Support Services, reflecting responsibilities such as governance, planning, policy development and coordination, information systems, and financial management.

Goal 3: Highly Responsive and Responsible Ministry

What it Means

The Ministry of Education strives to be a highly responsive ministry through effective and efficient policy and planning systems, management of information technology, continuous improvement and accountability systems, open and effective communication services, and financial and administrative support. Being responsive and responsible also means working collaboratively and enhancing effective communication with partners, stakeholders, and Albertans.

Outcomes

- Improved results through effective working relationships with partners and stakeholders.
- The Ministry demonstrates leadership and continuous improvement.

Strategies

3.1 Lead and work collaboratively with partners and stakeholders to implement Alberta's International Education Strategy.

Accomplishments

Consulted with stakeholders and developed an Action Plan in support of Alberta's International Education Strategy.

Renewed the Memorandum of Understanding with Spain.

Explored educational initiatives with China.

Expanded teacher exchange programs and piloted the program with Switzerland and Québec.

Revised the international student exchange program to better meet Alberta students' needs.

Strategies

- 3.2 Work with intergovernmental partners, such as the Western and Northern Canadian Protocol, to further develop Alberta's unique cooperative arrangements and to further strengthen Alberta's leadership in pan-Canadian initiatives through the Council of Ministers of Education, Canada.
- 3.3 Co-champion both the Leading in Learning and Skilled Workforce Initiative and the Alberta Children and Youth Initiative and support other cross-ministry policy initiatives, and cross-ministry administrative initiatives.

Accomplishments (continued)

Revised the Western and Northern Canadian Protocol K – 12 Mathematics Common Curriculum Framework.

Supported Memoranda of Understanding with the following four countries for international language advisors: Spain, China, Germany, and Japan.

Continued leadership on key pan-Canadian initiatives of the Council of Ministers of Education, Canada (CMEC), including:

- development of the new pan-Canadian Assessment Program, and
- development of a potential pan-Canadian e-learning portal.

Participated on the Registrars' Working Group Steering Committee related to teacher mobility.

Completed partnership agreements with British Columbia.

In support of the Leading in Learning and Skilled Workforce Initiative:

- co-chaired a coordinating committee with Advanced Education, and
- coordinated reporting on the initiative, including a final report of all accomplishments, targets and results.

In support of the Alberta Children and Youth Initiative:

- conducted an evaluation of the implementation of the Aboriginal Youth Suicide Prevention Strategy pilot,
- completed a formative evaluation and developed a plan for a summative evaluation of the process and outcomes for the Children and Youth with Complex Needs Initiative, and
- completed the development of the Student Health Outcomes Accountability Framework, and developed and piloted satisfaction survey instruments for parents, partners, and service providers.

As part of the Aboriginal Policy Initiative:

- with cross-ministry partners, expanded the sample of Aboriginal Albertans living off reserve Labour Force Survey for the third year
- reported the high school completion rate of Aboriginal Albertans aged 25-34 in the Government of Alberta Annual Report. This rate is stable at 76%.

Strategies

- 3.4 Work with stakeholders to support the implementation of approved recommendations from the Minister's Forum on School Councils Final Report.
- 3.5 Work collaboratively with stakeholders to align and improve the accountability framework for the K 12 education system that assigns responsibility, reports results, and manages performance.
- 3.6 Provide Albertans with timely, accurate, and relevant information about the education system.

3.7 Improve the data collection and integration of administrative information systems.

Accomplishments (continued)

Supported the Alberta Home and School Councils' Association to provide school council training and to revise the *School Councils Resource Manual*.

Held seven consultations across the province to obtain stakeholder feedback to inform revisions to the School Councils Regulation.

Introduced the Accountability Pillar evaluation methodology to school jurisdictions. This methodology was developed in consultation with stakeholders to assess school jurisdiction achievement and improvement on a common set of performance measures.

Provided all Accountability Pillar results to school jurisdictions online.

Developed a one-page reporting format for jurisdictions to report their Accountability Pillar results and evaluation publicly.

Implemented content management and website design to improve access to information.

Developed a diploma examination participation rate measure for the set of measures in the Accountability Pillar to complement diploma exam results.

For the first time, posted multi-year provincial and school jurisdiction high school to post-secondary transition rates and Rutherford Scholarship eligibility rates on the Ministry website.

Consulted with school jurisdictions to improve the collection and integration of student information.

Completed full implementation of the Funding Events System which processes student and course data submitted by school authorities into funding information for payment to school authorities.

Completed implementation of electronic submissions from Alberta Faculties of Education for graduates recommended for Interim Teaching Certificates.

Performance Highlights

Education system results for 2005/2006 for Goal 3 are highlighted below and discussed on the pages that follow. These results are cumulative and reflect years of investment of resources and effort.

- Targets Target Met
- ✓+ Target Exceeded × Target not met
- n/a No target set for 2005/06 (insufficient data or new measure

Results over time

- ↑ Improved performance

The confidence interval is considered in assessing change over time on survey measures.

- See Endnotes A and B for detailed information on assessing change over time and target
- A methodology to evaluate achievement and improvement on education system measures is under development.

Performance Measures

Working Relationships

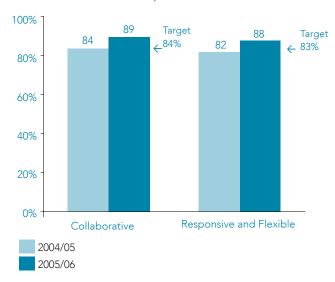

Target

 The targets for both collaborative and responsive/flexible were exceeded.

Discussion

- In 2005/2006, partner and stakeholder agreement that Alberta Education staff are collaborative was 89% and their agreement that Alberta Education staff are responsive and flexible was 88%.
- Both results increased since 2004/2005. The new Ministry of Education put considerable effort into establishing relationships with school boards during 2005/2006. This may have influenced results.
- There is a likelihood of greater variability in results from year to year for this measure than for other survey measures because of the small sample sizes.

Percentages of Cross-Ministry Partners and Education System Stakeholders Satisfied that Alberta Education Staff are Collaborative, Responsive, and Flexible

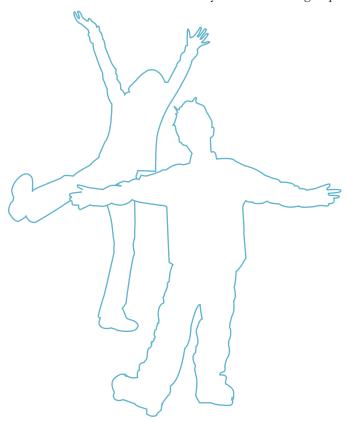

Source: Alberta Education: Hargroup Management Consultants Inc. – 2005, 2006.

- For the purpose of these surveys, partners are representatives
 of other ministries that are involved in Cross-Ministry Initiatives
 with Alberta Education, and stakeholders are representatives of
 K 12 education organizations, such as the Alberta School Boards
 Association.
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.

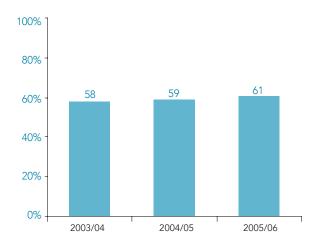

Working Relationships (continued)

New Measure

- A replacement measure for partner and stake-holder satisfaction was introduced in Alberta Education's 2006 – 2009 Business Plan. As such, no target was set for 2005/2006.
- This new measure asks high school students, parents, teachers, school board members, and the public a specific set of questions to assess working relationships in greater depth and at various levels.
- In 2005/2006, overall satisfaction was 61%, similar to results in previous years.
- Satisfaction varied among respondent groups, with public satisfaction consistently lower than results for other respondent groups.
- Satisfaction over time increased for school board members and was fairly stable for other groups.

Percentages of Students, Parents, Teachers, School Board Members, and the Public Satisfied that their Input is Considered, Respected, and Valued by the School, Jurisdiction, and Province (new)

Respondent Group	2003/04	2004/05	2005/06
High School Students	68%	73%	68%
Parents (ECS – 12)	60%	56%	58%
Teachers	56%	56%	60%
School Board Members	62%	67%	72%
Public	46%	44%	45%
Overall	58%	59 %	61%

Source: Alberta Education: Compustat Consultants Inc. – 2004, 2005, 2006.

- Students were asked about their satisfaction that their input into decisions at their school is being considered.
- School board members were asked about their satisfaction that their input into the education of students is being considered by Alberta Education.
- For parents and the public, percentages reported are aggregates of satisfaction that:
 - their input into decisions at school is being considered, and
 - their input into the education of students is considered both by the school board and by Alberta Education.
- For teachers, percentages reported are aggregates of satisfaction that their input into the education of students is considered by the school, the school board, and Alberta Education.
- Overall satisfaction rates are the average of satisfaction rates for each respondent group.
- In 2003/2004, "school board members" included elected trustees and superintendents, while in 2004/2005 and 2005/2006, only trustees were included.
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.

Parental Involvement

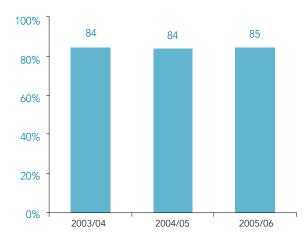

Target

 No target was set for 2005/2006 in the 2005 – 2008 Business Plan, as there was insufficient data.

Discussion

- Overall satisfaction for all respondent groups was 85% in 2005/2006, similar to results in previous years.
- In all three years, satisfaction was lower among parents than among teachers and school board members.
- This is the last year to report these results, as the measure has been replaced in Alberta Education's 2006 2009 Business Plan with "parent, teacher, student, and board member satisfaction that their input is considered, respected, and valued by the school, jurisdiction, and the province." Results for this new measure are presented on the previous page.

Percentages of Parents, Teachers, and School Board Members Satisfied with Parental Involvement in Decisions about their Child's Education

Respondent Group	2003/04	2004/05	2005/06
Parents (ECS – 12)	77%	77%	76%
Teachers	88%	86%	88%
School Board Members	87%	88%	89%
Overall	84%	84%	85%

Source: Alberta Education: Compustat Consultants Inc. - 2004, 2005, 2006.

- For all respondent groups, percentages reported are aggregates of:
 - satisfaction with the opportunity for parental involvement in decisions about their child's education,
 - satisfaction with the opportunity for parental involvement in decisions at their child's school,
 - satisfaction that input into decisions at their child's school is considered,
 - the percentage of respondents who reported that parents are involved "A Lot" or "Some" with decisions about their child's education, and
 - the percentage of respondents who reported that parents are involved "A Lot" or "Some" in decisions at their child's school.
- Overall satisfaction rates are the average of satisfaction rates for each respondent group.
- In 2003/2004, "school board members" included elected trustees and superintendents, while in 2004/2005 and 2005/2006, only trustees were included.
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.

Provincial Leadership

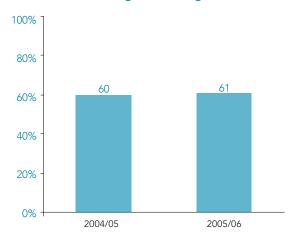

Target

 No target was set for 2005/2006 in the 2005 – 2008 Business Plan, as there was insufficient data.

Discussion

- Overall satisfaction (stakeholders, parents, teachers, and school board members) with leadership at the provincial level in 2005/2006 was 61%, similar to results in the previous year.
- Results for parents and teachers increased significantly in 2005/2006. The Ministry's continued funding of the Class Size Initiative, which has reduced class sizes, may have influenced these results.

Percentages of Parents, Teachers, Stakeholders, and School Board Members who are Satisfied that Leadership at the Provincial Level Effectively Supports and Facilitates Teaching and Learning

Respondent Group	2004/05	2005/06
Stakeholders	78%	64%
Parents (ECS – 12)	55%	63%
Teachers	33%	44%
School Board Members	73%	75%
Overall	60%	61%

Sources: Alberta Education: Compustat Consultants Inc. 2005 and 2006 for parent, teacher and school board member results. Hargroup Management Consultants Inc.: 2005 and 2006 for stakeholder results.

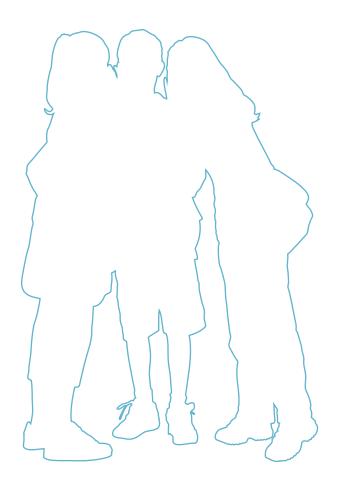

- The overall result is the average of the rates for each respondent group.
- Although percentages presented are rounded to whole numbers, all averages are calculated from unrounded numbers.
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.

Leadership (continued)

Expanded Measure

- The leadership measure was expanded in the 2006 – 2009 Business Plan to include satisfaction with leadership at the school and jurisdiction levels as well as at the provincial level.
- Overall satisfaction (all respondent groups and at all levels) in 2005/2006 was 70%, similar to results the previous year.
- Satisfaction was highest among parents and school board members in 2005/2006.

