MATH 411

A Number of Options

How do the courses work?

Below is a chart showing how the courses relate to one another and what options students will have as they progress through their high school careers.
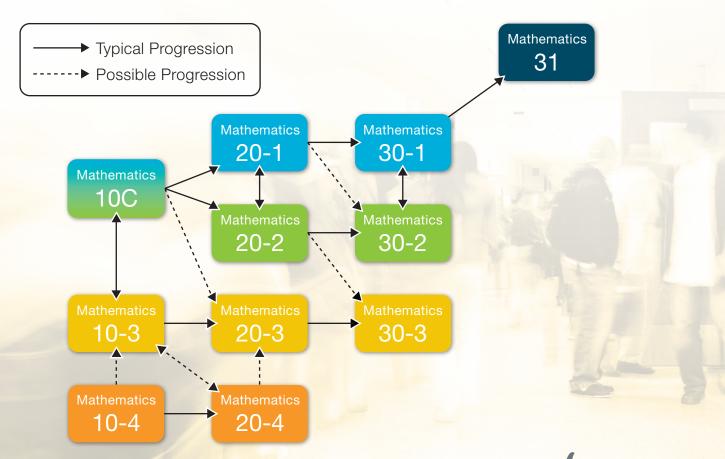

Please note:

Mathematics 10C is for students who want to take Mathematics -1or Mathematics -2, or who just aren't sure yet.

Mathematics 10-4 and **20-4**, are the Knowledge and Employability courses.

Mathematics 31 is an introductory calculus course. Mathematics 30-1 is a co-requisite for Mathematics 31.

Progression Through Course Sequences
