Definitions of Indicators

Air Passengers - Data are preliminary estimates of the number of air passengers enplaning and deplaning. Source: Calgary Airport Authority and Edmonton International Airport (websites).

Highway Traffic - These data are monthly totals. The monthly average daily traffic (average number of vehicles per day) is calculated by dividing the monthly total by the number of days in the month passing the counter locations and in the direction indicated for a particular month. Automatic Traffic Recorders count all vehicles by direction. Year-to-date is a cumulative total for all vehicles. Source: Alberta Transportation's Automatic Traffic Recorders (ATR).

Accommodation Indices— Occupancy rates and average daily room rates are based on a sample of hotels for each respective location. Source: PKF Consulting Inc., Trends in the Canadian Hotel Industry.

Historic Sites and Museums— Visitor attendance figures are monthly totals based on fifteen historic sites, the Royal Alberta Museum, the Royal Tyrrell Museum of Paleontology, and the Tyrrell Field Station. Source: Alberta Culture, Historic Resources Division.

National Park Attendance— Attendance is reported as the number of independent visits to National Parks in Alberta. Data are preliminary unless otherwise noted. Tour group data are included in the annual total only. Beginning in 2004, the monthly figures for Banff National Park and Jasper National Park reflected independent travellers only, and do not include people travelling as part of a tour group. The tour group data, however, are included in the annual total. Source: Parks Canada.

Employment in the Food and Accommodation Sector— The employment figure represents all persons 15 years or older who worked for pay or profit or unpaid work in the food services and accommodation sectors, including businesses or other ventures owned or operated by a related family member(s) during the reference period of the survey. Source: Statistics Canada, Labour Force Survey.

Food Services and Drinking Places— The monthly survey provides estimates of the value of sales and the number of locations of restaurants, caterers, and drinking places by province and by industry at the North American Industry Classification System (NAICS) four-digit level. Includes total receipts from restaurants, caterers and taverns for chain and independent establishments. The target population includes full-service restaurants, limited service eating places, special food places and drinking places. Source: Statistics Canada, Food Services and Drinking Places, CANSIM table: 355-0006. Data are unadjusted.