Percentages of Parents, Teachers, Stakeholders, and School Board Members who are Satisfied that Leadership at the School, Jurisdiction, and Provincial Levels Effectively Supports and Facilitates Teaching and Learning

Respondent Group	2003/04	2004/05	2005/06
At the School Level			
Parents (ECS – 12)	85%	85%	86%
Teachers	88%	87%	87%
Overall - School	86%	86%	86%
At the Jurisdiction Level	I		
Parents (ECS – 12)	_	_	75%
Teachers	72%	72%	74%
Overall - Jurisdiction	72 %	72 %	75%
At the Provincial Level			
Stakeholders	_	78%	64%
Parents (ECS – 12)	_	55%	63%
Teachers	_	33%	44%
School Board Members	_	73%	75%
Overall - Provincial	_	60%	61%
At All Levels (School, Ju	risdiction, Pro	ovincial)	
Stakeholders		78%	64%
Parents (ECS – 12)	85%	70%	75%
Teachers	80%	64%	68%
School Board Members	_	73%	75%
Overall - All Levels	_	71%	70%

Sources: Alberta Education: Compustat Consultants Inc. 2004, 2005, 2006 for parent, teacher and school board member results, and Hargroup Management Consultants Inc. 2005, 2006 for stakeholder results.

- For satisfaction at each level (school, jurisdiction, provincial), the overall result is the average of the rates for each respondent group.
- "—" indicates that data are not available (i.e., question was not asked of this respondent group for this year).
- Although percentages shown are rounded to whole numbers, all averages were calculated from unrounded numbers.
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.

K – 12 System Improvement

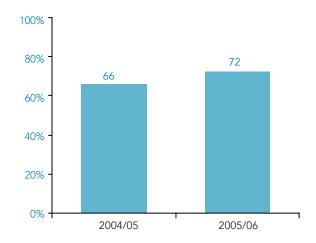

Target

 No target was set for 2005/2006 in the 2005 – 2008 Business Plan, as there was insufficient data.

Discussion

- Overall in 2005/2006, 72% of respondents (across all groups) indicated that Alberta's education system had improved or stayed the same. This is a significant increase over the previous year's result.
- Results were higher among school board members than for parents and teachers in both years, while results for teachers increased significantly in 2005/2006. The Ministry's continued investment in reducing class sizes may have influenced teacher perceptions.
- Compared to school board members, in both years substantially more parents and teachers surveyed answered "Don't Know" or "Not Applicable," or did not respond. In 2005/2006, 15% of parents and 10% of teachers gave one of these answers, compared to 4% of school board members.
- When asked a similar question focused on education in their own school (parents and teachers) or jurisdiction (school board members), rather than about the education system in general, opinions were more positive overall at 77%, as well as for each respondent group.

Percentages of Parents, Teachers, and School Board Members Indicating that the Alberta K – 12 Education System has Improved or Stayed the Same in the Last Three Years

Respondent Group	2004/05	2005/06
Parents (ECS – 12)	63%	66%
Teachers	55%	66%
School Board Members	81%	85%
Overall	66%	72%

Source: Alberta Education: Compustat Consultants Inc. – 2005, 2006.

- The overall satisfaction rate is the average of satisfaction rates for each respondent group.
- See Endnote A, pages 65-67, for information on surveys conducted for Alberta Education.
- See Endnote B, pages 68-69, for information on assessment of results over time.

Financial Results and Performance

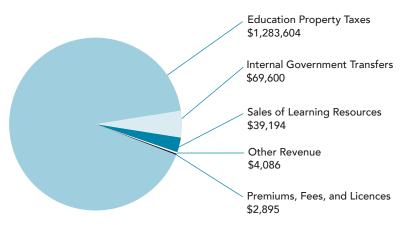

Overview

The Ministry of Education financial statements represent the operating results and financial position of both the Department of Education and the Alberta School Foundation Fund for the year ended March 31, 2006. The Financial Statements can be found on pages 76-132.

Effective April 1, 2005, the responsibility for operations and maintenance funding to school jurisdictions was transferred from Alberta Infrastructure and Transportation to the Ministry of Education. The comparative figures for March 31, 2005 have been restated as if the Ministry had been assigned its current responsibilities in the past. Note 3 of the Ministry consolidated financial statements provides further information on this program transfer.

2005/2006 Revenues by Source

(in thousands)

Total revenue for the Ministry increased \$54 million compared to 2004/2005, attributable primarily to increases of \$37 million in education property taxes and \$13.1 million in sales of learning resources. The increase in education property taxes is due to increasing property values, partially offset by a 5% reduction in the education property tax rate. The increase in the sales of learning resources is due to a higher volume in sales to British Columbia school jurisdictions and a moderate increase in sales to Alberta school jurisdictions.

Expenses by Function (in thousands)

The following table details the distribution of total Ministry expenses by function.

	2005/06 Budget	2005/06 Actuals	2004/05 Actuals
Education	\$ 4,660,976	\$ 4,760,176	\$ 4,388,223
Debt Servicing Costs	4,100	4,173	2,827
Total Ministry Expense	\$ 4,665,076	\$ 4,764,349	\$ 4,391,050

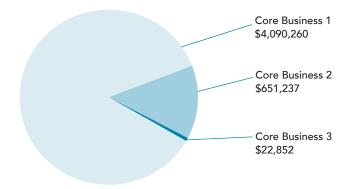

Expenses by Core Business (in thousands)

The following table and chart set out the distribution of total Ministry expenses by Core Business.

	2005/06 Budget	2005/06 Actuals	2004/05 Actuals
Core Business 1: Support High Quality Learning Opportunities in the Education System	\$ 3,981,293	\$ 4,090,260	\$ 3,770,332
Core Business 2: Support Learners to Achieve Excellent Learning Outcomes	662,015	651,237	603,495
Core Business 3: Support the Continuous Improvement of the Ministry and Education System	21,768	22,852	17,223
Total Ministry Expense	\$ 4,665,076	\$ 4,764,349	\$ 4,391,050

2005/2006 Expenses by Core Business

(in thousands)

Core Business 1 – Support High Quality Learning Opportunities in the Education System

Programs associated with this core business include operating support to school authorities, teachers' pensions, the small class size initiative, and other basic education programs. Operating support now includes funding for operations and maintenance of school facilities, which was transferred from Alberta Infrastructure and Transportation effective April 1, 2005. Effective September 8, 2005 school facilities infrastructure funding became a shared responsibility of Alberta Education and Alberta Infrastructure and Transportation. Effective April 1, 2006, school facilities infrastructure funding became the sole responsibility of Alberta Education.

Comparison of 2005/2006 Actual Expenses to Original Budget

Funding for this core business was \$109 million higher than budget. This was primarily the result of three variances:

- A \$42 million increase for purchases of new classroom portables, the relocation of existing portables, and new school construction projects;
- A \$30 million increase for additional school facility operations and maintenance funding; and
- A \$15 million increase to accommodate the growing number of children with special needs in Alberta's private and public schools.

In addition, the cost of sales and expenses associated with increased sales of learning resources exceeded the budget by almost \$6 million and the Ministry's share of the teachers' unfunded pension liability exceeded the budget by \$5 million as a result of an actuarial extrapolation.

Comparison of 2005/2006 Actual Expenses to 2004/2005 Actual Expenses

Funding for this core business increased \$320 million over 2004/2005. The increase of \$193 million in operating support to school jurisdictions was due to the following:

- An increase of 2.5% to the base instruction grant rate:
- An increase of \$42 million in capital funding to school jurisdictions for the purchase of new classroom portables, the relocation of existing portables, and new school construction projects;
- An increase of \$30 million to support school operations and maintenance;
- An increase of \$6 million to support new curriculum development for social studies; and
- An additional \$6 million in one-time small class size funding to assist school boards with the implementation of the second year of the initiative.

Other variances in this core business included:

- An increase of \$55 million in small class size funding. For the 2004/2005 fiscal year, expenses covered only seven months of the 2004/2005 school year (September 2004 to March 2005) as the initiative was implemented at the beginning of the school year. The 2005/2006 fiscal year expenses covered a full school year, which included the balance of the 2004/2005 school year (April 2005 to August 2005) and seven months of the 2005/2006 school year (September 2005 to March 2006). In 2005/2006 small class size funding provided support to hire an additional 450 teachers, as well as support to maintain the 1,250 teachers hired the previous year to reduce class sizes;
- An increase of \$35 million in the Ministry's share of teachers' pension funding. This increase was due primarily to the hiring of more teachers, pay rate increases, and higher teachers' contribution rates, resulting in an increase of \$25 million in current service contributions and an increase of \$19 million in past service contributions. This was partially offset by a \$9 million reduction in the pension valuation due to a change in accounting policy;
- An increase of almost \$13 million in the expenses associated with sales of learning resources;

- An increase of \$12 million in funding to accredited private schools. This increase was due primarily to enrollment growth, grant rate increases, and increased funding for students with severe disabilities; and
- An increase of \$6 million in Program Delivery costs due primarily to the release of conditional grants and increased costs associated with the development and support of the K – 12 Program of Studies.

Core Business 2 – Support Learners to Achieve Excellent Learning Outcomes

This core business consists of supports for students. This funding, included in the operating support for school jurisdictions, provides support for items such as transportation, severe disability programs, school food services, and English as a Second Language programs. Other provincial initiatives, such as the Alberta Initiative for School Improvement (AISI), High Speed Networking, Student Health Services, and grants for learning and teaching resources, also support learners in achieving excellent learning outcomes.

Comparison of 2005/2006 Actual Expenses to Original Budget

Funding for Core Business 2 was under budget by \$11 million. This is the result of an overestimation of \$5 million to accommodate the growing number of students requiring English as a Second Language programs and \$9 million for other programs, offset by several small over-expenditures in other services (i.e., Transportation, High Speed Networking, and Student Health).

Comparison of 2005/2006 Actual Expenses to 2004/2005 Actual Expenses

Expenses associated with Core Business 2 increased by \$48 million when compared to 2004/2005 expenses, primarily due to:

- An increase of \$23 million for students with severe disabilities, which provided school boards with a 4% increase to the grant rate and a 4% increase in the number of students served;
- An increase of \$17 million in student transportation funding to provide school boards with a 3% grant rate increase and additional contingency funding for unexpected fuel cost pressures;
- An increase of \$5 million to support the growing number of students requiring English as a Second Language programs; and
- An increase of approximately \$13 million for provincial initiatives, such as the Alberta Initiative for School Improvement (AISI), High Speed Networking, and Student Health Services.

These increases were offset by the discontinuation of \$12 million in one-time funding provided in the previous year to school jurisdictions and private schools for classroom resources.

Core Business 3 – Support the Continuous Improvement of the Ministry and Education System

Ministry Support Services represents the provision of services focusing on Ministry-wide operations that facilitate integration and accountability across all divisions and the learning system. This core business represents about one-half of one percent of the Ministry's expenses.

Spending on Ministry Support Services exceeded budget by less than 5%. Compared to the previous year, spending increased by about \$5 million in 2005/2006. This variance was largely due to increased support for new program initiatives to enhance technology in schools, such as Provincial Microsoft licensing, Student Transcript information systems, and other resources that advance classroom learning opportunities. The increase also includes additional costs associated with the split of the former Ministry of Learning into the Ministries of Education and Advanced Education.

Endnote A: Notes on Surveys

Public/Client Surveys

Alberta Education regularly commissions telephone surveys of random samples of the Alberta public and key client groups. The purpose of these surveys is to obtain perceptions of how the basic education system is performing in meeting learners' and society's needs and expectations. Professional survey research firms are contracted to conduct the surveys, using trained interviewers and the Computer-Assisted Telephone Interviewing (CATI) system. Survey results are compiled by the survey research firms and provided to the Ministry. Surveys of the public and of parents, high school students, teachers, and school board members are conducted annually. The employer survey is conducted every second year.

The following table provides sampling information about the surveys of Albertans conducted for the Ministry in recent years that are reported in this 2005/2006 Annual Report. The information includes the respondent groups surveyed, sample sizes, and the confidence intervals for results from each survey. Results are considered accurate within the confidence interval 19 times out of 20 (i.e., at a confidence level of 95%). Sampling variation can account for observed differences in results from year to year. See discussion on the use of confidence intervals for interpreting survey results on page 67.

