

## **LIST OF ALBERTA HISTORIC RESOURCE CONSULTANTS**

This list contains contact information for consultants that have identified themselves to Alberta Culture and Tourism as being available to fulfill *Historical Resources Act* requirements, such as the conduct of impact assessments and excavations and the preparation of documentation recording historic resources and applications for *Historical Resources Act* approval. The consultants on this list have staff qualified to undertake various aspects of the historic resource management requirements that are issued by Alberta Culture and Tourism. The list has been divided by subject area specialty: archaeology, palaeontology, and heritage survey (historic structures). Requirements for the conduct of archaeological and/or palaeontological studies require that the consultant be eligible to hold a permit, as outlined in the [Archaeological and Palaeontological Research Permit Regulation](#).

Certain types of Aboriginal Traditional Use sites are considered to be historic resources. Alberta Aboriginal Relations has a list of First Nation Consultation contacts at <http://www.aboriginal.alberta.ca/576.cfm>.

Alberta Culture and Tourism makes no recommendation with respect to this list and does not imply that these are the only firms available to provide these services in Alberta. Alberta Culture and Tourism is not responsible for any errors or omissions in this list. The list is provided for information purposes only. The Government of Alberta assumes no responsibility or liability for the acts or omissions of any person or firm contained herein.

# Consulting Archaeologists

Consulting Archaeologists provide services in the areas of prehistoric and historic archaeological resource management, including the recording of historic structures within the context of archaeological Historic Resources Impact Assessments.
