VISION

“A strong Alberta, active in an open world and in a prosperous, united Canada.”

MISSION

To lead the development of government-wide strategies and policies for Alberta’s relations with international governments and organizations; and federal, provincial and territorial governments in Canada.

CORE BUSINESS

To provide leadership in the management of Alberta’s international and intergovernmental relationships. Sound government-to-government relationships are key elements in securing Alberta’s future well-being.

To fulfill this leadership role, coordinated Alberta strategies are essential. Development and implementation of these strategies require close cooperation with other Alberta ministries, as well as strategic partnerships with public and private organizations.

Key services provided by the department include the following:

- Advancing Alberta’s interests through intergovernmental negotiations and discussions
- Coordinating Alberta’s strategies relating to international and intergovernmental relations
- Providing strategic advice and policy analysis to Alberta ministries and other clients
- Obtaining, supplying and analyzing information for Alberta ministries and other clients

CLIENTS AND PARTNERS

The department serves the people of Alberta by working towards goals that advance the social and economic well-being of all Albertans. The department’s key clients are the Premier, Cabinet, Caucus, and other departments and agencies of the Alberta government. The work of the department often involves partnerships with:

- other governments – internationally and within Canada
- Alberta organizations, institutions and businesses
- other government departments

As a small department, there is a strong commitment to teamwork, both within the organization and in partnership with staff in other departments. The department recognizes that building cooperative relationships with our clients and partners in the areas of international and intergovernmental relations is critical to its success.

GOALS

The department contributes to all three of the core businesses of the Government of Alberta: People, Prosperity and Preservation. The department’s key goals are:

- To secure benefits for Alberta from strengthened international relations.
- To secure benefits for Alberta as an equal partner in a revitalized, united Canada.

In addition, the department continues to be committed to the goals of the Cross Ministry Initiative – Corporate Human Resource Development Strategy. The department is implementing a Human Resource Plan with a priority focus on leadership development and succession planning. There is a commitment to enhancement of the existing employee recognition program; the need to ensure that all employees have the skills necessary to achieve current and future goals; and to provide for an ongoing, effective performance management system. The department believes in continuous review and improvement of administrative and human resource management processes.

PERFORMANCE MEASURES/INDICATORS

International and Intergovernmental Relations has several methods of measuring its performance, including the following:

1. Reports on Department Performance
2. Client Satisfaction Surveys
3. Intermediate Outcomes
4. Secondary Indicators
5. Public Polling Data

1. REPORTS ON DEPARTMENT PERFORMANCE

Previous department business plans have acknowledged that many of the department's outcomes are long term, frequently dependent on factors outside the control of the department (i.e., obtaining agreement of other governments), and difficult to present as quantitative data. In order to ensure clear reporting on departmental performance while keeping in mind the limitations faced in developing such data, the department provides a detailed narrative record of its achievements and activities. This narrative is found in International and Intergovernmental Relations' Annual Reports. The Reports document the department's accomplishments for each goal and provide a narrative outlining events and outcomes over the previous year.

In addition to the Annual Report, other assessments are done from time-to-time on key initiatives. They may include reports issued after the conclusion of major conferences, trade negotiations or missions to assess how Alberta fared in achieving its objectives.

2. CLIENT SATISFACTION SURVEYS

Another measure of outcomes for International and Intergovernmental Relations is stakeholder or client satisfaction. To achieve its goals, the department works closely with Alberta ministers, ministries, and other organizations in the province. Through periodic surveys, the department consults these clients for their evaluation of the department's contribution to advancing Alberta's priorities and positions.

Client Surveys are an important component of the department's mix of measurement tools. The 2001 Client Survey indicated that clients, both internal to government and external clients, consistently rate the department at a high level of satisfaction with the services provided. The 2001 Client Survey was the fourth broad survey completed by the department. Earlier surveys, completed in 1995, 1997, and 1999, indicated a level of satisfaction of close to 4 out of 5. The 2001 survey results were similar, with a target level of 4 out of 5 achieved in virtually all areas of services provided.

