

Fish Stocking Report 2019

October 21, 2019

Notes

The Sam Livingston Fish Hatchery is undergoing a major renovation on its water treatment process system.

The number of trout stocked will be reduced in 2019 for some lakes and in some cases fish size will be smaller than normal due to the Cold Lake Fish Hatchery (CLFH) being at full capacity.

Once the CLFH empties the facility this spring from stocking, Rainbow Trout eggs will be brought in to allow for some lakes that are known to overwinter to be stocked this fall. The Province will return to full stocking requests/sizes in spring of 2020 as the new water treatment system at SLFH will be in operation this fall.

Reference			
Species Stocked	Strains Stocked		Ploidy Stocked
ARGR = Arctic Grayling	BEBE = Beity x Beity	TLTLJ = Troutlodge Jumpers	2N = diploid
BKTR = Brook Trout	BRBE = Bow River x Beity	TLTLK = Troutlodge Kamloops	3N = triploid
BNTR = Brown Trout	CLCL = Campbell Lake	TLTLS = Troutlodge Silvers	AF2N = all female diploid
CTTR = Cutthroat Trout	JLJL = Job Lake		AF3N = all female triploid
RNTR = Rainbow Trout	LYLY = Lyndon		
TGTR = Tiger Trout	PLPL = Pit Lakes
