AADL Approved Product List - Seating Benefits

Pricing effective May 1, 2015

Revision History

X964: Update to process. See description inside.	5/1/2015
Updates to Catalogue Numbers (highlighted in yellow)	5/1/2015
Updated: Approved Seating Manufacturers	5/1/2015
Updated: APL Format	4/1/2014

General Information for Seating Benefits

AADL clients are eligible for one seating system. If clients have more than one mobility base and the components cannot be transferred, the client is responsible for the costs of the duplicate components.

Benefits listed on the AADL Seating Approved Product List can only be authorized by designated AADL Seating Authorizers.

Two levels of Seating Clinics:

Level I Seating Clinics

Provide commercially available seating components in conjunction with an AADL Seating Vendor who has a Commercial Seating Technician.

Level II Seating Clinics

Provide custom-fabricated seating components in conjunction with AADL Seating Vendors who has a Adaptive Seating Technician.

The prices listed in the AADL Seating Approved Product List are as follows:

Level I

The price is the manufacturer retail price less a 5% discount.

Level II

The price represents the combined cost for materials and labour.

Some Level I catalogue numbers are designated as generic catalogue numbers. Generic catalogue numbers are a benchmark pricing model. Each catalogue number has a price maximum. Seating vendors must provide an item that meets the description at or below the price maximum. The price maximum is based on the manufacturer's retail price, less a 5% discount. Seating vendors must apply a 5% discount when using the generic catalogue numbers. Costs over the AADL price maximum are considered an upgrade and are the client's responsibility.

General Catalogue Number Information

These catalogue numbers are used to provide commercially-available seating components for which there is no specific catalogue number. The equipment provided using a generic catalogue number must meet the following criteria:

- Product must be available from an AADL Approved Seating Manufacturer.
- Product must meet the AADL Commercial Seating Product Minimum Standards.

AADL Commercial Seating Product Minimum Standards

Warranty – The manufacturer must warrant that the product will be free from defects in material and workmanship for the below noted minimum years from the date the equipment was purchased:

- Bases: 2 years
- Lateral Supports: 2 years
- Headrests: 2 years
- Pommels: 1 year
- Straps/Belts: 1 year
- Bolsters, Adductors/Abductors: 1 year
- Wedges: 1 year
- Foot/Leg Supportss: 1 year
- Arm/Shoulder Supports: 1 year
- Trays: 1 year
- Backs: 2 years

Equipment Limitations – Equipment must have been in production for a minimum of one year in the North American market.

Liability Insurance – Equipment provided must have a minimum two million dollars comprehensive general liability insurance provided by the manufacturer.

Fire Retardancy – Materials must meet at least the California 117 Fire Retardancy Standard.

Pricing Example: *Generic Catalogue Number Y-Belt*

Manufacturer's retail price = \$85

Pricing procedure: $\$85 - 5\% = \80.75

AADL Maximum Contribution = \$80.75 (for cost-share exempt clients)

Cost-Share Client portion (25%) = $\$80.75 \times 25\% = \20.19

AADL portion for cost-share client = $\$80.75 \times 75\% = \60.56
