BUDGET 2002

THE RIGHT DECISIONS FOR CHALLENGING TIMES

FIRST QUARTER FISCAL UPDATE

2002-03 QUARTERLY BUDGET REPORT

UPDATING ALBERTANS

The First Quarter Fiscal Update is comprised of two parts – the updated 2002-03 forecast and the actual results for the first three months of the fiscal year (April 1 to June 30, 2002).

TABLE OF CONTENTS

2002-03 Forecast

Highlights

Net Increase (Decrease) in Capital Assets affecting Operat	tions 14

2002-03 FORECAST

Highlights

- ◆ The economic cushion has been reduced to \$531 million. Higher revenue and lower debt servicing costs are more than offset by spending increases, primarily for drought relief and forest fire-fighting costs.
- Revenue is forecast at nearly \$20.7 billion, up \$828 million from the budget. Increases in nonrenewable resource revenue and other revenues are partly offset by a significant decline in investment income due to weak equity markets.
- Disaster funding of \$879 million has been provided for drought relief, forest fire-fighting costs and flood assistance. Reinstatement of some of the capital projects deferred in 2001-02 adds \$68 million to program expense and \$32 million to capital investment.

- Overall, including other smaller spending changes and reallocations between program spending and capital investment, program spending is \$1.039 billion higher than budgeted and capital investment has increased by \$37 million.
- As a result of the in-year spending initiatives, the contingency reserve is almost exhausted. Only \$9 million remains.
- The allocation for debt repayment and increase in financial assets is down by \$21 million to \$522 million.
- Debt servicing costs are \$55 million lower due to the forecast of a stronger Canadian dollar.
- ◆ Accumulated debt (net of cash set aside for future debt repayment) is expected to fall to \$4.6 billion by the end of 2002-03.

	DNSOLIDATED FISCAL SUMMARY ^a Ilions of dollars)		2002-03	
		Budget	1 st Quarter Forecast	Change from Budget

13	Net Assets at March 31, 2003 ^d	10,357	10,336	(21)

a Subject to the Fiscal Responsibility Act.

b Budget numbers have been restated pursuant to the Gaming and Liquor Amendment Act, 2002, resulting in a reduction of \$118 million in both revenue and expense.

Converts capital to pay-as-you-go basis.

d Budget numbers have been restated to reflect actual results for 2001-02. At March 31, 2002, accumulated debt, net of cash set aside for future debt repayment, was \$5.261 billion. Net assets as at March 31, 2002 amounted to \$9.814 billion, excluding pension obligations. Pension obligations are forecast to increase in 2002-03 by \$56 million to \$4.827 billion.

Revenue

NON-RENEWABLE RESOURCE REVENUE

Non-renewable resource revenue is forecast at \$4.611 billion, up \$897 million from the budget estimate.

Natural gas prices are now expected to average Cdn\$3.25 per thousand cubic feet for the fiscal year, up 25¢ from the budget estimate. The higher prices are the result of increased demand in the United States, higher oil prices and a slowdown in the growth of gas supply. Natural gas royalties are now forecast at \$3.0 billion, \$434 million higher than the budget estimate.

Oil prices are expected to average US\$25.50 per barrel over the fiscal year, up \$5.50 from the budget estimate. The higher prices reflect low inventory levels in the United States. Total oil royalties are forecast at just over \$1.0 billion, up \$470 million from the budget estimate.

Revenue from bonuses and sales of Crown leases is forecast to be \$559 million, a \$50 million decrease from the budget estimate. The decline is due to lower prices per hectare and reduced land sales.

INCOME TAX REVENUE

Total income tax revenue is forecast at \$6.441 billion, \$183 million higher than the budget estimate. Corporate income tax revenue is forecast to be close to \$1.9 billion, an increase of \$314 million over the budget estimate. The increase is due mainly to higher energy prices. This is partly offset by a \$131 million decline in personal income tax revenue. Preliminary federal assessments of personal income tax returns for the 2001 tax year indicate revenue was overestimated last year.

TRANSFERS FROM GOVERNMENT OF CANADA

Transfers from the Government of Canada are forecast at \$2.273 billion, \$105 million higher than the budget estimate. Agriculture support transfers are forecast to increase by \$100 million, of which \$82 million relates to the federal Canada Farm Income Program for which negotiations are under way. Funding of \$9 million for the costs of the flood in southern Alberta is also expected.

INVESTMENT INCOME

Total investment income is forecast at \$621 million, down \$563 million from the budget estimate. The income of the Alberta Heritage Savings Trust Fund and the endowment funds is forecast to be down \$615 million from the budget estimate. This is due to the weak performance of equity markets this year. These declines are partly offset by higher investment income on debt retirement funds due to an increased level of assets and an increase in the income of the Alberta Municipal Financing Corporation due to a higher level of lending activity.

