OIL SANDS INFORMATION BULLETIN 2007-02

SUBJECT: Operator's Forecast Report Update

The Operator's Forecast Reports are required for both pre-payout and post-payout periods. These reports help to estimate oil sands royalty revenues by the Crown for the current calendar year plus the next four years.

The Department has updated the Operator's Forecast Report to include "Natural Gas Volumes Used" reporting in GJ/year. Reporting of m³/year will continue. This change is required for consistency with other forecasting reports.

The updated Operator's Forecast Report (as described above) is on the Department's website (www.energy.gov.ab.ca). Navigate to Oil Sands – Forms (Royalty).

For more information on the Oil Sands Royalty reporting change, please contact:

Edgar Mosquera
Telephone: 780 422-1323