Alberta Education Public/Client Surveys: Sample Sizes and Confidence Intervals

Survey		2001/02	2002/03	2003/04	2004/05	2005/06
Public ¹	Sample Confidence interval	1,171 +/-2.9%	2,012 +/-2.2%	2,003 +/-2.2%	3,000 +/-1.8%	3,000
Parents ²	Sample Confidence interval	800 +/-3.5%	818 +/-3.5%	800 +/-3.5%	800 +/-3.5%	800 +/-3.5%
High School Students (Grades 10 – 12) ²	Sample Confidence interval	800 +/-3.5%	800 +/-3.5%	800 +/-3.5%	800 +/-3.5%	800 +/-3.5%
Teachers ³	Sample Confidence interval	_ _	_	801 +/-3.5%	806 +/-3.5%	800 +/-3.5%
School Board Members ³ , ⁴	Sample Confidence interval	_ _		487 +/-2.2%	350 +/-3.2%	350 +/-3.2%
Employers	Sample Confidence interval-	2,003 +/-2.2%	_	2,000 +/-2.2%	_ _	2,200 +/-2.0%

- 1 The sample size for the general public was smaller in 2001/2002 because of the teachers' labour action. Starting in 2004/2005, the public survey sample size was increased from about 2,000 a year to 3,000 to generate more reliable data (i.e., with smaller confidence intervals) for subgroups of respondents.
- Although parents and high school students have been surveyed for several years, use of results from these surveys for performance measures reporting began with the 2003/2004 results.
- The surveys of teachers and school board members began in 2003/2004. In that first year, "School Board Members" included school board trustees and superintendents, while in 2004/2005 and 2005/2006, only trustees were surveyed.
- Confidence intervals for these samples take into account the small populations from which the samples are selected (i.e., 646 school board trustees and superintendents in 2003/2004, 560 school board trustees in 2004/2005, and 561 school board trustees in 2005/2006).

The survey instruments for these surveys use four-point response scales (Very satisfied, Satisfied, Dissatisfied, Very dissatisfied, or Strongly agree, Agree, Disagree, Strongly disagree), depending on the question. Although not asked, Don't know responses and refusals are recorded as well. Results presented are the combined percentages of respondents who were very satisfied, satisfied, or who strongly agreed, agreed. The survey results are available online at http://www.education.gov.ab.ca/pubstats/research.asp.

Surveys of Partners and Stakeholders

Alberta Education commissioned a telephone survey of its partners and stakeholders in 2004/2005 and 2005/2006. For the purpose of these surveys, partners are representatives of other Alberta government ministries that have worked with Alberta Education on specific projects during the last 12 months, and stakeholders are representatives of K - 12 education system stakeholder organizations (e.g., Alberta School Boards Association, the College of Alberta School Superintendents, and the Alberta Home and School Councils' Association). Some of these organizations are specifically established by legislation, and all have as their mandate a broad and dedicated interest in the K – 12 education system. Stakeholder selection identifies individuals in senior positions in their organizations who have a broad understanding of the learning system and are in the best position to provide meaningful responses. Samples include representatives of the largest school jurisdictions in the province because of their impact on significant numbers of students.

These surveys use judgment sampling (a type of nonprobability sampling method, for which confidence intervals are not applicable) and are conducted with partner and stakeholder representatives to obtain perceptions about their working relationships with Alberta Education staff. The partner and stakeholder surveys capture all major projects in which partners in other ministries worked with Alberta Education staff and all major stakeholder organizations that have an ongoing relationship with the Ministry. Respondents are selected with extensive input from senior Ministry staff who have the greatest contact with senior staff in partner and stakeholder organizations. The table below indicates the number of partner and stakeholder representatives that were surveyed in 2004/2005 and 2005/2006.

Year	Partners	Stakeholders	Total
2004/2005	38	23	61
2005/2006	44	22	66

These surveys use four-point response scales (e.g., Strongly agree, Agree, Disagree, Strongly disagree). Results shown are the percentages of all respondents (both partner and stakeholder representatives) who Strongly agreed or Agreed to the survey questions (i.e., the weighted average).

The small samples for these surveys contribute to variation in survey results from year to year. To illustrate the effect of sample size, each respondent in a survey sample of 100 accounts for one percent (1.0%) of the overall result, whereas each respondent in a survey of 1,000 respondents accounts for only one-tenth of one percent (0.1%) of the overall result.

Use of Confidence Intervals for Interpreting Survey Results

When a result is obtained by surveying a random sample of the target population (e.g., the public, parents, teachers), there is a confidence interval associated with the result, which is expressed as a percentage above and below the obtained result. A confidence interval indicates how much variation one might expect from the obtained survey result, as a consequence of sampling and diversity among respondents. Differences in survey results over time or among respondent groups on the same survey question are reported at the ".05 level of confidence" (i.e., the same results would be obtained in repeated surveys 19 times out of 20).

In Alberta Education's Annual Report, confidence intervals are used to determine:

- whether differences in survey results over time are likely the result of sampling variations, or represent actual change; and
- whether differences among respondent groups to the same question are likely the result of sampling variations or represent actual differences.

When comparing results of survey questions over time or among respondent groups, there is an actual difference between two survey results, 19 times out of 20, if there is no overlap between the confidence intervals of the two observed values. When this is the case, it is acknowledged in the related text that there is an increase, change, or significant difference in survey results over time or among groups. When the confidence intervals of the two observed values do overlap, the observed difference will be due to sampling variation 19 times out of 20, and we cannot conclude that the difference is real (i.e., "significant"). In such cases, the related text indicates that results are similar or stable over time or among groups.

The following hypothetical examples illustrate:

- a) two survey results where the confidence intervals overlap and, consequently, it is concluded that there is no real difference between the two survey results, and
- b) two survey results where the confidence intervals do not overlap and, consequently, it is concluded that there is a real difference between the two survey results.

Specifically, where two survey results are 76% and 80%, both with a confidence interval of 2.5%, then the upper limit of the confidence interval for the "76%" result is 78.5%, and the lower limit of the confidence interval of the "80%" result is 77.5%. Since the confidence intervals "overlap", it cannot be concluded that there is a real difference between the two survey results, as the observed difference could be due to sampling variation.

On the other hand, if the two survey results are 74% and 80%, and the confidence interval is 2.5%, the upper limit of the confidence interval for the "74%" result is 76.5%, and the lower limit of the confidence interval of the "80%" result is 77.5%. Since the confidence intervals "do not overlap," it can be concluded that there is a real difference between the two survey results, as sampling variation alone does not account for the observed difference. In such cases, the related text indicates that there is a significant difference over time (i.e., an increase or decrease) or between groups.

Endnote B: Technical Note on Targets and Trend Lines

Assessing Results Over Time

The change in results over time (i.e., the trend from the base year to the current year) is assessed in the discussion of each performance measure that has more than one year of results. The magnitude of change that is considered significant depends on the inherent variability of historical results for each specific measure. Where the difference in results over time is very small, such as for high school completion of Albertans 25-34 (page 45), the assessment is qualified by referring to the change as "slight." For measures based on random sampling survey methods, the change over time must be greater than can be expected from sampling variation alone, from about 2 to 3.5 percentage points for most survey measures in this report, depending on sample size (see table on page 65). Changes in results for the survey measures are considered slight when the result is 1-2 percentage points above or below the confidence interval. A detailed discussion of the use of confidence intervals in assessing differences in survey results over time appears in Endnote A (previous page). A detailed discussion of the use of trend lines in assessing results over time is provided below.

Assessing Targets

Performance targets set expectations for results and are the basis for planning improvements and assessing results. They are an important way to gauge whether the organization is improving or falling behind in obtaining desired results in key areas. Targets clearly establish desired levels of performance to be attained by a certain time. Targets are quantifiable and expressed in numerical terms, such as percentages or ratios. They are used as a key tool to drive, measure, improve, and control performance.

The Ministry of Education sets targets in its business plan for performance measures for which sufficient historical data are available. At least two years of results are considered in establishing targets so that trends over time are taken into account. At the time the business plan was prepared, only one year of data was available for some measures, so targets were not set for those performance measures.

Performance on a measure is considered to have met the target if the result is at or above 95% of the target value, i.e., if the result is within 5% of the target value. For example, if the result is 77% on a measure with a target of 80%, then the target was met, since the performance (77%) represents 96.3% of the target. As another example, if the result on the same measure is 75%, then the target was not met, since 75% represents only 93.8% of the target. Similarly, if the result is more than 5% above the target value (greater than 105% of the target), then the result has exceeded the target. In the instance of a target of 80%, a result above 84% would exceed the target.

This method of assessing performance represents a high level of achievement in relation to the target, i.e., clearing a hurdle. The 95% rule acknowledges the variability in data as well as the complexities of the learning system. In such an environment, targets are general objectives rather than specific values, and achieving 95% of the target value indicates results are "in the ball park."

The 95% rule is not used to assess achievement of targets for provincial achievement tests, which are administered to students in Grades 3, 6, and 9. The rule does not apply as those results are the minimum possible and under-represent the true results for the population had all students in Grades 3, 6, and 9 taken the test. Instead, as a difference of four-tenths of a percentage point (0.4%) is considered significant for these results, targets are considered met if the result is within four-tenths of a percentage point (0.4%) of the target.

Trend Lines

Trend lines are an aid to interpreting the results for measures reported in the Annual Report. Trend lines augment data interpretation techniques already in use, such as the calculation of confidence intervals, which are used to determine the significance of a change between two survey results (either over time, or among groups). Trend lines provide a useful method of understanding the direction of change over the longer term, since most measures have data spanning three or more years. Trend lines shift the focus from smaller year-to-year changes to providing information about the longer-term direction of the data and whether or not it is tracking towards the performance target for the measures with targets.

Business Plan targets and comments in the discussion of results with at least three data points are supported by trend lines. The type of trend line used is selected based on an informed interpretation of the data series underlying the trend line.

Logarithmic trend lines are appropriate for proportional data (i.e., data expressed as percentages of a whole, and therefore ranging between 0% and 100%), such as the performance measures in this report. A logarithmic trend line is a best-fit straight line that is most useful when the rate of change in the data increases or decreases quickly, then levels out. The leveling out can be seen in the results for some measures in the report, along with examples of year-to-year increases or decreases on other measures.

A logarithmic trend line is calculated using the following formula: $Y = c \ln x + b$ where c and b are constants, and \ln is the natural logarithm function.

Endnote C: Methodology for Performance Measures

Annual Dropout Rate of Students Aged 14-18

The annual dropout rate reports the percentages of Alberta students aged 14-18 in public, separate, francophone, charter, and private schools who, in the following school year:

- are not enrolled in the K 12 system;
- are not enrolled in a post-secondary institution in Alberta;
- are not registered in an apprenticeship program in Alberta; and
- · have not completed high school.

The annual dropout rate is derived from data in Alberta Education and Alberta Advanced Education systems. Adjustments for attrition are based on estimates from Statistics Canada's *Annual Demographic Statistics 2004 (R)* (CD-ROM).

Students whose education is not the responsibility of the provincial government, as well as students who are identified as having a severe cognitive disability or a severe multiple disability, are not included in the annual dropout rate. A detailed description of the methodology used to calculate the annual dropout rate, along with dropout rates for Alberta school jurisdictions, is available online at http://www.education.gov.ab.ca/pubstats/StatRes.asp.

Provincial Achievement Tests

Students in Grades 3, 6, and 9 write provincial achievement tests annually in language arts and mathematics while Grades 6 and 9 students also write tests in science and social studies. The achievement test results for Grades 3, 6, and 9 provide information on how well students are meeting provincial standards in the core academic subjects. Tests are developed and administered by educators and are based on expectations in the provincial curriculum. Results are reported in relation to the acceptable standard and the standard of excellence. A student achieving the acceptable standard in a specific

grade shows an adequate understanding of the core knowledge and adequate basic skills essential to that course. A student achieving the standard of excellence consistently shows a deeper understanding of the concepts of the course by demonstrating an ability to integrate information and evaluate it from various points of view. For each achievement test, the cut scores for the acceptable standard and the standard of excellence are set initially by a standard-setting committee of about 20 teachers using the Modified Angoff Standard Setting Procedure. This procedure uses teachers' judgment to determine the minimum number of items a student must answer correctly to achieve each standard. In subsequent years, the cut scores for each test are adjusted through test equating. This ensures that the standards remain constant even if test difficulty varies slightly from year to year. Whenever curriculum is revised, the standard-setting process is done again.

Results on provincial achievement tests are calculated and presented on the basis of total number of students in each grade who demonstrated the standards. Results for Math, Science, and Social Studies include student results on both English and French versions of the tests. Given the large number of students in each grade (more than 40,000) differences in results from year to year of more than 0.4 percentage points on each test are considered significant.

Not all students write the provincial achievement tests. Achievement test results are not available for students who were absent, who were excused from writing by the superintendent (because participation would be harmful to the student, or the student could not respond to the test instrument), who wrote but whose results were withheld, or who wrote only one part of the two-part language arts test. It is possible that some of these students, under different

circumstances, could have demonstrated achievement of standards on the test.

Participation rates in achievement tests are calculated by dividing the number of students who wrote the test by the sum of total enrollment in the grade plus the ungraded students who are in the corresponding year of schooling.

Provincial overall results present weighted averages based on the number of students achieving standards. Test results and participation are recorded and aggregated in Ministry systems. Provincial, school authority, and school results are available on Alberta Education's website at http://www.education.gov.ab.ca/k_12/testing/default.asp

Diploma Examinations

Examinations are administered in all diploma examination courses in January, June, and August each year. Examinations are administered in three courses in both November and April, for a total of six courses. Results on diploma examinations show how well students are meeting provincial expectations as outlined in the Programs of Study. Examination items are developed and cut scores established by committees of teachers. The examination design is vetted through committees of stakeholders, and by a standard-setting committee of teachers.