3. MEASURING INTERMEDIATE OUTCOMES

In order to track intermediate outcomes relating to major projects, the department prepares status reports or contributes to reports prepared by others. Since these projects are multi-year, preparing regular progress reports or measuring intermediate outcomes allows governments and taxpayers to keep track of the progress of particularly complex, long-term issues. Examples of this approach are:

- regular status reports that measure the implementation of the Agreement on Internal Trade and the progress of complaints and disputes under that agreement;
- regular Progress Reports to Premiers by the Provincial/Territorial Council on Social Policy Renewal; and,
- communiqués from annual meetings of Premiers.

These reports are posted on the International and Intergovernmental Relations departmental website: <http://www.iir.gov.ab.ca>. In addition, the website includes updates on preparations for and progress in domestic and international trade negotiations (e.g., WTO and the AIT). The website also provides an opportunity for reaction and comments from the business community and the public.

4. SECONDARY INDICATORS

The department reports on a number of secondary indicators that track macroeconomic trends. While these are not direct measures of the department's performance, they do provide an indication of the environment in which the department is operating.

Trade statistics, for example, track how the province is faring in export performance. However, it must be emphasized that export performance cannot be attributed to any one factor. Rather it is the result of a number of interconnected factors. In some cases, exports increase because of fluctuations in the world price for commodities such as oil, gas or wheat, or in the value of the Canadian dollar.

In other cases, Alberta's trade performance reflects the aggressiveness of the private sector in opening up new markets. Some of the increase may be attributed to the efforts of the Government of Alberta to remove barriers to trade in key markets, or to the government's efforts to open doors in key foreign markets for Alberta businesses through targeted trade missions or by receiving foreign visitors.

5. PUBLIC POLLING DATA

An important measure of how the Alberta government is performing in the areas of both international and intergovernmental relations is public polling data that measures the performance of the provincial government based on the satisfaction level of Albertans. The polling data does not specifically rate the performance of the department, but tracks the performance of the whole government. However, the department does play an important role in supporting the Premier and his cabinet colleagues in achieving intergovernmental goals. The polling data is based on a regular national opinion poll conducted by Environics Canada, surveying the views of Canadians regarding the performance of their provincial and federal governments. This is reported in the *Focus Canada Report*.

Alberta's target is to maintain the government's public approval rating in federal-provincial relations on a par with the average of four other provinces (British Columbia, Saskatchewan, Manitoba, and Ontario). These are the provinces closest to Alberta in terms of geography, history, economic base, social patterns and approaches to federalism. Alberta's intergovernmental approval rating in 1999 was 72 per cent (see graph at top left). The four province average was 46 per cent and the federal government rating was 40 per cent.

GOVERNMENT-WIDE GOALS

Much of the Ministry's work relates to Goal 19 of the Government Business Plan for 2001-04:

Goal 19: Alberta will work with other governments and maintain its strong position in Canada.

As well, the Ministry strategies contribute to the realization of the following government-wide goals:

Goal 2: Our children will be well cared for, safe, successful at learning and healthy (IIR outcome 2.2)

Goal 7: Alberta will have a prosperous economy (IIR outcomes 1.1, 1.2, and 2.4)

Goal 8: Our workforce will be skilled and productive (IIR outcomes 1.2 and 2.4)

Goal 10: Alberta's value-added industries will lead economic growth (IIR outcomes 1.1, 1.2 and 2.4)

Goal 14: Alberta businesses will increase exports (IIR outcomes 1.1, 1.2 and 2.4)

APPENDIX: FRAMEWORK FOR INTERNATIONAL STRATEGIES

International and Intergovernmental Relations contributes to the successful achievement of all the cross ministry initiatives that have been identified as priorities for the Government of Alberta. The department also co-champions one of the routine/maintenance initiatives relating to the development of the International Strategy.

In February 2000, the Government of Alberta released Alberta's Framework for International Strategies. The Framework outlines Alberta's three international core businesses:

- Building International Relations
- Removing Trade and Investment Barriers
- Marketing Trade, Tourism and Investment

As co-champion, International and Intergovernmental Relations will work closely with other departments to ensure that Alberta's international policies are coordinated, and that international programs and strategies are consistent with the recently adopted Framework for Alberta's International Strategies.
