INTRODUCTION

This report is prepared by Alberta Agriculture, Food and Rural Development; Irrigation Branch; Research, Planning and Monitoring Section. The pie chart entitled "Alberta Irrigation Districts" presents the total crops grown in the thirteen irrigation districts.

The data for these pie charts was obtained from the district annual reports except in the case of Aetna, Leavitt, Mountain View and Ross Creek Irrigation Districts, where the data was obtained verbally from the managers. This crop information is generally collected by each districts' water supervisor.

Table II, Irrigated Crops Grown within the Irrigation Distiricts, is a summary of the data from Table I. The data in Table I was used directly to generate the pie charts. The titles listed below are the titles used in the pie charts, along with a list of the columns that were added together from Table I to get the values as shown in Table II.