A test equating initiative has been phased in for the Diploma Examination Program so that over time examinations are consistent and the results are comparable. Starting in the 2003/2004 school year with Social Studies 30 and 33, the multiple-choice portion of the examinations contains a set of items common to administrations in subsequent years. By comparing the achievement of students writing in January 2004 with those writing in any subsequent administration on the common items and on the unique items, Alberta Education is able to determine whether or not the examinations were of equal difficulty. Student scores on the subsequent examinations can then be equated back to the January 2004 baseline examinations to remove any influence

that differences in examination difficulty may have on student scores. A similar equating process was implemented for Pure Mathematics 30, Chemistry 30, and Physics 30 in January 2005 and for English Language Arts, Applied Mathematics 30, and Biology 30 in January 2006. Through equating, all students, regardless of which examination they have written, receive test scores that are based on an identical standard and, consequently, the test results for a particular diploma examination course can be directly compared over time. As a result of implementing the equating process, diploma exam results are comparable over time as follows:

- Social Studies 30 and 33 for 2003/2004, 2004/2005, and 2005/2006.
- Pure Mathematics 30, Chemistry 30, and Physics 30 for 2004/2005 and 2005/2006.

Diploma examination results are reported in relation to the acceptable standard and the standard of excellence. Results for Math, Sciences, and Social Studies include results for both English and French versions of the tests. The overall results present weighted averages based on the numbers of students achieving standards in all diploma examinations. A student achieving the acceptable standard demonstrates that s/he has met the basic requirements of the course. A mark of 50% on the examination represents the acceptable standard in a diploma examination course. A mark of 80% on the examination represents the standard of excellence and indicates that the student has demonstrated performance significantly beyond the minimum requirements of the course. For student marks in diploma examination courses, the diploma examination mark is worth 50% of the final mark in a course and the school-awarded mark contributes the other 50%.

Diploma examination results are recorded and aggregated in Ministry systems. Provincial, school authority, and school results reports are available online at http://www.education.gov.ab.ca/k_12/testing/multipublic/dip/.

Diploma Examination Participation Rate

The diploma examination participation rate reports the percentages of students who have written four or more diploma exams within three years of entering Grade 10. The tracking of Grade 10 students in public, separate, francophone, charter, and private schools excludes some groups of students, specifically those identified as having a severe cognitive disability or a severe multiple disability and students whose education is not the responsibility of the provincial government. Data for this measure are from Alberta Education systems. Attrition adjustments are based on estimates from Statistics Canada's Annual Demographic Statistics, 2004 (R) (CD-ROM). A more detailed description of the methodology is available online at http://www.education.gov.ab.ca/pubstats/ StatRes.asp.

Rutherford Scholarship Eligibility Rate

The Rutherford Scholarship eligibility rate reports the percentages of Grade 12 students in public, separate, francophone, charter, and private schools whose marks in specified courses in Grades 10, 11, and/or 12 qualify them to receive a Rutherford Scholarship should they decide to attend a post-secondary institution.

Students whose education is not the responsibility of the provincial government, as well as students who are identified as having a severe cognitive or a severe multiple disability are not included in the Rutherford Scholarship rate.

Data for this measure are from Alberta Education and Alberta Advanced Education systems. A more detailed description of the methodology, along with Rutherford Scholarship eligibility rates for Alberta school jurisdictions, is available online at: http://www.education.gov.ab.ca/pubstats/StatRes.asp.

High School Completion Rates

The high school completion rate reports the percentages of Alberta students in public, separate, francophone, charter, and private schools who, within three, four, and five years of entering Grade 10:

- received a high school diploma, equivalency diploma (GED), or Integrated Occupational Program (IOP) certificate;
- entered an Alberta post-secondary program or an apprenticeship program; or
- earned credits in five Grade 12 courses, including one language arts diploma examination course and three other diploma examination courses.

The tracking of Grade 10 students excludes some groups of students, such as those identified as having a severe cognitive or a severe multiple disability and students whose education is not the responsibility of the provincial government. Data for this measure are from Alberta Education and Alberta Advanced Education systems. Attrition adjustments are based on estimates from Statistics Canada's *Annual Demographic Statistics*, 2004 (R) (CD-ROM). Prior years' results have been restated as a result of revising the calculation of the attrition estimate. A more detailed description of the methodology, along with high school completion rates for Alberta school jurisdictions, is available online at http://www.education.gov.ab.ca/pubstats/StatRes.asp.

Educational Attainment of Albertans Aged 25-34 (high school completion)

The Labour Force Survey is a monthly Canada-wide survey of a representative sample of households. Data are collected about all members of the household who are 15 years of age or older. The high school completion rate for 25-34 year-olds is presented as it represents recent outputs of Alberta's education system.

The Canadian sample size for the monthly Labour Force Survey has been approximately 54,000 households over the reporting period. Alberta's sample size corresponds to its share of the population. In 2005, between 5,017 and 5,262 Alberta households were surveyed each month (an average of 5,130 per month), with information provided on between 10,059 and 10,493 individuals per month. Of these, about 1,719 to 1,921 individuals each month are 25-34 years old.

Excluded from the Labour Force Survey are persons living on Indian reserves, inmates of prisons, and members of the military. As these groups, which represent about 2% of the population age 15+, typically have lower education levels than the total population, educational attainment rates based on Labour Force Survey data may be slightly higher than the rate would be for the total population age 15+.

The educational attainment rates presented are annual aggregates for the calendar year. The coefficient of variation, or CV (the standard error as a percentage of the reported result), for the Labour Force Survey is 1.0% for both the Alberta and the Canadian data. Additional information on the Labour Force Survey methodology is available in *Guide to the Labour Force Survey 2006*, Catalogue no. 71-543-GIE, February, 2006, available on-line from Statistics Canada at http://www.statcan.ca. Information on interpreting coefficients of variation is on pages 23-24.

Participation in Early Childhood Services (ECS) Programs

The participation rate in ECS programs is the percentage of all Alberta Grade 1 students in the current school year who had an Alberta ECS registration in any prior school year. The calculation is adjusted to account for Grade 1 students who entered Alberta from another province or country in the previous year, and thus would not have attended ECS in Alberta. In-migration data include the estimated

number of five-year-old immigrants and interprovincial in-migrants as of July 1st of the calendar year. The Grade 1 and ECS registration data are from Ministry systems. The in-migration estimates are from Statistics Canada, *Annual Demographic Statistics*, 2005, Catalogue no. 91-213-XPB, CD-ROM (R).

High School to Post-Secondary Transition Rates

The high school to post-secondary transition rate reports the percentages of Alberta students in public, separate, francophone, charter, and private schools who, within four and six years of starting Grade 10:

- enrolled in a credit program, part-time or fulltime, in an Alberta post-secondary institution; or
- registered in an apprenticeship program other than the Registered Apprenticeship Program for high school students.

Students are tracked using data from Alberta Education and Alberta Advanced Education systems. The high school to post-secondary transition rate includes adjustments for attrition and for attendance at post-secondary institutions out of province. Attrition adjustments are based on estimates from Statistics Canada's Annual Demographic Statistics 2004 (R) (CD-ROM). The estimate of Alberta students attending post-secondary institutions out of province uses aggregate student counts from Alberta Advanced Education's enrollment and Students Finance systems. Students whose education is not the responsibility of the provincial government, as well as students who are identified as having cognitive disabilities or a severe multiple disability are not included in the high school to post-secondary transition rates. Prior years' results have been restated as a result of revising the calculation of the attrition estimate. A more detailed description of the methodology, along with post-secondary transition rates for Alberta school jurisdictions, is available online at http://www.education.gov.ab.ca/pubstats/ StatRes.asp.

Employment Rate of Albertans 25-34 (High School Graduates Only)

Statistics Canada's Labour Force Survey is a monthly Canada-wide survey of a representative sample of households. Data are collected about all members of each household included in the survey who are 15 years of age or older. The employment rates for Alberta 25-34 year-olds whose highest level of education is "high school diploma only" are presented as they represent recent outputs of Alberta's K – 12 school system. The employment rates are annual aggregates for the calendar year. Specifically excluded from the Labour Force Survey are persons living on Indian reserves and inmates of prisons. As these groups, which represent less than 2% of the population age 15+, typically have lower employment levels than the total population, employment rates for 25-34 year-olds whose highest level of education is "high school diploma only" based on Labour Force Survey data may be slightly higher than the rate for all Albertans aged 25-34 whose highest level of education is high school completion.

The Canadian sample size for the monthly Labour Force Survey has been approximately 54,000 households over the reporting period. Alberta's sample size corresponds to its share of the population. In 2005, between 5,017 and 5,262 Alberta households were surveyed each month (an average of 5,130 per month), with information provided on between 10,059 and 10,493 individuals per month. Of these, about 1,719 to 1,921 individuals each month are 25-34 years old.

The coefficient of variation (the standard error as a percentage of the reported result) for both the Alberta and Canadian result is 2.5%.

Additional information on the Labour Force Survey methodology is available in the *Guide to Labour Force Survey 2006*, Catalogue no. 71-543-GIE, February, 2006, available online from Statistics Canada at http://www.statcan.ca. Information on interpreting coefficients of variation (a measure of sampling variability) is on pages 23-24. This document also provides the following definitions which apply to the data reported:

- Employment rate: the number employed in a particular group expressed as a percentage of the population for that group (page 10).
- Participation rate: the number of persons in a group that are in the labour force (i.e., either employed or looking for work) expressed as a percentage of the population for that group (page 12). Examples of persons not in the labour force are homemakers and full-time students.
- Unemployment rate: the number unemployed in a group expressed as a percentage of the number of persons in the labour force for that group (page 16).

Auditor's Report

To the Members of the Legislative Assembly

I have audited the consolidated statement of financial position of the Ministry of Education as at March 31, 2006 and the consolidated statements of operations and cash flows for the year then ended. These consolidated financial statements are the responsibility of the Ministry's management. My responsibility is to express an opinion on these consolidated financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

Note 2 includes an explanation for and the effects of not consolidating the financial statements of school jurisdictions controlled by the Ministry as required by public sector accounting standards.

In my opinion, except that the financial statements of school jurisdictions have not been included as referred to in the preceding paragraph, these consolidated financial statements present fairly, in all material respects, the financial position of the Ministry as at March 31, 2006 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Ministry of Education Notes to the Consolidated Financial Statements

March 31, 2006

NOTE 1 AUTHORITY AND PURPOSE

The Ministry of Education has been designated as responsible for various Acts by the *Government Organization Act*, Chapter G-10, *Revised Statutes of Alberta 2000* and its regulations. To fulfill these responsibilities, the Minister administers the organizations listed below. The authority under which each organization operates is also listed. Together, these organizations form the Ministry of Education.

Organization

The Department of Education Alberta School Foundation Fund

Authority

Government Organization Act School Act

The mission of the Ministry of Education, through its leadership and work with stakeholders, is to ensure that students are prepared for lifelong learning, work and citizenship so that they can become self-reliant, responsible and contributing members of a democratic, knowledge-based and prosperous society.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES

The recommendations of the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants are the primary source for the disclosed basis of accounting. These financial statements are prepared in accordance with the following accounting policies that have been established by government for all ministries.

(a) Reporting Entity

The reporting entity is the Ministry of Education, for which the Minister of Education is accountable. These consolidated financial statements include the activities of the Department of Education and the Alberta School Foundation Fund.

The Public Sector Accounting Board has issued standards that require controlled school jurisdictions to be fully consolidated line-by-line. In a transition period to March 31, 2008, the Ministry is permitted to use the modified equity method of accounting. Under the modified equity method, the school jurisdictions' net assets and operating results would be included in one line on the Ministry's consolidated statements of financial position and operations, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES (CONTINUED)

Reporting Entity (continued)

The Ministry has not yet consolidated the financial statements of school jurisdictions. In the transition period, the government will assess when and how to include school jurisdictions in the Ministry's consolidated financial statements.

The financial results of school jurisdictions are included in the consolidated financial statements of the Province of Alberta for the year ended March 31, 2006. Schedule 9 in those consolidated financial statements show that if the Ministry had included school jurisdictions on a modified equity basis, net assets and net operating results would increase by approximately \$380 million and \$1 million respectively for the year ended March 31, 2006. These amounts are based on information from the school jurisdictions' most recent audited financial statements. The net assets and net operating results reported therein have been reduced by the estimated accrued payroll at March 31, 2006 of \$296 million and the estimated change in the accrued payroll for the year of \$18 million.

The Ministry's Annual Report for the year ended March 31, 2006 includes summary financial information compiled from the school jurisdictions' audited financial statements for the year ended August 31, 2005.

(b) Basis of Financial Reporting

Revenues

All revenues are reported on the accrual basis of accounting. Cash received for which goods or services have not been provided by year end is recorded as unearned revenue and included in accounts payable and accrued liabilities.

