Special Needs Assistance for Seniors program

The Special Needs Assistance for Seniors program provides financial assistance to eligible seniors with low income toward the cost of some appliances, and specific health and personal supports. The program provides a lump-sum payment for eligible expenses. The maximum assistance available is \$5,643 in a benefit year.

Who is eligible

You may apply to the Special Needs Assistance for Seniors program if you:

- are eligible to apply for and have submitted an application for Seniors Financial Assistance (Alberta Seniors Benefit program)
- have income within the income thresholds

Benefit year

Your and your spouse/partner's (if applicable) previous year's income will be used to determine your eligibility for the benefit year, which runs from July 1 of the current year to June 30 of the next year.

Less than \$26,680	Primary and Secondary items
\$26,681 - \$31,080	Primary items only

Proof of income

Your 2022 income information is used to assess your claim. Your income is obtained from the Alberta Seniors Benefit program. Your and your spouse/partner's total income as reported on line 15000 of your tax return(s) is used to determine your eligibility for benefits.

How it works

Making a claim

Online option: make your Special Needs Assistance for Seniors claims and review personal claims history online using your MyAlberta Seniors account. For more information or to set up an account, visit sfa.alberta.ca or send your receipt or estimate to the program using one of the options described on page 11.

You may use the enclosed *Special Needs Assistance for Seniors request form* when providing your receipt or estimate, but the form is not required for you to make a claim. Ensure that the receipt or estimate has your:

- name
- Personal Health Number
- address
- phone number

Authorizing a representative

If you wish to authorize an individual to help you with your request, you need to complete the enclosed request form. The program will contact this person if we have any questions or need more information. This individual may also contact the program to obtain information about the request on your behalf.

Supporting documentation

Please send all supporting information for each item you need help with, so your request can be assessed in a timely manner. **You must send a receipt or estimate for all items requested.**

The program can accept a receipt for an item that was bought up to 12 months ago. The date of the receipt is compared to the date we receive your claim. You must have been eligible to make a claim when the item was purchased.

Medical notes

Some funded items require medical notes. Unless otherwise specified in the booklet, a Health Professional includes a physician, nurse practitioner, registered nurse, registered social worker, physical therapist or occupational therapist working in the field of health care.

After you apply

Your request will be thoroughly reviewed. You will be notified by mail regarding the outcome of the review.

Appliances/furniture

Only **one** of each funded appliance/furniture type is considered for either a single senior or senior couple in a lifetime (for example, you can only receive funding for a fridge **one** time from this program).

Funding is considered for **one** furniture/appliance item for a single senior or senior couple in a benefit year. This includes furniture/appliances under primary and secondary items (you can receive funding for a bed or a television in **one** benefit year, not both). Some exceptions are allowed (see page 5).

Where you live (primary residence) determines which appliances/furniture items you can claim:

- homeowners and mobile homeowners — all appliances/furniture
- renters — bed, microwave, television and vacuum
- living with and/or renting from family/friends — bed
- long-term care residents — television
- lodge and designated supportive living residents — bed and television

Special circumstances

The following are special circumstances that may affect the assessment of your claim.

Estates

Estates of a deceased senior may be eligible to receive reimbursement for eligible expenses that a senior incurred prior to his or her death if the request is received within three months of the date of death.

Seniors living in a long-term care or designated supportive living facility

If you are a senior couple and have been involuntarily separated for health reasons and one of you is residing in a long-term care facility, or designated supportive living facility, the Alberta Seniors Benefit may provide additional support. Special Needs Assistance for Seniors may also take into consideration that you are maintaining two residences.

If you live in long-term care or designated supportive living, Special Needs Assistance for Seniors will deduct any Supplementary Accommodation Benefit claimed on your income tax return before calculating your eligibility for assistance.

Expenses before 65 years of age

The program is for seniors over the age of 65 years. Any expenses you have before your 65th birthday are not eligible for funding. Assistance is not provided for a spouse/partner under 65 years of age nor dependant children or grandchildren.

Keep your receipts

If you provide an estimate rather than a receipt or apply online, you may be asked to send in receipts showing that you purchased and paid for the items for which you received funding. Receipts should be mailed to the program within three months of receiving the payment. If receipts have not been received, a reminder letter will be sent.

You may, at a later date, be asked to send in receipts, so keep all receipts for funded items. If you do not spend the money on the items that are funded, you may be asked to return the money. A senior who does not send a receipt or return the money may not be eligible for assistance from the program in the future.

Appeal process

To request an explanation or review of the information used to determine your eligibility for the Special Needs Assistance for Seniors program call the Alberta Supports Contact Centre toll-free at 1-877-644-9992. You may appeal a decision regarding your request for assistance.

Step 1. Write a letter of appeal

Special Needs Assistance for Seniors
PO Box 3100
Edmonton AB T5J 4W3

In addition to age, type of residence, financial resources available through other programs, and level of income, the Director will consider whether a one-time Necessities Benefit contributes to:

- the health and/or safety of the senior.
- the senior's ability to maintain independence in their home and community.
- relief from financial hardship caused by unexpected or cumulative costs that are not covered under other programs.
- a marked improvement in the senior's quality of life.

You will receive a letter notifying you of the Director's decision, the legislative authority under which the decision is made, the evidence considered and the reason(s) for the decision.

Step 2. Request a final review

If your concern is not resolved, request a final review by the program by writing to:
