The **2015-16 Supplementary Supply Estimates** reports additional requirements for public monies to fund the operations of the Government for the year ending March 31, 2016. The estimate amounts presented in this report are supplements to the original estimate amounts provided by the Legislative Assembly in the *Appropriation Act, 2015* as detailed in the *2015-16 Government Estimates*.

### **Information Presented**

The **Schedule of Amounts to be Voted** illustrates a draft schedule for the Appropriation (Supplementary Supply) Act, 2016 Bill as it would be presented if Committee of Supply resolved to affirm the supply votes as presented in this report.

The **2015-16 Government Estimates Restated for Reorganization** summarizes the restatements of the Original Estimates pursuant to a Designation and Transfer of Responsibility Amendment Regulation under the *Government Organization Act* (passed by Order in Council on February 2, 2016).

The **Current Voted Appropriations** provides the Current Estimate amounts, which is the total of the Original Estimate amounts and all Approved Adjustments. Estimate and adjustment amounts are presented by department/office and type of supply vote.

The **Adjustments Approved by Treasury Board** lists the changes in appropriations approved by the Treasury Board committee pursuant to the *Financial Administration Act* and the *Appropriation Act, 2015*.

The **Encumbrance of 2015-16 Supply Votes** lists the changes in appropriations pursuant to section 28(4) of the *Financial Administration Act*, which requires that any expenditure in 2014-15 that exceeded the appropriation authority for that year must be counted against the authority of a corresponding appropriation in the 2015-16 fiscal year.

The **Changes to Voted Appropriations** presents the Current Estimate, requested Supplementary Estimate, requested Transfers of Voted Amounts and total amounts to be drawn from the General Revenue Fund for each department/office and type of supply vote.

The **Details of 2015-16 Supplementary Supply Estimates** provide the Current Estimate, Supplementary Estimate, Transfers of Voted Amounts and total amounts, as appropriate, for each program request, the reasons for the requests, and a summary placing the requested supplementary amount(s) in the context of the original supply vote for each department or office.

### **Definitions of Supply Votes and Other Terms**

An **Estimate** is the amount required by the government to meet each of its planned commitments for the fiscal year ending March 31, 2016. The *Financial Administration Act* requires the government to report estimates of any amount that will require a cash withdrawal from the General Revenue Fund.

A **Supply Vote** is a discrete allocation from the 2015-16 estimates that defines the amount of cash that may be drawn from the General Revenue Fund for a specified purpose. Following the principle of ministerial accountability, supply votes are divided along departmental lines. As in the *2015-16 Government Estimates*, three general types of purpose are used in the *2015-16 Supplementary Supply Estimates*: Expense, Capital Investment and Financial Transactions.

An **Appropriation** is an authorization to withdraw and expend public money from the General Revenue Fund or another provincial fund or account. The *Financial Administration Act* requires that all such authorities be provided in legislation passed by the Legislative Assembly. Appropriations may be created by an appropriation act or another statute. Appropriations under an appropriation act must be created pursuant to a supply vote, or a set of supply votes, as resolved by the Committee of Supply.

**Expense** amounts are cash disbursements for the purposes of salaries, supplies and services, operating grants, capital grants to parties outside the consolidated government, as well as interest expense and other debt servicing costs for borrowing related to both capital and general government purposes.

**Capital Investment** consists of cash disbursements for the purposes of investments by the consolidated government in tangible capital assets valued at \$5,000 or more. These amounts include any capital payments to related parties that will result in the creation of a tangible asset for that related party and the consolidated government as a whole. Capital payments to related parties are shown under their own sub-header.

**Financial Transactions** consist of cash disbursements for the purposes of payments for the reduction of a liability (including debt repayment), expenses to be recognized in a future year, the acquisition of financial assets, or the purchase of inventories. Financial liabilities for alternatively financed capital projects are reduced by payments from a Financial Transactions vote.

**Original Estimate** is the estimate amount approved by *the Appropriation Act, 2015* as detailed in the *2015-16 Government Estimates* tabled in the Legislative Assembly on October 27, 2015.

**Restated Original Estimate** is the Original Estimate adjusted only for those Approved Adjustments made by Designation and Transfer of Responsibility Regulations under the *Government Organization Act*.

**Approved Adjustments** are authorized changes in estimate amounts subsequent to the Original Estimate. Approved Adjustments for 2015-16 may have received appropriation authority under one of the following acts:

1. a Designation and Transfer of Responsibility Regulation under the *Government Organization Act*;
2. section 24(2) of the *Financial Administration Act* for a credit or recovery of expenditure;
3. section 28.1 of the *Financial Administration Act* for a capital carry over;
4. section 6 of the *Appropriation Act, 2015* for transfers between supply votes, or
5. section 28(4) of the *Financial Administration Act* for an encumbrance due to an over-expenditure in the prior year.

**Current Estimate** is the total of the Original Estimate and all Approved Adjustments obtained to date.

A **Supplementary Estimate** is an amount requested to be added to the Current Estimate of an existing supply vote or a request for a new supply vote.

A **Transfer of Voted Amount** is an amount requested to be moved out of an existing supply vote into another within the same or another department.

### TRANSFER

This transfer amount of \$25,000,000 from the Capital Investment vote is requested to provide funding to the Town of High River for the building of flood mitigation berms that will provide a greater level of protection for families and businesses in High River and surrounding communities. This request reflects the government's decision to provide funding to the Town of High River and surrounding communities to design and build local flood mitigation projects rather than to build a government-owned diversion channel.