Internal Government Transfers

Internal government transfers are transfers between entities within the government reporting entity where the entity making the transfer does not receive any goods or services directly in return.

Expenses

Directly Incurred

Directly incurred expenses are those costs the Ministry has primary responsibility and accountability for, as reflected in the Government's budget documents.

In addition to program operating expenses such as salaries and supplies, directly incurred expenses also include:

- amortization of tangible capital assets.
- pension costs which comprise the cost of government contributions for teachers of school jurisdictions and employer contributions for service of employees during the year.
- valuation adjustments which include changes in the valuation allowances used to reflect financial assets at their net recoverable value. Valuation adjustments also represent the

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES (CONTINUED)

Expenses (continued)

change in management's estimate of future payments arising from obligations relating to vacation pay and teachers' pension.

Grants are recognized as expenses when authorized and eligibility criteria, if any, are met.

Incurred by Others

Services contributed by other entities in support of Ministry operations are disclosed in Schedule 7, and allocated to programs to show full cost of services in Schedule 8.

Assets

Financial assets of the Ministry are limited to financial claims, such as advances to and receivables from other organizations, employees and other individuals as well as inventories held for resale. Inventories held for resale are valued at the lower of cost, determined on a weighted average basis, and estimated net realizable value.

Tangible capital assets of the Ministry are recorded at historical cost and amortized on a straight-line basis over the estimated useful lives of the assets. The threshold for capitalizing new systems development is \$100,000 and the threshold for all other tangible capital assets is \$5,000.

Liabilities

Liabilities are recorded to the extent that they represent obligations as a result of events and transactions occurring prior to the end of fiscal year. The settlement of liabilities will result in sacrifice of economic benefits in the future.

Net Liabilities

Net liabilities represent the difference between the carrying value of assets held by the Ministry and its liabilities.

The net assets of the Alberta School Foundation Fund are restricted by section 176(1) of the *School Act* in that money in the Fund is payable only to school jurisdictions except when a payment to General Revenues is required to repay advances and make interest payments, or to refund municipalities for overpayment.

Measurement Uncertainty

(in thousands)

Measurement uncertainty exists when there is significant variance between the recognized or disclosed amount and another reasonably possible amount. The teachers' pension obligation amounting to \$4,423,844 (2005 - \$4,263,479) is subject to measurement uncertainty because actual experience may vary from the assumptions used in the calculation.

Note 13 discloses information on the Teachers' Pension Plan.

NOTE 3 PROGRAM TRANSFER

Operations and Maintenance

Based on an Order in Council (O.C. 366/2005), responsibility for Operations and Maintenance funding to school jurisdictions was transferred from the Minister of Infrastructure and Transportation to the Minister of Education, effective April 1, 2005. Comparative figures have been restated as if the Ministry had always been assigned with its current responsibility.

	(in thousand	
		2005
Net Operating Results as previously reported	\$	(2,695,741)
Add: Program expenses transferred from		
Ministry of Infrastructure and Transportation		(349,543)
Restated Net Operating Results	\$	(3,045,284)

School Facilities Infrastructure

Based on an Order in Council (O.C. 421/2005) dated September 8, 2005, responsibility for the School Facilities Infrastructure program was transferred to the common responsibility of the Minister of Infrastructure and Transportation and the Minister of Education. While the Minister of Infrastructure and Transportation retained responsibility for the original 2005/2006 budget of \$201.2 million, new in-year approvals amounting to \$42.1 million are recorded in Education's Consolidated Statement of Operations. Effective April 1, 2006, School Facilities Infrastructure program funding will be the sole responsibility of Education. Expenditures on school facilities infrastructure are expected to total \$339 million in 2006/2007.

NOTE 4 CASH

The Consolidated Cash Investment Trust Fund is managed with the objective of providing competitive interest income to depositors while maintaining appropriate security and liquidity of depositors' capital. The portfolio is comprised of high quality short-term and mid-term fixed income securities with a maximum term to maturity of three years. As at March 31, 2006, securities held by the Fund have an average effective market yield of 3.96 per cent per annum (2005 - 2.79 per cent).

NOTE 5 ACCOUNTS RECEIVABLE

NOTE 8 VALUATION OF FINANCIAL ASSETS AND LIABILITIES

Fair value is the amount of consideration agreed upon in an arm's length transaction between knowledgeable, willing parties who are under no compulsion to act.

The fair values of cash, accounts receivable, accounts payable and accrued liabilities are estimated to approximate their carrying values because of the short term nature of these instruments.

NOTE 9 CONTRACTUAL OBLIGATIONS

NOTE 10 CONTINGENT LIABILITIES

(in thousands)

The Ministry has entered into indemnity agreements with school jurisdictions that have been named in residential school claims. The resulting loss, if any, from these indemnity agreements cannot be determined.

At March 31, 2006, the Ministry is a defendant in five legal claims (2005 – two legal claims). Two of these claims have specified amounts totaling \$100,050 and three have no specified amount (2005 – one claim with a specified amount of \$94,350 and one with no specified amount). The claim amounting to \$94,350 (2005 – \$94,350) is covered by the Alberta Risk Management Fund. The resulting total loss from these claims cannot be determined.

At March 31, 2006 a potential loss to the Ministry in excess of \$220,000 exists as a result of outstanding property assessment appeals before the Municipal Government Board and/or at various stages in the legal system. The probability of loss resulting from these claims cannot be determined.

The payment of all benefits for service prior to September 1, 1992 under the *Teachers' Pension Plan Act* is guaranteed by the Province of Alberta. At March 31, 2006, the Province has guaranteed pension benefits of \$6,392 million (2005 - \$6,162 million) of which \$4,319 million (2005 - \$4,187 million) is reflected in the accounts of the Ministry.

NOTE 11 TRUST FUNDS UNDER ADMINISTRATION

The Ministry administers trust funds that are regulated funds consisting of public money over which the Legislature has no power of appropriation. Because the Province has no equity in the funds and administers them for the purpose of various trusts, they are not included in the Ministry's financial statements.

At March 31, 2006, trust funds under administration were as follows:

		(in thousands)							
				2006			_	2005	
	_	Total <u>Assets</u>	_	Total <u>Liabilities</u>	_	Net Assets (Net <u>Liabilities)</u>	_	Net Assets (Net <u>Liabilities)</u>	
Education Gifts and Bequests Fund	\$	172	\$	_	\$	172	\$	157	
Alberta Teachers'									
Retirement Fund		3,574,000	_	10,632,000	_	(7,058,000)	_	(6,838,000)	
	\$	3,574,172	\$_	10,632,000	\$_	(7,057,828)	\$ ₌	(6,837,843)	

Of the \$7,058 million of Net Liabilities in the Alberta Teachers' Retirement Fund \$4,424 million is recorded as Teachers' Pension Obligation in the Statement of Financial Position (see Note 13).

NOTE 12 PAYMENTS UNDER AGREEMENT

(in thousands)

The Ministry has entered into several agreements to deliver programs on behalf of third parties. Costs incurred under these agreements are made under authority of the *Financial Administration Act*, section 25. Accounts receivable includes \$8,330 (2005 – \$11,638) and accounts payable and accrued liabilities include \$1,284 (2005 - \$2,145) relating to payments under agreement.

Amounts paid under agreements on behalf of third parties are as follows:

	 (in thou	sands)
	 2006	2005
Government of Canada		
French Minority Language Education and		
French Second Language Instruction	\$ 7,507 \$	6,942
South Africa Teacher Development	925	2,553
Alberta School Boards		
International Student Program	 8	1
	\$ 8,440 \$	9,496

NOTE 13 DEFINED BENEFIT PLANS

Teachers' Pension Plan

The Alberta Teachers' Retirement Fund Board (ATRFB) is a trustee and administrator of the Teachers' Pension Plan. The ATRFB operates under the authority of the *Teachers' Pension Plans Act*. The Act requires all teachers under contract with public and separate school jurisdictions in Alberta to contribute to the Teachers' Pension Plan.

The plan's pension obligation for benefits is based upon actuarial valuations performed at least triennially using the projected benefit method prorated on service. The latest actuarial valuation was performed on August 31, 2004. The valuation indicated a deficiency of net assets over the actuarial value of accrued pension benefits. The unfunded liability was extrapolated to March 31, 2006 and the following information relates to the government portion of the pension plan at that date:

	(in millions)					
		2006 (a)	_	2005		
Actuarial asset value	\$	1,705	\$	1,524		
Actuarial liabilities		(6,331)		(6,001)		
Unamortized deferred loss		202		214		
Teachers' Pension Obligation	\$	(4,424)	\$	(4,263)		

⁽a) Effective August 31, 2005 the ATRFB management changed its accounting policy to value assets on the fair value for accounting purposes with no smoothed value reported. Had asset smoothing continued to be used in 2006, the government portion of the unfunded liability as of March 31, 2006 would have been \$14.5 million higher.

The valuation and extrapolation were based upon economic assumptions, including a 7.25 percent per annum long-term rate of return on fund assets (2005 - 7.25%) and price inflation of 3.0 per cent per annum (2005 - 3.0%).

The actual return on plan assets was 12.8 per cent for the year ending August 31, 2005. Demographic assumptions used in the valuation reflect the experience of the plan.

The assumptions used in the valuation and extrapolation are based on the Alberta Teachers' Retirement Fund Board management's best estimates of future events. The plan's future experience will vary from the assumptions. Any differences between the actuarial assumptions and future experience will emerge as gains or losses in future valuations. Gains and losses are amortized over the expected average remaining service lives of the plan's beneficiaries.

Under the *Teachers' Pension Plans Act*, the unfunded liability for service credited prior to September 1, 1992 is being financed by additional contributions in the ratio of 67.35 percent by the Province and 32.65 per cent by the teachers over the period ending August 31, 2060. In addition, for service after August 1992, the Province funds 50 per cent of the post - 1992 unfunded liability, any current service costs and certain cost-of-living benefits. The Act provides that payment of all benefits for service credited prior to September 1, 1992 is guaranteed by the Province.

NOTE 13 DEFINED BENEFIT PLANS (CONTINUED)

Teachers' Pension Plan (continued)

In the Statement of Operations, the amount of contributions paid by the Province towards current service in the Alberta Teachers' Pension Plan is included in voted expenses. Amounts for past service and the unfunded liability are shown as statutory expense.

	(in thousands)							
		2006			2005			
		Budget	Actual	_	Actual			
Current service contribution	\$	174,074 \$	174,429	\$	149,252			
Past service contribution		144,590	143,397		124,742			
Pension valuation adjustment		154,000	160,365	_	169,334			
Total Teachers' Pension Expense	\$	472,664 \$	478,191	\$_	443,328			

The valuation adjustment has been recorded to recognize the estimated impact on the unfunded obligation of the estimated changes in the value of the plan's assets and amortization of experience gains and losses.

The financial statements of the Alberta Teachers' Retirement Fund Board provide further information on this defined benefit plan.

Other Pension Plans

(in thousands)

The Ministry participates in the multi-employer pension plans, Management Employees Pension Plan and Public Service Pension Plan. The Ministry also participates in the multi-employer Supplementary Retirement Plan for Public Service Managers. The expense for these pension plans is equivalent to the annual contributions of \$5,007 for the year ended March 31, 2006 (2005 - \$3,585).

At December 31, 2005, the Management Employees Pension Plan reported a deficiency of \$165,895 (2004 – \$268,101) and the Public Service Pension Plan reported a deficiency of \$187,704 (2004 – \$450,068). At December 31, 2005, the Supplementary Retirement Plan for Public Service Managers had a surplus of \$10,018 (2004 – \$9,404).

The Ministry also participates in two multi-employer Long Term Disability Income Continuance Plans. At March 31, 2006, the Bargaining Unit Plan reported an actuarial deficiency of \$8,699 (2005 – \$11,817) and the Management, Opted Out and Excluded Plan an actuarial surplus of \$8,309 (2005 – \$3,208). The expense for these two plans is limited to the employer's annual contributions for the year.

NOTE 14 COMPARATIVE FIGURES

Certain 2005 figures have been reclassified to conform to the 2006 presentation.

NOTE 15 APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Senior Financial Officer and the Deputy Minister.

⁽a) Includes \$154,000 for the Teachers' Pension Provision as well as \$351,543 for Operations and Maintenance funding to school jurisdictions transferred from the Department of Infrastructure and Transportation.

⁽b) Adjustments reflect Treasury Board approved increases to the authorized budget.

⁽c) Supplementary Estimates were approved on December 1, 2005 and March 16, 2006. Treasury Board approval is pursuant to section 24(2) of the *Financial Administration Act*. These were due to an increase in operations and maintenance (\$24,000), fuel price contingency (\$9,000), and school facility capital grant funding (\$42,133) to school jurisdictions.

⁽a) The Funding Framework is based on a jurisdiction profile which combines base instructional funding with differential cost funding allocations for specific student population types to address variable cost factors.

⁽b) Provincial Initiatives provides funding to school authorities for the Small Class Size Initiative.

