Chair's Letter to the Minister

September 2007

The Honourable Doug Horner Minister of Advanced Education and Technology 324 Legislature Building 10800 - 97 Avenue Edmonton, Alberta T5K 2B6

Dear Minister Horner:

On behalf of the Access Advisory Council, I am pleased to provide you with the first Annual Report of the Council for the fiscal year ending March 31, 2007. The report summarizes the Council's activities since its appointment in July 2006 and Access to the Future Fund programming to date.

In its 2005 Speech from the Throne, the Government of Alberta announced the creation of the Access to the Future Fund as a mechanism to enhance and expand accessible, affordable and high quality advanced learning opportunities for Albertans. Building upon the strong base of Alberta's advanced learning system, the Fund is a key catalyst in moving the system to the next levels of innovation and excellence.

The first grants were provided through the Access to the Future Fund's matching program in the 2006/2007 fiscal year, and post-secondary institutions province-wide have already benefited from this incentive program aimed at increasing the level of charitable giving. With these matching funds, scholarships, endowed chairs, contributions to leading edge equipment and facilities, applied research, and other initiatives have been funded – all of which will have a long-ranging impact on our post-secondary institutions and the learners they serve.

Funded from a permanent endowment, the Access to the Future Fund is positioned to effectively sustain improvements to our advanced learning system over the long-term, and truly move the system forward to a place of global leadership. The Council was pleased with the Government of Alberta's \$250 million deposit into the endowment in 2006/2007, and looks forward to continued progress towards a fully-funded endowment of \$3 billion.

As a Council, we are dedicated to continuing our work with the Access to the Future Fund into its second year and beyond. While the Renaissance Fund matching program will continue to inspire giving, the project-based Innovation Fund, to be launched in 2007/2008, will make targeted investments aimed at increasing participation rates of under-represented groups, boosting the creativity and innovative practices of advanced learning providers, and motivating a spirit of collaboration.

We remain committed to providing timely and thoughtful recommendations to you, and anticipate another excellent year in 2007/2008.

Sincerely,

Original signed by

Terrance E. Royer Chair, Access Advisory Council

Overview of the Access to the Future Fund

Established in 2005 by the Access to the Future Act, the Access to the Future Fund was created to support innovation and excellence within Alberta's advanced learning system.

The Fund receives income from an endowment currently valued at \$1 billion that is held within the Alberta Heritage Savings Trust Fund. An endowment provides a predictable and sustainable funding source for leading edge initiatives in the advanced learning system.

The Fund achieves its objectives of enhancing and expanding accessible, affordable, and high-quality learning opportunities through two programs: the Renaissance Fund and the Innovation Fund.

The Renaissance Fund is a matching program designed to stimulate donations to the advanced learning system. In 2006/2007, \$42.5 million in grants were disbursed to match contributions to the advanced learning system.

The Innovation Fund is designed to support term-specific innovative and collaborative projects that foster partnerships and generate benefits across the advanced learning system.

The 2006/2007 fiscal year marked the launch of programming under the Access to the Future Fund, and the first funding disbursements were made through the Renaissance Fund matching program.

The Minister of Advanced Education and Technology administers the Access to the Future Fund based on advice and recommendations provided by the Access Advisory Council. Financial reporting, including the Access to the Future Fund audited financial statements, is incorporated into the Ministry's Annual Report.

Access Advisory Council

The Access Advisory Council was appointed in July 2006 to provide strategic advice and recommendations to the Minister of Advanced Education and Technology regarding the Access to the Future Fund's objectives, operation, and reporting.

Specifically, the Council was tasked with the following deliverables when it was appointed:

- developing application, evaluation, and accountability processes;
- reviewing proposals and identifying projects to be funded;
- monitoring the successes and outcomes of the Fund;
- providing advice on the operation of the Fund; and
- reporting on the Fund's activities.

The Council met four times in 2006/2007 with its activities focused on achieving the following outcomes:

- establishment of Council procedures and the initial orientation of its members;
- recommending that the Renaissance Fund matching program be the priority for funding in 2006/2007;
- providing advice regarding the Renaissance Fund's launch, including measures to address the varied fundraising abilities of eligible recipients; and
- development of objectives, criteria, and processes for the Innovation Fund.

Council Membership

Terrance E. Royer, Chair

Harold Banister

Peter Freeman

Michael Frey

Grant Howell

Lou Hyndman

Pamela MacGillivray

Alan Moon

William G. Sembo

Members were selected based on their knowledge of the advanced learning system, broad social and economic understanding, and experience working in a similar capacity.

Highlights: Program Development

Spring 2005 The Government of Alberta announces the creation of the Access to the Future Fund.

- **Summer 2005** A stakeholder committee is established to provide recommendations on the program design of the Access to the Future Fund and structure of the Access Advisory Council. The committee presents its report in the fall.
- **Fall 2005** Extensive consultation is undertaken, and approximately 120 stakeholders are sent the committee's report and asked for feedback. These include MLAs, post-secondary providers, student and faculty organizations, industry, and other interested public.
- **Spring 2006** Government finalizes the Fund's operational parameters through the Standing Policy Committee, Cabinet, and Caucus approval processes. The Fund is approved to contain two broad components: the Renaissance Fund and the Innovation Fund.
- **Summer 2006** The Access Advisory Council is established. The Minister appoints nine public members, including a chair, following a recruitment process that included inviting stakeholders to encourage qualified individuals to submit applications.

Highlights: Program Implementation

- Fall 2006The Council makes its first recommendations to the Minister to operationalize the Renaissance Fund
matching program in 2006/2007 and to continue the development of the project-based Innovation Fund.
The recommendations are accepted.
- **Winter 2006** Detailed guidelines for the Renaissance Fund matching program are developed and distributed to eligible recipients. Available funding is allocated among the thirty-five eligible recipients who are then asked to identify priority uses for their matching funds.
- **Spring 2007** \$42.5 million is disbursed to eligible recipients for use towards applied research, endowed chairs, equipment for program delivery, facilities for learning and research purposes, scholarships and bursaries, sponsored teaching positions, and other purposes that support the Access to the Future Fund's objectives.

The project-based Innovation Fund is designed by the Council, taking into consideration system needs, alignment with the *A Learning Alberta* policy framework, and the best practices of other programs. Set for implementation in 2007/2008, funding for the Innovation Fund will be based on a competitive application process. The Access Advisory Council will review applications and make recommendations to the Minister on projects to be funded.

Report of 2006/2007 Operations

In the 2006/2007 fiscal year, 100 per cent of the Access to the Future Fund's income was allocated to the Renaissance Fund matching program.

Eligible organizations for this program are public post-secondary institutions, private not-for-profit institutions authorized to offer degrees, Aboriginal colleges, and the Apprenticeship and Industry Training Family of Scholarships.

Each eligible organization was allocated a proportion of the total available funding, and was provided the flexibility and autonomy to identify its priority donations for matching.

Of the \$45 million available through this program, \$42.5 million was disbursed to eligible recipients following a review of submitted documentation. The remaining funds represent allocations to eligible organizations which did not meet their fundraising targets by the date of their submissions.

A goal of the Access to the Future Fund is to encourage incremental donations to post-secondary institutions in areas where a dynamic donor community can be enhanced. To this end, all eligible recipients were given three years to meet their 2006/2007 fundraising targets. In cases where institutions did not meet their fundraising targets, remaining funds have been carried forward to be added to their 2007/2008 allocations.

In addition, minor changes to the Access to the Future Act were introduced in the spring sitting of the Legislature to facilitate matching payments for the Alberta Apprenticeship and Industry Training Family of Scholarships.
