MINERAL RIGHTS INFORMATION BULLETIN 2012-02

**SUBJECT: Industry Feedback Requested
Changes to Petroleum and Natural Gas (PNG) Continuations**

The PNG Tenure Branch in Alberta Energy would like industry to participate in a survey to provide feedback on PNG continuations. Industry will have the opportunity to access the survey in one of two ways:

- By entering the website address provided below, or
- From each industry organization: Canadian Association of Petroleum Producers (CAPP), Small Explorers and Producers Association of Canada (SEPAC), Canadian Association of Petroleum Landmen (CAPL) and Canadian Association of Petroleum Land Administration (CAPLA). These organizations will be providing the hyperlink to their members either through regularly published information bulletins or on their websites.

Please take the opportunity to respond to the survey – your feedback is very valuable to improving continuations regulations and processes.

The results of this survey will help gauge broader industry support for regulation and policy changes to PNG continuations.

The Branch launched a Business Process Review in 2009. Various industry representatives from CAPP, CAPLA, CAPL and SEPAC met with Alberta Energy staff to discuss proposed changes which resulted in the recommendations in this survey.

Go to this website address to access the survey:

<https://extranet.gov.ab.ca/opinio6//s?s=12586>

PLEASE RESPOND BY: March 13, 2012

If you have any questions, please send an email to the Continuations Inbox noted below.