⁽c) Other provincial initiatives include funding for Student Health Initiative, Alberta Initiative for School Improvement and High Speed

⁽d) Opted-out separate school boards, which have passed a resolution pursuant to section 171(2) of the School Act, have the authority to requisition and collect from municipalities levies on their declared residential and non-residential property at a rate of not less than the provincial rate applied in that municipality. These amounts collected from municipalities are shown as a reduction to funding from the Ministry.

⁽e) Funding Framework includes education property tax directly requisitioned by opted-out separate school boards from their municipalities.

Ministry Related Party Transactions

Related parties are those entities consolidated or accounted for on a modified equity basis in the Province of Alberta's financial statements.

The Ministry paid or collected certain taxes and fees set by regulation for permits, licenses and other charges. These amounts were incurred in the normal course of business, reflect charges applicable to all users, and have been excluded from this schedule.

The Ministry had the following transactions with related parties recorded in the Statement of Financial Position and Statement of Operations at the amount agreed upon between the parties:

	(in thousands)

Auditor's Report

To the Minister of Education

I have audited the statement of financial position of the Department of Education as at March 31, 2006 and the statements of operations and cash flows for the year then ended. These financial statements are the responsibility of the Department's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Department as at March 31, 2006 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Department of Education Notes to the Financial Statements

March 31, 2006

NOTE 1 AUTHORITY AND PURPOSE

The Department of Education operates under the authority of the *Government Organization Act*, Chapter G-10, Revised Statutes of Alberta 2000.

The mission of the Department of Education, through its leadership and work with stakeholders, is to ensure that students are prepared for lifelong learning, work and citizenship so that they can become self-reliant, responsible and contributing members of a democratic, knowledge-based and prosperous society.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES

The recommendations of the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants are the primary source for the disclosed basis of accounting. These financial statements are prepared in accordance with the following accounting policies that have been established by government for all departments.

(a) Reporting Entity

The reporting entity is the Department of Education, which is part of the Ministry of Education and for which the Minister of Education is accountable. The Department provides funding to private, separate and public schools. The activities of these organizations are not included in these financial statements. The Ministry Annual Report provides a more comprehensive accounting of the financial position and results of the Ministry's operations for which the Minister is accountable.

All departments of the Government of Alberta operate within the General Revenue Fund (the Fund). The Fund is administered by the Minister of Finance. All cash receipts of departments are deposited into the Fund and all cash disbursements made by the departments are paid from the Fund. Net transfer to/from General Revenues is the difference between all cash receipts and all cash disbursements made.

(b) Basis of Financial Reporting

Revenues

All revenues are reported on the accrual basis of accounting. Cash received for which goods or services have not been provided by year end is recorded as unearned revenue and included in accounts payable and accrued liabilities.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES (CONTINUED)

Internal Government Transfers

Internal government transfers are transfers between entities within the government reporting entity where the entity making the transfer does not receive any goods or services directly in return.

Dedicated Revenue

Dedicated revenue initiatives provide a basis for authorizing spending. Dedicated revenues are shown as credits or recoveries in the details of the Government Estimates for a supply vote. If actual dedicated revenues are less than budget and total voted expenses are not reduced by an amount sufficient to cover the deficiency, the following year's voted expenses are encumbered. If actual dedicated revenues exceed budget, the Department may, with the approval of Treasury Board, use the excess revenue to fund additional expenses on the program. Schedule 2 discloses information on the Department's dedicated revenue initiatives.

Expenses

Directly Incurred

Directly incurred expenses are those costs the Department has primary responsibility and accountability for, as reflected in the Government's budget documents.

In addition to program operating expenses such as salaries and supplies, directly incurred expenses also include:

- amortization of tangible capital assets.
- pension costs which comprise the cost of government contributions for teachers of public and separate school jurisdictions and employer contributions for service of employees during the year.
- valuation adjustments which include changes in the valuation allowances used to reflect financial assets at their net recoverable value. Valuation adjustments also represent the change in management's estimate of future payments arising from obligations relating to vacation pay and teachers' pension.

Grants are recognized as expenses when authorized and eligibility criteria, if any, are met.

Incurred by Others

Services contributed by other entities in support of Department operations are disclosed in Schedule 7, and allocated to programs to show full cost of services in Schedule 8.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES (CONTINUED)

Assets

Financial assets of the Department are limited to financial claims, such as advances to and receivables from other organizations, employees and other individuals as well as inventories held for resale. Inventories held for resale are valued at the lower of cost, determined on a weighted average basis, and estimated net realizable value.

Tangible capital assets of the Department are recorded at historical cost and amortized on a straight-line basis over the estimated useful lives of the assets. The threshold for capitalizing new systems development is \$100,000 and the threshold for all other tangible capital assets is \$5,000.

Liabilities

Liabilities are recorded to the extent that they represent obligations as a result of events and transactions occurring prior to the end of fiscal year. The settlement of liabilities will result in sacrifice of economic benefits in the future.

Net Liabilities

Net liabilities represents the difference between the carrying value of assets held by the Department and its liabilities.

Measurement Uncertainty

(in thousands)

Measurement uncertainty exists when there is a significant variance between the recognized or disclosed amount and another reasonably possible amount. The teachers' pension obligation amounting to \$4,423,844 (2005 - \$4,263,479) is subject to measurement uncertainty because actual experience may vary from the assumptions used in the calculation.

Note 12 discloses information on the Teachers' Pension Plan.

NOTE 3 PROGRAM TRANSFER

Operations and Maintenance

Based on an Order in Council (O.C. 366/2005), responsibility for Operations and Maintenance funding to school jurisdictions was transferred from the Minister of Infrastructure and Transportation to the Minister of Education, effective April 1, 2005. Comparative figures have been restated as if the Department had always been assigned with its current responsibilities.

	(11	i triousarius)
		2005

Add: Program expenses transferred from		
Department of Infrastructure and Transportation		(349,543)
Restated Net Operating Results	\$	(3,023,678)

School Facilities Infrastructure

Based on an Order in Council (O.C. 421/2005) dated September 8, 2005, responsibility for the School Facilities Infrastructure program was transferred to the common responsibility of the Minister of Infrastructure and Transportation and the Minister of Education. While the Minister of Infrastructure and Transportation retained responsibility for the original 2005/2006 budget of \$201.2 million, new in-year approvals amounting to \$42.1 million are recorded in Education's Statement of Operations. Effective April 1, 2006, School Facilities Infrastructure program funding will be the sole responsibility of Education. Expenditures on school facilities infrastructure are expected to total \$339 million in 2006/2007.

		\$	46,355	\$	24,955			

NOTE 7 VALUATION OF FINANCIAL ASSETS AND LIABILITIES

Fair value is the amount of consideration agreed upon in an arm's length transaction between knowledgeable, willing parties who are under no compulsion to act.

The fair values of cash, accounts receivable, accounts payable and accrued liabilities are estimated to approximate their carrying values because of the short term nature of these instruments.

NOTE 8 CONTRACTUAL OBLIGATIONS

	(in thousands)						
	2006	2005					
Capital Construction Grants \$	182,887	\$ —

	\$	182,887 \$	1,848	\$	1,406	\$ 6,684	\$_	2,798 \$	195,623

NOTE 9 CONTINGENT LIABILITIES

(in thousands)

The Department has entered into indemnity agreements with school jurisdictions that have been named in residential school claims. The resulting loss, if any, from these indemnity agreements cannot be determined.

At March 31, 2006, the Department is a defendant in five legal claims (2005 – two legal claims). Two of these claims have specified amounts totaling \$100,050 and three have no specified amount (2005 – one claim with specified amount of \$94,350 and one with no specified amount). The claim amounting to \$94,350 (2005 – \$94,350) is covered by the Alberta Risk Management Fund. The resulting total loss from these claims cannot be determined.

NOTE 10 TRUST FUNDS UNDER ADMINISTRATION

The Department administers trust funds that are regulated funds consisting of public money over which the Legislature has no power of appropriation. Because the Province has no equity in the funds and administers them for the purpose of various trusts, they are not included in the Department's financial statements.

At March 31, 2006, trust funds under administration were as follows:

	_			(in tho	usar	nds)		
				2006			_	2005
	_	Total Assets	_	Total Liabilities	_	Net Assets (Net Liabilities)	_	Net Assets (Net Liabilities)
Education Gifts and Bequests Fund	\$	172	\$	_	\$	172	\$	157
Alberta Teachers' Retirement Fund	- \$_	3,574,000 3,574,172	- \$_	10,632,000 10,632,000	- \$_	(7,058,000) (7,057,828)	- \$_	(6,838,000) (6,837,843)

Of the \$7,058 million of Net Liabilities in the Alberta Teachers' Retirement Fund, \$4,424 million is recorded as Teachers' Pension Obligation in the Statement of Financial Position (see Note 12).

NOTE 11 PAYMENTS UNDER AGREEMENT

(in thousands)

The Department has entered into several agreements to deliver programs on behalf of third parties. Costs incurred under these agreements are made under authority of the Financial Administration Act, section 25. Accounts receivable includes \$8,330 (2005 - \$11,638) and accounts payable and accrued liabilities include \$1,284 (2005 - \$2,145) relating to payments under agreement.

Amounts paid under agreements on behalf of third parties are as follows:

	 (in the	ousan	<u>ds)</u>
	 2006		2005
Government of Canada			
French Minority Language Education and French Second Language Instruction	\$ 7,507	\$	6,942
South Africa Teacher Development	925		2,553
Alberta School Boards International Student Program	8		1
	\$ 8,440	\$	9,496

NOTE 12 DEFINED BENEFIT PLANS

Teachers' Pension Plan

The Alberta Teachers' Retirement Fund Board (ATRFB) is a trustee and administrator of the Teachers' Pension Plan. The ATRFB operates under the authority of the *Teachers' Pension Plans Act*. The Act requires all teachers under contract with public and separate school jurisdictions in Alberta to contribute to the Teachers' Pension Plan.

The plan's pension obligation for benefits is based upon actuarial valuations performed at least triennially using the projected benefit method prorated on service. The latest actuarial valuation was performed on August 31, 2004. The valuation indicated a deficiency of net assets over the actuarial value of accrued pension benefits. The unfunded liability was extrapolated to March 31, 2006 and the following information relates to the government portion of the pension plan at that date:

	 (in millions)						
	 2006 (a)	_	2005				
Actuarial asset value	\$ 1,705	\$	1,524				
Actuarial liabilities	(6,331)		(6,001)				
Unamortized deferred loss	 202	_	214				
Teachers' Pension Obligation	\$ (4,424)	\$_	(4,263)				

(a) Effective August 31, 2005 the ATRFB management changed its accounting policy to value assets on the fair value for accounting purposes with no smoothed value reported. Had asset smoothing continued to be used in 2006, the government portion of the unfunded liability as of March 31, 2006 would have been \$14.5 million higher.

The valuation and extrapolation were based upon economic assumptions, including a 7.25 per cent per annum long-term rate of return on fund assets (same in 2005) and price inflation of 3.0 per cent per annum (same in 2005).

The actual return on plan assets was 12.8 per cent for the year ending August 31, 2005. Demographic assumptions used in the valuation reflect the experience of the plan.

The assumptions used in the valuation and extrapolation are based on the Alberta Teachers' Retirement Fund Board management's best estimates of future events. The plan's future experience will vary from the assumptions. Any differences between the actuarial assumptions and future experience will emerge as gains or losses in future valuations. Gains and losses are amortized over the expected average remaining service lives of the plan's beneficiaries.

Under the *Teachers' Pension Plans Act*, the unfunded liability for service credited prior to September 1, 1992 is being financed by additional contributions in the ratio of 67.35 per cent by the Province and 32.65 per cent by the teachers over the period ending August 31, 2060. In addition, for service after August 1992, the Province funds 50 per cent of the post – 1992 unfunded liability, any current service costs and certain cost-of-living benefits. The Act provides that payment of all benefits for service credited prior to September 1, 1992 is guaranteed by the Province.

NOTE 12 DEFINED BENEFIT PLANS (CONTINUED)

Teachers' Pension Plan (continued)

In the Statement of Operations, the amount of contributions paid by the Province towards current service in the Alberta Teachers' Pension Plan is included in voted expenses.

Amounts for past service and the unfunded liability are shown as statutory expense.

	(in thousands)							
		2006		_	2005			
		Budget	Actual	_	Actual			
Current service contribution	\$	174,074 \$	174,429	\$	149,252			
Past service contribution		144,590	143,397		124,742			
Pension valuation adjustment		154,000	160,365	_	169,334			
Total Teachers' Pension Expense	\$	472,664 \$	478,191	\$	443,328			

The valuation adjustment has been recorded to recognize the estimated impact on the unfunded obligation of the estimated changes in the value of the plan's assets and amortization of experience gains and losses.

The financial statements of the Alberta Teachers' Retirement Fund Board provide further information on this defined benefit plan.

Other Pension Plans

(in thousands)

The Department participates in the multi-employer pension plans, Management Employees Pension Plan and Public Service Pension Plan. The Department also participates in the multi-employer Supplementary Retirement Plan for Public Service Managers. The expense for these pension plans is equivalent to the annual contributions of \$5,007 for the year ended March 31, 2006 (2005 - \$3,585).

At December 31, 2005, the Management Employees Pension Plan reported a deficiency of \$165,895 (2004 – \$268,101) and the Public Service Pension Plan reported a deficiency of \$187,704 (2004 – \$450,068). At December 31, 2005, the Supplementary Retirement Plan for Public Service Managers had a surplus of \$10,018 (2004 – \$9,404).

The Department also participates in two multi-employer Long Term Disability Income Continuance Plans. At March 31, 2006, the Bargaining Unit Plan reported an actuarial deficiency of \$8,699 (2005 – \$11,817) and the Management, Opted Out and Excluded Plan an actuarial surplus of \$8,309 (2005 – \$3,208). The expense for these two plans is limited to the employer's annual contributions for the year.

NOTE 13 COMPARATIVE FIGURES

Certain 2005 figures have been reclassified to conform to the 2006 presentation.

NOTE 14 APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Senior Financial Officer and the Deputy Minister.

Department of Education Schedules to the Financial Statements

For the year ended March 31, 2006

Notes to the Financial Statements

Auditor's Report

To the Minister of Education,

I have audited the statement of financial position of the Alberta School Foundation Fund as at March 31, 2006 and the statements of operations and cash flows for the year then ended. These financial statements are the responsibility of the Fund's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Fund as at March 31, 2006 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Alberta School Foundation Fund Notes to the Financial Statements

March 31, 2006

NOTE 1 AUTHORITY AND PURPOSE

The Alberta School Foundation Fund (the Fund) operates under the authority of the *School Act*, Revised Statutes of Alberta 2000, chapter S-3.

The Fund makes requisitions to municipalities based on the equalized assessment of real property in Alberta and mill rates established by the Lieutenant Governor in Council. The purpose of the Fund is to provide funding to school boards that is based on an equal amount per eligible student.

NOTE 2 SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

The recommendations of the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants are the primary source for the disclosed basis of accounting. These financial statements are prepared in accordance with the following accounting policies that have been established by government.

(a) Reporting Entity

The reporting entity is the Alberta School Foundation Fund, which is part of the Ministry of Education and for which the Minister of Education is accountable. The other entity reporting to the Minister is the Department of Education. The activities of the Department of Education are not included in these financial statements.

The Ministry Annual Report provides a more comprehensive accounting of the financial position and results of the Ministry's operations for which the Minister is accountable.

(b) Basis of Financial Reporting

Revenues

All revenues are reported on the accrual basis of accounting. Supplementary tax receipts are placed in Unearned Revenue until paid to school boards in the following year.

Expenses

(in thousands)

Expenses are those costs the Fund has primary responsibility and accountability for, as reflected in the government's budget documents.

Opted out separate school boards, which have passed a resolution pursuant to section 171(2) of the *School Act*, have the authority to requisition and collect from municipalities levies on their declared residential and non-residential property at a rate of not less than

NOTE 2 SIGNIFICANT ACCOUNTING AND REPORTING POLICIES (CONTINUED)

(b) Basis of Financial Reporting (continued)

the provincial rate applied in that municipality. These amounts are not reflected in the financial statements.

Payments to school boards include \$199,582 (2005 - \$182,362) paid to opted out separate school boards to increase their funding to a level the boards would otherwise receive if participating fully in the Alberta School Foundation Fund.

Assets

Financial assets of the Fund include financial claims such as receivables from school boards and requisitions receivable.

Liabilities

Liabilities include all financial claims payable by the Fund at fiscal year end. They include management's estimate of future payments for property assessment appeals and adjustments.

Measurement Uncertainty

(in thousands)

Measurement uncertainty exists when there is a variance between the recognized amount and another reasonably possible amount.

Estimates are used in the determination of the allowance for assessment adjustments and appeals amounting to \$2,730 (2005 - \$1,328). Changes in future conditions in the near term could require a material change in the recognized amounts.

Net Assets

Net assets are restricted by section 176(1) of the *School Act* in that money in the Fund is payable only to school boards except when a payment to General Revenues is required to repay advances and make interest payments, or to refund municipalities for overpayments.

NOTE 3 CASH

The Consolidated Cash Investment Trust Fund is managed with the objective of providing competitive interest income to depositors while maintaining appropriate security and liquidity of depositors' capital. The portfolio is comprised of high quality short-term and mid-term fixed income securities with a maximum term to maturity of three years. As at March 31, 2006, securities held by the Fund have an average effective market yield of 3.96 per cent per annum (2005 - 2.79 per cent).

NOTE 4 VALUATION OF FINANCIAL ASSETS AND LIABILTIES

Fair value is the amount of consideration agreed upon in an arm's length transaction between knowledgeable, willing parties who are under no compulsion to act.

The fair values of cash, receivables and accrued liabilities are estimated to approximate their carrying values because of the short term nature of these instruments.

NOTE 5 RELATED PARTY TRANSACTIONS

Operating costs incurred in the administration of the Fund have been borne by other ministries and are not reflected in these financial statements. The Fund is prohibited from paying administration costs under section 176(2) of the *School Act*.

Under the provisions of the *Financial Administration Act*, the Fund receives monthly advances from the General Revenues to make payments to school boards in accordance with section 176(1) of the *School Act*. The Fund repays the advances as monies are received from municipalities and opted-out separate school boards. The Fund pays interest on the advances at the appropriate bankers' acceptance rate less 0.05 percent. Interest is calculated on a prorata basis for the number of days the advances are outstanding.

The Fund distributes monies collected to school boards based on an equal amount per eligible student. The following describes the related party transactions of the Fund:

Payments to School Boards (a) Interest paid on Advances from General Revenue

 (in the	usan	ds)
 2006		2005
\$ 1,297,737	\$	1,262,782
 4,173		2,827
\$ 1,301,910	\$	1,265,609

⁽a) These amounts do not agree to the Statement of Operations because two school boards in Lloydminster, Saskatchewan are non-related parties.

NOTE 6 LIABILITIES

(in thousands)

If it is determined on appeal under the *Municipal Government Act* that a municipality has paid an amount into the Alberta School Foundation Fund in excess of the sum that is required to be paid, the Minister of Education may order the repayment of the excess to the municipality. The amount required to be paid is equivalent to the sum of the applicable education property tax rates being applied to the equalized assessment of the municipality for residential and farm land, non-residential property and machinery and equipment. Taxpayers can appeal or request adjustments to their assessment to their local Assessment

NOTE 6 LIABILITIES (CONTINUED)

Review Boards, Municipal Government Board and/or the Court of Queen's Bench. Accrued liabilities of \$276 (2005 - \$209) are those appeals where the likelihood of loss is high.

In addition, the Fund has recorded an allowance for anticipated assessment adjustments and appeals with a high likelihood of loss of \$2,730 (2005 - \$1,328) based on discussions with the Ministry of Municipal Affairs, historical trends and changes in the equalized assessment process.

NOTE 7 CONTINGENT LIABILITIES

(in thousands)

At March 31, 2006 a potential loss to the Alberta School Foundation Fund in excess of \$220,000 exists as a result of outstanding property assessment appeals before the Municipal Government Board and/or at various stages in the legal system. The probability of loss resulting from these claims cannot be determined.

NOTE 8 BUDGET

The budget amounts shown in these financial statements are from the 2005-06 Government and Lottery Fund Estimates approved April 13, 2005.

NOTE 9 APPROVAL OF FINANCIAL STATEMENTS

These financial statements were approved by the Deputy Minister of Education and the Senior Financial Officer for the Department of Education.

Cash equivalents at end of the year	\$ 327,253,726		\$ 364,468,921

Summary of Significant Accounting **Policies**

School jurisdictions prepare their financial statements in accordance with generally accepted accounting principles for not-for-profit organizations. The following are significant accounting policies followed by these entities:

- Revenues and expenses are recognized on an accrual basis.
- Revenues received for the provision of goods and services are recognized in the period in which the goods are provided or the services rendered.
- Unrestricted contributions are recognized as revenues when received.
- Capital grants are recorded as deferred contributions until the amounts are invested in capital assets.
- Once capital grants are invested in capital assets, the amounts are transferred to unamortized deferred capital contributions. Unamortized deferred capital contributions are recognized as earned revenue in the periods in which the related amortization expense of the funded capital asset is recorded.
- Externally restricted non-capital contributions are deferred and recognized as revenue in the period in which the related expenses are incurred.
- Contributions for capital assets that will not be amortized, such as land, are recorded as direct increases in net assets in the period the assets are acquired.
- Capital assets are recorded at cost when acquired. Capital assets are amortized based on amortization policies set by school jurisdictions.
- Donated assets are recorded at fair value where fair value is reasonably determined.
- Inventories of merchandise for resale are valued at the lower of cost and net realizable value. Inventories of supplies for consumption are valued at the lower of cost and replacement value.
- Investments are recorded at the lower of cost or market value.

⁽a) Included in superintendent's total is supplemental integrated pension plan contributions relating to previous years.

Notes

- This information is taken from the Audited Financial Statements submitted to Alberta Education by the School Jurisdiction.
- Remuneration includes regular base salaries, administrative allowances, overtime, lump sum payments, honoraria, deferred salary leave accruals and any other direct cash remuneration.
- Benefits include the employer's share of all employee benefits and contributions or payments made on behalf of employees. This includes retirement pension, Canada Pension Plan (CPP), Employment Insurance (EI), health care, dental coverage, vision coverage, out-of-country medical benefits, group life insurance, accidental disability and dismemberment insurance, long and short-term disability plans.
- Allowances include all monies paid to an employee as miscellaneous negotiated allowances. This category will include car or travel allowance, isolation allowances, relocation expenses, sabbaticals, special leave with pay, financial and retirement planning services, and club memberships.
- Other includes payments made for such things as performance bonuses, accrued vacations and termination benefits (severance pay, retiring allowances, sick leave and other settlement costs due to loss of employment).

Auditor's Report

To the Alberta Teachers' Retirement Fund Board

I have audited the Statement of Net Assets Available for Benefits and Accrued Pension Benefits and Deficiency of the Alberta Teachers' Retirement Fund Board (the "Board") as at August 31, 2005 and the Statements of Changes in Net Assets Available for Benefits and Changes in Accrued Pension Benefits for the year then ended. These financial statements are the responsibility of the Board's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the Net Assets Available for Benefits and Accrued Pension Benefits and Deficiency of the Board as at August 31, 2005 and the Changes in Net Assets Available for Benefits and Changes in Accrued Pension Benefits for the year then ended in accordance with Canadian generally accepted accounting principles.

Alberta Teachers' Retirement Fund Board Notes to the Financial Statements

August 31, 2005

NOTE 1 AUTHORITY AND NATURE OF OPERATIONS

The Alberta Teachers' Retirement Fund Board, a Provincial corporation, is the trustee and administrator of the Teachers' Pension Plan and the Private School Teachers' Pension Plan (the "Plans"). The Alberta Teachers' Retirement Fund Board operates under the authority of the *Teachers' Pension Plans Act*, Chapter T-1, RSA 2000.

The Plans are Registered Pension Plans as defined in the *Income Tax Act* and are not subject to income taxes. The income tax registration number is 0359125.

NOTE 2 DESCRIPTION OF THE PENSION PLANS

The following description of the Plans is a summary only.

a) General

The Plans are contributory defined-benefit pension plans for the teachers of Alberta.

b) Guarantee

The payment of all benefits for service prior to September 1, 1992 under the Teachers' Pension Plan is guaranteed by the Province of Alberta (the "Province").

c) Funding

The determination of the value of the benefits and the required contributions for the Plans is made on the basis of periodic actuarial valuations (Note 11).

All teachers under contract with school jurisdictions and charter schools in Alberta are required to contribute to the Teachers' Pension Plan. Current service costs and related deficiencies are funded by equal contributions from the Province and the teachers. An additional 10 percent cost-of-living adjustment for service earned after 1992, as described in Note 2(i), is funded entirely by the teachers.

The unfunded liability for service credited prior to September 1, 1992 is being funded by additional contributions in the proportions of 67.35 percent by the Province and 32.65 percent by the teachers over the period ending August 31, 2060.

Certain public colleges and other designated organizations in Alberta also participate in the Teachers' Pension Plan under the same funding arrangements, except these organizations make the employer contributions rather than the Province.

Certain private schools participate in the Private School Teachers' Pension Plan. Plan costs are funded by contributions from the employers and the teachers.

