- e. Provincial government employee
- f. Health and/or safety professional
- g. Municipal official
- h. Housing organization and/or landlord
- i. Other (please specify)

Which city or town do you live in?

Introduction

Albertans have raised concerns about the Persons with Developmental Disabilities (PDD) Safety Standards Regulation. As a result, a Consultation Team was appointed to oversee an engagement on what the safety standards should be for people receiving services through PDD and who they should apply to.

This survey was developed to better understand your opinions on safety in the homes of Albertans receiving PDD program supports. This will help the Consultation Team identify solutions that foster safety in the community and affirm the rights of persons with developmental disabilities to live with dignity and opportunity in the community while recognizing and respecting their need for safe, healthy and supported lives.

The survey consists of eight questions and should take about 20 minutes to complete.

Completed surveys must be received by March 14, 2016.

The personal information you provide in this survey is collected under the authority of section 33(c) of the *Freedom of Information and Protection of Privacy Act* (FOIP Act). It will be managed in accordance with the privacy protection provisions established in the FOIP Act. If you have any questions about the collection of your personal information, contact the PDD Safety Standards Consultation Team at HS.PDDConsult@gov.ab.ca.

Persons with Developmental Disabilities Safety Standards Engagement Questionnaire

1. What makes a home safe?

2. What should be the role of the following groups in supporting safety in the homes of Albertans receiving supports through the PDD program?
