

Environmental Protection Security Fund Annual Report

April 1, 2022 to March 31, 2023

Overview

The Environmental Protection Security Fund operates under the authority of Section 32(1) of the *Environmental Protection and Enhancement Act*. Regulatory processes are detailed in the Conservation and Reclamation Regulation and the Waste Control Regulation.

The purpose of the fund is to hold security deposits to assure satisfactory land reclamation will be carried out pursuant to approvals under the Act. When conditions of the approval are met and a reclamation certificate is issued, the funds are returned to the depositor. Partial refunds or credits are given when part of the reclamation work is completed. If the conditions of the approval are not complied with and the operator is unwilling or unable (example – in a bankruptcy) to complete the necessary reclamation, the funds will be used for this purpose.

Security is connected for certain specified activities, including:

- Chemical manufacturing and metal production plants
- Coal and oil sands mining operations
- Hazardous waste and recyclable projects
- Landfills
- Quarry activities
- Sand and gravel operations
- Waste management facilities

Pursuant to the regulations, the depositor provides an estimate of the actual cost of reclamation. Security estimates are updated based on current disturbance, current reclamation completed and predicted disturbance. The estimates are reviewed and either accepted or further information is requested. Once the estimate is finalized, the depositor provides the required amount of security in one of the forms provided for in the regulations.

The Fund is managed with the objective of providing competitive interest income to depositors while maintaining appropriate security and liquidity of depositors' capital. The interest accrues to the depositor's account on a monthly basis.

The total cash deposits plus interest and securities as of March 31, 2023 held in the fund was \$98,395,923 as compared to \$70,327,472 for the preceding year. This document also reports on disposition of non-cash security deposits (guarantees), which have been accepted in lieu of cash (2023:1,855,541,768; 2022: \$1,833,714,450). The fiscal year's financial situation is summarized in the Statement of Financial Position on the next page.