NOTE 2 DESCRIPTION OF PENSION PLANS (CONTINUED)

d) Retirement Pensions

Retirement pensions are based on the number of years of pensionable service and the highest consecutive five-year average salary. Pensions are payable to teachers who retire after completion of at least five years of pensionable service, with certain restrictions, and who have attained age 65. Unreduced pensions are also payable to teachers who have reached at least age 55 and the sum of their age and service equals 85. With certain restrictions, reduced early retirement pensions are payable to teachers who retire on or after age 55 with a minimum of five years of pensionable service.

e) Disability Benefits

Teachers who are disabled after August 31, 1992 are credited with pensionable service while disabled. Teachers do not contribute to the Plans while disabled.

f) Termination Benefits

Subject to lock-in provisions, refunds and commuted value transfers are available when a teacher ceases employment.

g) Death Benefits

Death benefits are available upon the death of a teacher and may be available upon the death of a pensioner. The benefit may take the form of a lump sum payment or a survivor pension.

h) Other Provisions

Purchase of past service and reinstatement of refunded service is allowed on a basis that is cost neutral to the Plans.

i) Cost-of-Living Adjustments

Pensions payable are increased each year by an amount equal to 60 percent of the increase in the Alberta Consumer Price Index. The portion of pension earned after 1992 is increased by an additional 10 percent of the increase in the Alberta Consumer Price Index.

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES

a) Basis of Presentation

The financial statements are prepared on a going-concern basis in accordance with Canadian generally accepted accounting principles and present the aggregate financial position of the Plans. The statements disclose the net assets available to meet future benefit payments, and are prepared to assist participants and others in reviewing the activities of the Plans for the fiscal year.

b) Investments

Investments are recorded as of the trade date and are stated at fair value. The methods used to determine year-end fair value are explained in the following paragraphs.

- Money-market securities are recorded at cost which approximates fair value.
- The fair value of publicly traded securities is based on market prices quoted by independent suppliers of securities related data.
- Fair value of real estate, oil and gas properties, and private placements, not publicly traded, is based on estimates as determined by management in conjunction with industry specialists.

Premiums and discounts arising on acquisitions are amortized using the effective interest rate method and included in investment income. Changes in fair value subsequent to acquisition are included in change in fair value of investments (Note 8).

c) Foreign Exchange

Foreign currency transactions are translated into Canadian dollars at rates of exchange prevailing at the dates of the transactions. At year end, the fair value of investments and any other assets and liabilities denominated in a foreign currency are translated at the year-end exchange rate. Gains or losses resulting from exchange differences are included in the determination of the change in fair value of investments.

d) Derivative Financial Instruments

Gains or losses on forward foreign exchange contracts are recognized with changes in market value, and are included in the determination of current year change in fair value of investments.

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND REPORTING PRACTICES (CONTINUED)

e) Capital Assets

Capital assets are recorded at cost and amortized over their estimated useful lives. Amortization is calculated using the straight-line method at the following annual rates:

10-25% Furniture and equipment 20-33.3% Computer hardware and software

Software under development is not amortized until implemented.

f) Measurement Uncertainty

The preparation of financial statements, in conformity with Canadian generally accepted accounting principles, requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results could differ from these estimates.

Measurement uncertainty exists in the calculation of the Plan's actuarial value of accrued benefits. Uncertainty arises because the Plan's actual experience may differ significantly from assumptions used in the calculation of the Plan's accrued benefits.

Differences between actual results and estimates are disclosed in the statement of changes in accrued benefits in the year when actual results are known.

		2,412,748		1,981,732		2,017,944		1,794,207
	\$	3,326,099	\$	2,848,364	\$	2,856,941	\$	2,568,750

NOTE 4 INVESTMENTS (CONTINUED)

a) US Pooled Funds

The Plans' US equity investments are held through ownership of units in two pooled funds each managed using a passive strategy with the objective of replicating the return of the *Standard & Poor's 500 United States Equity Index*. One fund invests directly in the US equity market and as at August 31, 2005, the Plans' proportionate interest in this pool had a fair value of \$227,702,000 (2004: \$176,101,000). The other fund invests in stock index futures contracts and Canadian dollar short-term fixed income investments. As at August 31, 2005, the Plans' proportionate interest in this pool had a fair value of \$557,629,000 (2004: \$505,368,000). A stock index futures contract is an agreement to take or make a delivery of an amount of cash equal to the difference between changes in the level of the stock index over a specified period.

b) Interest Rate Risk

Interest rate risk relates to the impact of interest rate changes on the Plans' cash flows and financial position. This risk arises from differences in the timing and amount of cash flows related to the Plans' assets and liabilities.

As at August 31, 2005, a 1% increase in nominal interest rates would result in a decline in the fair value of Fixed Income investments of 5.9% (2004: 7.9%).

Based on fair values at August 31, 2005, Fixed Income investments have the following average effective yields and term structures:

			(in thousands)			
		2005			2004	
Within 1 Year	Terms of Ma 1 to 5 Years	turity Over 5 Years	Total	Average Effective Yield	Total	Average Effective Yield
\$ 91,022	\$ —	\$ —	\$ 91,022	2.57%	\$ 94,759	2.03%
4,002	309,016	499,334	812,352	4.13%	543,068	4.71%
_	_	_	_	_	187,602	1.48%

Money-market securities Bonds and debentures Real return bonds

c) Credit Risk

Credit risk arises from the possibility that a loss may occur from the failure of another party to perform according to the terms of a contract.

The Plans limit their credit risk by dealing with counter parties that are considered to be of high quality, setting and monitoring compliance with portfolio guidelines, diversification and obtaining collateral where appropriate.

The Plans record all investments at fair value. Consequently, investment values reflected in Note 4 of these financial statements represent the maximum credit risk exposure of the Plans as at August 31, 2005.

NOTE 4 **INVESTMENTS (CONTINUED)**

d) Currency Risk

Currency risk arises from the Plans' holding of equities that are denominated in foreign currencies. A portion of the currency exposure may be hedged by foreign currency forwards. Foreign currency forwards are contractual obligations either to buy or sell a specified amount of foreign currencies at predetermined future dates and exchange rates.

The Plans' foreign currency exposure is as follows:

	-	(in thousands)							
	_			2005			_	2004	
	-	Foreign Currency Exposure		Foreign Currency Hedge		Net Foreign Currency Exposure	_	Net Foreign Currency Exposure

NOTE 11 OBLIGATIONS FOR BENEFITS

a) Extrapolations and Assumptions

Actuarial valuations of the Plans were done as at August 31, 2004. Extrapolations were prepared for reporting purposes as at August 31, 2005. The present value of accrued benefits was determined using the projected benefit method prorated on service. The assumptions used in the valuations and extrapolations are based on management's best estimate of future events.

The major long-term economic assumptions used in the current year actuarial extrapolations and the 2004 valuations are:

	2005	2004
Rate of return on invested assets	7.25%	7.25%
Rate of inflation	3.00%	3.00%
Real wage increases	1.00%	1.00%
Teacher population growth	0.25%	0.25%

Future experience will differ from those assumptions. Any differences between the actuarial assumptions and future experience will emerge as gains or losses in future actuarial valuations.

b) Sensitivity of Changes in Major Assumptions

As at August 31, 2005, a 0.25% decrease in population growth rate under the Teachers' Pension Plan, holding all other assumptions constant, would increase the amount of contributions required to fund the unfunded liability attributable to service credited prior to September 1992 by 0.51% of total teacher salaries. No change would occur to the value of accrued pension benefits. The amount of contributions required to fund the deficiency attributable to service credited after August 1992 would increase by 0.04%.

As at August 31, 2005, a 0.50% decrease in the rate of return on invested assets and in the real rate of return under the Teachers' Pension Plan, holding all other assumptions constant, would increase the amount of contributions, expressed as a percentage of total teacher salaries, required to fund:

- i) current service costs by 1.46%,
- ii) the unfunded liability attributable to service credited prior to September 1992 by 0.57%, and
- iii) the deficiency attributable to service credited after August 1992 by 1.40%.

The accrued pension benefits would increase approximately \$722 million.

NOTE 11 **OBLIGATIONS FOR BENEFITS (CONTINUED)**

c) Results Based on Extrapolations

The extrapolation for the Teachers' Pension Plan to August 31, 2005 determined an unfunded liability of \$6.266 billion, attributable to service credited prior to September 1992 and a \$672 million deficiency attributable to service after August 1992. The unfunded liability and deficiency are being funded as described in Note 2c.

The extrapolation for the Private School Teachers' Pension Plan to August 31, 2005 determined a surplus of \$0.175 million.

d) Post-fund Receivable from Pre-fund

The net assets available for benefits related to the Teachers' Pension Plan are segregated into pre-September 1992 and post-August 1992 funds. All disbursements and receipts since September 1992 have been charged or credited to the appropriate fund.

During the 2002-2003 year, assets available to the pre-September 1992 fund were depleted. In accordance with legislation, each month since that time, assets have been advanced from the post-August 1992 fund to the pre-September 1992 fund to enable it to meet its ongoing commitments.

A rate of interest equal to the assumed rate of return on invested assets was used to charge interest on amounts advanced.

228,192	\$ 82,125	
134,080	135,122	
21,761	10,945	
384,033	\$8	
	2005 228,192 134,080 21,761	

NOTE 12 CHANGE IN ACCOUNTING POLICY

Effective August 31, 2005, management introduced a change in accounting policy to value assets on the fair value basis for accounting purposes with no smoothed value reported. For funding purposes, the actuarial value of net assets available for benefits will continue to be determined by averaging projected net assets available for benefits over a five-year period. Previously the actuarial method was also used for accounting purposes.

As at August 31, 2005, this change in accounting policy has the effect of decreasing the Plans' deficiency by \$28 million. If the change had not been made, the Teachers' Pension Plan's deficiency would have been \$6,966 million, and the Private School Teachers' Pension Plan's surplus would have been \$18 thousand at August 31, 2005.

This change in accounting policy has been applied retroactively and the Plans' deficiency at August 31, 2003 and 2004 have been restated. The effect of this change in accounting policy is to increase retroactively the Plans' deficiency by \$239 million at August 31, 2003 and \$129 million at August 31, 2004.

NOTE 13 INVESTMENT PERFORMANCE

The following is a summary of the investment performance results attained by the Alberta Teachers' Retirement Fund Board:

	One-Year Return	Five-Year Average Annual Compound Rate
Alberta Teachers' Retirement Fund Board	12.8%	3.9%
Benchmark (a)	12.7%	2.0%

⁽a) The benchmark return is a weighted average of certain market index returns, approved by the Board, based on the fund's policy asset mix.

The long-term real rate of return assumption is based on management's best estimate of future events. This long-term rate of return target was set at 3.5 percent over inflation for the year ended August 31, 1993, 4 percent over inflation for the four years ended August 31, 1997, 4.5 percent over inflation from September 1, 1997 to August 31, 2004, and then 4.25 percent from September 1, 2004. Over the thirteen-year period since September 1, 1992, the Fund's average annual compound rate of return was 8.7 percent, compared to the long-term target of 6.6 percent.

NOTE 14 REMUNERATION AND COMPENSATION

a) Board Member Remuneration

Five Board members, who are employed by the Province of Alberta or by an employer participating in the plans, are not paid fees for Board and committee meetings attended. One other Board member received remuneration of \$13,400 (2004: \$8,300). For the year ended August 31, 2005 the Board Chair received remuneration of nil (2004: nil).

b) Senior Staff Compensation

_	(in dollars)				
_	2005			2004	
_	Base Salary	Bonus (a)	Benefits & Allowances (b)	Total	Total
Chief Executive Officer (c)	\$174,000	\$51,000	\$34,000	\$259,000	\$248,000
Chief Investment Officer (c)	160,000	67,000	29,000	256,000	248,000
Portfolio Manager, Equities	156,000	95,000	23,000	274,000	275,000
Portfolio Manager, Bonds	128,000	13,000	17,000	158,000	156,000
Senior Investment Analyst	105,000	24,000	18,000	147,000	142,000

- (a) Senior staff are eligible to receive bonuses based on the achievement of pre-set corporate and investment targets established by the Board. Bonuses for investment professionals are based on a combination of total fund and portfolio performance targets, measured in value added above benchmarks. Performance versus benchmark is measured over five-year and one-year performance periods.
- (b) Benefits and Allowances includes the employer's share of all employee benefits and contributions or payments made on behalf of employees, including pension, health care, dental coverage, vision coverage, group life insurance, long-term disability plan, professional memberships and tuitions, and car allowances.
- (c) Position titles changed from Executive Director to Chief Executive Officer, and from Director of Investments to Chief Investment Officer.

NOTE 15 **BUDGET INFORMATION**

The accrued pension benefits are based on management's best estimates of future events after consultation with the Plans' actuary. Differences between actual results and management's expectations are disclosed as net experience gains in the statement of changes in accrued pension benefits. Accordingly, a budget is not included in these financial statements, with the exception of administrative expenses (Note 10).

⁴ The Public Sector Accounting Board of the Canadian Institute of Chartered Accountants has issued standards that require controlled entities to be fully consolidated line-by-line. In a transitional period to March 31, 2008, the Ministry is permitted to use the modified equity method of accounting. Under the modified equity method, the controlled entities' net assets and operating results would be included in one line on the Ministry's consolidated statements of financial position and operations, respectively. The Ministry has not yet included the financial statements of these controlled entities. In the transitional period, the government will assess when and how to include these controlled entities in the Ministry's consolidated financial statements. The financial results of these controlled entities are included in the consolidated financial statements of the Province of Alberta for the year ended March 31, 2006 on a modified equity basis.