OTHER REVENUE

Total revenue from all other sources is forecast at \$6.737 billion, \$206 million higher than budgeted. The increase is primarily due to proceeds from private crop reinsurance (\$108 million) and higher revenue from timber royalties (\$35 million), freehold mineral taxes (\$30 million) and crop and hail insurance premiums (\$22 million).

a Budget numbers have been restated pursuant to the Gaming and Liquor Amendment Act, 2002, resulting in a reduction of \$118 million in both revenue and expense.

Expense

Agriculture, Food and Rural Development spending is now forecast to be \$723 million higher than budgeted. This includes \$324 million in acreage payments and payments for covered crops and beehives to eligible farmers and ranchers. In addition, \$399 million is being provided for increased crop insurance, farm income disaster, farm water and grasshopper programs related to drought and disaster conditions. The \$399 million increase is expected to be partly offset by increases in agriculture revenue of \$227 million, which includes \$108 million from private crop reinsurance and an \$82 million federal transfer payment under the federal Canada Farm Income Program.

Sustainable Resource Development spending is forecast to be \$139 million higher than budgeted due to forest fire-fighting costs.

Infrastructure spending is forecast to be \$35 million higher than budgeted. The increase reinstates funding for some school projects that was deferred as part of the corrective actions taken in October 2001.

Transportation spending is forecast to be \$33 million higher than budgeted. The increase restores some of the funding for the rehabilitation of provincial highway projects that was deferred in October 2001.

Gaming spending is forecast to be \$31 million higher than budgeted. The increase reflects the cost of the Community Initiatives Program which was announced on June 24, 2002.

Learning spending is forecast to be \$31 million higher than budgeted. This reflects a contribution of \$35 million to the Teachers' Pension Plan as part of the government's commitment to pay the teachers' share of pre-1992 unfunded pension obligations for one year. The increase is partly offset by the transfer of \$4 million from program expense to capital investment.

Finance spending is forecast to be \$27 million higher than budgeted due to an increase in lending activity of the Alberta Municipal Financing Corporation. The increase is fully offset by increased revenue from the higher lending activity.

Municipal Affairs spending is forecast to be \$17 million higher than budgeted due to disaster relief for southern Alberta flooding and forest fire-fighting costs. The increase is partly offset by \$9 million in federal transfers under disaster cost-sharing agreements.

Debt Servicing Costs are forecast to be \$55 million lower than budgeted. The forecast higher value of the Canadian dollar this fiscal year reduces foreign exchange provisions on US dollar debt.

b Budget numbers have been restated to reflect government organization changes.

Net Change in Capital Assets

The net change in capital assets affecting operations is forecast at \$130 million, an increase of \$37 million from the budget estimate.

Capital investment is \$37 million higher than the budget estimate. Transportation's capital investment has increased by \$32 million due to the reinstatement of some provincial highway projects, which were deferred in October 2001.

The rest of the increase is due mainly to the reallocation of program spending to capital investment by some ministries.

Capital amortization is forecast to be \$340 million, unchanged from the budget estimate.

Allocation of Economic Cushion

As a result of in-year spending initiatives, the contingency reserve has been almost exhausted. The allocation to the contingency reserve is down by \$7 million to \$174 million. A net \$165 million has been allocated to spending initiatives consisting of:

- \$100 million to reinstate infrastructure and transportation program spending and capital investment deferred in 2001-02,
- a \$35 million contribution to the Teachers' Pension Plan,
- \$31 million for the new Community Initiatives Program, and
- a net lapse of \$1 million in other spending.

This leaves only \$9 million in the contingency reserve.

Pursuant to section 4(2) of the *Fiscal Responsibility Act*, Orders in Council declared drought, forest fire and flood disasters on August 20. Under the disaster provisions, \$723 million in drought relief to farmers, \$139 million of forest fire-fighting costs and \$17 million in southern Alberta flood assistance are not deductions from the contingency reserve. Instead, these expenses are deducted from the economic cushion prior to the calculation of the 75%/25% allocation.

Section 4(3) of the Act provides that certain surplus neutral spending changes are also not deductions from the contingency reserve. These consist of:

- \$27 million of Alberta Municipal Financing Corporation spending on its lending activities, and
- \$5 million of Alberta Energy and Utilities Board capital and program spending on its orphan well abandonment program.

