

## **PUBLIC NOTICE**

### **FINAL TERMS OF REFERENCE FOR ENCAN A FCCL OIL SANDS LTD'S PROPOSED CHRISTINA LAKE IN-SITU THERMAL PROJECT ENVIRONMENTAL IMPACT ASSESSMENT**

#### **ALBERTA ENVIRONMENT**

On July 23, 2009, Alberta Environment issued final Terms of Reference for the Environmental Impact Assessment report for EnCana FCCL Oil Sands Ltd.'s proposed Christina Lake In-Situ Thermal Project Phases E, F and G. The company is proposing to increase production from the approved 98,800 barrels of oil per day to 218,800 barrels of oil per day over the next decade. The application includes expansion of current facilities, new facility construction and multiple well pads. The proposed project would be located within the Regional Municipality of Wood Buffalo, approximately 20 kilometers east of Conklin, Alberta, in Townships 75 and 76, Ranges 5 and 6, W4M.

Copies of the Terms of Reference are available from:
