MenC-ACYW Meningococcal Conjugate ACYW-135	Grade 9	1 dose				
dTap Diphtheria, Tetanus, Acellular Pertussis	Grade 9	1 dose				

1. This Immunization Schedule is published by the Chief Medical Officer of Health in accordance with s. 18.5 of the [Public Health Act](#).
2. A health practitioner who performs an immunization listed in this Immunization Schedule **must** comply in the following manner:
 - A. Vaccines **must** be provided to clients/patients no sooner than at the ages set out in this Immunization Schedule. To the greatest extent possible, doses should be provided at the ages set out.
 - B. Vaccines **must** be provided to clients/patients no sooner than at the intervals set out in this Immunization Schedule. The intervals represent the optimal amount of time that **must** pass before a subsequent dose of vaccine is administered. To the greatest extent possible, doses should be provided at the intervals set out.
 - C. Despite (A) and (B), a health practitioner who performs immunizations may provide vaccines earlier or later than the ages required in (A) and the intervals required in (B) if:
 - I. any such variation is necessary:
 - (i) to reduce a risk of acquiring a disease, or
 - (ii) because it is medically indicated for the client/patient, or
 - (iii) because of a vaccine shortage, and
 - II. The variation is approved in advance by a Medical Officer of Health.

Refer individual to public health for any variation in schedule.