Net Assets and Accumulated Debt

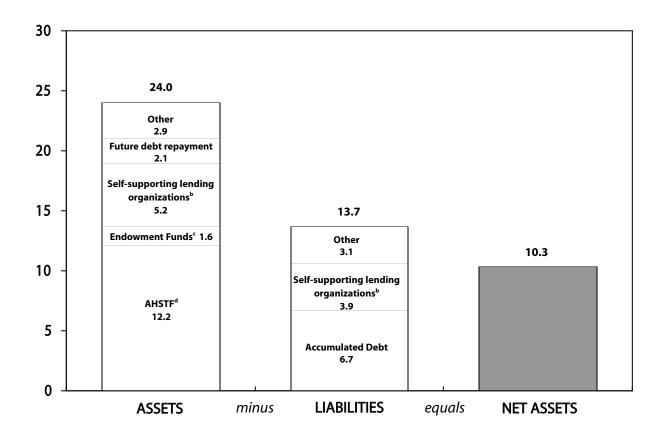

At March 31, 2003, the province's financial assets are forecast to total \$24.0 billion. Total liabilities, excluding pension obligations, are forecast at \$13.7 billion, resulting in net assets of \$10.3 billion. The province's accumulated debt is forecast to decline by \$1.7 billion to \$6.7 billion by March 31, 2003.

It is expected that \$2.1 billion of the funds that have been set aside for future debt repayment will remain in the account at year end. This would reduce accumulated debt to \$4.6 billion.

FORECAST OF ASSETS, LIABILITIES AND NET ASSETS^a

AT MARCH 31, 2003

(billions of dollars)

^a Excludes pension obligations of \$4.827 billion which are scheduled for elimination under a separate 1993 legislated plan.

b Includes Alberta Municipal Financing Corporation and Agriculture Financial Services Corporation.

c Includes Alberta Heritage Foundation for Medical Research Endowment Fund, Alberta Heritage Scholarship Fund and Alberta Heritage Science and Engineering Research Endowment Fund.

d Alberta Heritage Savings Trust Fund. Total assets of \$12.256 billion less \$100 million of internal holdings of provincial corporation and General Revenue Fund debt.

ACTUAL RESULTS

FOR THE FIRST THREE MONTHS OF 2002-03

METHOD OF CONSOLIDATION

This financial summary is prepared on the same basis as used in Budget 2002.

The results of all government departments, funds and agencies, except those designated as commercial enterprises, are consolidated on a line-by-line basis. Revenue and expense transactions between consolidated entities have been eliminated.

The accounts of Crown-controlled corporations and provincial agencies designated as commercial enterprises are consolidated on an equity basis, the equity being computed in accordance with generally accepted accounting principles.

BASIS OF FINANCIAL REPORTING

The consolidated fiscal summary reports revenue (including proceeds from sale of capital assets), expense (including amortization of capital assets), and net revenue. Consistent with the policy that capital assets are not included in the province's financial assets, losses on disposal and write-downs of capital assets do not affect revenue, expense or net revenue for the period. The intermediate result of operations (net revenue) is then adjusted for the difference between capital investment and capital asset amortization. The final result is the consolidated net results of operations subject to the *Fiscal Responsibility Act*.

Expense includes the province's annual cash payments towards the unfunded pension obligations. Expense excludes the annual change in the unfunded pension obligations, which is a non-cash expense that does not affect borrowing requirements.

Revenue and expense are recorded using the accrual basis of accounting. Cash received for goods or services which have not been provided by period end is recorded as unearned revenue. Debt servicing costs include interest payable, amortization of discount on debt issues, and amortization of unrealized exchange gains and losses on unhedged foreign currency debt.

Comparative 2001-02 figures have been restated where necessary to conform to 2002-03 presentation.

CONSOLIDATED FISCAL SUMMARY^a

for the three months ended June 30, 2002 (unaudited)

(millions of dollars) First Three Months 2002-03 2001-02 Change Revenue **Income Taxes** 1,733 994 739 Other Taxes 624 554 70 Non-Renewable Resource Revenue (939)1,503 2,442 Transfers from Government of Canada 700 687 (13)**Net Income from Commercial Operations** 455 439 16 504 Premiums, Fees and Licences 416 88 Investment Income 38 327 (289)Other 197 107 90 **Total Revenue** 5,979 5,741 (238)**Expense** Program 4,615 (47)4,662 **Debt Servicing Costs** 119 194 (75)**Total Expense** 4,734 4,856 (122)Net Revenue 1,007 1,123 (116)Net Increase (Decrease) in Capital Assets affecting Operations b (17)(10)(7) **Net Results of Operations** 1,024 1,133 (109)

a Subject to the Fiscal Responsibility Act. Includes the province's annual cash payments towards the unfunded pension liability, which will be eliminated over a longer term under a separate legislated plan. Does not include the annual change in the unfunded pension obligations, which is a non-cash expense that does not affect borrowing requirements.

b Converts capital expense to a pay-as-you-go basis for the purposes of the consolidated net results of operations.
