## PREFACE

**Supplementary Supply Estimates** for the General Revenue Fund are presented for nine departments of the Government of Alberta. The Legislative Assembly will be asked to appropriate spending authority from the General Revenue Fund, pursuant to the *Appropriation (Supplementary Supply) Act, 2010*. These Supplementary Supply Estimates reflect the same budgeting methodology as the 2009-10 Estimates which were tabled on April 7, 2009.

The Supplementary Supply Estimates will authorize a \$920,506,000 increase in Expense and Equipment / Inventory Purchases, a \$4,731,000 increase in Capital Investment, and a \$32,888,000 increase in Non-Budgetary Disbursements.

### **Definition of Terms:**

**Expense and Equipment / Inventory Purchases** include the following:

Expense consists of program expense and debt servicing costs. Program expense consists of salaries, supplies and services, grants, financial transactions and the amortization of capital assets, which includes the consumption of inventories;

Equipment / Inventory Purchases consists of consumable inventories and movable capital assets, which are routinely moved or which may be installed as a service level improvement to existing facilities, and which cost in excess of \$5,000.

**Capital Investment** consists of immovable capital assets, construction equipment, equipment installed upon construction or replacement, renovations to immovable capital assets which extend their life or enhance their functionality, and major scientific or information technology acquisitions in excess of \$5,000.

**Non-Budgetary Disbursements** include cash payments for the reduction of a liability, expenses to be recognized in a future year, or the acquisition of a financial asset. Financial liabilities for alternatively financed capital projects are reduced by payments from a non-budgetary disbursement vote.

An **Original Gross Amount** is the amount voted in the *Appropriation Act, 2009* and published in the 2009-10 Estimates.

**Adjustments to Gross Amount** are the changes in voted amounts previously authorized by section 24(2) of the *Financial Administration Act* for a credit or recovery of spending, by section 5 of the *Appropriation Act, 2009* for transfers between departments, and by section 28(1) of the *Financial Administration Act* for capital carryover.

A **Credit or Recovery** of spending (Expense, Equipment / Inventory Purchases or Capital Investment) is shown for goods or services which are in variable demand, if their cost can be recovered from internal or external sources. Treasury Board may increase the voted estimates during the fiscal year if spending and credits or recoveries are expected to exceed the amount budgeted, pursuant to section 24(2) of the *Financial Administration Act*. If the budgeted credits or recoveries are not realized, spending is to be reduced by an equivalent amount.

A **Capital Carryover** may be approved under section 28.1 of the *Financial Administration Act* to allow the unutilized portion of an appropriation that was originally budgeted for capital investment in the voted amounts to be utilized in the next fiscal year.

**REASON SUPPLEMENTARY SUPPLY ESTIMATES REQUESTED**

**EXPENSE and EQUIPMENT / INVENTORY PURCHASES**

This supplementary amount of \$178,666,000, which is net of \$38,510,000 from lower than budgeted spending in other programs, is requested to provide \$217,176,000 for the higher cost of the Centennial Centre for Interdisciplinary Science at the University of Alberta and for capital maintenance and renewal projects at various institutions. Of this higher spending, \$97,681,000 is offset by a transfer from the federal government under the Knowledge Infrastructure Program.

**CAPITAL INVESTMENT**

This supplementary amount of \$30,000,000 is requested to provide for increased volume of student loans.

	(\$30,000,000)		\$30,000,000

A reallocation of \$30,000,000 in previously approved Estimates was made to provide for the estimated costs of separation payments to be made by Corporate Human Resources for Government of Alberta staff impacted by restructuring. This amount was made available as a result of a corresponding decrease in the amount of funds required to match Federal Stimulus Fund grants in 2009-10.
