Bighorn Backcountry Public Land Use Zones

Shunda/ Goldeye Area

The Bighorn Backcountry is managed to ensure protection of the environment, while allowing responsible recreation use. It is your responsibility to know what, where and when activities are permitted in the area. For additional details refer to the Bighorn Backcountry brochure.

The Shunda/Goldeye area contains a large trail network. Both non-motorized users and off-highway vehicle users may be on the same trail at the same time. By being responsible and obeying regulations, you will be respecting the efforts that volunteers have invested in providing you with this opportunity. Everyone has a stewardship role to play. Remember, continued access to this area depends on the actions of those who use it.

Motorized Trails

Baldy Mountain

The viewpoint on top of Baldy Mountain makes this a favourite trail for many people. There are several other motorized trails that connect to the Baldy Mountain Trail. Access is off the Baldy Mountain Road or the west end of the Shunda Creek Road.

Baldy Mountain is home to the Baldy Lookout Tower as well as the seasonal lookout observer who watches over the area for smoke indicative of wildfire. When exploring this fantastic observation point, please keep in mind that the lookout tower is a place of work as well as a residence and the privacy of the observer must be respected.

Note: Some areas or sections of trail may be closed due to environmental and safety concerns. You are required to obey all posted signs and notices and keep the area in a clean and tidy condition. Off-highway vehicles and snow vehicles must remain on the designated trails at all times which includes designated bridges and water crossings.

All off-highway vehicles and snow vehicles on public land require:

- valid registration and insurance (including those under 50cc);
- licence plate must be visible and properly affixed to the OHV;

- tail lamp on vehicle capable of emitting a red light visible from at least 60 metres (185 feet);
- at least one white headlamp on vehicle front capable of illuminating a person, vehicle or thing from at least 60 metres (185 feet); and
- proper exhaust muffler with spark arrestor.

No matter how you enjoy Alberta's public lands, your presence has an impact. Respect the land and other users by:

- Staying on the designated trail at all times.
- Respecting others by sharing the trail; motorized users must yield to non-motorized users.
- Pulling over to the right side of the trail, turning off the engine and removing helmets when horses are approaching.
- Packing out all garbage.
- Avoiding spinning your tires, skidding or "mud-bogging."
- Respecting wildlife.
- Respecting reforestation, reclamation, restoration and volunteer maintenance efforts.
- Washing your vehicle between uses to prevent weed transfer between areas.
- Never washing a vehicle in a creek, river or lake.
- Preventing fuel spillage with careful storage and refueling practices.
- Reporting unauthorized or illegal activities to local authorities.

Non-motorized Trails

FireSmart Trails

Pass through time and witness dynamic forest growth. The Government of Alberta has developed over 17 km of new FireSmart trails so present and future generations can witness the growth of a diverse ecosystem resulting in a safer community and healthier forest. Visitors will witness dynamic forest growth and experience firsthand the changes that occur seasonally and yearly.

These particular trails are strictly for non-motorized use and can be accessed from the Goldeye Lake PRA, Fish Lake PRA or the point where the trail crosses Highway 11 just west of the Goldeye turnoff.

Geocaching – There are multiple geocache sites located within the Bighorn Backcountry. Geocaching is an outdoor treasure hunting game using GPS-enabled devices. Participants navigate to a set of GPS coordinates and then attempt to locate a geocache container hidden at that location. To find various sites visit www. geocaching.com.

YOU ARE RESPONSIBLE FOR YOUR OWN SAFETY!

Trails within the Bighorn Backcountry Public Land Use Zone are **UNSUPERVISED**. Use at your own risk and to your level of skill.

You may encounter a variety of hazards while you're out on the trail including but not limited to a sudden change in weather, dangerous wildlife and unstable areas on or adjacent to the trails. Be prepared, take the proper gear, carry sufficient water and food, bring extra clothing in case of adverse weather, pay attention to your surroundings and use good judgment and caution while you're out.
